THE PRESIDENT’S MESSAGE

Welcome to Fayetteville Technical Community College!

On behalf of the faculty, staff, and board of trustees, I take pride in welcoming you and in extending thanks to you for choosing Fayetteville Tech to serve your educational needs. We find the reasons vary for our students’ selection of Fayetteville Tech as their college of choice: some are here to prepare for entering the workforce; others use Fayetteville Tech as a firm foundation for obtaining a two-year degree and transfer to a four-year college or university after graduation; some students seek a diploma or certificate program to quickly obtain knowledge and expertise in specialized areas where courses provide transfer credits to other colleges. Whatever your goals are or whatever your personal reasons are for choosing Fayetteville Tech, we want you to know that it is our privilege to serve you.

In addition to offering over 190 programs of study leading to the award of associate degree, certificate, or diploma (with many programs offered 100 percent online), Fayetteville Tech offers extensive support services to help you achieve your academic goals. I encourage you to stay focused, work hard, and take advantage of the many opportunities that await you at Fayetteville Tech.

Fayetteville Tech is honored to serve the men and women who protect our country as service members of our Armed Forces and their families. We invite you to learn more about the unique, flexible learning options available for soldiers by visiting our website and clicking on the heading “Military Programs.”

A good education is the avenue that leads to new hope and fulfillment of dreams through successful careers in the workforce. Many jobs require an associate degree. Fayetteville Tech will help you be on your way to achieving your goals through educational opportunities that can be obtained conveniently, expeditiously, and affordably.

With over fifty years of excellence in serving students, Fayetteville Technical Community College is positioned well to serve you. Thank you for choosing Fayetteville Tech, welcome to our beautiful campus, and always do your best to make the most of your learning journey.

Sincerely,

J. Larry Keen
President

PURPOSE OF THE CATALOG

Fayetteville Technical Community College provides this catalog with information about the College and its programs. Changes subsequent to publication of this catalog are posted to the catalog on our website. For current information, visit our website at www.faytechcc.edu and click on Academics.

The provisions of this catalog are not to be regarded as an irrevocable contract between students and Fayetteville Technical Community College. The College reserves the right to change any provisions, requirements, or schedules at any time or to add or withdraw courses or program offerings. Every effort will be made to minimize the inconvenience such changes create for students.

Students having questions not answered by this catalog may receive additional information from their Department Chair or academic advisor. Applicants are encouraged to contact the Admissions Office, Fayetteville Technical Community College, PO Box 35236, Fayetteville, NC 28303-0236; telephone (910) 678-8473 or E-mail to: prospect@faytechcc.edu.

NONDISCRIMINATION STATEMENT

The Board of Trustees and the administration of Fayetteville Technical Community College are fully committed to the principles and practice of equal employment and educational opportunities. Accordingly, Fayetteville Technical Community College does not practice or condone discrimination, in any form, against students, employees, or applicants on the grounds of race, color, national origin, religion, sex, age, disability or political affiliation. Fayetteville Technical Community College commits itself to positive action to secure equal opportunity regardless of those characteristics.

Fayetteville Technical Community College supports the protection available to members of its community under all applicable Federal Laws, including Title VI and VII of the Civil Rights Act, Title IX of the Education Amendments, Sections 799A and 845 of the Public Health Service Act, the Equal Pay and Age Discrimination Acts, the Rehabilitation Act, the Americans with Disabilities Act, Executive Order 11375, and their amendments.

For information concerning these provisions, contact: Vice President for Human Resources, Workforce Development and Institutional Effectiveness

THE COLLEGE

GENERAL INFORMATION

Fayetteville Technical Community College, as a comprehensive community college, adheres to an “Open Door” admissions policy. High school graduates, persons achieving a North Carolina equivalency certificate (GED), and adults who show potential for post high school education may be admitted to courses which are appropriate to their educational potential. Successful implementation of an “Open Door” admissions policy requires an emphasis on admissions counseling services. As part of the admissions counseling process, Fayetteville Technical Community College utilizes an initial placement assessment and an evaluation of the applicant’s prior school record to determine potential for success. When the admissions counseling process indicates that an applicant lacks sufficient academic background to pursue credit courses, he or she will be directed to the Developmental Studies program prior to entry into a diploma or degree curriculum. If the applicant lacks a high school diploma, he or she will be given the opportunity to pursue studies to achieve an Adult High School Diploma or a North Carolina equivalency certificate (GED) prior to entering a regular curriculum. Admissions to curricula are open to applicants without regard to race, color, national origin, religion, age, sex, disability, or political affiliation.

A BRIEF HISTORY OF FAYETTEVILLE TECHNICAL COMMUNITY COLLEGE

Fayetteville Technical Community College (FTCC) enjoys a rich history that began as a result of a vision shared by concerned business leaders in Cumberland County who recognized the need for a local institution to provide job training for area industries and educational opportunities for high school graduates and adult learners. From that vision and through the perseverance of those leaders, the Fayetteville Area Industrial Education Center (IEC) was established in 1961. In 1963, the North Carolina General Assembly passed a bill creating the statewide Community College System, and from this opportunity in that same year, the Fayetteville Area Industrial Education Center became known as Fayetteville Technical Institute (FTI). In January, 1988, the name of the college changed to Fayetteville Technical Community College to broaden and enhance the public image of technical and vocational postsecondary education.

Fayetteville Tech has enjoyed much success and celebrated its 50th anniversary in 2011 under the leadership of its current President, Dr. J. Larry Keen. From its humble beginnings with two buildings (LaFayette Hall and Horace Sisk) to its current 150-acre Fayetteville campus plus outlying educational centers, Fayetteville Tech has grown not only in numbers of buildings and acreage but also in student enrollment. In addition to the central Fayetteville campus, FTCC offers students the option of being served by the Spring Lake campus, Horticulture Center, and offers military students convenient access to classes through its Fort Bragg Center.

FTCC is a proud partner with the North Carolina Military Business Center, whose headquarters is housed on the Fayetteville campus, and is pleased to have been named for several years as a Military-Friendly School®. As part of its mission to plan and apply all operations with sustainability at the forefront, FTCC was named by Sustainable Sandhills of North Carolina as the first college to be certified as green.

Fayetteville Technical Community College serves approximately 42,000 students annually through its various Curriculum and Continuing Education opportunities. What began as a vision over fifty years ago evolved into what is perceived by many as the pillar of the community in Cumberland County. Through the school’s motto, education for life, Fayetteville Technical Community College offers more than value and a good education; it offers hope to all who seek education in response to the changing demands often experienced throughout life.

FTCC MISSION STATEMENT

“Serve our community as a learning-centered institution to build a globally competitive workforce supporting economic development.”

Approved by the FTCC Board of Trustees February 16, 2009
Reaffirmed: February 17, 2014

FTCC PURPOSE STATEMENT

The purpose of Fayetteville Technical Community College is to provide affordable vocational-technical, business and industry, general education, college transfer, and continuing education programs, which meet the needs and desires of its diverse students and economic development needs for the community. To improve the educational base of society, FTCC encourages life-long learning and strives to prepare students for further workforce and educational experiences.

FTCC identifies the educational needs of applicants and assists students in satisfying these needs at a minimal expense. Each
adult who applies will be admitted to a program appropriate to his/her abilities and interests. The College is in partnership with the public school system through College Technical Education and other programs. Further, agreements with four-year colleges and universities support the educational continuum from high school through the baccalaureate degree. Curricular programs reflect the changing technical, commercial, industrial, and health needs of Fayetteville, Cumberland County, and surrounding areas. Various curricula offer certificates, diplomas, and associate degrees. As a learning-centered college, FTCC offers courses and programs at times and places convenient to students in a variety of delivery modes. Courses are also available for high school graduates who need additional academic preparation before attempting college work.

FTCC provides instruction in the basic life skills needed to contribute effectively to society. Continuing Education programs are designed to meet specific needs in basic educational competencies, high school completion, upgrading occupational skills, and other avocational or practical skills required for the rapidly changing technological advances in the community.

Adopted: April 27, 1992; Approved: FTCC Board of Trustees, February 16, 2009; Reaffirmed: February 17, 2014

INSTITUTIONAL CHARTER AND ACCREDITATIONS

NORTH CAROLINA COMMUNITY COLLEGE SYSTEM
Fayetteville Technical Community College is chartered by the North Carolina State Department of Community Colleges, as specified in Chapter 115D of the General Statutes of North Carolina.

NORTH CAROLINA DEPARTMENT OF PUBLIC INSTRUCTION
Fayetteville Technical Community College’s High School Diploma Program meets the standards required by the North Carolina Department of Public Instruction for the purpose of awarding high school diplomas.

SERVICEMEMBERS OPPORTUNITY COLLEGES (SOC)
Created in 1972 to provide educational opportunities to servicemembers who, because they frequently moved from place to place, had trouble completing college degrees. SOC functions in cooperation with 13 higher education associations, the Department of Defense, and Active and Reserve Components of the Military Services to expand and improve voluntary postsecondary education opportunities for servicemembers worldwide. SOC is funded by the Department of Defense (DoD) through a contract with the American Association of State Colleges and Universities (AASCU). The contract is managed for DoD by the Defense Activity for Non-Traditional Education Support (DANTES).

SOC CONSORTIUM
Consists of approximately 1,900 institutional members that enroll hundreds of thousands of servicemembers, their family members, and veterans annually in associate, bachelor’s, and graduate-level degree programs on school campuses, armories, and military installations within the United states and overseas, and through a variety of distance learning methods.

SOUTHERN ASSOCIATION OF COLLEGES AND SCHOOLS
Fayetteville Technical Community College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097, telephone 404-679-4500) to award associate degrees, diplomas, and certificates.

UNITED STATES DEPARTMENT OF EDUCATION
Fayetteville Technical Community College is recognized by the U.S. Department of Education as an institution of higher learning and is qualified to receive federal assistance in its higher education programs.

PROGRAM ACCREDITATIONS AND ASSOCIATIONS

AMERICAN BAR ASSOCIATION
Fayetteville Technical Community College’s Paralegal Technology program is approved by the American Bar Association.

AMERICAN BOARD OF FUNERAL SERVICE EDUCATION
The Funeral Service Education program at Fayetteville Technical Community College is accredited by the American Board of Funeral Service Education (ABFSE), 3414 Ashland Avenue, Suite G, St. Joseph, Missouri 64506 (816) 233-3747. Web: www.abfse.org.

AMERICAN DENTAL ASSOCIATION COMMISSION ON ACCREDITATION
The programs in Dental Assisting and Dental Hygiene are accredited by the Commission on Dental Accreditation and have been granted the accreditation of approval. The Commission is a specialized accrediting body recognized by the United States Department of Education. The Commission on Dental Accreditation can be contacted at (312) 440-4653 or at 211 East Chicago Avenue, Chicago IL, 60611-2678.
COMMISSION ON ACCREDITATION IN PHYSICAL THERAPY EDUCATION, AMERICAN PHYSICAL THERAPY ASSOCIATION
The Physical Therapist Assistant Program at Fayetteville Technical Community College is accredited by the Commission on Accreditation in Physical Therapy Education, American Physical Therapy Association, 1111 North Fairfax Street, Alexandria, VA 22314, (703) 684-2782 or 1-800-999-2782.

References:
- [FTCC Website](www.faytechcc.edu) for the most current information.

COMMISSION ON ACCREDITATION FOR RESPIRATORY CARE (CoARC)
Fayetteville Technical Community College’s Respiratory Therapy Program is accredited by the Commission on Accreditation for Respiratory Care (CoARC), 1248 Hardwood Road, Bedford, TX 76021, Phone (817) 283-2835, Fax (817) 354-8519.

JOINT REVIEW COMMISSION ON ACCREDITATION OF ALLIED HEALTH EDUCATION PROGRAMS (CAAHEP)
The Surgical Technology Program at Fayetteville Technical Community College is accredited by the commission on Accreditation of Allied Health Education Programs (CAAHEP), 1361 Park Street, Clearwater, FL 33756 (727) 210-2350. This accreditation decision was made upon the recommendation of the Accreditation Review Committee on Education for the Surgical Technologist (ARC-ST), 6 West Dry Creek Circle, Suite 110, Littleton, CO 80120 (313) 694-9262, which is sponsored by the American College of Surgeons and the Association of Surgical Technologists.

JOINT REVIEW COMMITTEE ON EDUCATION IN RADIOLOGIC TECHNOLOGY
Fayetteville Technical Community College’s Radiography Program is accredited by the Joint Review Committee on Education in Radiologic Technology, 20 North Wacker Drive, Suite 900, Chicago, IL 60606-2901, (312) 704-5300, E-mail: jrcert@mail.idt.net.

NATIONAL ACCREDITING AGENCY FOR CLINICAL LABORATORY SCIENCES (NAACLS)
Fayetteville Technical Community College’s Phlebotomy Program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS), 5600 North River Road, Suite 720, Rosemont, IL 60018-5119, (733) 714-8880

NATIONAL ASSOCIATION FOR THE EDUCATION OF YOUNG CHILDREN (NAEYC)
The Early Childhood Education Department of Fayetteville Technical Community College received accreditation from the National Association for the Education of Young Children (NAEYC), 1313 L Street NW, Suite 500, Washington, DC 2005-4101. NAEYC is the world’s largest organization working on behalf of young children with nearly 80,000 members, a national network of more than 300 state and local Affiliates, and a growing global alliance of like-minded organizations. The NAEYC Academy sets and monitors standards for high-quality early childhood education programs and accredits programs that meet these standards.

NATIONAL AUTOMOTIVE TECHNICIANS EDUCATION FOUNDATION
Fayetteville Technical Community College’s Automotive Systems Technology program is accredited by National Automotive Technicians Education Foundation (NATEF) 101 Blue Seal Drive, Suite 101 • Leesburg, Virginia 20175. NATEF was founded as an independent, non-profit organization with a single mission: To evaluate technician training programs against standards developed by the automotive industry and recommend qualifying programs for certification (accreditation) by ASE, the National Institute for Automotive Service Excellence.

ACCREDITATION COMMISSION FOR EDUCATION IN NURSING (ACEN)
The Associate Degree Nursing Program of Fayetteville Technical Community College is accredited by the National League for Nursing Accrediting Commission, 3343 Peachtree Road NE, Suite 850, Atlanta, Georgia 30326. This type of approval is national in scope and voluntary rather than required by law. The standards set by the accrediting body are uniform throughout the United States. The achievement of ACEN accreditation by a program signifies that it has met the national standards of excellence for programs in nursing of its type.

NORTH CAROLINA BOARD OF NURSING
Fayetteville Technical Community College is approved by the Board of Nursing to offer a two-year associate degree program with a major in nursing and a one-year diploma practical nursing program. Both programs qualify the graduates to write the National Council Licensure Examination for the respective levels of preparation. Candidates who successfully complete these examinations are licensed to practice nursing.

NORTH CAROLINA DEPARTMENT OF JUSTICE, CRIMINAL JUSTICE STANDARDS DIVISION
The North Carolina Criminal Justice Education and Training Standards Commission, through N.C.G.S. Chapter 17C, establishes minimum employment, training and retention standards for the State’s criminal justice officers. To ensure a consistent level of competency and professionalism among law enforcement officials, the Criminal Justice Standards Division administers the Commission’s mandatory certification and training programs. Those programs cover all sworn

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
police officers, correctional officers, probation/parole officers, juvenile justice officers and juvenile court counselors. The NC Department of Justice Training Standards Division can be contacted at NC Department of Justice, P.O. Drawer 149, Raleigh, NC 27602-0149 or (919) 716-6470.

**NORTH CAROLINA OFFICE OF EMERGENCY MEDICAL SERVICES**

Fayetteville Technical Community College’s Emergency Medical Science Program is accredited by the North Carolina Office of Emergency Medical Services, 701 Barbour Drive, Raleigh, North Carolina, 27603-2008, Phone (919) 855-3935, Fax (919) 733-7071.

**NORTH CAROLINA STATE BOARD OF FUNDAMENTAL ACCOUNTANT EXAMINERS**

Fayetteville Technical Community College is approved by the North Carolina State Board of Certified Public Accountant Examiners for the purpose of mandatory Certified Professional Education credits (Fact Book 2011/Administrative Procedures Manual).
THE NCCCS’ ACCOUNTABILITY MEASURES

End-of-Year Report
NCCCS Critical Success Factors
Performance Measures and Standards (2013)

A. Basic Skills Student Progress: Percentage of students who progress as defined by an educational functioning level.
FTCC exceeded North Carolina Community College System (NCCCS) Baseline.
NCCCS Standard: At least 20.6% (System Baseline) of Basic Skills students will progress by an educational functioning level. (College Mean: 41.0%/System Goal 51.2%)

B. GED Diploma Passing Rate: Percentage of students taking at least one GED test during a program year who receives a GED diploma during the program year.
FTCC exceeded the NCCCS Goal.
NCCCS Standard: Students taking at least one GED test during a program year, 49.3% (System Baseline) will receive a GED diploma during that year. (College Mean: 71.1%/System Goal 82.0%)

C. Developmental Student Success Rate in College-Level English Courses: Percentage of previous developmental English and/or reading students who successfully complete a credit English course with a grade of “P”, “C” or better upon the first attempt.
FTCC MET exceeded the NCCCS College Mean.
NCCCS Standard: Forty-five point two percent (45.2%/Baseline) of previous developmental English and/or reading students will successfully complete a credit English course with a grade of “P”, “C” or better upon the first attempt. (College Mean: 63.7%/System Goal 74.9%)

D. Developmental Student Success Rate in College-Level Math Courses: Percentage of previous developmental math students who successfully complete a credit math course with a “C” or better upon the first attempt.
FTCC exceeded the NCCCS Baseline, nearing College Mean.
NCCCS Standard: Forty-seven point five percent (47.5%/Baseline) of previous developmental math students will successfully complete a credit math course with a grade of “C” or better upon the first attempt. (College Mean: 64.8%/System Goal 75.4%)

E. First Year Progression: Percentage of first-time fall credential-seeking students attempting at least twelve hours within their first academic year who successfully complete (“P”, “C” or better) at least twelve of those hours.
FTCC exceeded the NCCCS Baseline.
NCCCS Standard: At least 53.2% (Baseline) of first-time fall credential-seeking students who attempt at least twelve

F. Curriculum Completion: Percentage of first-time fall credential-seeking students who graduate, transfer, or are still enrolled with 36 hours after six years.
FTCC exceeded the NCCCS Baseline, nearing NCCCS College Mean.
NCCCS Standard: Twenty-eight point six percent (28.6%/Baseline) of first-time fall credential-seeking students will graduate, transfer, or still be enrolled with 36 hours after six years. (College Mean: 41.6%/System Goal 45.6%)

G. Licensure and Certification Passing Rate: Aggregate institutional passing rate of first time test-takers on licensure and certification exams. Exams included in this measure are state mandated exams which candidates must pass before becoming active practitioners.
FTCC exceeded the NCCCS College Mean, nearing NCCCS Goal.
NCCCS Standard: The aggregate passing rate of first time test-takers on licensure and certification exams will be at least 71.0% (Baseline). (College Mean: 85.0%/System Goal 91.7%)

H. College Transfer Performance: Among community college associate degree completers and those who have completed 30 or more credit hours who transfer to a four-year university or college, the percentage who earn a GPA of 2.00 or better after two consecutive semesters within the academic year at the transfer institution.
FTCC exceeded the NCCCS College Mean.
NCCCS Standard: Seventy-one point two percent (71.2%/Baseline) of associate degree completers and students who have completed 30 or more credit hours and transferred to a four-year university or college will earn a GPA of 2.0 after two consecutive semesters. (College Mean: 86.7%/System Goal 93.6%)
ADMISSIONS

ADMISSIONS POLICIES
AND PROCEDURES

Fayetteville Technical Community College adheres to an “Open Door” admissions policy. Applicants who are high school graduates or 18 years of age, may take courses as a special credit student providing they meet course pre-requisites. Curriculum degrees, diplomas and certificates may have specific requirements for admission beyond the regular requirements to enter FTCC.

Associate Degree, Diploma, and Certificate Admissions Requirements

1. Applicants must be high school graduates as indicated on an official high school transcript or meet high school requirements as is evidenced by one of the conditions below.
   a. A state equivalency certificate or GED test results which meet North Carolina equivalency standards are acceptable in lieu of a high school diploma.
   b. An official college/university transcript showing the award of associate’s degree or higher from a regionally accredited institution(s). Exception: For applicants who are seeking admission into programs having prerequisites at the high school level and the prerequisite is not met with collegiate courses, an official high school transcript is required.

The College accepts only official transcripts, which are received by the Admissions Office in a sealed unopened envelope and bear the sender’s raised seal or printed imbedded watermarks. Official transcripts verifying secondary school completion must be sent to the:
   Admissions Office
   FTCC
   P.O. Box 35236
   Fayetteville, NC 28303

2. Applicants must submit an application form, including a residency statement.

3. Each applicant is scheduled for the FTCC placement assessment. Previous school records and placement test results will be used in conjunction with the student’s personal aspirations to help plan a workable educational program.

4. Certain programs have prerequisite course requirements. In addition to published program requirements, the College reserves the right to identify and require specific prerequisites before allowing students into certain courses.

5. Students requesting approval for certification of VA Educational Benefits must provide copies of DD/Form(s) 214 for evaluation of military experience.

Current High School Students Admissions Requirements

Current High School students participating in programs that involve curriculum courses must submit an official, yet partial, high school transcript in lieu of the final high school transcript. In some cases test scores are also required. Upon graduation, if the student chooses to enroll in a FTCC degree, diploma or certificate, an official final high school transcript is required. More information can be found on the High School Connections webpage.

Other Reasons for the Submission of Transcripts

Official high school, college/university transcripts are required if an applicant wishes to:
   • Apply for veteran’s benefits
   • Have previous college/university credit(s) evaluated for transfer credit to FTCC.
   • Be exempt from the College’s mathematics, English, and reading placement exam.
   • Apply for a health program
   • Apply for financial aid benefits

Health Division Admissions Requirements

Priority in consideration for admission to Health Programs will be given to individuals completing the following by January 30. Applications and related materials received after this date will be considered based on program space availability.

   • Submit a completed “Application for Admissions” to FTCC online.
   • Submit official transcripts from high school and each college/university from which you plan to transfer potential credit.
   • Submit an application on WebAdvisor by January 30 to the specific Health Program that you wish to enter.
   • Complete all program prerequisites.
   • Complete the entrance assessment with the required minimum scores, or achieve a grade of “C” or better in all recommended pre-curriculum courses. Pre-curriculum courses may be attempted only twice to satisfy the prerequisite requirements. An attempt includes grades of A, B, C, D, F, W, S, R and I and includes courses with similar content even if named differently (for example, MAT 50 and DMA 10, 20, or 30.) Exceptions may be approved by the appropriate health program Dean/Chairperson.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
• Science courses must have been satisfactorily completed with a grade of “B” or better within five years of entry into a health program. These courses may be attempted only twice. (An attempt includes grades of A, B, C, D, F, W, and I.) The appropriate health Dean/Chairperson may approve exceptions. (Effective Fall 2015 Semester)

• A minimum GPA of 2.5 is required on previously completed related classes for degree programs. A minimum GPA of 2.0 is required on previously completed related classes for diploma and certificate programs. Related courses are courses in the program of study that do not have the program prefix.

• A cumulative GPA of 2.0 is required for all health programs.

• Individual programs may have further prerequisites. Prerequisites are noted at the top of each program of study sequencing sheet.

• The Nursing Assistant, Funeral Service Education, and Health and Fitness Science programs do not require separate health admission. Students are accepted on a first come, first served basis.

• Mammography students are accepted on a first come, first served basis after verification of the student having a current American Registry of Radiologic Technologists certification in Radiography.

Selection Criteria

Applicants who meet eligibility requirements will be ranked and selected on a competitive basis.

Grades in designated related courses will be used to determine ranking.

In addition, participation in a departmental information session is required. Sessions will be scheduled by the College. A maximum of 15 additional competitive points may be awarded at that time based on departmental criteria.

Special Credit (Non-matriculating) Student Admission

Special credit status for (non-matriculating) students: This student status is designed to allow any qualified and interested individual to enroll in college credit courses with appropriate documentation without declaring a major or seeking a degree, diploma, or certificate. The appropriate documentation is required to determine that the course prerequisites have been met. When a student wishes to become a matriculated student, they must follow the current admission requirements for academic program approval.

Special credit students are not eligible for financial aid assistance, i.e., federal financial aid, vocational rehabilitation, veteran services. If you are unsure about aid eligibility and the program you are considering, contact the Financial Aid Office for clarification.

ADMISSION OF INTERNATIONAL STUDENTS

International applicants who apply from outside the United States and have not previously attended an American college or university will be processed as entering freshman. If you are a qualified applicant who wishes to attend the College, please apply by sending your request to:

Admissions Office
Fayetteville Technical Community College
P.O. Box 35236
Fayetteville, NC 28303-0236 USA

Applicants are responsible for requesting that the school principal or headmaster send official copies of high school (secondary) transcripts directly to FTCC. If applicants have attended an American or Foreign college/university, applicants must have an official transcript sent directly from that college or university.

Student Visa Applicants

International applicants holding an F-1 or M-1 Visa are ONLY admitted to begin their studies for the fall semester. All paper work must be completed no later than March 1 of the year you plan to begin classes at Fayetteville Technical Community College. Applications will not be considered until all of the following items have been received:

1. FTCC Application
2. Preliminary Application (Form A)
3. Completed financial certificate (Form B)
4. Test of English as a Foreign Language (TOEFL) results (Only official scores sent from Princeton, New Jersey are acceptable.)
5. Official high school (secondary) transcript
6. Official college or university transcripts, if applicable
7. Completed Pre-entrance Medical Record

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.

Student Visa (F-1 or M-1)
In order to apply for an F-1 or M-1 (student visa), applicants must first apply and be admitted to a school in the U.S. After admission to Fayetteville Technical Community College (FTCC), a Form I-20, which authorizes the applicant’s study period, will be issued. A $100.00 Student and Exchange Visitor Information System (SEVIS) I-20 fee must be paid. The Form I-20 must be submitted to the U.S. Consulate in the applicant’s country to apply for a visa. To obtain a non-immigrant, student visa, applicants must be able to prove the following:
1. That they have strong ties to their home country demonstrating their intention to return home (In other words, applicants do not plan to immigrate permanently to the U.S.)
2. That they have sufficient funds to pay for their financial needs while studying in the U.S., including tuition, health insurance, housing, travel expenses, etc.
3. That they have legitimate intentions to study full-time and gain education and training which will be useful in their home country. After receiving an F-1 or M-1 Visa from the U.S. consulate, applicants are eligible to come to the U.S. and “apply” for entry. An Immigration Inspector at the border (usually the airport) will decide if applicants may enter by looking for proof of the above criteria once again. Therefore, applicants may be asked to show financial documentation again, or to prove study plans. Applicants must show their I-20.

English Proficiency
Proficiency in the use of the English Language and past academic record will be important factors in the admission decision. The Test of English as a Foreign Language (TOEFL) is required of all foreign applicants. To obtain materials and information regarding the TOEFL, write to:
Test of English as a Foreign Language
Box 899
Princeton, New Jersey 08540 USA

Please specify code number 5208 when requesting TOEFL scores to be reported to Fayetteville Technical Community College.

Financial Information
As part of the admission process to Fayetteville Technical Community College and before F-1 or M-1 Visa approval is granted, applicants must show evidence of official financial support (Form B) for each year of study in the United States. The college cannot provide financial aid to students applying from other nations. Applicants must certify their financial support.

Many international students receive financial help from sources outside the United States. Therefore, it is suggested that applicants consult the excellent publications about study abroad, which may be available through local educational institutions or the United States Consulate. Applicants should also investigate financial assistance that may be available through their government or home university.

Fayetteville Technical Community College is tax supported by the people of North Carolina. Legal residents of North Carolina and the United States are given preference in the admission process. Therefore, applications of international students are accepted only on a space availability basis. Unless some exception applies, international students are assessed tuition at the out-of-state rate.

Employment
(1) On-campus. F-1 and M-1 students are allowed to work part-time on the campus of the school they are attending (and whose I-20 they have). They may work up to 20 hours per week while attending full-time classes. They can work full-time during summer vacations and between terms, provided they continue at that school the following term.
(2) Off-campus. Students holding F-1 or M-1 Visas are not authorized to work except under extraordinary circumstances. There are two ways to get permission for off-campus work: practical training and severe economic hardship. The United States Immigration Services must grant permission.

Period of Authorized Stay
Admission to the U.S. on an F-1 or M-1 Visa is for “duration of status” (D/S). This is the time estimated for program completion. During that time, students are required to make satisfactory progress each term, keep a current passport that is valid for at least six months into the future, and maintain a valid I-20.

Housing
Fayetteville Technical Community College serves an entirely commuting student body. Housing is not available on campus. International students must seek housing in the community and commute daily by public transportation. Arrangements for housing must be made between the landlord and the student.

Transportation
International students must provide their own transportation or use public transportation to travel between the campus and their housing accommodations.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
Full-time Requirement

International students holding an F-1 or M-1 Visa must enroll as a full-time student. College students must pass a minimum of 12 credits per term. The student should make satisfactory progress in their approved program each term. Otherwise, the continuation of study on a student visa may be jeopardized and the Form I-20 rescinded.

Non-Student Visa and Resident Alien Applicants

Foreign applicants holding either (a) a visa other than an F-1 or M-1 or (b) a Resident Alien card may be admitted on a rolling basis. Your application will not be considered until all of the following items have been received:
(1) FTCC Application
(2) Presentation of either a valid Passport & Visa or a Resident Alien Card
(3) FTCC Entrance Assessment Results
(4) Official high school (secondary) transcript
(5) Official college or university transcripts, if applicable

NOTE: People who hold a visitor’s Visa (B-1) are NOT eligible to enroll in FTCC’s college-level classes.

H-1B Visas

Spouse and unmarried children under 21 years of age may seek admission in the H-4 nonimmigrant classification. Family members in the H-4 nonimmigrant classification may not engage in employment in the United States.

ADMISSION OF TRANSFER STUDENTS

Students who have completed course work at other colleges and universities should submit official transcripts of all post-secondary work. Transcripts will be reviewed during the admissions interview and transfer credit awarded according to the following criteria:
(1) Prior course work must correspond in instructional hours and content must be substantially similar to FTCC courses required in the degree or diploma being sought.
(2) Course work must have been completed at a regionally accredited college (i.e., Southern Association of Colleges and Schools or regional counterpart) OR the student may submit the following documentation to be evaluated and a recommendation made by the related department chair:
a. Official transcript from the institution attended.
b. Statement from the institution regarding any professional accreditations or associations.
c. Statement from the institution regarding scheduling system (i.e., semester or quarters).
d. Statement from the institution indicating the faculty who taught the course and the academic/professional credentials of that faculty member.
e. Course description to include number of class, lab, and/or clinical hours, and course content statement.
f. Course syllabus.
g. Reference statement indicating the textbook(s).

TRANSFER CREDIT APPEAL PROCESS

The Evaluation Center provides credit evaluation of coursework based on official transcripts from all institutions a student has attended. Also included in the evaluation process are documents that pertain to Credit for Prior Learning. A student may appeal a course transfer decision and request a re-evaluation of any transfer credit by following these steps:
1. Review all transfer credit awarded by FTCC via WebAdvisor account, or with a counselor or advisor.
2. Complete the online Transfer Credit Appeal Form
3. Obtain a copy of the course syllabus, course description, and any documentation that will support your appeal from the originating institution(s).
4. Submit the completed Transfer Credit Appeal form and all supporting documentation to the Information Desk in GCB. Retain a copy for your records.

The Evaluation Center will reevaluate the requested course(s) for reconsideration through consultation with the appropriate dean, division, or department chair. Once the re-evaluation is complete the decision will be emailed to the student’s FTCC email account within 30 business days of the receipt of the appeal form, excluding holidays and college closures.

If additional documentation is required from the student for the evaluator or the department chair to make the decision, the student has 2 weeks from the date of the request to supply documentation. Further appeals will be forwarded to the Associate Vice President for Curriculum Programs.
INTERCURRICULAR TRANSFER OF CREDITS

Students who change curriculums may be awarded transfer credit for applicable courses taken and passed in the previous curriculum. All credits considered must be applicable to the instructional field and approved by the Department Chair or appropriate Academic Dean.

CREDIT FOR NONTRADITIONAL LEARNING

FTCC will evaluate nontraditional educational records for the possible transfer of credits. Full documentation must be provided before an evaluation can be made. Transfer of credit for non-traditional work is limited to no more than 75 percent of the AAS degree or diploma requirements. (See Handbook on FTCC website.)

Advanced Placement Examinations

Applicants to the college may request transfer credit for subjects covered under advanced placement examinations. CLEP and DANTES General Exams and Subject Area Exams are evaluated for transfer credit. Test scores must meet ACE (American Council on Education) recommendations. Advanced credit awarded at prior colleges must be supported by official test score reports to be considered for transfer credit.

Military Service Training

Military service school records may be submitted for transfer credit evaluations. The service member is encouraged to submit a “Request for Evaluation of Military Experience” (form DD295) or the JST Transcripts (Army/ACE Registry System) transcripts for evaluation purposes. Service school diplomas and MOS (Military Occupational Specialty) Evaluation Score Reports are acceptable in lieu of the JST Transcript. Military service experiences are evaluated using ACE Guide recommendations.

Industrial and Professional Training

FTCC will consider the evaluation of credit for documented professional training and certification. Transfer of credits is considered using The National Guide to Educational Credit for Training Programs.

Experiential Learning

FTCC does not consider experiential or life experiences for transfer credit evaluation.

Proficiency Tests

FTCC students who plan to challenge a curriculum-level course must contact the department chairperson of the appropriate department to request a proficiency examination. Proficiency tests may be taken only during the first four class days of the term and are offered only if each of the following conditions are met:

a. Students must pass a preliminary screening test given by the department chairperson.

b. Students must be registered for the course in order to take a proficiency exam.

c. Students who pass a proficiency exam at the “C” grade level or above will be assigned a “P” grade and will not be required to attend further class sessions.

d. Veteran students and other third party recipients may not use courses passed by proficiency for the purposes of educational entitlement. Students who pass a proficiency test are encouraged to add additional curriculum courses in order to maintain full-time status.

*CLEP examinations will be the required proficiency test where available. Students will be referred to area CLEP examination sites for testing when appropriate.

Tech Prep Advanced Placement

Cumberland County high school graduates who participated in the Career Technical Education Program may be awarded proficiency credit based upon the recommendations of the Cumberland County Career Technical Education Curriculum Development Committee.

SOCAD

Fayetteville Technical Community College is a Servicemembers Opportunity College (SOC). SOC functions in cooperation with 13 higher education associations, the Department of Defense, and Active and Reserve Components of the Military Services to expand and improve voluntary postsecondary education opportunities for servicemembers worldwide. FTCC participates in the SOCAD-2 network with eleven degree programs available. For more information contact the FTCC Ft. Bragg Office at 678-1050.

READMISSION OF FORMER STUDENTS

Any student who withdraws from the College and wishes to return must contact the Admissions Office to reactivate his/her application for admission.

1. A student who withdrew for unavoidable reasons may be eligible for readmission at the beginning of the next term.

2. A student who was dismissed from the College by disciplinary action may re-enter only upon approval by the Program Area Dean.

3. A student who withdraws from the institution and re-enters at a later term, including students who have completed at least one or more terms, will be subject to curricular requirements in effect at the time of reentry.

4. Any student indebted to the College is ineligible to re-enter until all financial obligations to the institution have been satisfied.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
REQUIRED PLACEMENT TEST

ASSESSMENT AND EVALUATION OF STUDENTS

Fayetteville Technical Community College wants each student to be successful in meeting his or her educational goals. To evaluate the level of preparation and to place students in appropriate courses, the College requires assessment in the skill areas of English, reading, and mathematics. To satisfy assessment requirements for most programs, the student needs to take the ACCUPLACER (or other North Carolina Community College System approved assessments) unless eligible for a waiver. Assessment scores will be used for course level placement. Each of the three skill areas of English, reading and mathematics is independent of each other. A student may place at the college level in one or more areas and at the college preparatory level in other areas(s). The College may limit the student to college preparatory courses and any other instruction for which he or she is adequately prepared. Students who need testing accommodations due to a documented disability should contact the Special Populations office at (910) 678-8349.

REQUIREMENTS FOR TAKING ASSESSMENT

Whether the student is seeking full-time or part-time enrollment, unless he or she is qualified for an exception, the student must complete a NC state approved assessment as indicated:
1. Prior to participating in registration if the student is seeking degree.
2. Prior to registration for any course which has a specific assessment score as a prerequisite.

Assessment scores may not be more than three years old from test date.

ASSESSMENT EXEMPTIONS

Students will be exempt from taking the assessment for registration in courses for which they are qualified if they provide an official transcript or other written documentation.

Recent High School Graduates

A recent high school graduate who meets the minimum 2.6 GPA benchmark will be exempt for the assessment and will be eligible to enroll in college-level math and English courses based on the following:

Option 1:
• Official transcript from a high school legally authorized to operate in North Carolina
• Graduation within 5 years of enrollment at FTCC
• Unweighed high school GPA of 2.6 or greater
• Completion of Algebra I, Algebra II, Geometry, and a 4th higher math* and English I, II, III, and IV

Option 2:
A student must obtain the minimum ACT or SAT score to be waived from the ACCUPLACER. ACT/SAT tests completed within the five years of enrollment qualify for a test exemption.
• ACT Reading score of 20 OR ACT English score of 18
• SAT Reading score of 500 OR SAT Writing score of 500
• ACT Math score of 22
• SAT Math score of 500

Transfer Students

Transfer students may be eligible for a placement waiver, if you:
• Are enrolled in another college or university and applied to FTCC as a “special credit” status. Unofficial transcript will be evaluated to substantiate completion of required prerequisite course
• Attended a regionally accredited institution (RAI) in which English was the language of instruction and completed college-level English and/or math with a grad of “C” or
• Holds a Bachelor’s degree or higher from a (RAI) in which English was the language of instruction.

Standardized Exams

A student must complete the exam within five years of test date and obtain the minimum score below:
• ACT score of 20 in math, reading, and/or English
• SAT score of 500 in math, reading, and/or English
• AP score of 3, 4, 5 in math, reading, and/or English
• CLEP score of 420 paper version or 50 computer version in math and/or English
• IB score of 5, 6, 7 in math and/or English
• Excelsior score of “C” in English Composition and/or “C” in Statistics

NORTH CAROLINA COMMUNITY COLLEGE SYSTEM

APPROVED ASSESSMENTS

ACCUPLACER: FTCC administers the ACCUPLACER Computerized Placement Tests from the College Board. The assessments are Reading Comprehension, Sentence Skills, Computation/Arithmetic and Elementary Algebra.

There is no charge for the ACCUPLACER. The assessment takes approximately two to two and one-half hours and is available days and evenings. View the assessment schedule at http://www.faytechcc.edu/testing/testing_schedule.aspx.

Other Assessments: Other tests approved by the North Carolina Community College System are the ASSET, COMPASS, North Carolina Diagnostic Assessment and Placement (NCDAP).

Retest Policy: A student who requests to retest on all or parts of the ACCUPLACER, must demonstrate completion of a pre-curriculum course, completion of a practice test, attendance at a Success Center Workshop.

Students may not retest while enrolled in a DMA or DRE course until after the 90% point of the class.

Students who plan to challenge a curriculum level course must contact the Department Chairperson of the appropriate department to request a Proficiency Exam. Proficiency Exams are given under the following conditions:
• Student passes preliminary screening given by the Department Chairperson
• Student registers for the course in order to take the proficiency exam
• Student completes Proficiency Exam within the first four class days of the semester

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
ACADEMIC INFORMATION

CURRICULUM GRADING PROCEDURES
(Effective Fall 2015 Semester)

FTCC grades are based on a 4.0 grading system. Each grade is assigned a “grade-point equivalent” in quality points for each term credit hour scheduled. The grade point average (GPA) is determined by dividing the total of quality points earned by the number of term hours scheduled.

Letter grades are used to indicate the quality of a student’s work.

<table>
<thead>
<tr>
<th>Numerical Grade</th>
<th>Letter Grade</th>
<th>Grade Point Equivalent</th>
</tr>
</thead>
<tbody>
<tr>
<td>90-100</td>
<td>A-Excellent</td>
<td>4 points per credit hour</td>
</tr>
<tr>
<td>80-89</td>
<td>B-Good</td>
<td>3 points per credit hour</td>
</tr>
<tr>
<td>70-79</td>
<td>C-Average</td>
<td>2 points per credit hour</td>
</tr>
<tr>
<td>60-69</td>
<td>D-Below Average</td>
<td>1 point per credit hour</td>
</tr>
<tr>
<td>0-59</td>
<td>F-Failure</td>
<td>0 grade point</td>
</tr>
<tr>
<td>I-Incomplete</td>
<td></td>
<td>After eight (8)weeks for 16 week classes and 4 weeks for 8-week classes, the grade becomes an “F”</td>
</tr>
</tbody>
</table>

AU ...... Audit (No Credit) – No effect on grade point average
NS .... No Show – No effect on grade point average
P ....... Proficiency – No effect on grade point average
T ...... Transfer – No effect on grade point average
W ...... Withdrawn from Class(es) - the grade given when a student drops a class after the 10% point in time through the 90% point in time. The grade is not factored into the student’s grade point average.
I (Incomplete) may be given at the discretion of the instructor when all course requirements have not been met. After eight weeks from the beginning of the next term, an incomplete grade in a sixteen-week class becomes an “F.” After four weeks from the beginning of the next term, an incomplete grade in an eight-week class becomes an “F.”

Pre-Curriculum Developmental Course Grading System

Courses numbered below 100 are pre-curriculum developmental courses and are graded on a ten-point grading scale. The following numerical and letter grades are assigned for pre-curriculum developmental courses:

<table>
<thead>
<tr>
<th>Numerical Grade</th>
<th>Letter Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>80-100</td>
<td>P - Passing or</td>
</tr>
<tr>
<td></td>
<td>S - Satisfactory</td>
</tr>
<tr>
<td>0-79</td>
<td>R - Re-enroll</td>
</tr>
</tbody>
</table>

Pre-curriculum developmental course grades are not counted as credit towards graduation, and they are not calculated into the student’s cumulative Grade Point Average (GPA).

AU (Audit) requests must be made at the first class session. The intent of the AU is to allow students to take courses for no credit. Forms must be obtained from the Registrar’s Office and be signed by both student and instructor during the first two days of the sixteen-week course and the first day of an eight-week course.
Developmental classes may not be audited. To receive the AU, the student must meet all course requirements. This grade is permanent and can not be converted to a letter grade.
NS (No Show) is administered when a student registers, but fails to attend face-to-face class(es) or fails to participate in on-line classes by completing an assignment prior to the 10% point of the term.
P (Proficiency) by examination may be given after the student has registered for the course and after a preliminary screening test is given by the department chairperson. The grade equates to a “C” or better. This process must be completed within the first four class days of the term.
T (Transfer) credit is granted for courses completed at other regionally accredited community colleges, colleges, and universities.

Students will receive their grades via Web Advisor.

All final course grades will be letter grades in accordance with the adopted grading system. Grade reports are posted via Web Advisor.

All students must have at least a 2.0 grade point average (major and cumulative GPA) and have passed all curricular subjects as listed in the course outline under which they entered to be eligible for graduation. They must also meet the grade level needed in major subjects required to take licensure examinations.

Health occupations curricula, Funeral Service Education, and Paralegal Technology require course grades of C or better in order to progress to the next course/term. Each department area will issue to the student in written form the necessary information to cover such grading policies. Students who request transfers to other degree curricula are expected to have maintained a 2.0 GPA on all courses completed including prerequisite courses.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
COURSE REPEAT POLICY AND PROCEDURE

Course Repeat

A student may repeat for credit or audit any curriculum course one time in an effort to earn a higher grade and/or to add to his/her mastery of course content. If a student petitions for another attempt through the appropriate Dean for their program, a third and final attempt may be granted based on documented major extenuating circumstances. When a course is repeated, the last grade earned (A, B, C, D, F, or W) will be counted in determining the hours earned and in determining the GPA at the College. However, all grades will be recorded on the student’s official transcript. Grades audit (AU) is not calculated in the GPA, but they will be considered as a repeat grade.

A student’s (GPA) is based on the number of credits earned and the grades received. Cumulative GPA reflects all courses taken; major GPA reflects courses in the major.

Specific program requirements for academic progress are outlined in the College Catalog (i.e., health programs curricula, Funeral Service Education, and Paralegal Technology).

The University of North Carolina System and other colleges or universities require that a student earn a grade of “C” or better in each transfer course completed. A student planning to transfer should realize that receiving institutions do not have consistent policies regarding course repeats. Admissions personnel will review the transcripts of transfer applicants and may recompute grade point averages to include the grade originally assigned, or compute all grades assigned at Fayetteville Technical Community College.

Note to students receiving VA assistance: Two attempts will be the maximum allowed for counting a course as part of a student’s credit hour load for determining eligibility. Veterans who wish to repeat courses, for which a passing grade (D or higher) has been earned, will not receive educational benefits for repeating those courses.

Note to students receiving financial aid: All attempted classes will be counted toward academic progress. (Attempted includes a grade of A, B, C, D, F, W, U, I)

Note to students interested in a health program: Previously completed science courses must have been satisfactorily completed with a grade of “B” or better within five years of entry in a health program. These courses may be attempted only twice. The appropriate health department chairperson through the Dean of Health Programs may approve exceptions. (Effective Fall 2015 Semester)

Course Repeat Procedures

The request for course repeat must be initiated by the student and directed to the Registrar. All requests must be initiated prior to the final term of enrollment (i.e., at the end of fall term if graduating at the end of the spring term). Students applying for health programs must make the request prior to the January 30 deadline. The “Course Repeat Request” form is available online under Forms. Note to students taking Developmental Courses (courses designated less than the 100 level, i.e., DMA 50): Developmental Courses may be attempted only twice.

Grade Forgiveness Procedures

Form G-8, Request for Grade Forgiveness

A student may petition in writing to the Dean of Enrollment Management and Financial Aid to have grades which are at least four years old forgiven. In order for the request to be considered, the course in question must not have been under a previously granted certificate, diploma, or degree. Prior to making this request, it is the student’s responsibility to review the change with a counselor to make sure that there are no potential program conflicts, Financial Aid issues, Veteran’s Aid issues or third party payment issues. The forgiven grade will remain on the student transcript; however, will no longer be counted in the calculation of the GPA. A forgiven grade will still be counted in the calculation of the Financial Aid GPA.

The Vice President for Academic and Student Services must approve exceptions to this policy.

Schedule Adjustments and Withdrawals

Withdrawal from Class(es)

Student Withdrawal from Class after the 10 Percent Date.

- A student may withdraw from a class as late as the 90 percent date of the term without penalty. The transcript will indicate a “W”. A “W” grade does not negatively impact the student’s GPA, but will count as an attempt for purposes of veteran’s benefits or financial aid.

- Failure to withdraw properly may result in a failing grade for the course and may jeopardize a student’s right to reenroll at a later date.

- A student who withdraws or drops from any portion of a course (classroom, lab, clinic or shop) will be dropped from the entire course (class and lab).

- A student who receives Financial Aid or VA Educational benefits should confer with personnel in those offices before dropping classes or withdrawing from the College to determine the impact of a withdrawal on those benefits.

- In order to withdraw from class(es) a student must submit the Student Online Withdrawal Form found under Registration info on the FTCC website. If the student does not complete the withdrawal process, he/she will remain enrolled in the course and will receive
the grade assigned by the Instructor. The instructor will note the last day of contact with the student, which will affect financial aid owed for repayment.

- Faculty will not process withdrawals, except in the case of Administrative Withdrawals described below.

**Administrative Withdrawal by Faculty or Administration**

- For Curriculum Courses (numbered 100 or higher): Students who are absent for more than 20 percent of scheduled class sessions may be dropped from the class rolls by the instructor. A grade of “W” will be assigned if the student is dropped prior to the 90 percent date.

- For Developmental Courses (numbered below 100): Students who are absent for more than 10 percent of scheduled class sessions may be dropped from the class rolls by the instructor. A grade of “W” will be assigned if the student is dropped prior to the 90 percent date.

- A student who registers for a class and never attends a face-to-face class or fails to participate in an online class by completing an assignment within the first 10% of class meetings is a “No Show.” A “No Show” student will be dropped from the class and a grade of “NS” will be assigned to the student’s record. An “NS” will not count in the student’s GPA or as an attempt for veteran’s benefits or financial aid. Awarded financial aid will be removed from students who withdrew from all classes as a “no show”.

- If a student is suspended from the College during the term, a grade of “W” will be assigned for each class in which the student was enrolled that term.

**Course Prerequisite and Co-requisite Guidelines**

A prerequisite is a course that must be taken prior to another course. A co-requisite is a course that must be taken at the same time as another course or prior to the course to be taken. The college may mandate prerequisites and co-requisites to ensure students are prepared to meet the requirements of the course material. Students who do not have confirmed prior credit, equivalency via placement test scores, or transfer equivalency that satisfies the stated prerequisites and co-requisites may be administratively dropped from the course. Course prerequisites and co-requisites may be found by using WebAdvisor. Academic Deans, Division Chairs, Department Chairs, and Program Coordinators have the authority to waive a prerequisite or co-requisite based upon verified evidence that the student has the necessary prerequisite or co-requisite experience to meet the demands of the higher level course. A **Prerequisite Waiver Approval Form** will be completed for each waiver granted when the evidence of the prerequisite or co-requisite is not identified in Datatel. *The form is located under the Faculty/Staff link on the homepage and a username and password is required to submit the form.

**TUITION REFUNDS**

1. Before classes begin a 100 percent refund shall be made if the student officially withdraws prior to the first day of class (es) of the academic semester or term as noted in the college calendar. Also, a student is eligible for a 100 percent refund if the class in which the student is officially registered is cancelled due to insufficient enrollment.

2. After classes begin a 75 percent refund shall be made if the student officially withdraws from the class (es) prior to or on the official 10 percent point of the semester.

3. For classes beginning at times other than the first week (seven calendar days) of the semester or term, a 100 percent refund shall be made if the student officially withdraws from the class prior to the first class meeting. A 75 percent refund shall be made if the student officially withdraws from the class prior to or on the 10 percent point of the class.

4. To comply with applicable federal regulations regarding refunds, federal regulations supersede the state refund regulations stated in this Rule.

5. Military Students. A full refund of tuition and fees shall be granted to military reserve and National Guard personnel called to active duty or active duty personnel who have received temporary or permanent reassignments as a result of military operations taking place outside the state of North Carolina that make it impossible for them to complete their course requirements.

6. Death of Student. When a student, having paid the required tuition for a semester, dies during that semester, all tuition and fees paid for that semester will be refunded to the deceased student’s estate, when requested by the estate within ninety days after the student’s death.

**Tuition/Fee Refund Appeals**

Students are responsible for charges and payments to their student tuition/fee account.

Appeals for the current and/or immediate prior term only will be considered and reviewed. All other appeals will not be considered. Decisions of the Appeal Committee are final. Book charges may not be appealed.

Certain mitigating circumstances may qualify for a refund of tuition and fees paid to FTCC. Mitigating circumstances may consist of the following:

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
• Death of an immediate family member. A copy of the death certificate is required.
• Medical emergency which results in the inability to attend class. Medical documentation is required. Medical documentation including the dates of illness or admission to the hospital and/or a signed letter from the doctor is required.
• Unanticipated military service, including TDY, training, activation for deployment and unanticipated reassignment. Proof of orders is required.

For any other mitigating circumstances, documentation and explanation must be submitted with the appeal form.

Requests for a tuition refund will be reviewed by the Student Tuition/Fee Appeal committee. Appeals are reviewed monthly on the third week of every month. A letter will be mailed within a week after the Appeals Committee meeting indicating the decision of the Appeals Committee.

Financial Aid Students: A dropped class will result in a change in enrollment credit hours, which could generate a refund or a requirement to repay financial aid. Please contact the Financial Aid Office at 910-678-8242 or finaid@faytechcc.edu with any questions regarding your financial aid prior to submitting this form.

FEDERAL RETURN OF TITLE IV FUNDS FOR COMPLETE WITHDRAWALS

Students receiving Title IV funding (Federal Pell Grant, Supplemental Educational Opportunity Grant or William D. Ford Federal Direct Loans) who completely withdraw from classes are required to have earned aid evaluated through a federal formula. Unearned aid is returned to the federal financial aid programs. The amount of federal funds returned to the federal programs will be determined based on the date the withdrawal process begins or the last date of attendance. If the date the withdrawal process begins or last date of attendance is not available or known, the federal refund will be based on the 50 percent point of the semester. Return of Title IV funds will not be computed after the 60 percent point of the semester.

BOOKSTORE REFUNDS

Bookstore refunds are made under the following conditions:

• Students are allowed ten (10) calendar days beginning with the first day of the term to return textbooks for refund or credit.
• Books which have not been used, damaged, or marked in will be accepted for 100 percent refund or credit toward the purchase of additional items. Proof of purchase (cash register receipt) must be shown.
• Bookstore purchases made using a MasterCard or VISA will be refunded back to the same credit card if the book(s) are returned with the original sales receipt and credit card.
• Bookstore purchases made with Personal Check and returned with original sales receipt will be held for 10 business days after date of purchase to ensure the check clears. The refund voucher will be processed by the Office of Business and Finance and the refund will be issued to the student per refund preference submitted via WebAdvisor approximately two weeks later.
• Bookstore purchases made with Cash and returned with original sales receipt will be processed by the Office of Business and Finance and the refund will be issued to the student per refund preference submitted via WebAdvisor approximately two weeks later.
• No cash refunds will be made
• Military Students: The College shall buy back textbooks through the colleges’ bookstore operations to the extent possible. The College will use distance learning technologies and other educational methodologies to help these students, under the guidance of faculty and administrative staff, complete their course requirements.

TUITION WAIVERS

(Subject to change)

(1) High school students enrolled in a community college curriculum course under the Career and College Promise program are exempt from tuition.

High school students in the Career and College Promise program are also exempt from the CAPS fee. In addition, high school students in these programs are exempt from the activity fee and technology fee when the course location is the high school. The activity fee and technology fee is paid by Cumberland County Schools when the student attends high school in the public school system. Private and home school students pay the activity fee and technology fee under the Career and College Promise program.

(2) When an employer, other than the armed services, pays tuition for an employee to attend a community college and when the employee works at a North Carolina business location, the employer is charged the in-state tuition rate.

(3) Certain out-of-state students who are members of families that were transferred to this state by businesses, industries, or civilian families transferred by the military, for employment may be eligible for tuition payment at the in-state rate.
(4) Out-of-state service members and their dependents stationed at a North Carolina base are eligible to be charged the in-state tuition rate. The waiver is for the academic year. Continuing students may re-apply each fall term.

(5) Members of the armed forces that register through the GoArmyEd website are exempt from the activity fee, technology fee, and CAPS fee based on the agreement between the College and contractual agency.

(6) Students enrolled in Internet courses only (taking no traditional face-to-face courses) may request a waiver of the student activity fee.

(7) Volunteer fireman, local fire department personnel, volunteer rescue and lifesaving department personnel, local rescue and lifesaving department personnel, local law enforcement officers enrolled in training course are exempt from tuition and registration fees.

(8) Students enrolled in Human Resources Development programs are exempt from continuing education registration fees.

(9) Elementary and secondary school employees enrolled in courses in first aid or cardiopulmonary resuscitation (CPR) are exempt from continuing education registration fees.

(10) Law enforcement officers employed by a municipal, county, state agency and trainees that are sponsored by a state, county, or municipal law enforcement agency taking state-mandated Basic Law Enforcement Training Programs are exempt from tuition.

(11) Eligible survivors of a law enforcement officer, firefighter, volunteer firefighter, or rescue squad worker killed in the line of duty, are exempt from tuition and registration fees.

(12) An eligible spouse or child of a law enforcement officer, firefighter, volunteer firefighter, or rescue squad worker who is totally and permanently disabled, as a result of an injury sustained in the line of duty, is exempt from tuition and registration fees.

(13) An eligible ward of the state is exempt from tuition and registration fees not covered by other financial aid.

(14) Tuition/fee waivers are not applicable to courses established on a self-supporting basis.

ATTENDANCE POLICY

Because of the nature of the vast majority of the courses at Fayetteville Technical Community College, the administration has established the following policy. The policy has been established for the benefit of the students who are forced, because of reasons beyond their control, to miss classes as well as those who do not miss any classes (both groups of students are involved). Attendance may be taken separately in each portion of a course (i.e., class, lab, clinic, shop). Missing 20% of any portion of a course may result in administrative withdrawal. When enrolled in developmental studies courses missing 10 percent or any portion of the course may result in administrative withdrawal. A student who registers for a class and never attends a face-to-face class or fails to participate in an online class by completing an assignment within the first 10% of class meetings is a “No Show.”

(1) Instructors will make every effort to advise students who have missed more than 10% of a course that their standing in class is in jeopardy. Students who add a course after the first day of the class are responsible for all materials covered from the beginning. Instructors are encouraged to refer students with excessive absences to the Counseling Office.

(2) If absences exceed 20% (10 % for developmental studies courses), at any point during the term, the faculty member may: drop the student from the course, or allow the student to continue in the course under conditions set by the instructor.

(3) Tardy students interrupt the beginning of a class meeting. If a student enters the class after the instructor has started the class, the student shall be recorded as being tardy. Three tardies shall be counted as one absence.

(4) No absence, for any reason, shall excuse a student from an announced test, examination, or other assigned activities. Except in the instance of an excused absence for Religious or solemn observances, make-up of any tests or work missed shall be at the discretion of the faculty member. Students shall be permitted to make-up tests or missed assignments as the result of a religious or solemn observance, so long as notice of the observance was given to the college in writing within two weeks of the first meeting of the class. The make-up of any test or examination shall be scheduled on the earliest possible date after the student returns to class.

(5) Special attendance policies are in effect for the following programs: Associate Degree Nursing, BLET, Dental Assisting, Dental Hygiene, Central Sterile Processing, Early Childhood Education Credential Certificates, Emergency Medical Science, EMT classes, Fire Academy (Continuing Education), Mammography, Nuclear Medicine Technology, Nursing Assistant, Pharmacy Technology, Physical Therapist Assistant, Practical Nursing, Respiratory Care, Speech Language Pathology Assistant, and Surgical Technology. No department may impose a different attendance policy unless specifically required for licensure purposes. Requests for a more stringent policy must be submitted in writing to, and approved by, the appropriate Program Area Dean.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
(6) Special permission must be obtained from the Registrar/Curriculum and the faculty member before a friend can sit in on a class. Students are responsible for their guest’s behavior while on campus.

(7) Children are not to be left unattended anywhere on campus. Small children of students are not permitted to sit in classes or labs.

ACADEMIC STANDARDS FOR GRADUATION

The College requires that students maintain a cumulative and major GPA 2.0 or higher in order to meet institutional standards of progress and to be eligible for graduation.

STANDARDS OF SATISFACTORY ACADEMIC PROGRESS (SAP)

To remain eligible for state and federal financial aid programs, students need to make Satisfactory Academic Progress (SAP) toward achieving a degree, diploma, or certificate. Standards of Satisfactory Academic Progress are applied to all students who wish to establish or maintain financial aid eligibility at FTCC, regardless if they have received financial aid funds in the past. The standards are established to encourage students to progress toward an educational objective and complete a degree within a reasonable time frame and with the least amount of loan debt. If the standards are not met, students are not eligible for federal and state financial aid.

ACADEMIC PROGRESS STANDARDS FOR ALL STUDENTS

All curriculum students at FTCC are required to meet minimum standards for academic progress. Academic progress is evaluated at the completion of each term by both the Registrar’s Office (for all students) and by the Financial Aid Office (for students receiving financial aid).

Maintain a Minimum Cumulative GPA

- Maintain a cumulative grade point average of at least a 2.0.
- Cumulative GPA is based on all credits attempted since your initial date of attendance at FTCC regardless of program.
- Grade forgiveness and program GPA are not factors in the calculation of cumulative GPA.
- A student’s cumulative grade point average must meet the minimum standards of the institution according to degree intentions. The minimum cumulative and major grade point average for graduation at FTCC is 2.0.

Maintain a Minimum of Completed Credit Hours for Credits Attempted

- Complete a minimum of 67% of cumulative credit hours attempted.

- Attempted credits include courses with grades of “A” through “F”, “W”, I, S, An F, W, or I grade is not considered a completed credit and will count against your attempted credit calculation and GPA.
- All transfer credits accepted by FTCC will count toward the calculation of attempted credits.
- Credit hours taken for a grade of “audit” (AU) do not apply toward an associate degree, diploma, or certificate program. Therefore, credit hours with this designation are not included in determining enrollment status for financial aid disbursements or Satisfactory Academic Progress. Students with changes in grade type of an “audit” (AU) after the disbursement of financial aid will be reviewed for an enrollment status change. This change may result in a reduction of financial aid eligibility and a balance owed to the College.
- Courses with grades of “I” (Incomplete) will be considered as credit hours attempted and not completed. Students who have made arrangements with the instructor to complete required course work are not required to re-register for the same class during a subsequent semester to complete the work. Any course carried forward to the next semester for completion will not be counted as part of the new semester enrollment status. If the “incomplete” grade was instrumental in placing a student on financial aid probation or suspension, once completed, the student may appeal for a re-evaluation of Satisfactory Academic Progress by submitting the Satisfactory Academic Progress Appeal form to the Financial Aid Office at FTCC.
- Repeated courses will be counted as hours attempted and also toward maximum credits allowable for each type of program for financial aid.

Complete A Degree, Diploma or Certificate Program in no More Than 150% of the Average Length of the Program:

- Cumulative credit hours attempted are defined as all credit hours attempted at FTCC, and all credit hours transferred to FTCC from other institutions.
- Students will not be eligible to receive financial aid once they have attempted 150 percent of the normal credits required for their approved program of study, i.e., degree, diploma or certificate.
- All attempted credits are counted, including credit for prior learning, and developmental courses; whether or not financial aid was received, or the course work was successfully completed.

STUDENT ACADEMIC STANDING PROCEDURES FOR ALL STUDENTS

All curriculum students at FTCC are required to meet minimum standards for academic progress. Academic progress is evaluated at the completion of each term by the Registrar’s and Records Office. This procedure involves reviewing each student’s cumulative grade point average (GPA) to evaluate his or her academic progress and academic standing.
Students are encouraged to review the online College Catalog for details of how a student’s academic progress may affect his or her continued enrollment. Please keep in mind that Financial Aid and Veterans Services may have more restrictive academic progress and academic standing requirements as conditions of his or her continued funding.

**GOOD STANDING**
A student is considered to be in good academic standing when he or she earns a cumulative GPA or 2.0 or above.

**ACADEMIC WARNING**
A student is considered to be on academic warning when his or her cumulative GPA is below 2.0 at the end of the semester. This warning is an indication of potential academic problems and is communicated to the student and the student’s advisor and major department(s). A letter is sent via email encouraging attendance in interactive seminars facilitated by Counseling Services and an orientation of the Success Center.

**ACADEMIC PROBATION**
A student is considered to be on academic probation when the student is already on academic warning and his or her cumulative GPA is still below 2.0 at the end of a semester. The student is placed on academic probation, and this is noted on the student’s permanent record. A letter is sent via email requiring the student to meet with his or her academic advisor.

**HONORS AND ACHIEVEMENTS**

**President’s List**
The President’s List is generated at the end of each semester for students with a perfect grade point average. This honor is reflected on students’ transcripts. Students must be approved for a curriculum prior to the start of the semester. The developmental studies curriculum and courses are excluded from consideration.

Students must make a final grade of “A” on a minimum of 12 credit hours of curricular work during the term of consideration.

Students must earn a 4.00 GPA on a minimum of 12 credit hours. The formula used to calculate this 4.00 GPA excludes the following grades: AU, P, S, T, W, WP, and W*.

Students are NOT eligible for consideration until all course work is completed for the term.

**Dean’s List**
The Dean’s List is generated each semester for students with an outstanding grade point average. This honor is reflected on students’ transcripts.

Students must be approved for a curriculum prior to the start of the semester. The developmental studies curriculum and courses are excluded from this consideration.

Students must make a final grade of “A” or “B” on a minimum of 12 credit hours of curricular work during the term of consideration.

Students must earn at least a 3.5 GPA on a minimum of 12 credit hours. The formula used to calculate this minimum 3.5 GPA excludes the following grades: AU, P, S, T, W, WP and W*.

Students are NOT eligible for consideration until all course work is completed for the term.

**The President’s Award**
The President’s Award is presented to a deserving graduating student at graduation selected by a faculty-staff committee. To be eligible for this award, a student must have a minimum 3.0 GPA and must have been enrolled on a full-time basis during the year of nomination. The student must exhibit and promote good student morale and demonstrate a genuine concern for FTCC and its role in the community.

**Ambassadors**
Each year, Fayetteville Technical Community College chooses eight outstanding students to serve as Ambassadors. The Ambassadors act as official hosts and hostesses for various campus events. Ambassador candidates must have completed 12 semester hours at FTCC, have a minimum 2.5 GPA, and be recommended by three members of the College community.

**Graduating With Honors**
Any student who has earned a GPA of 4.0 in his/her program of study at FTCC will be granted a diploma or degree with highest honors. Any student who has earned a GPA of 3.5 to 3.99 in his/her program of study will be granted a diploma or degree with honors. The student’s transcript will be noted to reflect this achievement.

**REQUIREMENTS FOR GRADUATION**
To be eligible for graduation, the student must:

1. Successfully complete the curricular requirements in effect at the time the student entered the curriculum. Students who enter a curriculum after the fall term are subject to the curricular requirements in effect at the time of reentry. A student who withdraws from the College and reenters at a later semester, including students who have completed at least one or more semesters, will be subject to curricular requirements in effect at the time of reentry. In cases where students reenter at the beginning of fall semester, they are subject to the requirements for the curriculum at the fall semester re-entry.

2. Have met all admissions requirements for the program in which the student will graduate, including receipt of high school transcript/GED and transcripts from all colleges/universities that course credit for the certificate, diploma or degree requirements were derived. Students must complete a minimum of 25% of resident credit at FTCC to be able to receive an associate degree.

3. Have sufficient grade points to average 2.0 major and cumulative GPA.
(4) Have passing grades in all required courses (certain curricula, especially in the health area, require that a student make at least a “C” on major subject areas for the student to be eligible to take state and national examinations for licensure.)

(5) Must have taken care of ALL financial indebtedness to Fayetteville Technical Community College, including a graduation fee.

(6) Applications for degrees or diplomas must be completed by the student and returned no later than the end of the fall semester for the spring graduation and the end of the spring semester for summer graduation from those programs that are completed in sequence during the summer (i.e., Emergency Medical Science, Radiography, and certain vocational curricula). The College assumes no responsibility for making special adjustments for students who fail to file applications by the designated time. A candidate who fails to file an application for graduation or meet graduation requirements by the designated date automatically voids his/her candidacy for that particular graduation.

A WORD OF ADVICE: It is important to review your program requirements and your EVAL two semesters before graduation to be sure you are meeting all requirements. Check with your faculty advisor.

Progress Standards for Select Programs
(Effective Fall 2015 Semester)
In addition to a “C” or higher in related courses, the following programs require that a student complete the stated course work with a grade of “B” or better in order to progress to the next course/term/graduation:

- **Associate Degree Nursing** – A “B” or better in all NUR and science courses and a satisfactory grade in clinical.
- **Central Sterile Processing** – A “B” or better in all STP courses.
- **Dental Assisting** – A “B” or better in all DEN and science courses and a satisfactory grade in clinical.
- **Dental Hygiene** – A “B” or better in all DEN and science courses and a satisfactory grade in clinical.
- **Emergency Medical Science** – A “B” or better in all EMS and science courses and a satisfactory grade in clinical.
- **Funeral Service Education** – A “B” or better in all FSE courses and ACC 111, BUS 115, and PSY 141.
- **Health and Fitness Science** – A “B” or better in all PSF and science courses.
- **Mammography** – A “B” or better in all MAM courses.
- **Nuclear Medicine Technology** – A “B” or better in all NMT and science courses.
- **Nursing Assistant** – A “B” or better in all NAS courses.
- **Pharmacy Technology** – A “B” or better in all PHM and science courses.
- **Physical Therapist Assistant** – A “B” or better in all PTA and science courses.
- **Practical Nursing** – A “B” or better in all NUR and science courses and a satisfactory grade in clinical.
- **Radiography** – A “B” or better in all RAD and science courses.
- **Respiratory Therapy** – A “B” or better in all RCP and science courses.
- **Speech-Language Pathology Assistant** – A “B” or better in all SLP and science courses.
- **Surgical Technology** (Degree or Diploma) – A “B” or better in all SUR and science courses.

The following programs require that a student complete the stated course work with a grade of “C” or better in order to progress to the next course/term:

a. **Healthcare Management Technology** – A “C” or better in all HMT courses.

b. **Paralegal Technology** – A “C” or better in all LEX courses.
STUDENT RIGHTS, RESPONSIBILITIES, AND JUDICIAL PROCESS

STUDENT RECORDS

Fayetteville Technical Community College is committed to the concern for and protection of students’ rights and privacy of information. The College complies with the provisions of the Federal Family Rights and Privacy Act (FERPA), which is a federal law that governs the maintenance of students’ records. Under law, students have the right to inspect their educational records, correct inaccuracies in the records if warranted, and the records are protected from release of information without written consent. Most student records are open for inspection and review by the student. The parent(s) of a dependent student as defined in Title 26 U.S. C. s152 of the Internal Revenue Code also has this right to inspect records that are maintained by the College on behalf of the student.

The Registrar is responsible for student records. All students are provided rights under the Family Education Rights and Privacy Act (FERPA).

1. After submitting a written request and within two working days, a student may receive an unofficial copy of his or her transcript. Requests received during the registration period will require 5-10 working days. There is a $5.00 fee for each official transcript. Order transcripts online.

2. State of Rights – Operating under the premise that the educational process is a cooperative venture between the student and FTCC, this policy emphasizes the following rights of students:
   a. to inspect and review their educational records
   b. to exercise limited control over other people’s access to their educational records
   c. to seek to correct their educational records in a hearing if necessary
   d. to report violations of FERPA to the Family Education Rights and Privacy Act Office—Department of Education
   e. to be informed about their FERPA rights

3. We cannot provide any contact information for our students, as that information is confidential under FERPA because of a change the Trustees of FTCC made last year. Specifically, the Board’s policy says that directory information is now limited to the following:
   1. Name
   2. Curriculum
   3. Enrollment Status
   4. Dates of Enrollment
   5. Degree Received

Students who object to the release of directory information must notify the Registrar/Curriculum in writing within five (5) school days from the first day of the term of the items that the student does not want disclosed. If no objection is received by that date, the information will be classified as directory information until the beginning of the next school year.

4. Students may petition the Registrar to amend or correct any part of the educational record which the student believes is inaccurate, misleading, or in violation of student rights. This includes the right to a hearing to present evidence that the record should be changed if FTCC decides not to alter it according to the student’s requests.

5. Students may file a complaint with the FERPA Office, Department of Education, 330 Independence Avenue, SW, Washington, DC 20201, if FTCC violates the FERPA laws or this policy.

7. FTCC reserves the right to deny official transcripts or copies of records not required by FERPA in any of the following situations:
   a. The student has any unpaid financial or other obligations to the College, including, without limitation, unresolved parking violations, overdue books, or unpaid library fines
   b. There is unresolved disciplinary action against the student or unresolved litigation between the student and FTCC.

Note: When a student has a name change, the student is responsible for contacting the Registrar’s Office in person, with the necessary documentation, to revise the information (i.e., a social security card). Out-of-town and/or distance learning students may fax or send a copy of the document to the Registrar’s Office.
STUDENT RIGHTS, RESPONSIBILITIES, AND JUDICIAL PROCESS

Student Rights
Students enrolled at FTCC are encouraged to develop the capacity for critical judgment and to engage in both an instructor led and an independent search for knowledge. Free inquiry and free expression are essential to developing these skills; however, students should exercise this academic freedom with responsibility. Students are required to follow all College guidelines, including the Student Code of Conduct, and to obey all laws when on any FTCC campus or when participating in any campus sponsored or supported event.

(1) Every student has the right to a learning environment that is free from unreasonable distractions. If a student’s behavior interferes with the educational process, that student will be directed to end the activity causing the disruption. A student who continues to disrupt can be removed immediately from class and/or campus. Within a reasonable time after being removed, the student will be advised of his/her options, which are more fully described under the section on Disciplinary Action.

(2) Students have the right to be evaluated solely on an academic basis, not on opinions or conduct in matters unrelated to academic standards.

(3) Students have the right to freedom of expression, inquiry and assembly so long as it is not disruptive to a learning environment.

(4) Students have the right to inquire about and propose improvements in policies, regulations and procedures affecting the welfare of students through established student government procedures, campus committees, and College officers.

(5) Students and former students have the right to review their official records. No records shall be made available to unauthorized personnel or groups outside the College without the written consent of the student involved, except under legal compulsion or in accordance with federal law and the announced policies/procedures of the College. Student rights in this area are more fully described in the following section.

Student Code of Conduct
The following regulations set forth rules of conduct that prohibit certain types of student behavior. Students are expected to act and dress appropriately for a college environment. Neither actions nor dress should distract others from concentrating on their course of study. The College has established the following Code of Conduct to ensure that an appropriate college environment is maintained. Violation of one or more of these regulations may result in disciplinary sanctions. Students are not permitted to engage in any of the following activities while participating in any college course, while on campus, while participating in a College-sponsored event, or while in a College owned vehicle.

(1) Academic dishonesty, including, but not limited to:
   a. Obtaining test information, research papers, notes and other academic material without authorization;
   b. Receiving or giving help on tests, projects, or assignments submitted for a grade unless specifically authorized by the instructor; and,
   c. Plagiarism, which is taking credit for another’s ideas or works as if they were your own.

(2) Theft, vandalism, or misuse of College property wherever it is located.

(3) Possession, use, or distribution of alcohol or any illegal drug. In addition, students shall not be under the influence of any such substance while on campus, at College events, or in College owned vehicles.

(4) Using, recording, or disseminating anything which is lewd, offensive, obscene, profane, or vulgar, including, but not limited to, the use of profane or vulgar language.

(5) Physical violence against another person or threatening physical violence against another person.

(6) Harassment or intimidation of any other person, including but not limited to, sexual harassment or intimidation.

(7) Participation in gatherings or demonstrations that interfere with another’s ability to freely access College facilities or property. Students shall not disrupt or interfere with the College’s educational processes or College functions. Student shall comply with any instruction of a College employee to leave the scene of a disruptive gathering or demonstration.

(8) Violation of any college policy or any state or federal law prohibiting the possession of weapons on any FTCC campus.

(9) Tampering with a fire alarm or other safety equipment belonging to the College.

(10) Gambling.

(11) Smoking or using other forms of tobacco in any unauthorized area including but not limited to classrooms, shops and labs. For areas of the campus where smoking is permitted, refer to the College’s policy on Smoking on Campus which is described more fully later in this section.
(12) Altering or misusing College documents, records or instruments of identification with intent to deceive.

(13) Financial irresponsibility including, but not limited to, failure to pay College fines, failure to repay College funded loans or passing worthless checks to College officials.

(14) Violating the terms of any disciplinary probation or any College regulation during the period of probation.

(15) Failing to follow instructions of College employees.

(16) Participating in conduct that disturbs peace and order of the College. This includes, but is not limited to yelling, screaming, or talking in an unnecessary or unreasonably loud voice, or using any device which produces loud and/or disruptive noises.

(17) Unauthorized use of any electronic device, such as cell phones, recorders, cameras, I-pods, MP3 players, computers, and the like, in a virtual or physical classroom, shop, or lab.

(18) Permitting any person who is under the age of sixteen (16) and who is not an FTCC student to enter any instructional area without prior authorization. Instructional areas include virtual or face-to-face classrooms, labs, libraries, the Success Center, clinical sites, or shops. However, students under the age of sixteen (16) shall be permitted to enter into any instructional area for purposes related to their own education.

(19) Violating any College rule, regulation, policy and/or procedure.

(20) Violating any local, state or federal law or regulation.

(21) This Student Code of Conduct is not all inclusive. Any conduct which is disruptive to the educational environment of the College is prohibited.

**Disciplinary Action**

Students who violate College regulations are subject to the disciplinary penalties of the College. If the student’s behavior violates both the law and College regulations, the College may take disciplinary action independent of that taken by legal authorities.

(1) If an act of misconduct threatens the health or safety of any member of the academic community or seriously disrupts the function and good order of the College, an instructor or administrative officer may direct the student(s) involved to cease and desist such conduct and advise them that failing to cease and desist will result in immediate suspension. The instructor may suspend the student(s) from the class until further notice. An administrative officer may suspend the student(s) from either the class or the College until a resolution of the matter can be made. Disruptive behavior may include, but is not limited to, obscene and/or disruptive language, threatening actions, and blocking or restricting access to college classes, offices, and programs. The instructor or administrative officer invoking such suspension shall notify the Academic Dean or Designee (for curriculum students) or the Associate Vice President for Continuing Education (for continuing education students) in writing of the individual(s) involved and the nature of the infraction as soon as possible but no more than two days following the incident. The Academic Dean or Designee shall resolve the matter in a timely fashion.

(2) A violation, or possible violation, of the Weapons on Campus policy shall be reported to campus security immediately by phone, 678-8433, Emergency Call-box, or in person. The Director of Public Safety and Security, or designated representative, shall cause a full inquiry to be conducted and notification of civilian police if deemed necessary. An incident report shall be filed on all violations of this policy. Violations shall be reported in the Annual Crime Statistics published by campus security as requested by the Campus Security Act of 1990. The Academic Dean or Designee (for curriculum students) or the Associate Vice President for Continuing Education (for continuing education students) shall be notified by the Director of Public Safety and Security, or designated representative, immediately when any student is believed to have violated the Weapons on Campus policy. In the absence of the Academic Dean or Designee or Associate Vice President for Continuing Education, the next available Dean/administrator/director/supervisor should be notified.

Upon notification by the Director of Public Safety and Security, the Academic Dean or Designee or the Associate Vice President for Continuing Education shall temporarily suspend any student being investigated for a violation of this policy. The temporary suspension shall be imposed until the inquiry into the alleged violation is complete, but under no circumstances shall the temporary suspension exceed five weekdays.

Upon completion of the inquiry, the Academic Dean or Designee or the Associate Vice President for Continuing Education shall determine whether a violation of this policy occurred. If the Dean or Designee or Associate Vice President determines a student did violate this policy, the Dean or Designee or Associate Vice President shall suspend the student for a minimum of 120 days and shall notify the student of any right to appeal the decision. If it is determined the student did not violate this policy, the student shall be immediately allowed to return to class and shall be given every reasonable opportunity to complete any missed coursework.

(3) Any administrative official, faculty/staff member, or student may file charges with the FTCC Security Office against any student or student organization for violations of
College regulations. The individual(s) making the charge must complete a charge form stating:

a. name(s) of the student(s) involved
b. the alleged violation of the specific Code of Conduct
c. the time, place, and date of the incident
d. name(s) of the person(s) directly involved or witnesses to the infractions
e. any action taken that relates to the matter, and
f. desired solution(s)

The completed charge form should be forwarded directly to the Academic Dean or Designee (for curriculum students) or the Associate Vice President for Continuing Education (for continuing education students).

Within five (5) working days after the charge is filed, Security shall complete a preliminary investigation of the charge, and the Dean or Designee or Associate Vice President shall schedule a meeting with the student. After discussing the alleged infraction with the student, the Dean or Designee or Associate Vice President may act as follows:

a. Drop the charges
b. Impose a sanction
c. Refer the student to a College office or community agency for services

The decision shall be presented to the student in writing or mailed within five (5) working days. In instances where the student cannot be reached to schedule an appointment with the Dean/Associate Vice President, or where the student refuses to cooperate, the Dean/Associate Vice President shall send a certified letter to the student’s last known address providing the student with a list of charges, the decision, and instructions governing the appeal process.

(4) Violations of the Code of Conduct related to academic issues, for example, cheating, plagiarism or classroom disruption will be addressed through the chain of command within the academic area.

The penalty for academic offenses is imposed or recommended by the instructor teaching the course. Ignorance of the rules or carelessness about plagiarism or cheating is no excuse.

Penalties for plagiarism and cheating that may be imposed by the instructor include but are not limited to the following:

- re-writing the assignment
- receiving a “0” on the assignment
- failing the course in which the assignment was submitted

Penalties for plagiarism and cheating that may be recommended include but are not limited to the following:

- academic probation
- academic suspension
- expulsion from the college

When probation, suspension, or expulsion is recommended, the recommendation must be submitted to the appropriate Academic Dean within five (5) working days of the discovery of the incident. Within five (5) working days after the recommendation is made, the appropriate Dean/Associate Vice President shall complete a preliminary investigation of the charge and shall schedule a meeting with the student. After discussing the alleged infraction with the student, the administrative official may act as follows:

a. Drop the charges
b. Impose a sanction
c. Refer the student to a College office or community agency for services

The decision of the Dean/Associate Vice President shall be presented to the student in writing or mailed within five (5) working days. In instances where the student cannot be reached to schedule an appointment with the Dean/Associate Vice President, or where the student refuses to cooperate, the Dean/Associate Vice President shall send a certified letter to the student’s last known address providing the student with a list of charges, the Dean/Associate Vice President’s decision, and instructions governing the appeal process.

(5) Fayetteville Technical Community College reserves the right to dismiss any student when it believes such action is in the best interest of the College, the students, the faculty, the staff, or the student himself/herself. In all cases, the right of due process is the student’s prerogative.

Sanctions
The following sanctions are examples of those that may be imposed for discipline:

(1) Reprimand: A written communication which gives official notice to the student that any subsequent offense against the Student Code of Conduct will carry heavier penalties because of this prior infraction.

(2) General Probation: An individual may be placed on General Probation when involved in a minor disciplinary offense. General Probation has two (2) important implications: the individual is given a chance to show capability and willingness to observe the Student Code of Conduct without further penalty; secondly, if the individual errs again, further action will be taken. This probation will be in effect for no more than two (2) terms.

(3) Restrictive Probation: Restrictive Probation results in loss of good standing and becomes a matter of record. Restrictive conditions may limit activity in the College community. Generally, the individual will not be eligible
for initiation into any local or national organization and may not receive any college award or honorary recognition. The individual may not occupy a position of leadership with any College or student organization or activity. This probation will be in effect for not less than two (2) terms. Any violation of Restrictive Probation may result in immediate SUSPENSION.

(4) Restitution: Paying for the damage, misuse, destruction, or loss of property belonging to the College, College personnel, or students.

(5) Interim Suspension: Exclusion from class and/or other privileges or activities as set forth in the notice, until a final decision has been made concerning the alleged violation.

(6) Loss of Academic Credit or Grade: Imposed as a result of academic dishonesty.

(7) Withholding grade reports, diplomas, or right to register or participate in graduation ceremonies: imposed when financial obligations are not met. (Will not be allowed to register until all financial obligations are met).

(8) Suspension: Exclusion from class (es) and/or all other privileges or activities of the College for a specified period of time. This sanction is reserved for those offenses warranting discipline more severe than probation or for repeated misconduct. Students who receive this sanction must get specific written permission from the Vice President for Administrative Services before returning to the campus.

(9) Expulsion: Dismissing a student from campus for an indefinite period losing student status. The student may be readmitted to the College only with the approval of the Vice President for Academic and Student Affairs.

(10) Group Probation: This is given to a College club or other organized group for a specific period of time. If group violations are repeated during the term of the sentence, the charter may be revoked or activities restricted.

(11) Group Restriction: Removing College recognition during the term in which the offense occurred or for a longer period (usually not more than one other term). While under restriction, the group may not seek or add members, hold or sponsor events in the College community, or engage in other activities as specified.

(12) Group Charter Revocation: Removal of College recognition for a group, club, society, or other organizations for a minimum of two years. Re-charter after that time must be approved by the President.

Student Dress Code
The Trustees of Fayetteville Technical Community College recognize the importance of maintaining an education environment which promotes rigorous academic studies, encourages critical thinking, and teaches students skills necessary to be successful in the workplace. The Trustees authorize individual educational programs to implement and enforce dress codes when required to protect the health and safety of students. Additionally, the Trustees hereby determine that all students not in such a program should be encouraged to dress, while on campus, in a manner appropriate for an educational environment.

Effective June 1, 2011

Appeals and Due Process
Students subject to administrative decisions affecting their right to attend classes are entitled to due process. Due process includes, but is not limited to, the following considerations:

(1) The student must be informed of any charges made against him/her that may result in administrative action.

(2) The student must be advised in writing of the administrative action taken.

(3) The student will be advised of corrective action required.

(4) The student is entitled to an appeal as herein provided. The appeals process described in the following paragraphs must be followed.

(5) The student is entitled to appear and present testimony at any committee meeting scheduled to hear an appeal from said student.

Appeal of Disciplinary Sanction
The Academic Dean or Designee (for curriculum students) or the Associate Vice President for Continuing Education (for continuing education students) investigates charges of misconduct and determines the action to be taken. The decision of the Dean or Designee or Associate Vice President is presented to the student in writing within five (5) working days after the charge is filed. If the student is notified that a disciplinary sanction will be imposed, he or she may appeal the decision.

(1) If a student wished to appeal the decision, he or she must submit the appeal in writing within five (5) working days of receipt of the Dean’s or Vice President’s decision to the Student Appeals Committee through the Director of Counseling.

(2) The decisions of the FTCC Student Appeals Committee are referred to the Associate for Student Services as recommendations. The Associate for Student Services will review the case, consider the recommendation, reach a decision, and notify the student involved of the resulting
decision as soon as possible, but no later than three (3) working days from the receipt of the recommendation of the Student Appeals Committee.

(3) If the student wished to appeal the decision of the Associate Vice President for Student Services, the appeal must be in writing and addressed to the Vice President for Academic and Student Services. Thereafter, the route of appeal is to the President and then to the Board of Trustees. Decisions of the Board of Trustees are final.

Appeal of Attendance Problems
The instructor, according to guidelines published in the Student Handbook, may drop students who have excessive absences.

(1) Appeals of attendance decisions should be made first to the department chairperson and then to the program area Dean. Further appeals of administrative withdrawal from class for attendance will be made in writing no later than five (5) college days to the FTCC Student Appeals Committee through the Director of Counseling.

(2) The decisions of the FTCC Student Appeals Committee are referred to the Associate Vice President for Student Services as recommendations. The Associate Vice President for Student Services will review the case, consider the recommendation, reach a decision, and notify the student involved of the resulting decision as soon as possible, but no later than three (3) College days from the receipt of the recommendation of the Student Appeals Committee.

(3) If the student wishes to appeal the decision of the Associate Vice President for Student Services, the appeal must be in writing and addressed to the Vice President for Academic and Student Services. Thereafter, the route of appeal is to the President and then to the Board of Trustees. Decisions of the Board of Trustees are final.

(4) Students dropped for attendance problems may be allowed to continue attending class until the appeal has been resolved.

Appeal of Grades
Grading is the prerogative of the faculty member. Appeals concerning grades given for a course must be directed to the faculty member assigning the grade and must be in writing. The faculty member assigning the grade and the student appealing the grade shall discuss the circumstances and attempt to resolve the appeal. Failing to reach a satisfactory resolution, the student may appeal in accordance with the specific procedures described below. The appeal of a grade must be initiated no later than the last day of the fourth full month after the course grade was assigned.

(1) The student shall present the appeal in writing to the chairperson or coordinator of the department within which the protested grade was earned. The chairperson or coordinator shall, by conferring with the student and the faculty member, seek resolution by mutual agreement. If applicable, the student should continue to attend classes throughout the appeals process.

(2) If the student wishes to appeal the final decision of the chairperson or coordinator, the student must appeal in writing to the appropriate Academic Dean or Director. If, after conferring with the student, the Instructor, and the Department Chairperson, the matter remains unresolved, the Dean shall convene with the Academic Review Committee.

(3) The Academic Review Committee will consist of the convening Dean or Director and four FTCC faculty members, at least one of whom, if possible, shall be qualified to teach the course. The committee will be appointed by the Dean or Director. The faculty member assigning the grade shall not be appointed to the Academic Review Committee. During the appeal process, the appropriate Department Chairperson and/or faculty member will provide all relevant information to the appeal committee. The student’s written appeal will be provided to the committee and, if requested by the student, the student shall be afforded the right to personally appear and provide testimony to the committee and to ask questions of anyone providing evidence to the committee. Upon receiving all relevant evidence presented, the committee shall determine whether the grade assigned by the instructor shall be upheld. If the grade is not upheld, the committee shall make a decision as to how a grade shall be assigned to the student. The Dean will notify, in writing, the faculty member, the student, and the Department Chairperson of the committee’s decision within five working days. The resulting grade must be submitted within College guidelines and may not be further appealed.

Appeal of Financial Obligations
Initial telephone contacts and certified letters of advisement from the Business Office at FTCC regarding delinquent loans and returned checks are mailed to the student. Unpaid indebtedness to the College will result in suspension from the class (es). A student will not be allowed to register for the next term until the debt is cleared with the Business Office.

For returned checks, students are given 5 days from the date of the certified letter to clear the debt with FTCC. If after 15 days the debt is not cleared, the debt is submitted to the Cumberland County District Attorney’s Office Worthless Check Program and the North Carolina Debt Set-Off Program for collection.

For student loans, the promissory note states that payment in full becomes due immediately upon default of any installment or termination of at least half-time study. If payment is not made, the student’s unpaid account is submitted to an outside collection agency. Monthly, any unpaid student accounts are

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
submitted to the North Carolina Debt Set-Off Program for collection.

The Debt Collection Act entitles FTCC to claim a part or all of the student’s income tax refund to apply against the debt.

Financial indebtedness to FTCC can only be appealed through the Business Office until the matter is submitted to local and state legal authorities.

**Appearance of Student Tuition/Fees**

Students are responsible for charges and payments to their student tuition/fee account.

A dropped class will result in a change in enrolled credit hours, which could generate a refund or a requirement to repay financial aid. Please contact the Financial Aid Office with any questions regarding your financial aid prior to submitting a drop for a class or withdrawal from all classes.

Certain mitigating circumstances may qualify for a refund of tuition and fees paid to FTCC. Mitigating circumstances may consist of the following:

- Death of an immediate family member. A copy of the death certificate is required.
- Medical emergency which results in the inability to attend class. Medical documentation is required. Please attach medical documentation including the dates of illness or admission to the hospital and/or a signed letter from the doctor.
- Unanticipated military service, including TDY, training, activation for deployment and unanticipated reassignment. Proof of orders is required.

For mitigating circumstances, students should complete and submit the Student Tuition/Fee Appeal form with all supporting documentation. Requests for a tuition refund will be reviewed by the Student Tuition/Fee Appeal committee. Appeals are reviewed on the third week of every month. A letter will be mailed within a week after the Appeals Committee meeting.

Appeals for the current and/or immediate prior term only will be considered and reviewed. No other appeals will be considered. Decisions of the Appeal Committee are final. Book charges may not be appealed.

**Admissions Decisions**

Initial decisions to approve a student or potential student to enter a program or a student re-entering a program are made by the counselor conducting the admissions interview. Appeals of admissions decisions are referred to the Director of Admissions. Decisions of the Director of Admissions may be initially appealed in writing no later than ten (10) College days after the date of the Director of Admissions’ letter to the Associate Vice President for Student Services. The Associate Vice President for Student Services will confer with the Department Chairperson and respond to the student within five (5) working days. Decisions of the Associate Vice President for Student Services are final.

**Financial Aid Students**

A dropped class will result in a change in enrolled credit hours, which could generate a refund or a requirement to repay financial aid. Please contact the Financial Aid Office with any questions regarding your financial aid prior to submitting a drop for a class or withdrawal from all classes.

**Dismissal**

Fayetteville Technical Community College reserves the right to dismiss any student when it believes such action is in the best interest of the College, the students, the faculty, the staff, or the student him/herself. In all cases, the right of due process is the student’s prerogative.

**Student Grievance Policy and Procedure**

Fayetteville Technical Community College encourages the prompt and fair settlement of grievances. A student may present a grievance without fear of coercion, restraint, interference, penalty, or reprisal.

The purpose of the student grievance policy and procedure is to provide a system to resolve student complaints against faculty, staff, or other students concerning alleged discrimination on the basis of age, sex, race, disability, or other conditions.

**Academic Appeals**

Appeal of admissions decisions, individual grades, academic probation and/or suspensions, attendance problems, disciplinary sanctions, and dismissal shall not be considered under this policy, unless illegal discrimination is alleged. Such appeals shall be considered according to the guidelines set forth in the Catalog.

**Sexual Harassment Complaints**

Sexual harassment complaints shall be directed to the Associate Vice President for Student Services, unless the alleged harasser is the Associate Vice President. In that case, the complaint shall be directed to the Vice President for Academic and Student Services or to the President. Upon receiving the complaint, the Associate Vice President for Student Services shall refer the sexual harassment complaint to the Vice President for Human Resources, Workforce Development and Institutional Effectiveness, who will investigate the complaint following the procedures outlined in the College’s Sexual Harassment Policy and Procedures.

If the student is not satisfied with the outcome of the investigation, he or she may, within ten (10) working days, file the grievance in writing with the President. The chain of appeal goes then from the President to the Board of Trustees. Decisions of the Board of Trustees are final.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
Grievance Procedure
This procedure applies to all students of FTCC.

Step 1:
The student is encouraged to go to the instructor or staff member where the alleged problem originated. An attempt will be made to resolve the matter equitably and informally at this level. The conference must take place within five (5) working days of the day which generated the complaint.

Step 2:
If the grievance is not resolved, the student may file a written grievance. The student must present the written grievance to the appropriate Associate Vice President within thirty (30) days of the incident giving rise to the grievance. The student and the Associate Vice President will meet within three (3) working days following the presentation of the grievance to discuss the grievance fully, and to attempt informal resolution. The Associate Vice President will investigate the grievance and will ask the employee against whom the grievance was filed to respond in writing to the allegation. The Associate Vice President will provide a written decision on the grievance not later than ten (10) working days following this meeting.

Step 3:
If the student is not satisfied with the decision, he or she may, within five (5) working days, file the grievance in writing with the Vice President for Academic and Student Services. The Vice President for Academic and Student Services will notify the President. Depending on the nature of the allegation, the Vice President for Human Resources, Workforce Development and Institutional Effectiveness, may be asked to investigate. After reviewing the facts of the case, the Vice President for Academic and Student Services and/or the Vice President for Human Resources, Workforce Development and Institutional Effectiveness, will make a recommendation to the President. The student will receive written notification within ten (10) working days of filing the complaint with the Vice President.

Further Appeal Procedure
If the student is not satisfied with the decision, he or she may, within ten (10) working days, file the grievance in writing with the President. The chain of appeal goes then from the President to the Board of Trustees. Decisions of the Board of Trustees are final. There is an expanding reliance on electronic communication among students, faculty, staff, and administration at Fayetteville Technical Community College (FTCC). This is motivated by the convenience, speed, cost-effectiveness, and environmental advantages of using Email rather than printed communication. Because of this increasing reliance and acceptance of electronic communication, Email is considered an official form of communication between the College and its applicants and students. Students should maintain the confidentiality of their email account as the college sends confidential information to students by email. Implementation of these procedures ensures that students have access to this critical form of communication. All applicants or students are assigned an Email account hosted by Google.

WEAPONS ON CAMPUS POLICY

Possession of Weapons on Campus
Illegal possession of weapons on campus or at any FTCC class, site, activity, or program is a violation of College policy.

1. It shall be a violation of college policy for any person to illegally possess, whether openly or concealed, any of the following items while on FTCC campus or at the site of any FTCC class, activity or program:
   a. Any gun or firearm, including, but not limited to a rifle, pistol, BB gun, air pistol, or air rifle;
   b. Any powerful explosive device, including, but not limited to, dynamite cartridge, bomb, grenade, or mine;
   c. Any knife or other sharp-pointed or edged instrument, such as, but not limited to, a bowie knife, dirk, dagger, switchblade knife, razor, or razor blade; or
   d. Any slingshot, leded cane, blackjack, or metallic knuckles.

2. The possession of any item listed above shall not be in violation of College policy if the possession is permitted by law. Current law permits those who have valid concealed weapon permits and those exempt from obtaining such permits to have handguns secured, as described by law, in their vehicles. The law also permits weapons on campus solely for uses associated with approved educational programs.

3. Instructional supplies, unaltered nail files and clips and tools used solely for preparation of food, instruction, and maintenance on campus are exempted from this policy.

4. Any person, other than an FTCC student, found to violate this policy shall be removed from campus and shall not be permitted to return to campus for 120 calendar days.

5. Students in violation of this policy shall be suspended for a minimum of 120 days and shall not be permitted to return to campus for 120 calendar days.

6. Students in violation of this policy may be placed on a permanent expulsion when one of the following occurs:
   a. Illegal possession of a firearm on campus;
   b. Repeat offense on campus or any FTCC class site, activity or program;
   c. Subsequent conviction of a violation of the law; or,
   d. Use of weapon to harm or threaten another individual.
**Procedures**

A violation of this policy or possible violations shall be reported to campus security immediately by phone, 678-8433, Emergency Callbox, or in person. The Director of Public Safety and Security, or designated representative, shall cause a full inquiry to be conducted and notification of civilian police if deemed necessary. An incident report shall be filed on all violations of this policy. Violations shall be reported in the Annual Crime Statistics published by campus security as requested by the Campus Security Act of 1990.

1. The appropriate Associate Vice President or Dean shall be notified by the Director of Public Safety and Security, or designated representative, immediately when any student is believed to have violated the Weapons on Campus policy. In the absence of the Associate Vice President or Dean, the next available Dean/administrator/director/supervisor should be notified.

2. Upon notification by the Director of Public Safety and Security, the Associate Vice President or Dean shall temporarily suspend any student being investigated for a violation of this policy. The temporary suspension shall be imposed until the inquiry into the alleged violation is complete, but under no circumstances shall the temporary suspension exceed five weekdays.

3. Upon completion of the inquiry, the Associate Vice President or Dean shall determine whether a violation of this policy occurred. If the Associate Vice President or Dean determines a student did violate this policy, the Associate Vice President or Dean shall suspend the student for a minimum of 120 days and shall notify the student of any right to appeal the decision. If it is determined the student did not violate this policy, the student shall be immediately allowed to return to class and shall be given every reasonable opportunity to complete any missed coursework.

**Precautions**

If a violation is observed, the following actions should be taken:

1. Do not approach the individual. Stay calm.
2. Either notify campus security or have someone else do it.
3. Monitor individual from a safe distance or take cover if necessary.
4. Notify other persons in the area.
5. If possible, get a good description of the individual, vehicle, or weapon.
7. If necessary, get away from the affected area.
8. Do not take chances.

**TOBACCO AND NICOTINE VAPOR FREE BUILDINGS**

The use of cigarettes, cigars, smokeless tobacco, and electronic (vapor) cigarettes is strictly prohibited inside any FTCC building. In addition, smoking adjacent to buildings will only be permitted at outdoor areas that have been designated by the President as smoking areas. This policy is implemented to reduce secondhand smoke at building entrances. The designated smoking areas are listed below:

STUDENT EMAIL STANDARDS

College Use of Email
Email is an official form of communication within FTCC. Therefore, the College has the right to send communications to applicants and students via Email and the College has a right to expect that those communications will be received and read in a timely manner.

Appropriate Use of Student Email
Students should not use their student Email account for personal use. Student Email is not appropriate for transmitting sensitive or confidential information unless its use for such purposes is matched by an appropriate level of security. Email shall not be the sole method for notification of any legal action.

Redirection of Email
A student may have their Email electronically redirected to another email address. If a student wishes to have Email redirected from their official Address to another Email address (e.g., @aol.com, @hotmail.com, or an address on a departmental server), they may do so, but at their own risk. FTCC will not be responsible for the handling of Email by outside vendors. Having email redirected does not release a student from the responsibilities associated with communications sent to their official email address.

Educational Uses of Email
Faculty may determine how Email will be used in their classes. It is highly recommended that if faculty have Email requirements and expectations, they specify these requirements in their course syllabi. Faculty may expect that student’s official Email addresses are being accessed, and faculty may use Email for their courses accordingly.

MANAGEMENT INFORMATION SERVICES

Management Information Services (MIS) maintains the campus local area network. MIS is responsible for the management, administration, and upgrades of the local area network, computer labs, shared applications, and systems.

The Fayetteville Technical Community College (FTCC) network consists of both a wired and wireless local area network. FTCC has guidelines that define roles, responsibilities and acceptable use of the College’s LAN. Users are expected to abide by the following guidelines.

GENERAL USAGE GUIDELINES

College-owned or -operated computing resources are for the use of faculty, students, staff, and other authorized individuals. Users must exercise responsible, ethical behavior when using these resources. Responsible behavior should also be exercised when using one’s own personal computing device connected to the FTCC wireless network. The College does not attempt to articulate all required or unacceptable behavior by its users. To assist in such judgment, the following guidelines have been developed:

1. Computing resources and access accounts are to be used only for the purpose for which they are assigned and are not to be used for commercial purposes or non-college related activities.

2. Users of the network are responsible for any actions taken that cause damages or affect other computers or portable computing devices. Users should not engage in activities/actions which damage or disrupt hardware or communications such as virus creation and propagation, and overloading networks with excessive data.

3. Individuals will not use College computer resources to engage in any illegal activities. Users of the FTCC network must comply with all federal, state, and local laws that apply.

4. All computer software is protected by federal copyright law and most is proprietary and protected by legal licensing agreements in addition to the copyright law. The user is responsible for being aware of the licensing restrictions for the software used on any system. Users must respect the legal protection applied to programs, data, photographs, music, written documents and other material as provided by copyright, trademark, patent, licensure and other proprietary rights mechanisms.

5. Users shall not create, display, advocate, or transmit threatening, racist, sexist, pornographic, obscene, offensive, annoying or harassing language and/or material, including broadcasting unsolicited messages, sending unwanted mail, or accessing websites for these purposes.

6. Users shall not use the FTCC network to intentionally gain unauthorized access to any systems or sensitive information. Users will not gain, or attempt to gain, unauthorized access to other’s files, folders, or storage areas of any kind.

7. Use of content management systems (e.g. BlackBoard) should be for the purposes of communicating and documenting class or educational related activities.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
8. Users are discouraged from conducting confidential transactions (e.g. online banking) over FTCC network.

9. Individuals are responsible for the proper use of their accounts, including proper password protection and appropriate use of Internet resources. An access account assigned to an individual must not be used by others. Users are responsible for notifying MIS Help Desk (678-8502) if they find that their account login information has been compromised in any way.

10. Users will refrain from monopolizing systems and services, such as overloading resources, putting excessive demands on disk space, printer paper and supplies.

11. The College’s website, www.faytechcc.edu, will serve as the only official website representing FTCC. Users are not permitted to use the College’s name or any association with the College in web sites that are not owned, created, and/or maintained by FTCC.

12. Fayetteville Technical Community College is in no way liable for any damage, undesired resource usage, or detrimental effects that may occur to the user’s computer or any portable computing device while attached to the wireless network.

13. Individuals connecting to the wireless network are responsible for having current operating system updates and up-to-date antivirus software installed on their computer and any portable electronic devices.

Failure to follow the FTCC General Use Guidelines can result in the suspension of access rights and disciplinary action as deemed appropriate by the College.

Management Information Services office reserves the right to make revisions/updates to these guidelines at any time.

MIS has the responsibility to monitor, filter, log, and block network activities and locations, to include email, as required to ensure that all computer resources perform optimally and are safe from technology threats. MIS reserves the right to restrict access to the FTCC network as deemed necessary to protect the integrity of the network infrastructure, systems, and information.
Fayetteville Technical Community College recognizes and supports the rights of free speech. This policy informs members of the College community and the public of the manner in which they may engage in constitutionally protected speech and expression at Fayetteville Technical Community College. It is intended to ensure the primary educational purpose of the College.

The College will protect the rights of freedom of speech, petition, and peaceful assembly. The right to regulate reasonable time, location, and restrictions concerning acts of expression and dissent will be maintained by the College. Any acts that are disruptive to normal operations of the College including but not limited to classes, College business, or invades the rights of others will not be tolerated. Faculty, staff, and students engaging in disruptive activity may be subject to disciplinary action. Any participant in a disruptive activity may face criminal charges.

Registration and Use of Designated Free Speech Area

A. Requests for Free Speech. Individuals or groups wishing to exercise their free speech should submit a written request to the Director of Student Activities at least three working days prior to the desired date. The following information must be included in this written request.

- Name of the person or organization submitting the request
- Purpose of speech requested
- Date and times requested
- List of planned activities (i.e., speech, signs, distribution of literature)
- Anticipated number of participants and attendance

Approvals are for one day only for a maximum of three continuous hours, between 8:00 a.m. and 10:00 p.m.

B. Designated Free Speech Area. College designated areas for free speech are listed below:

- Main Campus - Student Center Gazebo
- Spring Lake Campus - TBA
- Horticulture Education Center - TBA

College sponsored events have first priority on the use of campus facilities. Requests for the Gazebo will be assigned to the person or organization that requests the area first. The College reserves the right to relocate any assembly to ensure that the activity does not interfere with the normal operation of the College or interfere with the rights of others.

Guidelines for Speech and Public Assembly

1. Amplification Systems: Public address and amplification systems may not be used. This includes megaphones and PA systems.

2. The Right to Dissent: The right to dissent is the complement of the right to speak, but these rights need not occupy the same forum at the same time. The speaker is entitled to communicate his or her message to the audience during their allotted time, and the audience is entitled to hear the message and see the speaker during that time. A dissenter must not substantially interfere with the speaker’s ability to communicate or the audience ability to hear and see the speaker. Likewise the audience must respect the right to dissent.

3. Picketing and Distribution of Literature: Picketing in an orderly manner or distributing literature within the free speech area is acceptable when approved during the request process as coordinated and approved by the Director of Student Activities. Picketing is not permitted inside College buildings.

4. Symbolic Protest: During a presentation, displaying a sign, gesturing, wearing symbolic clothing, or otherwise protesting silently is permissible unless it is a disruptive activity or impedes access, such as acts that block the audiences view or prevents the audience from being able to pay attention.

5. Marches: Campus marches are permitted on campus only with the approval of the Director of Student Activities per Requests for Free Speech.

In order to ensure the safety of participants and bystanders and to minimize the disruption upon College classes and daily operations, this request must specify the desired march route and total/maximum number of participants.

Pickets/marchers must march in single file, not abreast, and may not march closer together than 15 feet, except in passing one another. Pickets not marching shall remain at least 15 feet apart. Minor children, six years of age or younger, may walk abreast or be carried by their parent or guardian.

Pickets shall be restricted to the use of the outermost half of the sidewalk or other public way nearest the street and shall not at any time nor in any way obstruct, interfere with, or block persons entering or existing vehicles; persons crossing streets or otherwise using the public way; the entrance or exit to any building or access to property abutting the street or sidewalk; or pedestrian or vehicular traffic.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
Conduct and Manner

(1) Those who exercise free speech as a part of this policy must not
   – Threaten passers-by
   – Interfere with, impede, or cause blockage of the flow of vehicular or pedestrian traffic.
   – Interfere with or disrupt any other lawful activity in the same general location at the same time.
   – Commit any act likely to create an imminent safety or health hazard.
   – Post materials on any walls, windows, doors, sidewalks, trees, light poles, etc., or any other College equipment except as approved by the Director of Student Activities.
   – Carry signs or placards that exceed two feet by two feet promoting the objective of the activity. They must not contain profane language or words that would tend to incite violence.

(2) Public speech or activities that are likely to incite or produce imminent lawless action or that is, under current legal standards, either defamatory or obscene is prohibited. Violations of the FTCC Student Code of Conduct are prohibited.

(3) Participants in College free speech activities cannot refuse to identify him or herself to College officials when such activities are on College property. A person may identify him/herself by presenting a student/faculty/staff ID card, driver’s license, or some other form of government issued identification.

(4) Individuals who damage or destroy College property shall be held responsible for such damage or destruction. This includes lawns, shrubs, trees, etc.

(5) A request for use of free speech areas may be denied if determined that the proposed speech/activity will constitute a clear and present danger to the orderly operation of the College.

(6) All applicable College regulations, state, and federal laws and municipal ordinances apply when engaging in activities on College property. Failure to do so may result in immediate removal from College property and other appropriate action by College officials and/or police.

Interference with Free Speech or Public Assembly

Persons shall not physically interfere in the use of the sidewalk or address profane, indecent, abusive, or threatening language to or at individuals to provoke them or lead to a breach of the peace.

Whenever free passage is obstructed by a crowd, the persons composing such crowd shall disperse or move on when directed by College officials, security, police. Failure to do so may result in disciplinary action.

Intellectual Property Rights

“Intellectual Property” includes all inventions, improvements, copyright eligible works, and tangible research materials produced by employees and/or students of FTCC.

(1) All employees and/or students who produce or who anticipate producing Intellectual Property have a duty to promptly disclose their discoveries or invention to the President or his designee in order to prevent the development of a conflict of interest or a conflict of commitment.

(2) The President may appoint an Intellectual Property Committee to process, investigate, and make recommendations to the President when Intellectual Property notifications occur or issues arise.

(3) The College shall own all Intellectual Property that is made, discovered, or created by an employee who is specifically hired or commissioned by the College for that purpose and who receives compensation for those specific services from the College.

(4) The College shall own any Intellectual Property that is made, discovered, or created by an employee within the scope of his or her employment by the College or whose position description may include such duties, unless otherwise provided by written agreement between the individual and the College.

(5) The College shall own all Intellectual Property that is made, discovered, or created by an employee and/or student who uses College resources and time in the development of the Intellectual Property, unless otherwise provided by written agreement between the individual and the College. “College resources” means institutional facilities, staff, and materials.

(6) Intellectual Property created by an employee and/or student entirely on his or her personal time and not involving the use of College facilities or materials shall be the property of the individual. An individual’s “personal time” shall mean time other than that devoted to normal or assigned functions in teaching or College service. The term “College facilities” shall mean any facility, including equipment and material, available to the
individual as a direct result of the individual’s affiliation with the College, and which would not be available to a non-College individual on the same basis. An employee and/or student who claims that Intellectual Property is made on personal time has the responsibility to demonstrate that the Property so claimed is created on personal time.

(7) An employee and/or student who anticipates or has already produced Intellectual Property using both his or her own resources and time and the resources and time of the College, will meet with the College President or his Designee to discuss his or her efforts and to agree on a possible division of the value of the rights produced.

(8) The College may release its rights of ownership of Intellectual Property to the individual, if the institution is convinced that no College facilities, time, or materials were used in the development of the Intellectual Property and that it was made on personal time.

(9) The College retains the rights to all Intellectual Property, which would be owned by the College under this policy created by employees who leave employment with the College. The College may grant the individual non-exclusive use of the Intellectual Property for a specified period of time at another nonprofit educational institution.

(10) Prior to entering any consulting agreement involving Intellectual Property Rights with any third party, where any College time, facilities, materials or other resources are involved, College employees and/or students, must present the proposed agreement to the College President or his designee for review and approval.

(11) The College owns all rights to its logo, seal, and other related materials.

(12) Exceptions to the above policies are authorized if approved by the President of the College following a favorable review and recommendation by the Intellectual Property Committee.

DRUG AND ALCOHOL POLICY

Drug and Alcohol Prevention Program
The use and abuse of drugs and alcohol are subjects of immediate concern in our society. These problems are extremely complex and ones for which there are no easy solutions. From a safety perspective, the users and/or abusers of drugs or alcohol may impair the well-being of all employees, students, the public at large, and result in damage to College property. Therefore, in compliance with the Federal Drug-Free Workplace and Drug-Free Schools and Campuses Regulations, it is the policy of this College that the unlawful use, possession, manufacture, distribution, or dispensation of a controlled substance or alcohol, is prohibited while in the College workplace, on College premises, or as part of any college-sponsored activities. Any employee or student violating this policy will be subject to disciplinary action up to and including termination or expulsion and referral for prosecution. The specifics of this policy are as follows:

I-27.1 FTCC does not differentiate among unlawful users, pushers or sellers of drugs or alcohol. Any employee or student who unlawfully possesses, uses, sells, gives or transfers a controlled substance or alcoholic beverage to another person while in the College workplace, on College premises, or as part of any college-sponsored activity, will be subject to disciplinary action up to and including termination or expulsion, and referral for prosecution.

I-27.2 The term “controlled substance” means any drug listed in 21 CFR part 1308 and other federal regulations, as well as those listed in Article V, Chapter 90 of North Carolina General Statutes. Generally, these are drugs which have a high potential for abuse. Such drugs include, but are not limited to: heroin, PCP, cocaine, “crack”, and marijuana. They also include “legal drugs” which are not prescribed by a licensed physician. The term alcoholic beverage includes beer, wine, whiskey and any other beverage listed in Chapter 18B of the General Statutes of North Carolina.

I-27.3 If any employee or student is convicted of violating any criminal drug or alcoholic beverage control statute while in the College workplace, on college premises, or as part of any college-sponsored activity, he or she will be subject to disciplinary action up to and including termination or expulsion. Specifically, any such person who is convicted of a felony, or of a misdemeanor which results in an active prison sentence will, if a student, be expelled, or if an employee, be terminated from employment (subject to existing disciplinary policies applicable to employees and State or Federal law which may apply). Other misdemeanor convictions will be evaluated on a case-by-case basis, and the penalties to be imposed may range from written warnings or mandatory counseling or rehabilitation to expulsion from enrollment or discharge from employment. Any such person charged with a violation of these policies concerning illegal drugs may be suspended from enrollment or employment before initiation or completion of disciplinary proceedings if the Office of Human Resources determines that the continued presence of such person within the College community would constitute a clear and immediate danger to the health or welfare of other members of the community after an appropriate predetermination inquiry. All employees and students of the College are currently eligible and are encouraged to participate without cost in an employee assistance program which offers among its many services, drug and alcohol abuse counseling.

I-27.4 Each employee or student is required to inform the Office of the Vice President for Human Resources, Workforce Development and Institutional Effectiveness, at the College, in writing, within five (5) days after he or she is convicted of violation of any federal, state, or local criminal drug or alcoholic beverage control statute where such violation occurred while in the College workplace, on College premises, or as part of any College-sponsored activity. A conviction means a plea of or a finding of guilt (including a plea of nolo contendere) and the imposition of a judgment by a judge sitting with or without a jury in any federal or state court. As a condition of further employment on any federal government grant, the law requires all employees to abide by this policy.

I-27.5 The Office of the Vice President for Human Resources, Workforce Development and Institutional Effectiveness, must notify the U.S. governmental agency from which a grant was made within ten (10) days after receiving notice from the grant employee or otherwise receiving actual notice of a drug conviction. Disciplinary action against the convicted employee must be undertaken by the College within 30 days.

I-27.6 A description of applicable state sanctions and the health risks associated with the use of both illicit drugs and alcohol is available in the offices of the Vice President for Human Resources, Workforce Development and Institutional Effectiveness, and the Vice President for Legal Services and Risk Management.

(Excerpt taken from FTCC Administrative Procedures Manual, February 16, 2009)

| Dissociative Drugs            | Ketamine                                      | Ill/injected, snorted, smoked | Feelings of being separate from one’s body and environment; impaired motor function/anxiety; tremors; numbness; memory loss; nausea
|                               | Ketalar SV: cat Valium, K, Special K, vitamin K |                               | Also, for ketamine—analgesia; impaired memory; delirium; respiratory depression and arrest; death
| PCP and analogs               | Phencyclidine: angel dust, boat, hog, love boat, peace pill | I, Ill/swallowed, smoked, injected | Also, for PCP and analogs—analgesia; psychosis; aggression; violence; slurred speech; loss of coordination; hallucinations
| Salvia divinorum              | Salvia divinorum Salvia, Shepherdess’s Herb, Maria Pastora, magic mint, Sally-D | Not scheduled/chewed, swallowed, smoked |                               
| Dextromethorphan (DXM)        | Found in some cough and cold medications: Robotriping, Robo, Triple C | Not scheduled/swallowed | Also, for DXM—euphoria; slurred speech; confusion; dizziness; distorted visual perceptions
| Hallucinogens                 | LSD                                          | I/swallowed, absorbed through mouth tissues | Altered states of perception and feeling; hallucinations; nausea
|                               | Lysergic acid diethylamide: acid, blotter, cubes, microdot, yellow sunshine, blue heaven |                               | Also, for LSD and mescaline—increased body temperature, heart rate, blood pressure; loss of appetite; sweating; sleeplessness; numbness; dizziness; weakness; tremors; Mescaline B impulsive behavior; rapid shifts in emotion
|                               | Mescline uttons, cactus, mesc, peyote         | I/swallowed, smoked |                               
|                               | Psilocybin Magic mushrooms, purple passion, shrooms, little smoke | I/swallowed | Also, for psilocybin—nervousness; paranoia; panic
| Other Compounds               | Anabolic Steroids Anadrol, Oxandrin, Durabolin, Depo-Testosterone, Equipoise: roids, juice, gym candy, pumpers | Ill/injected, swallowed, applied to skin | Steroids—no intoxication effects/hypertension; blood clotting and cholesterol changes; liver cysts; hostility and aggression; acne; in adolescents—premature stoppage of growth; in males—prostate cancer, reduced sperm production, shrunk en testicles, breast enlargement; in females—menstrual irregularities, development of beard and other masculine characteristics
| Inhalaants                    | Solvents (paint thinners, gasoline, line, gases; butane, propane, aerosol propellants, nitrous oxide); nitrites (isomyl, isobutyl, cyclohexyl): laughing gas, poppers, snappers, whippets | Not scheduled/inhaled through nose or mouth | Inhalants (varies by chemical)—stimulation; loss of inhibition; headache; nausea or vomiting; slurred speech; loss of motor coordination; wheezing/cramps; muscle weakness; depression; memory impairment; damage to cardiovascular and nervous systems; unconsciousness; sudden death
| Prescription Medications      |                                              |                               | For more information on prescription medications, please visit http://www.nida.gov/DrugPages/PrescripDrugsChart.html.

*Schedule I and II drugs have a high potential for abuse. They require greater storage security and have a quota on manufacturing, among other restrictions. Schedule I drugs are available for research only and have no approved medical use; Schedule II drugs are available only by prescription (unrefillable) and require a form for ordering. Schedule III and IV drugs are available by prescription, may have five refills in 6 months, and may be ordered orally. Some Schedule V drugs are available over the counter.

**Some of the health risks are directly related to the route of drug administration. For example, injection drug use can increase the risk of infection through needle contamination with staphylococci, HIV, hepatitisis, and other organisms.

***Associated with sexual assaults.

Resource from National Institute on Drug Abuse, March 2011

Signs of Addiction

Signs that you or someone you know may have a drug or alcohol addiction include:

**Psychological signals**
- Use of drugs or alcohol as a way to forget problems or to relax
- Withdrawal or keeping secrets from family and friends
- Loss of interest in activities that used to be important
- Problems with schoolwork, such as slipping grades or absences
- Changes in friendships, such as hanging out only with friends who use drugs
- Spending a lot of time figuring out how to get drugs
- Stealing or selling belongings to be able to afford drugs
- Failed attempts to stop taking drugs or drinking
- Anxiety, anger, or depression
- Mood swings

**Physical signals**
- Changes in sleeping habits
- Feeling shaky or sick when trying to stop
- Needing to take more of the substance to get the same effect
- Changes in eating habits, including weight loss or gain

ACCOUNTING

The Accounting curriculum is designed to provide students with the knowledge and the skills necessary for employment and growth in the accounting profession. Using the “language of business,” accountants assemble and analyze, process, and communicate essential information about financial operations.

In addition to course work in accounting principles, theories, and practice, students will study business law, finance, management, and economics. Related skills are developed through the study of communications, computer applications, financial analysis, critical thinking skills, and ethics.

Graduates should qualify for entry-level accounting positions in many types of organizations including accounting firms, small businesses, manufacturing firms, banks, hospitals, school systems, and governmental agencies. With work experience and additional education, an individual may advance in the accounting profession.

Awards

Associate Degree: Accounting (A25100)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, 2 units of Algebra, Placement Test Equivalent

Diploma: Not Applicable
Length of Program: 
Prerequisite: 

Certificate: Payroll Accounting Certificate (C25100C1)
Length of Program: 3 Semesters
Prerequisite: Placement Test Equivalent

Certificate: Tax Preparer Certificate (C25100C2)
Length of Program: 2 Semesters
Prerequisite: Placement Test Equivalent

Certificate: Computerized Accounting Certificate (C25100C3)
Length of Program: 3 Semesters
Prerequisite: Placement Test Equivalent

Certificate: Small Business/Entrepreneur Certificate (C25100C4)
Length of Program: 3 Semesters
Prerequisite: Placement Test Equivalent

Certificate: Cost/Managerial Accounting Certificate (C25100C5)
Length of Program: 4 Semesters
Prerequisite: Placement Test Equivalent

Certificate: Accounting Foundations Certificate (C25100H1)
Length of Program: 2 Semesters
Prerequisite: Placement Test Equivalent

Work Based Learning Requirements/Opportunities: For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: None Required

Program Information Contact:
Curriculum Chairperson: Ron O’Brien
Telephone Number: (910) 678-8512
Office Location: Cumberland Hall, Room 377V
Email: obrienr@faytechcc.edu
Department Office: Cumberland Hall, Room 377
Telephone: (910) 678-8292
FTCC Web Site: www.faytechcc.edu

Application Deadlines: The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson.

Scholarship/Title IV Financial Aid/VA Services: Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126; Telephone (910) 678-8242. Veterans Services, Student Center, Room 119, (910) 678-8395.

Child Care Financial Assistance Information: See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486

A/C, HEATING AND REFRIGERATION TECHNOLOGY A35100

The Air Conditioning, Heating, and Refrigeration Technology curriculum provides the basic knowledge to develop skills necessary to work with residential and light commercial systems.

Topics include mechanical refrigeration, heating and cooling theory, electricity, controls, and safety. The diploma program covers air conditioning, furnaces, heat pumps, tools and instruments. In addition, the AAS degree covers residential building codes, residential system sizing, and advanced comfort systems.

Diploma graduates should be able to assist in the start up, preventive maintenance, service, repair, and/or installation of residential and light commercial systems. AAS degree graduates should be able to demonstrate an understanding of system selection and balance and advanced systems.

Awards

A/C, HEATING & REFRIGERATION (D35100)
Evening/Weekend Program
Effective: Fall 2014
Revised Date: 02/20/14

This two-year evening diploma program is designed to prepare individuals for entry-level positions in the air conditioning, heating, and refrigeration field. Courses include basic hands-on training in the installation, maintenance, and repair of residential heating and air conditioning equipment.

Numerous opportunities for employment as A/C, Heating and Refrigeration assistants exist throughout the area.

Length: 6 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Diploma

### ARCHITECTURAL TECHNOLOGY A40100

A program that prepares individuals to assist architects, engineers, and construction professionals in developing plans and related documentation for residential and commercial projects in both the private and public sectors. Includes instruction in architectural drafting, computer-assisted drafting, construction materials and methods, environmental systems, codes and standards, structural principles, cost estimation, planning, graphics, and presentation.

This curriculum is designed to prepare individuals to apply technical knowledge and skills to the fields of architecture, construction, construction management, and other associated professions. Course work includes instruction in sustainable building and design, print reading, building codes, estimating, construction materials and methods, and other topics related to design and construction occupations. Graduates of this pathway should qualify for entry-level jobs in architectural, engineering, construction and trades professions as well as positions in industry and government.

**Awards**

- **Associate Degree:** Architectural Technology (A40100)
- **Length of Program:** 5 Semesters
- **Prerequisite:** High School Diploma, Placement Test Equivalent
- **Diploma:** Not Applicable
- **Length of Program:**
- **Prerequisite:**

ASSOCIATE DEGREE NURSING (A45110)

The Associate Degree Nursing curriculum provides knowledge, skills, and strategies to integrate safety and quality into nursing care, to practice in a dynamic environment, and to meet individual needs which impact health, quality of life, and achievement of potential.

Course work includes and builds upon the domains of healthcare, nursing practice, and the holistic individual. Content emphasizes the nurse as a member of the interdisciplinary team providing safe, individualized care while employing evidence-based practice, quality improvement, and informatics.

Graduates of this program are eligible to apply to take the National Council Licensure Examination (NCLEX-RN). Employment opportunities are vast within the global health care system and may include positions within acute, chronic, extended, industrial, and community health care facilities.

Awards

Associate Degree: Associate Degree Nursing (A45110)
Length of Program: 5 Semesters
Prerequisite: Must meet College Admission Criteria, current,
unrestricted, and on North Carolina Registry CNA I (program must require a combination of clinical/classroom/laboratory hours) and/or LPN, TEAS Test score proficient or higher. In addition for Advanced Placement, current unrestricted LPN license with 3600 hours of work experience as an LPN within the past four years. 1 Unit of Biology, Algebra & Chemistry.

**Diploma:** Not Applicable  
**Length of Program:** 
**Prerequisite:**

**Certificate:** Not Applicable  
**Length of Program:**  
**Prerequisite:***

**Work Based Learning Requirements/Opportunities:** For work based learning requirements/opportunities please see the appropriate Program Sequencing sheet.

**License or Certification Information:** Graduates are eligible to apply to take the National Council Licensure Examination (NCLEX-RN), which is required to practice as a Registered Nurse.

**Programmatic Accreditation:** Accredited by: Accreditation Commission for Education in Nursing (ACEN), 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326, Ph# (404) 975-5000

**Approved by:** North Carolina Board of Nursing, P.O. Box 2129, Raleigh, NC 27602 Ph# (919) 782-3211

**Program Information Contact:**  
Curriculum Chairperson: Carolyn Stovall

ASSOCIATE IN ARTS  

A10100

The College Transfer program is designed for students who intend to transfer to a four-year college or university to pursue a baccalaureate degree. Students in this program are responsible for examining the requirements of the four-year college or university to which they plan to transfer for completion of their degree. Counselors and advisors are available to assist students in planning their program.

The course work in the program includes humanities/fine arts, social/behavioral sciences, mathematics, physical education, English, communications and the sciences. The Associate in Arts program concentrates heavily on the humanities and social sciences and is recommended for those who plan to continue in a Bachelor of Arts degree program. The Associate in Science program leans more toward mathematics and the physical and life sciences and is intended for those pursuing the Bachelor of Science degree.

Upon completion of the program, the student will receive an associate in arts degree.

ASSOCIATE IN GENERAL EDUCATION   A10300

The Associate in General Education curriculum is designed for the academic enrichment of students who wish to broaden their education, with emphasis on personal interest, growth and development.

Course work includes study in the areas of humanities and fine arts, social and behavioral sciences, natural science and mathematics, and English composition. Opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and the basic use of computers will be provided.

Through these skills, students will have a sound base for lifelong learning. Graduates are prepared for advancements within their field of interest and become better qualified for a wide range of employment opportunities.

AUTOMOTIVE SYSTEMS TECHNOLOGY A60160

The Automotive Systems Technology program prepares individuals for employment as automotive service technicians. It provides an introduction to automotive careers and increases student awareness of the challenge associated with this fast and ever-changing field. Classroom and lab experiences integrate technical and academic course work. Emphasis is placed on theory, servicing and operation of brakes, electrical/electronic systems, engine performance, steering/suspension, automatic transmission/transaxles, engine repair, climate control, and manual drive trains.

After completion of this curriculum, students should be prepared to take the ASE exam and be ready for full-time employment in dealerships and repair shops in the automotive service industry.

Awards

Associate Degree: Automotive Systems Technology (A60160)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Diploma: Not Applicable
Length of Program:
Prerequisite:

Certificate: Automotive Suspension, Brakes, & Heating/Air Conditioning Certificate (C60160C1)

Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Automotive Engine Performance Certificate (C60160C2)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Automotive Power Trains Certificate (C60160C3)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Automotive Electrical/Electronics Systems Certificate (C60160C4)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Automotive Suspension, Brakes, & Heating/Air Conditioning Certificate (C60160H1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Work Based Learning Requirements/Opportunities: For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: None Required

Program Information Contact:
Curriculum Chairperson: Brian Oldham
Telephone Number: (910) 678-8260
Office Location: Advanced Technology Center, Room 15A
Email: oldhamb@faytechcc.edu
Department Office: Advanced Technology Center, Room 244
Telephone: (910) 678-8458
FTCC Web Site: www.faytechcc.edu

Application Deadlines: The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson.

Scholarship/Title IV Financial Aid/VA Services: Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126; Telephone (910) 678-8242. Veterans Services, Student Center, Room 119, (910) 678-8395.

Child Care Financial Assistance Information: See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486

Revised: 02/20/13

AUTOMOTIVE SYSTEMS TECHNOLOGY (A60160)
Effective: Fall 2013
Revised: 02/20/13

Length: 5 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Award: Associate in Applied Science

---

**Work Based Learning/Co-op Option**: Qualified students may elect to take up to one (1) credit hour of Cooperative Education in lieu of one (1) credit hour of Major electives provided they acquire approval from the Department Chairperson and the Co-op Director.

**Note**: Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

### AUTOMOTIVE SYSTEMS TECHNOLOGY/AUTOMOTIVE SUSPENSION, BRAKES, AND HEATING/AIR CONDITIONING CERTIFICATE (C60160C1)

**Effective**: Fall 2013  
**Revised**: 02/20/13

This evening certificate program is designed to prepare moderately experienced automotive mechanics to take ASE certification exams in three areas. The certification areas include: A4-Suspension and Steering; A5-Brakes; and A7-Heating and Air Conditioning. The courses focus on the certificate-related competencies.

Courses in this program can be transferred directly into the Automotive Systems Technology associate degree curriculum.

**Length**: 2 Semesters  
**Prerequisite**: High School Diploma, Placement Test Equivalent  
**Award**: Certificate

BASIC LAW ENFORCEMENT TRAINING   C55120

Basic Law Enforcement Training (BLET) is designed to give students essential skills required for employment as a law enforcement officer with state, county, or municipal governments, or with private enterprise.

This program utilizes State commission-mandated topics and methods of instruction. General subjects include, but are not limited to, criminal, juvenile, civil, traffic, and alcoholic beverage laws, investigative, patrol, custody, and court procedures, emergency responses, ethics and community relations.

Successful graduates receive a curriculum certificate and are qualified to take the certification examinations mandated by the North Carolina Criminal Justice Education and Training Standards Commission.

Work Based Learning Option: NA

Successful graduates receive a curriculum certificate and are qualified to take the certification examinations mandated by the North Carolina Criminal Justice Education and Training Standards Commission. Successful graduates will also receive credit for the following curriculum courses: CJC-131, CJC-132, CJC-221, CJC-225, and CJC-231.

BUILDING CONSTRUCTION TECHNOLOGY   A35140

These curriculums are designed to prepare individuals to apply technical knowledge and skills to the fields of architecture, construction, construction management, and other associated professions.

Course work includes instruction in sustainable building and design, print reading, building codes, estimating, construction materials and methods, and other topics related to design and construction occupations.

Graduates of this pathway should qualify for entry-level jobs in architectural, engineering, construction and trades professions as well as positions in industry and government.

Building Construction Technology:
A program that prepares individuals to apply technical knowledge
and skills to residential and commercial building construction and remodeling. Includes instruction in construction equipment and safety; site preparation and layout; construction estimating; print reading; building codes; framing; masonry; heating, ventilation, and air conditioning; electrical and mechanical systems; interior and exterior finishing; and plumbing.

**Awards**

**Associate Degree:** Building Construction Technology (A35140)

**Length of Program:** 5 Semesters

**Prerequisite:** High School Diploma, Placement Test Equivalent

BUSINESS ADMINISTRATION A25120

The Business Administration curriculum is designed to introduce students to the various aspects of the free enterprise system. Students will be provided with a fundamental knowledge of business functions, processes, and an understanding of business organizations in today’s global economy.

Course work includes business concepts such as accounting, business law, economics, management, and marketing. Skills related to the application of these concepts are developed through the study of computer applications, communication, team building, and decision making.

Through these skills, students will have a sound business education base for lifelong learning. Graduates are prepared for employment opportunities in government agencies, financial institutions, and large to small businesses or industries.

Awards

Associate Degree: Business Administration (A25120)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Diploma: Not Applicable
Length of Program: Prerequisite:

Certificate: Small Business Startup (C25120C1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, 1 Unit of Algebra, Placement Test Equivalent

Certificate: Small Business Management (C25120C2)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, 1 Unit of Algebra, Placement Test Equivalent

Certificate: Entrepreneurship I (C25120C5)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Entrepreneurial Innovation (C25120C6)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Entrepreneurial Applications (C25120C7)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Contract Management (C25120C8)
Length of Program: 2 Semesters

### BUSINESS ADMINISTRATION/ HUMAN RESOURCES MANAGEMENT/ EQUAL OPPORTUNITY AND EMPLOYEE RELATIONS CERTIFICATE (C2512CC1)

This certificate is designed to provide individuals with the basics of employment law and regulations for both public and private sector employee relations positions. In addition, individuals will acquire knowledge which will enable them to employ ethical practices in their interactions with employees.

The certificate covers the basics of business and employment law, diversity in management, and general human resources management practices. Also included in the program are the foundations of organizations behavior.

Upon completion of the certificate, students should be able to research and analyze data in the areas of contract and employment law and apply this information in the workplace in an employee relations position. Students should be able to transfer the course credits to the Business Administration/Human Resources Management program for an Associate of Applied Science degree.

Length: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

This certificate is designed to provide individuals with the skills necessary to provide support for the day-to-day operations of a human resources office. The duties of an HR Assistant will include supporting the administration of policies, procedures, and programs. A HR Assistant will handle such responsibilities as employee, departmental, and organizational development.

The certificate program covers the basics of HR office management: legal and regulatory concerns, diversity issues, recruitment and selection, compensation and benefits, and employee training and development. Also included are personnel planning activities.

Upon completion of the certificate, students should be able to effectively assist with the management of a Human Resources office. Students should be able to transfer the course credits to the Business Administration/Human Resources Management program for an Associate of Applied Science degree.

Length: 2 Semesters

BUSINESS ADMINISTRATION/PUBLIC ADMINISTRATION A2512H

Public Administration is a concentration under the curriculum title of Business Administration. This curriculum prepares students for entry into management positions in state/local governments and not-for-profit organizations, provides education for current employees, and informs citizens of governmental functions.

Course work includes study and practical application to personnel administration, decision-making, ethics, organizational theories, and budgetary, and other governmental issues. Emphasis is placed on building analytical skills, stimulating moral imagination, and recognizing the discretionary power of the administrator’s role.

Through acquisition of knowledge and skills, individuals should be able to perform governmental activities. By developing personal competencies and qualities, graduates will be eligible for employment in the public administration profession.

### BUSINESS ADMINISTRATION/PUBLIC ADMINISTRATION/NONPROFIT MANAGEMENT CERTIFICATE (C2512HC3)

**Effective:** Fall 2014  
**Revised:** 02/28/14

The Nonprofit Management Certificate is designed to provide individuals with the fundamental principles of nonprofit management.

This certificate program covers coursework in fundraising/stewardship, governance, leadership, marketing and legal/ethical issues related to nonprofit organizations.

Upon completion of this program, students should have a mastery of the skill sets necessary to take a lead position in a nonprofit organization.

**Length:** 2 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent  
**Award:** Certificate

**CARPENTRY**  
**D35180**

These curriculums are designed to prepare individuals to apply technical knowledge and skills to the fields of architecture, construction, construction management, and other associated professions.

Course work includes instruction in sustainable building and design, print reading, building codes, estimating, construction materials and methods, and other topics related to design and construction occupations.

Graduates of this pathway should qualify for entry-level jobs in architectural, engineering, construction and trades professions as well as positions in industry and government.

**Carpentry**: 
A program that prepares individuals to apply technical knowledge and skills to lay out, cut, fabricate, erect, install, and repair wooden structures and fixtures, using hand and power tools. Includes instruction in technical mathematics, framing, construction materials and selection, job estimating, print reading, foundations and roughing-in, finish carpentry techniques, and applicable codes and standards.

**Awards**

**Diploma**: Carpentry (D35180)  
**Length of Programs**: 3 Semesters  
**Prerequisite**: High School Diploma, Placement Test Equivalent

**Certificate**: General Contractor’s License Preparation (C35180C1)  
**Length of Program**: 2 Semesters  
**Prerequisite**: High School Diploma, Placement Test Equivalent

**Work Based Learning Requirements/Opportunities**: For Work

Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

**License or Certification Information**: None Required

**Program Information Contact**:  
Curriculum Chairperson: Keith Carter  
Telephone Number: (910) 678-8475  
Office Location: Cumberland Hall Room 319

**COLLISION REPAIR AND REFINISHING TECHNOLOGY**  A60130

The Collision Repair and Refinishing Technology program prepares individuals to apply technical knowledge and skills to repair, reconstruct and finish automobile bodies, fenders, and external features. Includes instruction in structure analysis, damage repair, non-structural analysis, mechanical and electrical components, plastics and adhesives, painting and refinishing techniques, and damage analysis and estimating.

Curriculums in the Mobile Equipment Maintenance and Repair pathway prepare individuals for employment as entry-level transportation service technicians. The program provides an introduction to transportation industry careers and increases student awareness of the diverse technologies associated with this dynamic and challenging field.

Course work may include transportation systems theory, braking systems, climate control, design parameters, drive trains, electrical/electronic systems, engine repair, engine performance, environmental regulations, materials, product finish, safety, steering/suspension, transmission/transaxles, and sustainable transportation, depending on the program major area chosen.

Graduates of the Collision Repair and Refinishing Technology program should be qualified to take National Institute for Automotive Service Excellence (ASE) certification examinations and also for entry-level employment in automotive dealerships, independent repair shops, or through self-employment, as collision repair and refinishing technicians.

**Awards**

**Associate Degree:** Collision Repair and Refinishing Technology (A60130)
**Length of Program:** 5 semesters
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Diploma:** Collision Repair and Refinishing Technology (D60130)
**Length of Program:** 3 semesters
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Basic Collision Repair and Refinishing Technology Certificate (C60130C1)
**Length of Program:** 2 Semesters
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Basic Collision Repair and Refinishing Technology Certificate (C60130H1)
**Length of Program:** 4 Semesters

BASIC COLLISION REPAIR AND REFINISHING TECHNOLOGY CERTIFICATE (C60130C1)
Evening/Weekend Program
Effective: Fall 2014
Revised: 05/28/14

This evening certificate program is designed to prepare individuals for entry-level positions as helpers in the auto body repair industry. Instruction will include hands-on repairs in the areas of non-structural and structural repairs, plastics and adhesives, refinishing.

Completers will be prepared for employment as entry-level helpers in the auto body repair industry.

Courses in this program can be transferred directly into the Collision Repair and Refinishing diploma curriculum.

Length: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

COMPUTER INFORMATION TECHNOLOGY A25260

The Computer Information Technology curriculum is designed to prepare graduates for employment with organizations that use computers to process, manage, and communicate information. This is a flexible curriculum that can be customized to meet community information systems needs.

Course work will develop a student’s ability to communicate complex technical issues related to computer hardware, software, and networks in a manner that computer users can understand. Classes cover computer operations and terminology, operating systems, database, networking, security, and technical support.

Graduates should qualify for employment in entry-level positions with businesses, educational systems, and governmental agencies which rely on computer systems to manage information. Graduates should be prepared to sit for industry-recognized certification exams.

Awards
Associate Degree: Computer Information Technology (A25260) Length of Program: 5 Semesters Prerequisite: 2 Units of Algebra, Placement Test Equivalent
Diploma: Not Applicable Length of Program: Prerequisite:
Certificate: Computer Technologies (C25260C1) Length of Program: 2 Semesters Prerequisite: High School Diploma, Placement Test Equivalent
Certificate: Linux (C25260C2) Length of Program: 3 Semesters Prerequisite: High School Diploma, Placement Test Equivalent
Certificate: Hardware and Software (C25260C3) Length of Program: 3 Semesters Prerequisite: High School Diploma, Placement Test Equivalent
Certificate: Microsoft Networking (C25260C4) Length of Program: 2 Semesters Prerequisite: High School Diploma, Placement Test Equivalent
Certificate: Microsoft Desktop Support (C25260C6) Length of Program: 3 Semesters Prerequisite: High School Diploma, Placement Test Equivalent
Certificate: Hardware and Software (C25260H1) Length of Program: 3 Semesters Prerequisite: High School Diploma, Placement Test Equivalent

Work Based Learning Requirements/Opportunities: For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

## COMPUTER INFORMATION TECHNOLOGY/COMPUTER TECHNOLOGIES CERTIFICATE (C25260C1)
**Effective:** Fall 2014  
**Revised:** 02/28/14

The Computer Technologies Certificate will expose the student to a general overview of the computer area. Students will study computers, networks, operating systems and programming. Graduates from this are prepared to work as a Computer Technician, or to apply these classes to any other degree in the computer division.

**Length:** 2 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent  
**Award:** Certificate

## COMPUTER INFORMATION TECHNOLOGY/LINUX CERTIFICATE (C25260C2)
**Effective:** Fall 2014  
**Revised:** 02/28/14

The Linux Certificate will expose the student to the fundamentals of Linux operating system and will give them the tools to deploy, operate, and troubleshoot a Linux-based network. This program will also cover the core exam objectives of the Linux + Certification exam. Students are prepared to work in the field as operators and network technicians supporting Linux products.

Courses in this program can be transferred directly into the Computer Technologies Applied Science degrees.

**Length:** 3 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent  
**Award:** Certificate

COMPUTER- INTEGRATED MACHINING  A50210

The Computer-Integrated Machining curriculum prepares students with the analytical, creative and innovative skills necessary to take a production idea from an initial concept through design, development and production, resulting in a finished product.

Coursework may include manual machining, computer applications, engineering design, computer-aided drafting (CAD), computer-aided machining (CAM), blueprint interpretation, advanced computerized numeric control (CNC) equipment, basic and advanced machining operations, precision measurement and high-speed multi-axis machining.

Graduates should qualify for employment as machining technicians in high-tech manufacturing, rapid-prototyping and rapid-manufacturing industries, specialty machine shops, fabrication industries, and high-tech or emerging industries such as aerospace, aviation, medical, and renewable energy, and to sit for machining certification examinations.

Awards

Associate Degree: Computer-Integrated Machining (A50210)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

**COMPUTER-INTEGRATED MACHINING TECHNOLOGY/BASIC COMPUTER-INTEGRATED MACHINING CERTIFICATE (C50210C1)**

Effective: Fall 2013
Revised: 01/16/13

This evening certificate program is designed to develop fundamental skills in the operation of machine tools including drilling, turning, milling, and grinding. Training in basic measuring, layout, and blueprint reading is also provided.

Completers will be prepared for employment as entry-level machine operators or machinist apprentices in area manufacturing firms.

Courses in this program can be transferred directly into the Machining Technology associate degree curriculum.

Length: 4 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

COMPUTER PROGRAMMING A25130

The Computer Programming curriculum prepares individuals for employment as computer programmers and related positions through study and applications in computer concepts, logic, programming procedures, languages, generators, operating systems, networking, data management, and business operations.

Students will solve business computer problems through programming techniques and procedures, using appropriate languages and software. The primary emphasis of the curriculum is hands-on training in programming and related computer areas that provide the ability to adapt as systems evolve.

Graduates should qualify for employment in business, industry, and government organizations as programmers, programmer trainees, programmer/analysts, software developers, computer operators, systems technicians, database specialist, computer specialist, software specialist, or information systems managers.

Awards

Associate Degree: Computer Programming (A25130)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Diploma: Not Applicable
Length of Program: Prerequisite:

Certificate: Visual Basic Programming Certificate (C25130C4)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: JAVA Programming Certificate (C25130C5)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Database Programming Certificate (C25130C6)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: C# Programming Certificate (C25130C7)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Mobile Application Development Certificate (C25130C8)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Work Based Learning Requirements/Opportunities: For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: None Required

Program Information Contact:
Curriculum Chairperson: Jenneth Honeycutt
Telephone Number: (910) 678-7354
Office Location: Advanced Technology Center, Room 113H
Email: honeycuj@faytechcc.edu
Department Office: Advanced Technology Center, Room 113
Telephone: (910) 678-8347
FTCC Web Site: www.faytechcc.edu/business_programs/computer_programming_welcome.aspx

Application Deadlines: The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson.

Scholarship/Title IV Financial Aid/VA Services: Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126; Telephone (910) 678-8242. Veterans Services, Student Center, Room 119, (910) 678-8395.

The Database Programming certificate is designed to prepare individuals for employment in designing databases, determining information requirements of users; using technology systems and processes to devise means through which to gather and sort needed information; and implementing effective solutions for reporting necessary information using industry-standard database tools. Certificate holders may qualify for entry level/hands-on positions in this or a related area.

Students will solve business computer problems through database programming techniques and procedures.

Upon completion of this program, a student will have the necessary database skills for an entry-level database programming position in business, industry, and government organizations.

---

The Cosmetology curriculum is designed to provide competency-based knowledge, scientific/artistic principles, and hands-on fundamentals associated with the cosmetology industry. The curriculum provides a simulated salon environment which enables students to develop manipulative skills.

Course work includes instruction in all phases of professional imaging, hair design, chemical processes, skin care, nail care, multi-cultural practices, business/computer principles, product knowledge, and other selected topics.

Graduates should qualify to sit for the State Board of Cosmetic Arts examination. Upon successfully passing the State Board exam, graduates will be issued a license. Employment is available in beauty salons and related businesses.

**Awards**

**Associate Degree**: Cosmetology (A55140)
**Length of Program**: 5 Semesters
**Prerequisite**: High School Diploma, Placement Test Equivalent

**TOTAL REQUIRED CREDITS... 70**

Work Based Learning Option: NA

*ENG-101 and PSY-101 will not transfer to Associate Degree programs.*

**CRIMINAL JUSTICE TECHNOLOGY A55180**

The Criminal Justice Technology curriculum is designed to provide knowledge of criminal justice systems and operations. Study will focus on local, state, and federal law enforcement, judicial process, corrections, and security services. The criminal justice system's role within society will be explored.

Emphasis is on criminal justice systems, criminology, juvenile justice, criminal and constitutional law, investigative principles, ethics, and community relations. Additional study may include issues and concepts of government, counseling, communications, computers, and technology.

Employment opportunities exist in a variety of local, state, and federal law enforcement, corrections, and security fields. Examples include police officer, deputy sheriff, county detention officer, state trooper, intensive probation/parole surveillance officer, correctional officer, and loss prevention specialist.

**Awards**

*Associate Degree: Associate in Applied Science Criminal Justice Technology (A55180)*

*Length of Program: 5 Semesters*

*Prerequisite: High School Diploma, Placement Test Equivalent*
Diploma: Not Applicable
Length of Program: 
Prerequisite: 

Certificate: Essential Law Enforcement Operations Certificate (C55180C4)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Courts and the Law Certificate (C55180C5)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Principles of Corrections Certificate (C55180C6)
Length of Program: 2 Semesters

CRIMINAL JUSTICE TECHNOLOGY/ LATENT EVIDENCE CONCENTRATION  A5518A

Latent Evidence is a concentration under the curriculum of Criminal Justice Technology. This curriculum is designed to provide knowledge of latent evidence systems and operations. Study will focus on local, state and federal law enforcement, evidence processing and procedures.

Students will learn both theory and hands-on analysis of latent evidence. They will learn fingerprint classification, identification, and chemical development. Students will record, cast and recognize footwear and tire-tracks; and process crime scenes. Issues and concepts of communications and the use of computers and computer assisted design programs in crime scene technology will be discussed.

Graduates should qualify for employment in a variety of criminal justice organizations especially in local, state, and federal law enforcement, and correctional agencies.

Awards

CULINARY ARTS
A55150

This curriculum provides specific training required to prepare students to assume positions as trained culinary professionals in a variety of foodservice settings including full service restaurants, hotels, resorts, clubs, catering operations, contract foodservice and health care facilities.

Students will be provided theoretical knowledge/practical applications that provide critical competencies to meet industry demands, including environmental stewardship, operational efficiencies and professionalism. Courses include sanitation/safety, baking, garde manger, culinary fundamentals/production skills, nutrition, customer service, purchasing/cost control, and human resource management.

Graduates should qualify for entry-level opportunities including prep cook, line cook, and station chef. American Culinary Federation certification may be available to graduates. With experience, graduates may advance to positions including sous chef, pastry chef, executive chef, or foodservice manager.

Work Based Learning Option: Students are required to take two (2) credit hour of Work Based Learning in lieu of a Major elective provided they acquire approval from the Co-op/Work Based Learning Coordinator and the Department Chairperson.

*Note: Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

CULINARY ARTS/ PANTRY CHEF CERTIFICATE (GARDE MANGER) (C55150C1)
Effective: Fall 2014
Revised: 03/05/14
Length: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

The Pantry Chef Certificate (Garde Manger) is designed to prepare students who would like to be employed in the banquet, catering, cold foods and display professions or for those with some culinary experience who want to further their knowledge in this specialized area.

Students will learn to prepare salads, dressings, cold sauces, garnishes, pâtés, terrines, ice carvings, canapes, hor d’oeuvres and other related topics.

The program will enhance the student’s cold food preparation, presentation and display skills.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
## CULINARY ARTS/BAKING CERTIFICATE (C55150C2)

**Effective:** Fall 2014  
**Revised:** 03/05/14

The Baking Certificate is designed to prepare students who would like to be employed as a baking professional.

Students will learn fundamentals of bakeshop operations and will prepare various bread products, pastries, cakes, cookies, classical desserts, sugar works, and confections.

The program will enhance the students’ cake decorating and dessert preparation skills.

**Length:** 2 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent  
**Award:** Certificate

## CULINARY ARTS/DEMI-CHEF CERTIFICATE (C55150C3)

**Effective:** Fall 2014  
**Revised:** 03/05/14

The Demi-Chef Certificate is designed to prepare students for an entry-level position in the culinary field. The program will give the students the basic culinary skills necessary to be an assistant to a chef otherwise known in the Classical Brigade as a Demi-Chef. Students will learn to prepare both hot and cold foods including but not limited to salads, dressings, canapés, hor d’oeuvres, cold and hot sauces, garnishes, vegetables, meats and other food items using a variety of cooking methods. Students will learn to operate commercial kitchen equipment, use correct sanitation and safety procedures in the kitchen, and correct purchasing procedures.

The program will enhance the student’s food preparation, presentation and display skills.

**Length:** 2 Semesters  
**Other Requirements:** 2 Chef Uniforms, Textbook  
**Prerequisite:** High School Diploma, Placement Test Equivalent  
**Award:** Certificate

DENTAL ASSISTING  D45240  Associate, Student Center, Room 142; Telephone: (910) 678-8486

The Dental Assisting curriculum prepares individuals to assist the dentist in the delivery of dental treatment and to function as integral members of the dental team while performing chair side and related office and laboratory procedures.

Course work includes instruction in general studies, biomedical sciences, dental sciences, clinical sciences, and clinical practice. A combination of lecture, laboratory, and clinical experiences provides students with knowledge in infection/hazard control, radiography, dental materials, preventive dentistry, and clinical procedures.

As a Dental Assistant II, defined by the Dental Law of North Carolina, graduates work in dental offices and other related areas.

Awards

Associate Degree: Not Applicable
Length of Program:
Prerequisite:
Diploma: Dental Assisting (D45240)
Length of Program: 3 Semesters
Prerequisite: Mat-060, 1 unit Biology, Placement Test Credit Equivalent

Certificate: Not Applicable
Length of Program:
Prerequisite:

Work Based Learning Requirements/Opportunities: For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: None required.

DENTAL HYGIENE  

The Dental Hygiene curriculum prepares individuals with the knowledge and skills to assess, plan, implement, and evaluate dental hygiene care for the individual and the community.

Students will learn to prepare the operatory, take patient histories, note abnormalities, plan care, teach oral hygiene, clean teeth, take x-rays, apply preventive agents, complete necessary chart entries, and perform other procedures related to dental hygiene care.

Graduates of this program may be eligible to take national and state/regional examinations for licensure, which are required to practice dental hygiene. Employment opportunities include dental offices, clinics, schools, public health agencies, industry, and professional education.

Awards

Associate Degree: Dental Hygiene (A45260)
Length of Program: 5 Semesters
Prerequisite: 1 Unit of Biology
1 Unit of Algebra
1 Unit of Chemistry, Placement Test Credit Equivalent, TEAS test score proficient or higher

Diploma: Not Applicable
Length of Program: Not Applicable
Prerequisite: Not Applicable

Work Based Learning Education Requirements/Opportunities:
For work based learning education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

License or Certification Information:
Students are eligible to sit for both the National Dental Hygiene Board and the NC State Dental Hygiene Board or applicable state or regional boards.

Program Information Contact:
Department Chair: Susan S. Ellis
Telephone Number: (910) 678-8575
Office Location: Health Technology Center, Room101D
Email: elliss@faytechcc.edu
Department Office: Health Technology Center, Room 101
Telephone: (910) 678-8254
FTCC Web Site: www.faytechcc.edu

Application Deadlines:
The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson. Students should apply by January 30th. Specific health program admission requirements must be met before a student is eligible for admission.

Scholarship/Title IV Financial Aid/VA Services:
Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126; Telephone (910) 678-8242. Veterans Services, Student Center, Room 119, (910) 678-8395.

Child Care Financial Assistance Information: See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486

Revised: 02/21/14

DENTAL HYGIENE (A45260)
Effective: Fall 2014
Revised: 02/21/14

Length: 5 Semesters
Prerequisites: 1 Unit of Biology, Algebra & Chemistry, Placement Test Credit Equivalent, TEAS test score proficient or higher
Award: Associate in Applied Science

TOTAL REQUIRED CREDITS... 75

Work Based Learning Option: NA

*Note: Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

Dental hygiene students will not discriminate against patients on the grounds of race, color, national origin, religion, sex, age, disability, or political affiliation. No student will be allowed to deliver patient services in any setting until s/he has been instructed in infection control (as per OSHA guidelines) and has mastered material on safety/universal precautions with satisfactory accuracy. Following mastery of infection control skills and under faculty supervision, each student will be expected to provide services for Patients with health deviations, including patients with HIV/HBV and other blood borne/infectious diseases, as part of routine Clinical/lab curriculum experiences.

EARLY CHILDHOOD ASSOCIATE

The Early Childhood Associate curriculum prepares individuals to work with children from infancy through middle childhood in diverse learning environments. Students will combine learned theories with practice in actual settings with young children under the supervision of qualified teachers.

Course work includes child growth and development; physical/nutritional needs to children; care and guidance of children; and communications skills with parents and children. Students will foster the cognitive/language, physical/motor, social/emotional, and creative development of young children.

Graduates are prepared to plan and implement developmentally appropriate programs in early childhood settings. Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Head Start Programs, and school-age programs.

**Awards**

**Associate Degree:** Associate in Applied Science Early Childhood Associate (A55220)

**Length of Program:** 5 Semesters

**Prerequisite:** High School Diploma, Placement Test Equivalent

**Diploma:** Not Applicable

**Length of Program:** Not Applicable

**Prerequisite:**

**Certificate:** Certificate in Child Care Administration (C55220C1)

**Length of Program:** 2 Semesters

**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Certificate in Child Care Development (C55220C2)

**Length of Program:** 2 Semesters

**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Certificate in Child Care Professional (C55220C3)

**Length of Program:** 2 Semesters

**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Lateral Entry Teacher Certificate (C55220C6)

**Length of Program:** 2 Semesters

**Prerequisite:** Bachelor Degree, Placement Test Equivalent

**Work Based Learning Requirements/Opportunities:** For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

### EARLY CHILDHOOD ASSOCIATE/  
CERTIFICATE IN CHILD CARE DEVELOPMENT (C55220C2)

**Effective:** Fall 2014  
**Revised:** 03/21/14

This certificate will provide a background in developmentally appropriate practices for children ages birth through eight years. Emphasis will be placed on age and individual appropriate program planning. Courses in this certificate will also focus on positive guidance techniques and effective communication with parents, children, and the community.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This certificate also provides an opportunity for the individual to obtain the North Carolina Early Childhood Credential Certificate.

Length: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

*Students must follow the guidelines for the Lateral Entry Teacher Certificate Program.

ELECTRICAL SYSTEMS TECHNOLOGY A35130

This curriculum is designed to provide training for persons interested in the installation and maintenance of electrical systems found in residential, commercial, and industrial facilities.

Coursework, most of which is hands-on, will include such topics as AC/DC theory, basic wiring practices, programmable logic controllers, industrial motor controls, applications of the National Electric Code,
and other subjects as local needs require.

Graduates should qualify for a variety of jobs in the electrical field as an on-the-job trainee or apprentice assisting in the layout, installation, and maintenance of electrical systems.

**Awards**

**Associate Degree:** Electrical Systems Technology (A35130)
- **Length of Program:** 5 Semesters
- **Prerequisite:** High School Diploma & 1 Unit of Algebra, Placement Test Equivalent

**Diploma:** Electrical Systems Technology (D35130)
- **Length of Program:** 3 Semesters
- **Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Basic Electricity, Motors and Controls, and PLC (C35130C1)
- **Length of Program:** 2 Semesters
- **Prerequisite:** Placement Test Equivalent

**Certificate:** Basic Electricity, Motors and Controls, and PLC (C35130H1)
- **Length of Program:** 2 Semesters
- **Prerequisite:** Placement Test Equivalent

**Certificate:** Introduction to Photovoltaic Systems (C35130H2)
- **Length of Program:** 2 Semesters
- **Prerequisite:** Placement Test Equivalent

**Work Based Learning Requirements/Opportunities:** For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
Work Based Learning Option: Qualified students may elect to take up to three (3) credit hours of Work Based Learning in lieu of a Major elective provided they acquire approval from the Co-op/Work Based Learning Coordinator and the Department Chairperson.

Note: Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

**ELECTRICAL SYSTEMS TECHNOLOGY (D35130)**

Effective: Fall 2014  
Revised: 02/21/14

This curriculum is designed to provide training for persons interested in the installation and maintenance of electrical systems found in residential, commercial, and industrial facilities.

Coursework, most of which is hands-on, will include such topics as AC/DC theory, basic wiring practices, programmable logic controllers, industrial motor controls, applications of the National Electric Code, and other subjects as local needs require.

Graduates should qualify for a variety of jobs in the electrical field as an on-the-job trainee or apprentice assisting in the layout, installation, and maintenance of electrical systems.

Length: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Diploma

**ELECTRONICS ENGINEERING TECHNOLOGY**

A course of study that prepares the students to apply basic engineering principles and technical skills to become technicians who design, build, install, test, troubleshoot, repair, and modify developmental and production electronic components, equipment, and systems such as industrial/computer controls, manufacturing systems, communication systems, and power electronic systems. Includes instruction in mathematics, basic electricity, solid-state fundamentals, digital concepts, and microprocessors or programmable logic controllers. Graduates should qualify for employment as electronics engineering technician, field service technician, instrumentation technician, etc.
maintenance technician, electronic tester, electronic systems integrator, bench technician, and production control technician.

**Awards**

**Associate Degree:** Electronics Engineering Technology (A40200)
**Length of Program:** 5 Semesters
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Diploma:** Electronics Engineering Technology (D40200)
**Length of Program:** 3 Semesters
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Electronics Engineering Technology Certificate (C40200C1)
**Length of Program:** 2 Semesters
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Work Based Learning Requirements/Opportunities:** For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

**License or Certification Information:** None Required

**Program Information Contact:**
Curriculum Chairperson: Beymer Bevill, Jr.
Telephone Number: (910) 678-8216
Office Location: Advanced Technology Center, Room 220D
Email: bevillb@faytechcc.edu
Department Office: Advanced Technology Center, Room 244
Telephone: (910) 678-8458
FTCC Web Site: www.faytechcc.edu

**Application Deadlines:** The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson.

**Scholarship/Title IV Financial Aid/VA Services:** Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126; Telephone (910) 678-8242. Veterans Services, Student Center, Room 119, (910) 678-8395.

**Child Care Financial Assistance Information:** See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486

**Electronics Engineering Technology (A40200)**
Effective: Fall 2013
Revised: 01/16/13

**Length:** 5 Semesters
**Prerequisite:** High School Diploma, Placement Test Equivalent
**Award:** Associate in Applied Science

EMERGENCY MANAGEMENT A55460

The Emergency Management curriculum is designed to provide students with a foundation of technical and professional knowledge needed for emergency services delivery in local and state government agencies. Study involves both management and technical aspects of law enforcement, fire protection, emergency medical services, and emergency planning.

Course work includes classroom and laboratory exercises to introduce the student to various aspects of emergency preparedness, protection, and enforcement. Students will learn technical and administrative skills such as investigative principles, hazardous materials, codes, standards, emergency agency operations, and finance.

Employment opportunities include ambulance services, fire/rescue agencies, law enforcement agencies, fire marshal offices, industrial firms, educational institutions, emergency management offices, and other government agencies. Employed persons should have opportunities for skilled and supervisory-level positions.

Awards

Associate Degree: Emergency Management (A55460)
Length of Program: 5 Semesters
Prerequisite: High School Diploma & Algebra I, Placement Test Equivalent

Diploma: Not Applicable
Length of Program: Prerequisite:

Certificate: Emergency Management Certificate (C55460C1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Emergency Management Certificate (C55460H1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Work Based Learning Requirements/Opportunities: For work based learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

**TOTAL REQUIRED CREDITS.... 68**

Students with a felony conviction may have limited Emergency Preparedness employment opportunities.

**Work Based Learning Option:** Qualified students may elect to take up to three (3) credit hours of Work Based Learning in lieu of a Major elective provided they acquire approval from the Co-op/Work Based Learning Coordinator and the Department Chairperson.

See program chair for information on transfer credits from the Fire Protection Technology program.

**Note:** Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

EMERGENCY MANAGEMENT CERTIFICATE (C55460C1)  
Effective: Fall 2013  
Revised: 03/07/13

Length: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent  
Award: Certificate

The Emergency Management Certificate program provides students with a foundation to build upon within emergency services delivery programs.

Topics include Sociology of Disaster, Mitigation & Preparedness, Response & Recovery, and Terrorism and Emergency Management.

This program will prepare students for entry level knowledge required for employment in the Emergency Management Industry.

EMERGENCY MEDICAL SCIENCE A45340

The Emergency Medical Science curriculum is designed to prepare graduates to enter the workforce as paramedics. Additionally, the program can provide an Associate Degree for individuals desiring an opportunity for career enhancement.

The course of study provides the student an opportunity to acquire basic and advanced life support knowledge and skills by utilizing classroom instruction, practical laboratory sessions, hospital clinical experience, and field internships with emergency medical service agencies.

Student progressing through the program may be eligible to apply for both state and national certification exams. Employment opportunities include ambulance services, fire and rescue agencies, air medical services, specialty areas of hospitals, industry, educational institutions, and governmental agencies.

Awards

Associate Degree: Emergency Medical Science (A45340)
Length of Program: 5 Semesters
Prerequisite: High School Diploma or GED, DMA-030 & 1 Unit of Biology, Placement Test Equivalent

Diploma: Not Applicable
Length of Program: 
Prerequisite: 

Certificate: Emergency Medical Science (C45340)
Length of Program: 1 Semester
Prerequisite: High School Diploma, GED, or Placement Test score of DRE-098

Certificate: Emergency Medical Science (C45340H1)
Length of Program: 1 Semester
Prerequisite: High School Diploma, GED, or Placement Test score of DRE-098

EMS Bridge: Emergency Medical Science (A45340B)
Length of Program: 2 Semesters
Prerequisite: DMA-030 & 1 Unit Biology; Current North Carolina or National Registry EMT-Paramedic; Current Healthcare Provider Level CPR; Current Advanced Cardiac Life Support Provider; Current Pediatric Advanced Life Support; Current Basic Trauma Life Support or Pre-Hospital Trauma Life Support; Two Thousand (2000) documented hours of Paramedic Level Work Experience; Two Letters of Recommendation: One from the Medical Director; One from the Training Officer or Supervisor

Work Based Learning Requirements/Opportunities: For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: Student completing the first semester of the Associate Degree Program or entering the Diploma Program should pass the North Carolina State or National Registry EMT-Basic Examination.

Program Information Contact:
Curriculum Chairperson: Rick Criste
Telephone Number: (910) 678-8515
Office Location: Health Technology Center, Room 169M
Email: crister@faytechcc.edu
Department Office: Health Technology Center, Room 169
Telephone: (910) 678-8264
FTCC Web Site: www.faytechcc.edu

Application Deadlines: The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson. Students should apply by January 30th. Specific health program admission requirements must be met before a student is eligible for admission.

Scholarship/Title IV Financial Aid/VA Services: Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126; Telephone (910) 678-8242. Veterans Services, Student Center, Room 119, (910) 678-8395.

Child Care Financial Assistance Information: See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486

FIRE PROTECTION TECHNOLOGY  

The Fire Protection Technology curriculum is designed to provide individuals with technical and professional knowledge to make decisions regarding fire protection for both public and private sectors. It also provides a sound foundation for continuous higher learning in fire protection, administration, and management.

Course work includes classroom and laboratory exercises to introduce the student to various aspects of fire protection. Students will learn technical and administrative skills such as hydraulics, hazardous materials, arson investigation, fire protection safety, fire suppression management, law, and codes.

Graduates should qualify for employment or advancement in governmental agencies, industrial firms, insurance rating organizations, educational organizations, and municipal fire departments. Employed persons should have opportunities for skilled and supervisory-level positions within their current organizations.

**Awards**

FUNERAL SERVICE EDUCATION A55260
The Funeral Service Education curriculum provides students with the opportunity to become proficient in basic funeral service skills.

In addition to the general education courses offered in the curriculum, technical courses such as human anatomy, embalming theory and practice, embalming chemistry, restorative arts, funeral law, and funeral home operations are taught.

Graduates of the curriculum, upon passing the state or national exam and completing an internship in a funeral home, will be qualified for employment as embalmers and/or funeral directors.

The specific aims and purposes of the Department of Funeral Service Education are:

1. To give students the knowledge, principles, techniques and skills which are the basis of the funeral service profession.
2. To provide for education and professional advancement of student whether they choose to follow the funeral service profession or whether they decide to use their specialized education in other general or technical fields.
3. To educate and prepare individuals to contribute to the service and welfare of the community.
4. To become a major provider of continuing education programs meeting mandatory re-licensure requirements for the licensed funeral service personnel in the state, and to encourage research in the field of funeral service.

Awards

Associate Degree: Associate in Applied Science Funeral Service Education (A55260)
Length of Program: 6 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Diploma: N. C. Funeral Director (D55260)
Length of Program: 3 Semesters

**Work Based Learning Option:** Qualified students may elect to take up to two (2) credit hours of Work Based Learning in lieu of FSE-
211 and FSE-213 provided approval is obtained from the Department Chairperson.

**Note:** Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

The NC Board of Funeral Service may refuse to issue a license to an individual with a conviction of a felony or a crime involving fraud or moral turpitude.

**After January 1, 2004, each accredited program in funeral service education must require that each funeral service education student take the National Board Examination (NBE) as a requirement for graduation. Accredited By: American Board of Funeral Service Education, 3414 Ashland Avenue, Suite G, St. Joseph, MO 64506, Telephone (816) 233-3747.

"The annual passage rate of first-time takers on the National Board Examination (NBE) for the most recent three-year period for this institution and all ABFSE accredited funeral service education programs is posted on the ABFSE web site (www.abfse.org)"

Work Based Learning Option: NA

*The NC Board of Funeral Service may refuse to issue license to an individual with a conviction of a felony or a crime involving fraud or moral turpitude.

This academic program is designed to meet specific state or professional needs. It is not accredited by the American Board of Funeral Service Education owing to the fact that it does not include instruction in the following areas: Anatomy, Chemistry, Embalming, Microbiology, and Restorative Arts. Students graduating from this program are not eligible to take the National Board Examination or any state board examination for which graduation from an ABFSE accredited program is required.

GENERAL OCCUPATIONAL TECHNOLOGY A55280

The General Occupational Technology curriculum provides individuals with an opportunity to upgrade their skills and to earn an associate degree by taking courses suited for their occupational interests and/or needs.

The curriculum content will be individualized for students according to their occupational interests and needs. A program of study for each student will be selected from the associate degree-level courses offered by the College.

Graduates will become more effective workers, better qualified for advancements within their field of employment, and become qualified for a wide range of entry-level employment opportunities.

GEOMATICS TECHNOLOGY A40420

A course of study that prepares students to use mathematical and scientific principles for the delineation, determination, planning and positioning of land tracts, boundaries, contours and features applying principles of route surveying, construction surveying, photogrammetry, mapping, global positioning systems, geographical information systems, and other kinds of property description and measurement to create related maps, charts and reports. Includes instruction in applied geodesy, computer graphics, photointerpretation, plane and geodetic surveying, mensuration, traversing, survey equipment operation and maintenance, instrument calibration, and basic cartography.

Grades should qualify for jobs as survey party chief, instrument person, surveying technician, highway surveyor, mapper, GPS technician, and CAD operator. Graduates will be prepared to pursue the requirements necessary to become a Registered Land Surveyor in North Carolina.
## Awards

HEALTHCARE MANAGEMENT TECHNOLOGY  A25200

The Healthcare Management Technology curriculum is designed to prepare students for employment in healthcare business and financial operations. Students will gain a comprehensive understanding of the application of management principles in the healthcare environment.

The curriculum places emphasis on planning, organizing, directing, and controlling tasks related to healthcare organizational objectives including the legal and ethical environment. Emphasis is placed on the development of effective communication, managerial, and supervisory skills.

Graduates may find employment in healthcare settings including hospitals, medical offices, clinics, long-term care facilities, and insurance companies. Graduates are eligible to sit for the Certified Patient Account Manager (CPAM) and the Certified Manager of Patient Accounts (CMPA) examinations.

HORTICULTURE TECHNOLOGY  (A15240)

These curricula are designed to prepare individuals for various careers in horticulture. Classroom instruction and practical laboratory applications of horticultural principles and practices are included in the program of study.

Course work includes plant identification, pest management, plant science and soil science. Also included are courses in sustainable plant production and management, landscaping, and the operation of horticulture businesses.

Graduates should qualify for employment in a variety of positions associated with nurseries, garden centers, greenhouses, landscape operations, governmental agencies/parks, golf courses, sports complexes, highway vegetation, turf maintenance companies, and private and public gardens. Graduates should also be prepared to take the North Carolina Pesticide Applicator’s Examination and/or the North Carolina Certified Plant Professional Examination.

Horticulture Technology is a program that focuses on the general production and management of cultivated plants, shrubs, flowers, foliage, trees, groundcovers, and related plant materials; the management of technical and business operations connected with horticultural services; and the basic scientific principles needed to understand plants and their management and care.

Awards

Associate Degree: Horticulture Technology (A15240)

Length of Program: 5 Semesters

Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Basic Landscape Maintenance (C15240C1)

Length of Program: 3 Semesters

Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Horticulture Science Certificate (C15240C2)

Length of Program: 3 Semesters

Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Basic Horticulture Certificate (C15240H1)

Length of Program: 3 Semesters

Prerequisite: Placement Test Equivalent

Work Based Learning Requirements/Opportunities: For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

HOSPITALITY MANAGEMENT A25110

This curriculum prepares individuals to understand and apply the administrative and practical skills needed for supervisory and managerial positions in hotels, motels, resorts, inns, restaurants, institutions, and clubs.

Course work includes guest services, leadership, management, restaurant operations, lodging operations, marketing, sanitation, food preparation, food and beverage management and other critical areas.

Graduates should qualify for management or entry-level supervisory positions in food and lodging operations, including restaurants, foodservice, beverage service, catering, front office, reservations and housekeeping. Opportunities are also available in product services, and technology support and sales.

### INFANT/TODDLER CARE  
**C55290**

The curriculum prepares individuals to work with children from infancy to three years of age in diverse learning environments. Students will combine learned theories, competency-based knowledge, and practice in actual settings with infants and toddlers.

Course work includes infant/toddler growth and development; physical/nutritional needs of infants and toddlers; safety issues in the care of infants and toddlers; care and guidance; communication skills with families and children; design an implementation of appropriate curriculum; and other related topics.

Graduates should be prepared to plan and implement developmentally appropriate infant/toddler programs in early childhood settings. Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Early Head Start Programs, and other infant/toddler programs.

**Awards**

**Associate Degree:** Not Applicable

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.

## INFORMATION SYSTEMS SECURITY A25270

Information Systems Security covers a broad expanse of technology concepts. This curriculum provides individuals with the skills required to implement effective and comprehensive information security controls.

Course work includes networking technologies, operating systems administration, information policy, intrusion detection, security administration, attack methodology, and industry best practices to protect data communications.

Graduates should be prepared for employment as security administrators. Additionally, they will acquire the skills that allow them to pursue security certifications.

### Awards

- **Associate Degree**: Information Systems Security (A25270)
- **Length of Program**: 5 Semesters
- **Prerequisite**: High School Diploma, 2 Units of Algebra, Placement Test Equivalent
- **Diploma**: Not Applicable
- **Length of Program**: 2 Semesters
- **Prerequisite**: Placement Test Equivalent

### Work Based Learning Requirements/Opportunities:

MEDICAL OFFICE ADMINISTRATION/ DENTAL OFFICE SPECIALIST CERTIFICATE (C25310C3)

Effective Date: Fall 2014
Revised: 03/06/14
Day and Evening

The Dental Office Specialist certificate is designed to prepare individuals for employment in a dental office or other dental-care related business.

The certificate program covers dental terminology; dental billing and coding; legal and ethical issues; and dental office management and simulation. Students will learn administrative and support functions and develop skills applicable in dental environments.

Upon completion of this program, students would be able to perform the necessary skills required in today’s dental office or transfer the course credits to the Medical Office Administration program for an Associate of Applied Science degree.

Length: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

MEDICAL OFFICE ADMINISTRATION/ INPATIENT MEDICAL CODING SPECIALIST CERTIFICATE (C25310C4)

Effective Date: Fall 2014
Revised: 03/06/14
Day and Evening

The Inpatient Medical Coding Specialist certificate is designed to prepare individuals for employment in the inpatient hospital insurance and/or billing environment or other health-care related business.

The certificate program covers medical terminology; ICD and CPT/Other coding systems as it relates to hospital billing and reimbursement methodology to prepare for the CPC-H coding certification. Students will learn accurate coding processes, the completion of the UB-04 claim form as well as develop skills applicable in the hospital billing field.

Upon completion of this program, students would be able to perform the necessary coding skills required in today’s hospital billing environment or transfer the course credits to the Medical Office Administration program for an Associate of Applied Science degree.

NETWORKING TECHNOLOGY A25340

The Networking Technology curriculum prepares students to install and support networks and develops strong analytical skills and extensive computer knowledge.

Course work includes extensive hands-on experience with networks. Classes cover media types, topologies, and protocols with installation and support of hardware and software, troubleshooting network and computer problems, and administrative responsibilities.

Graduates should qualify for positions such as: LAN/PC administrator, microcomputer support specialist, networks control operator, communications technician/analyst, network/computer consultant, and information systems specialist. Graduates should be prepared to sit for certification exams, which can result in industry-recognized credentials.

Awards

Associate Degree: Networking Technology (A25340)
Length of Program: 5 Semesters
Prerequisite: 2 Units of Algebra, Placement Test Equivalent
Diploma: Not Applicable
Length of Program:
Prerequisite:

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.

NETWORKING TECHNOLOGY/  
CISCO NETWORKING CERTIFICATE (C25340C3)  
Effective: Fall 2014  
Revised: 03/06/14

The Cisco Networking Certificate will expose the student to fundamentals of networking and will give them the tools to deploy, operate, and troubleshoot Cisco products and solutions. This program will also cover the core exam objectives of the Cisco Certified Network Administrator (CCNA) exam. Students are prepared to work in the field as network technicians supporting Cisco products.

Courses in this program can be transferred directly into Networking Technology for an Associate in Applied Science degree.
Length: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

NURSING ASSISTANT C45480

The Nursing Assistant curriculum prepares individuals to work under the supervision of licensed health care professionals in performing nursing care and services for persons of all ages.

Course work emphasizes personal care, vital signs, communication, nutrition, medical asepsis, safety, catheterization, tracheostomy care, dressing changes, oxygen therapy, and legal scope of practice for the Nursing Assistants.

Graduates of this curriculum may be eligible to be listed on the registry as a Nursing Assistant I and Nursing Assistant II. They may be employed in home health agencies, hospitals, clinics, nursing homes, extended care facilities, and doctors’ offices.

Awards
Certificate: Nursing Assistant (C45480)
Length of Program: 2 Semesters
Prerequisite: CPR Certification, TB Screening, and Vaccinations required 2 weeks prior to first day of class

Certificate: Nursing Assistant (C45480H1)
Length of Program: 2 Semesters
Prerequisite: CPR Certification, TB Screening, and Vaccinations required 2 weeks prior to first day of class

Work Based Learning Requirements/Opportunities: For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: Students completing NAS 101 successfully are eligible for certification through the N.C. Division of Facility Services as a Nursing Assistant I. Those completing NAS 102 are eligible for Nursing Assistant II Certification through the North Carolina Board of Nursing.

Students with a felony conviction may have limited certification and employment opportunities.

### OFFICE ADMINISTRATION

**A25370**

The Office Systems Technology curriculum prepares individuals for positions in administrative support careers. It equips office professionals to respond to the demands of a dynamic computerized workplace.

Students will complete courses designed to develop proficiency in the use of integrated software, oral and written communications, analysis and coordination of office duties and systems, and other support topics. Emphasis is placed on nontechnical as well as technical skills.

Graduates should qualify for employment in a variety of positions in business, government, and industry. Job classifications range from entry-level to supervisory to middle management positions.

PARALEGAL TECHNOLOGY A25380

The Paralegal Technology curriculum prepares individuals to work under the supervision of attorneys by performing routine legal tasks and assisting with substantive legal work. A paralegal/legal assistant may not practice law, give legal advice, or represent clients in a court of law.

Course work includes substantive and procedural legal knowledge in the areas of civil litigation, legal research and writing, real estate, family law, wills, estates, trusts, and commercial law. Required courses also include subjects such as English, mathematics, and computer utilization.

Graduates are trained to assist attorneys in probate work, investigations, public records search, drafting and filing legal documents, research, and office management. Employment opportunities are available in private law firms, governmental agencies, banks, insurance agencies, and other business organizations.

Awards

Associate Degree: Paralegal Technology (A25380)
Length of Program: 5 Semesters

* The Paralegal Department Chairperson is responsible for awarding transfer credit for legal specialty courses.

Work Based Learning Option: Students are required to take 2 credit hours of work based learning.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
The Pharmacy Technology Program prepares individuals to assist the pharmacist in duties that a technician can legally perform and to function within the boundaries prescribed by the pharmacist and the employment agency.

Students will prepare prescription medications, mix intravenous solutions and other specialized medications, update patient profiles, maintain inventories, package medications in unit-dose or med-card form, and gather data used by pharmacists to monitor drug therapy.

Employment opportunities include retail, hospitals, nursing homes, research laboratories, wholesale drug companies, and pharmaceutical manufacturing facilities. Graduates from the program may be eligible to take the National Certification Examination to become a certified pharmacy technician.

### Awards

**Associate Degree:** Pharmacy Technology (A45580)  
**Length of Program:** 5 Semesters  
**Prerequisite:** High School Diploma, 1 Unit Biology, 1 Unit Algebra, Diploma in Pharmacy Tech., Current Certification in good standing with the Pharmacy Technician Certification Board

**Diploma:** Pharmacy Technology (D45580)  
**Length of Program:** 3 Semesters  
**Prerequisite:** High School Diploma, 1 Unit of Biology, 1 Unit of Algebra

**Certificate:** Not Applicable

### PHYSICAL THERAPIST ASSISTANT (A45620)

The Physical Therapist Assistant curriculum prepares graduates to work in direct patient care settings under the supervision of physical therapists. Assistants work to improve or restore function by alleviation or prevention of physical impairment and perform other essential activities in a physical therapy department.

Course work includes normal human anatomy and physiology, the consequences of disease or injury, and physical therapy treatment of a variety of patient conditions affecting humans throughout the life span.

The Fayetteville Technical Community College Physical Therapist Assistant program is accredited by the Commission on Accreditation in Physical Therapy Education of the American Physical Therapy Association. Upon receiving your Associate of Applied Science degree from the college, the graduate may be eligible to sit for the Physical Therapist Assistant licensure examination. Successfully meeting licensure requirements allows the graduate to work as a Physical Therapist Assistant. Employment is available in general hospitals, rehabilitation centers, extended care facilities, specialty hospitals, home health agencies, private clinics, and public school systems.

**Awards**

**Associate Degree:** Physical Therapist Assistant (A45620)  
**Length of Program:** 5 Semesters  
**Prerequisite:** High School Diploma: satisfactory completion of 2 units of algebra, 1 unit of biology and chemistry

**Diploma:** None  
**Length of Programs:** None

**Certificate:** None  
**Length of Program**

**Work Based Learning Requirements/Opportunities:** For work based learning requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

**N C License or Certification Information:** Licensure required. Graduates may be eligible to take the licensure examination administered by the NC Board of Physical Therapy Examiners. [A student with a felony conviction may not be eligible for licensure or employment.]

**Programmatic Accreditation:** The Physical Therapist Assistant program at Fayetteville Technical Community College is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 1111 North Fairfax Street, Alexandria, Virginia 22314; telephone: 703-706-3245; email: accreditation@apta.org; website: www.capteonline.org.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.

RADIOGRAPHY

The Radiography curriculum prepares the graduate to be a radiographer, a skilled health care professional who uses radiation to produce images of the human body. Course work includes clinical rotations to area health care facilities, radiographic exposure, image processing, radiographic procedures, physics, pathology, patient care and management, radiation protection, quality assurance, anatomy and physiology, and radiobiology.

Graduates of accredited programs are eligible to apply to take the American Registry of Radiologic Technologists’ national examination for certification and registration as medical radiographers. Graduates may be employed in hospitals, clinics, physicians’ offices, medical laboratories, government agencies, and industry.

Awards

Associate Degree: Radiography (A45700)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, 2 Units of Algebra, 1 Unit of Biology, 1 Unit of Chemistry
Diploma: Not Applicable
Length of Program:
Prerequisite:

Work Based Learning Requirements/Opportunities: For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: 100% pass rate of graduates for the American Registry of Radiologic Technologists. Students with a felony conviction may have limited certification and employment opportunities.

Programmatic Accreditation: Joint Review Committee on Education in Radiologic Technology

Program Information Contact:
Curriculum Chairperson: Anita McKnight
Telephone Number: (910) 678-8303
Office Location: Health Technology Center, Room 169-G
Email: mcknigha@faytechcc.edu
Department Office: Health Technology Center, Room 169
Telephone: (910) 678-8264
FTCC Web Site: www.faytechcc.edu

Application Deadlines: The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson. Students should apply by January 30th. Specific health program admission requirements must be met before a student is eligible for admission.

Scholarship/Title IV Financial Aid/VA Services: Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126; Telephone (910) 678-8242. Veterans Services, Student Center, Room 119, (910) 678-8395.

Child Care Financial Assistance Information: See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486

**Work Based Learning Option:** NA

Students with a felony conviction may have limited certification and employment opportunities.

*Note: Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

**RESPIRATORY THERAPY**

**A45720**

The Respiratory Therapy curriculum prepares individuals to function as Respiratory Care Technicians and/or Respiratory Care Therapists. In these roles, individuals perform diagnostic testing, treatment, and management of patients with heart and lung diseases.

Students will master skills in patient assessment and treatment of cardiopulmonary diseases. These skills include life support, monitoring, drug administration, and treatment of patients of all ages in a variety of settings.

Graduates of accredited programs may be eligible to take entry-level examinations from the National Board of Respiratory Care. Therapy graduates may also take the Advanced Practitioner Examination.

Graduates may be employed in hospitals, clinics, nursing homes, education, industry, and home care.

**Awards**

**Associate Degree:** Respiratory Therapy (A45720)

**Length of Program:** 5 Semesters

**Prerequisites:** 1 Unit Algebra, 1 Unit Biology, 1 Unit Chemistry and score Proficient or better on the TEAS V Test. For the advanced placement option, a student must have military training as a respiratory specialist or have a current unrestricted CRT certification with evidence of 3600 hours of clinical experience as a CRT within the past 4 years.

**Diploma:** Not Applicable

**Length of Program:**

**Certificate:** Not Applicable

**Length of Program:** N/A

**Work Based Learning Requirements/Opportunities:** For work based learning education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

---

**SCHOOL-AGE EDUCATION A55440**

This curriculum prepares individuals to work with children in elementary through middle grades in diverse learning environments. Students will combine learned theories with practice in actual settings with school-age children under the supervision of qualified teachers.

Course work includes child growth/development; computer technology in education; physical/nutritional needs of school-age children; care and guidance of school-age children; and communication skills with families and children. Students will foster the cognitive/language, physical/motor, social/emotional, and creative development of school-age populations.

Graduates are prepared to plan and implement developmentally appropriate programs in school-aged environments. Employment opportunities include school-age teachers in child care programs, before/after-school programs, paraprofessional positions in public/private schools, recreational centers, and other programs that work with school-age populations.

**Awards**

- **Associate Degree:** School-Age Education (A55440)
- **Length of Program:** 5 Semesters
- **Prerequisite:** High School Diploma & Algebra I, Placement Test Equivalent

Diploma: School-Age Education Diploma (D55440)

SIMULATION AND GAME DEVELOPMENT A25450

The Simulation and Game Development Curriculum provides a broad background in simulation and game development with practical applications in creative arts, visual arts, audio/video technology, creative writing, modeling, design, programming and management.

Students will receive hands-on training in design, 3D modeling, software engineering, database administration and programming for the purpose of creating simulations and games.

Graduates should qualify for employment as designers, artists, animators, programmers, database administrators, testers, quality assurance analysts, engineers and administrators in the entertainment industry, the health care industry, engineering, forensics, education, NASA and government agencies.

Awards

Associate Degree: Simulation and Game Development (A25450)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Diploma: Simulation Modeling Technician Diploma (D25450)
Length of Program: 3 Semesters

### SIMULATION AND GAME DEVELOPMENT/ SGD BASICS CERTIFICATE (C25450C1)

**Effective:** Fall 2014  
**Revised:** 03/06/14

Students learn the basics of simulation and game development. They are introduced to programming, 3D modeling, and game design. They are introduced to the history of game development as well as possible jobs in the industry.

**Length:** 1 Semester  
**Prerequisite:** High School Diploma, Placement Test Equivalent  
**Award:** Certificate

### SIMULATION AND GAME DEVELOPMENT/ INTERACTIVE 3D CERTIFICATE (C25450C2)

**Effective:** Fall 2014  
**Revised:** 03/06/14

Students learn the basics of Interactive 3D. They are taught the principles of 3D modeling, Drafting, and programming. They are introduced to 2D and 3D editing software, and programming tools.

**Length:** 3 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent  
**Award:** Certificate

### SIMULATION AND GAME DEVELOPMENT/SG DESIGN FUNDAMENTALS CERTIFICATE (C25450C3)

**Effective:** Fall 2014  
**Revised:** 03/06/14

Students learn the basics of simulation programming. They are taught the principles of script languages, databases, and object-oriented programming. They are also introduced to Mobile or PC Game App programming.

Length: 3 Semesters  
Prerequisite: High School Diploma, Placement Test Equivalent  
Award: Certificate

### SPEECH-LANGUAGE PATHOLOGY ASSISTANT

**A45730**

The Speech-Language Pathology Assistant curriculum prepares graduates to work under the supervision of a licensed Speech-Language Pathologist, who evaluates, diagnoses, and treats individuals with various communication disorders.

Courses provide instruction in methods of screening for speech, language, and hearing disorders and in following written protocols designed to remediate individual communication problems. Supervised field experience includes working with patients of various ages and various disorders.

Graduates may be eligible for registration with the North Carolina Board of Examiners for Speech-Language Pathologist and Audiologist and must be supervised by a licensed Speech-Language Pathologist. They may be employed in healthcare or education settings.
**Awards**

**Associate Degree:** Speech-Language Pathology Assistant (A45730)

**Length of Program:** 5 Semesters

**Prerequisite:** Algebra I & 1 Unit of Biology, Placement Test Equivalent

**Diplomas:** Not Applicable

**Length of Program:**

**Prerequisite:**

**Certificate:** Not Applicable

**Length of Program:**

**Prerequisite:**

**Work Based Learning Requirements/Opportunities:** For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

**License or Certification Information:** None Required

**Program Information Contact:**
Curriculum Chairperson: Charisse Gainey
Telephone Number: (910) 678-8492
Office Location: Early Childhood Center, Room 208
Email: gaineyc@faytechcc.edu
Department Office: Health Technology Center, Room 169
Telephone: (910) 678-8264
FTCC Web Site: www.faytechcc.edu

**Application Deadlines:** The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson. Students should apply by January 30th. Specific health program admission requirements must be met before a student is eligible for admission.

**Scholarship/Title IV Financial Aid/VA Services:** Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126; Telephone (910) 678-8242. Veterans Services, Student Center, Room 119, (910) 678-8395.

**Child Care Financial Assistance Information:** See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486

Revised: 10/31/13

**SPEECH LANGUAGE PATHOLOGY ASSISTANT (A45730)**

Effective: Fall 2013

Revised: 12/14/12

**Length:** 5 Semesters

**Prerequisites:** Algebra I & Biology, Placement Test Equivalent

**Award:** Associate in Applied Science

**Fall Semester 1**

**TOTAL REQUIRED CREDITS.... 66**

**Work Based Learning Option:** NA

Students with a felony conviction may have limited licensure and employment opportunities.

*Note:* Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.
SURGICAL TECHNOLOGY A45740

The Surgical Technology curriculum prepares individuals to assist in the care of the surgical patient in the operating room and to function as a member of the surgical team.

Students will apply theoretical knowledge to the care of patients undergoing surgery and develop skills necessary to prepare supplies, equipment, and instruments; maintain aseptic conditions; prepare patients for surgery; and assist surgeons during operations.

Students of CAAHEP (Commission on Accreditation of Allied Health Education Programs) accredited program are required to take the national certification exam administered by the NBSTSA (National Board on Certification in Surgical Technology and Surgical Assisting) within a four week period to or after graduation. Employment opportunities include labor/delivery/emergency departments, inpatient/outpatient surgery centers, dialysis units/facilities, physicians’ offices, and central supply processing units.

Awards

Associate Degree: Associate in Applied Science (A45740)
Length of Program: 5 Semesters
Prerequisite: 1 Unit of Biology and 1 Unit Algebra, Placement Test Equivalent

Diploma: Surgical Technology (D45740)
Length of Program: 3 Semesters
Prerequisite: 1 Unit of Biology and 1 Unit Algebra, Placement Test Equivalent

Diploma: Surgical Technology AAD Bridge Program (D45740B)
Length of Program: 2 Semesters
Prerequisite: 1 Unit of Biology and 1 Unit Algebra, Placement Test Equivalent, Current Surgical Technologist, Documented 1000 hrs. or more working experience, Documentation of having independently scrubbed on 120 cases, 2 letters of recommendation from former and/or current supervisors

Work Based Learning Requirements/Opportunities: For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

Commission on Accreditation of Allied Health, Education Programs (CAAAHEP), 1361 Park Street, Clearwater, FL 33756, (727) 210-2350, www.caahee.org

Program Information Contact:
Curriculum Chairperson: Terry Herring
Telephone Number: (910) 678-8358
Office Location: Health Technologies Center, Room 201-E
Email: herringt@faytechcc.edu
Department Office: Health Technologies Center, Room 253
Telephone: (910) 678-8392
FTCC Web Site: www.faytechcc.edu

Application Deadlines: The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson. Students should apply by January 30th. Specific health program admission requirements must be met before a student is eligible for admission.

Scholarship/Title IV Financial Aid/VA Services: Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126; Telephone (910) 678-8242. Veterans Services, Student Center, Room 119, (910) 678-8395.

Child Care Financial Assistance Information: See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486

SCHOLARSHIP/ASSISTANCE:

Revised: 02/21/14

SURGICAL TECHNOLOGY (A45740)
Effective: Fall 2014
Revised: 02/21/14

**TOTAL REQUIRED CREDITS... 71**

**Work Based Learning Option:** NA

*Student Completed Accredited Surgical Technology Program.*

**Certified Surgical Technologist may be given credit for these courses.

Students with a felony conviction may have limited certification and employment opportunities.

**Note:** The Advanced SUR courses are individually tailored for surgical/special areas of concentration. Completion of this advanced clinical degree is recommended for advanced placement in the surgical arena. These considerations are for this program only.

*Students may not* take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

**Work Based Learning Option:** NA

Students with a felony conviction may have limited certification and employment opportunities.

It is strongly recommended that students take the ACA 111 College Student Success course either before starting the program or as an excess elective course. ACA 111 is required for the AAS in Surgical Technology.

---

### SURGICAL TECHNOLOGY AAD BRIDGE PROGRAM (D45740B)

Effective: Fall 2014  
Revised: 02/21/14

The Accelerated Alternate Delivery (AAD) Program was developed to assist non-certified currently practicing Surgical Technologists obtain the educational background required to sit for the Certification Examination with the NBSTSA (National Board of Surgical Technology and Surgical Assisting).

Surgical Technologists interested in this program must fit into one of the following categories:
1. On the job trained Surgical Technologists.
2. Formerly trained Surgical Technologists who completed their education from a non-Commission on Accreditation of the Allied Health Programs (CAAHEP) accredited program in Surgical Technology.

Students of CAAHEP (Commission on Accreditation of Allied Health Education Programs) accredited program are required to take the national certification exam administered by the NBSTSA (National Board on Certification in Surgical Technology and Surgical Assisting) within a four week period to or after graduation. Employment opportunities include labor/delivery/emergency departments, inpatient/outpatient surgery centers, dialysis units/facilities, physicians’ offices, and central supply processing units.

Length: 2 Semesters
Prerequisite: 1 Unit of Biology and 1 Unit of Algebra, Placement Test Equivalent, Current Surgical Technologist, Documented 1000 hours working experience as a Surgical Technologist, Documentation of having independently scrubbed on 120 surgical cases, 2 Letters of Recommendation from former and/or current supervisors
Award: Diploma

Work Based Learning Option: NA

**Must be a working Surgical Technologist with 1000 hours or more of work experience. Documented scrub on 120 surgical cases.**

Note: Need two letters of recommendation from former and/or current supervisor.

*Work experience will be applied for lab/clinical experience. (SUR123, SUR 135, and SUR 137)

Students with a felony conviction may have limited certification and employment opportunities.

**WEB TECHNOLOGIES A25290**

The Web Technologies curriculum prepares graduates for careers in the information technology arena using computers and distributed computing to disseminate and collect information via the web.

Course work in this program covers the terminology and use of computers, network devices, networks, servers, databases, applications, programming languages, as well as web applications, site development and design. Studies will provide opportunity for students to learn related industry standards.

Graduates should qualify for career opportunities as designers, administrators, or developers in the areas of web applications, websites, web services, and related areas of distributed computing.

Note: The text provides an overview of various certificates offered by the Fay Tech Community College (FTCC) in the field of web technologies, including details about the curriculum, prerequisites, credit hours, and learning outcomes. Each certificate is designed to equip students with specific skills and knowledge related to web technologies, programming, management, and back-office operations. The text emphasizes the importance of considering the most current information available on the FTCC website. Students are encouraged to explore these options further and consult with the Learning Coordinator and Department Chairperson for advice. The certificates include a mix of introductory and advanced courses, catering to students at various stages of their academic journey. Students interested in these programs are advised to review the course requirements, prerequisites, and contact the appropriate personnel for guidance.
Length: 2 Semesters  
Prerequisite: High School Diploma, Placement Test Equivalent  
Award: Certificate

WELDING TECHNOLOGY D50420

The Welding Technology curriculum provides students with a sound understanding of the science, technology and applications essential for successful employment in the welding and metal industry.

Instruction includes consumable and non-consumable electrode welding and cutting processes. Courses in math, blueprint reading, metallurgy, welding inspection, and destructive and non-destructive testing provide the student with industry-standard skills developed through classroom training and practical application.

Successful graduates of the Welding Technology curriculum may be employed as entry-level technicians in welding and metalworking industries. Career opportunities also exist in construction, manufacturing, fabrication, sales, quality control, supervision, and welding-related self-employment.

Awards

Associate Degree: Not Applicable
Length of Program:
Prerequisite:

Diploma: Welding Technology (D50420)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Basic Welding Technology Certificate (C50420C1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Basic Welding Technology Certificate (C50420H1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Work Based Learning Requirements/Opportunities: For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: None Required

Program Information Contact:
Curriculum Chairperson: Beymer Bevill, Jr.
Telephone Number: (910) 678-8216
Office Location: Advanced Technology Center, Room 220D
Email: bevillb@faytechcc.edu
Department Office: Lafayette Hall, Room 120
Telephone: (910) 678-8383
FTCC Web Site: www.faytechcc.edu

Application Deadlines: The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson.

Scholarship/Title IV Financial Aid/VA Services:
Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126; Telephone (910) 678-8242; Veterans Services, Student Center, Room 119, (910) 678-8395.

Child Care Financial Assistance Information: See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486

Revised: 02/19/13

WELDING TECHNOLOGY (D50420)
Effective: Fall 2013
Revised: 02/19/13

Length: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Diploma

WELDING TECHNOLOGY/  
BASIC WELDING TECHNOLOGY CERTIFICATE (C50420C1)  
Evening/Weekend Program  
Effective: Fall 2013  
Revised: 02/19/13

This evening certificate program is designed to give individuals the opportunity to acquire fundamental skills in welding. Coursework includes electrode welding and cutting processes and welding symbols and specifications.

Excellent employment opportunities as entry-level welding apprentices in industry, manufacturing and construction exist throughout the region. Courses in this program can be transferred directly into the Welding Technology diploma program.

Length: 2 Semesters  
Prerequisite: High School Diploma, Placement Test Equivalent  
Award: Certificate

This course introduces the relevant laws governing business and fiduciary income taxes. Topics include tax law relating to business organizations, electronic research and methodologies, and the use of technology for the preparation of business tax returns. Upon completion, students should be able to analyze basic tax scenarios, research applicable tax law, and complete various business tax forms. This course is also available through the Virtual Learning Community (VLC).

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course provides an overview of federal income taxes for individuals, partnerships, and corporations. Topics include tax law, electronic research and methodologies and the use of technology for the preparation of individual and business tax returns. Upon completion, students should be able to analyze basic tax scenarios, research applicable tax laws, and complete federal tax returns for individuals, partnerships, and corporations.

**ACC 226 Adv Managerial Acct**
Prerequisites: Take ACC 121 and ACC 225. Take DRE-097 and DMA-050 or ENG-080, RED-080 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is designed to develop an appreciation for the uses of cost information in the administration and control of business organizations. Emphasis is placed on how accounting data can be interpreted and used by management in planning and controlling business activities. Upon completion, students should be able to analyze and interpret cost information and present this information in a form that is usable by management.

**ACC 227 Practices in Accounting**
Prerequisites: ACC 220
Corequisites: None
Component: None
This course provides an advanced in-depth study of selected topics in accounting using case studies and individual and group problem solving. Topics include cash flow, financial statement analysis, individual and group problem solving, practical approaches to dealing with clients, ethics, and critical thinking. Upon completion, students should be able to demonstrate competent analytical skills and effective communication of their analysis in written and/or oral presentations.

**ACC 240 Governmental & Not-for-Profit Accounting**
Prerequisites: Take ACC 121 and DRE-097 and DMA-050 or ENG-080, RED-080 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces principles and procedures applicable to governmental and not-for-profit organizations. Emphasis is placed on various budgetary accounting procedures and fund accounting. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered.

**ACC 250 Advanced Accounting**
Prerequisites: ACC 220
Corequisites: None
Component: None
This course is designed to analyze special accounting issues, which may include business combinations, partnerships, international accounting, estates, and trusts. Emphasis is placed on analyzing transactions and preparing working papers and financial statements. Upon completion, students should be able to solve a wide variety of problems by advanced application of accounting principles and procedures.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
AHR 110 Intro to Refrigeration 02 06 00 05
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic refrigeration process used in mechanical refrigeration and air conditioning systems. Topics include terminology, safety, and identification of components; refrigeration cycle; and tools and instrumentation used in mechanical refrigeration systems. Upon completion, students should be able to demonstrate good wiring practices and the ability to read simple wiring diagrams.

AHR 111 HVAC Electricity 02 02 00 03
Prerequisites: Take AHR 110
Corequisites: None
Component: None
This course introduces electricity as it applies to HVAC equipment. Emphasis is placed on power sources, interaction of electrical components, wiring of simple circuits, and the use of electrical test equipment. Upon completion, students should be able to demonstrate good wiring practices and the ability to read simple wiring diagrams.

AHR 112 Heating Technology 02 04 00 04
Prerequisites: Take AHR 110
Corequisites: None
Component: None
This course introduces electricity as it applies to HVAC equipment. Emphasis is placed on power sources, interaction of electrical components, wiring of simple circuits, and the use of electrical test equipment. Upon completion, students should be able to demonstrate good wiring practices and the ability to read simple wiring diagrams.

AHR 113 Comfort Cooling 02 04 00 04
Prerequisites: None
Corequisites: None
Component: None
This course covers the installation procedures, system operations, and maintenance of residential and light commercial comfort cooling systems. Topics include terminology, component operation, and testing and repair of equipment used to control and produce assured comfort levels. Upon completion, students should be able to use psychrometrics, manufacturer specifications, and test instruments to determine proper system operation.

AHR 114 Heat Pump Technology 02 04 00 04
Prerequisites: Take AHR 110 and AHR 113
Corequisites: None
Component: None
This course covers the principles of air source and water source heat pumps. Emphasis is placed on safety, modes of operation, defrost systems, refrigerant charging, and system performance. Upon completion, students should be able to understand and analyze system performance and perform routine service procedures.

AHR 115 Refrigeration Systems 01 03 00 02
Prerequisites: Take AHR 110, AHR 112, AHR-114, and AHR 130
Corequisites: None
Component: None
This course introduces refrigeration systems and applications. Topics include defrost methods, safety and operational control, refrigerant piping, refrigerant recovery and charging, and leak testing. Upon completion, students should be able to assist in installing and testing refrigeration systems and perform simple repairs.

AHR 120 HVACR Maintenance 01 03 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces selected topics pertaining to the objectives, theory and practices in engagements providing auditing and other assurance services. Topics will include planning, conducting and reporting, with emphasis on the related professional ethics and standards. Upon completion, students should be able to demonstrate an understanding of the types of professional services, the related professional standards, and engagement methodology.
accessory selection; piping system selection and design; and pipe sizing of buildings. Topics include heating equipment; pump, terminal unit, and common control systems with regard to sequence of operation and safety. Upon completion, students should be able to demonstrate the correct usage of residential building codes that apply to specific areas of the HVAC trade.

**AHR 211 Residential System Design**
02 02 00 03
Prerequisites: Take AHR 110, AHR 111, AHR 112, AHR 113, AHR 114, AHR 130, and AHR 151
Corequisites: None
Component: None
This course introduces the principles and concepts of conventional residential heating and cooling system design. Topics include heating and cooling load estimating, basic psychrometrics, equipment selection, duct system selection, and system design. Upon completion, students should be able to design a basic residential heating and cooling system.

**AHR 212 Advanced Comfort Systems**
02 06 00 04
Prerequisites: Take AHR 110, AHR 111, AHR 112, AHR 113, AHR 114, AHR 130, and AHR 151
Corequisites: None
Component: None
This course covers water-cooled comfort systems, water-source/geothermal heat pumps, and high efficiency heat pump systems including variable speed drives and controls. Emphasis is placed on the application, installation, and servicing of water-source systems and the mechanical and electronic control components of advanced comfort systems. Upon completion, students should be able to test, analyze, and troubleshoot water-cooled comfort systems, water-source/geothermal heat pumps, and high efficiency heat pumps.

**AHR 213 HVACR Building Code**
01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course covers the North Carolina codes that are applicable to the design and installation of HVAC systems. Topics include current North Carolina codes as applied to HVACR design, service, and installation. Upon completion, students should be able to demonstrate the correct usage of North Carolina codes that apply to specific areas of the HVAC trade.

**AHR 215 Commercial HVAC Controls**
01 03 00 02
Prerequisites: Take AHR 110, AHR 111, AHR 112, AHR 113, AHR 114, and AHR 130
Corequisites: None
Component: None
This course introduces HVAC control systems used in commercial applications. Topics include electric/electronic control systems, pneumatic control systems, DDC temperature sensors, humidity sensors, pressure sensors, wiring, controllers, actuators, and controlled devices. Upon completion, students should be able to verify or correct the performance of common control systems with regard to sequence of operation and safety.

**AHR 240 Hydronic Heating**
01 03 00 02
Prerequisites: Take AHR 110, AHR 111, AHR 112, AHR 114, AHR 130, and AHR 151
Corequisites: None
Component: None
This course covers the accepted procedures for proper design, installation, and balance of hydronic heating systems for residential or commercial buildings. Topics include heating equipment; pump, terminal unit, and accessory selection; piping system selection and design; and pipe sizing and troubleshooting. Upon completion, students should be able to assist with the proper design, installation, and balance of typical hydronic systems

**AHR 245 Chiller Systems**
01 03 00 02
Prerequisites: Take AHR 110, AHR 111, AHR 112, AHR 113, AHR 114, and AHR 130
Corequisites: None
Component: None
This course introduces the fundamentals of liquid chilling equipment. Topics include characteristics of water, principles of water chilling, the chiller, the refrigerant, water and piping circuits, freeze prevention, purging, and equipment flexibility. Upon completion, students should be able to describe the components, controls, and overall operation of liquid chilling equipment and perform basic maintenance tasks.

**AHR 250 HVAC System Diagnostics**
00 04 00 02
Prerequisites: AHR 112
Corequisites: AHR 212
Component: None
This course is a comprehensive study of air conditioning, heating, and refrigeration system diagnostics and corrective measures. Topics include advanced system analysis, measurement of operating efficiency, and inspection and correction of all major system components. Upon completion, students should be able to restore a residential or commercial AHR system so that it operates at or near manufacturers’ specifications.

**ANT 210 General Anthropology**
03 00 00 03
Prerequisites: ENG-111
Corequisites: None
Component: None
This course introduces the nature of human culture. Emphasis is placed on cultural theory, methods of fieldwork, and cross-cultural comparisons in the areas of ethnology, language, and the cultural past. Upon completion, students should be able to demonstrate an understanding of the four major fields of anthropology. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**ANT 220 Cultural Anthropology**
03 00 00 03
Prerequisites: ENG-111
Corequisites: None
Component: None
This course provides an ethnographic survey of societies around the world covering their distinctive cultural characteristics and how these relate to cultural change. Emphasis is placed on the similarities and differences in social institutions such as family, economics, politics, education, and religion. Upon completion, students should be able to demonstrate knowledge of a variety of cultural adaptive strategies. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
ANT 230 Physical Anthropology  
Prerequisites: ENG-111  
Corequisites: None  
Component: None  
This course introduces the scientific study of human evolution and adaptation. Emphasis is placed on evolutionary theory, population genetics, biocultural adaptation and human variation, as well as non-human primate evolution, morphology, and behavior. Upon completion, students should be able to demonstrate an understanding of the biological and cultural processes which have resulted in the formation of the human species. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

ANT 240 Archaeology  
Prerequisites: ENG-111  
Corequisites: None  
Component: None  
This course introduces the scientific study of the unwritten record of the human past. Emphasis is placed on the process of human cultural evolution as revealed through archaeological methods of excavation and interpretation. Upon completion, students should be able to demonstrate an understanding of how archaeologists reconstruct the past and describe the variety of past human cultures. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

ARA 181 Arabic Lab I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an opportunity to enhance acquisition of the fundamental elements of the modern standard Arabic language. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Arabic and to demonstrate cultural awareness. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

ARA 182 Arabic Lab II  
Prerequisites: Take ARA-181  
Corequisites: None  
Component: None  
This course provides an opportunity to enhance acquisition of the fundamental elements of the modern standard Arabic language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Arabic and demonstrate cultural awareness. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

ARC 111 Introduction to Architectural Technology  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces basic architectural drafting techniques, lettering, use of architectural and engineer scales, and sketching. Topics include orthographic, axonometric, and oblique drawing techniques using architectural plans, elevations, sections, and details; reprographic techniques; and other related topics. Upon completion, students should be able to prepare and print scaled drawings within minimum architectural standards.

ARC 112 Constr Matls & Methods  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces construction materials and methodologies. Topics include construction terminology, traditional and alternative materials and their properties, manufacturing processes, construction techniques, and other related topics. Upon completion, students should be able to detail construction assemblies and identify construction materials and properties.

ARC 113 Residential Architectural Tech  
Prerequisites: ARC 111  
Corequisites: ARC 112  
Component: None  
This course covers intermediate residential working drawings. Topics include residential plans, elevations, sections, details, schedules, and other related topics. Upon completion, students should be able to prepare a set of residential working drawings that are within accepted architectural standards.

ARC 114 Architectural CAD  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces basic architectural CAD techniques. Topics include basic commands and system hardware and software. Upon completion, students should be able to prepare and plot architectural drawings to scale within accepted architectural standards.

ARC 114A Architectural CAD Lab  
Prerequisites: None  
Corequisites: ARC 114  
Component: None  
This course provides a laboratory setting to enhance architectural CAD skills. Emphasis is placed on further development of commands and system operation. Upon completion, students should be able to prepare and plot scaled architectural drawings.

ARC 113 Building Codes  
Prerequisites: ARC 112 or CAR 111  
Corequisites: None  
Component: None  
This course covers the methods of researching building codes for specific projects. Topics include residential and commercial building codes. Upon completion, students should be able to determine the code constraints governing residential and commercial projects.

ARC 132 Specifications & Contracts  
Prerequisites: ARC 112  
Corequisites: None  
Component: None  
This course covers the development of written specifications and the implications of different contractual arrangements. Topics include specification development, contracts, bidding material research, and agency responsibilities. Upon completion, students should be able to write a specification section and demonstrate the ability to interpret contractual responsibilities.

ARC 210 Intro to Sustain Design  
Prerequisites: ARC 111  
Corequisites: None  
Component: None  
This course introduces concepts and principles related to sustainable site development and architectural design. Topics include low impact and sustainable site development, water efficiency, energy efficiency, material and resource management, indoor environmental quality, and return on investment. Upon completion, students should be able to articulate and integrate sustainable design principles into site and architectural design.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.

**ARC 211 Light Construction Technology**

Prerequisites: ARC 111
Corequisites: None
Component: None

This course covers working drawings for light construction. Topics include plans, elevations, sections, and details; schedules; and other related topics. Upon completion, students should be able to prepare a set of working drawings which are within accepted architectural standards.

**ARC 213 Design Project**

Prerequisites: All courses required: ARC 111, ARC 112 and ARC 114
Corequisites: None
Component: None

This course provides the opportunity to design and prepare a set of contract documents within an architectural setting. Topics include schematic design, design development, construction documents, and other related topics. Upon completion, students should be able to prepare a set of commercial contract documents.

**ARC 220 Advanced Architect CAD**

Prerequisites: ARC 114
Corequisites: None
Component: None

This course provides facility management, productivity, and CAD customization skills. Emphasis is placed on developing advanced proficiency techniques. Upon completion, students should be able to create prototype drawings and symbol libraries, compose sheets with multiple details, and use advanced drawing and editing commands.

**ARC 221 Architectural 3-D CAD**

Prerequisites: ARC 114
Corequisites: None
Component: None

This course introduces architectural three-dimensional CAD applications. Topics include three-dimensional drawing, coordinate systems, viewing, rendering, modeling, and output options. Upon completion, students should be able to prepare architectural three-dimensional drawings and renderings.

**ARC 230 Environmental Systems**

Prerequisites: ARC 111 and MAT 121 or MAT 171
Corequisites: None
Component: None

This course introduces plumbing, mechanical (HVAC), and electrical systems for the architectural environment. Topics include basic plumbing, mechanical, and electrical systems for residential and/or commercial buildings with an introduction to selected code requirements. Upon completion, students should be able to develop schematic drawings for plumbing, mechanical, and electrical systems and perform related calculations.

**ARC 231 Architectural Presentations**

Prerequisites: ARC 111
Corequisites: None
Component: None

This course introduces architectural presentation techniques. Topics include perspective drawing, shadow projection, textureization, rendered plans, elevations, and other related topics. Upon completion, students should be able to present ideas graphically and do rendered presentation drawings.

**ARC 235 Architectural Portfolio**

Prerequisites: ARC 221
Corequisites: None
Component: None

This course covers the methodology for the creation of an architectural portfolio. Topics include preparation of marketing materials and a presentation strategy using conventional and/or digital design media. Upon completion, students should be able to produce an architectural portfolio of selected projects.

**ARC 240 Site Planning**

Prerequisites: ARC 111
Corequisites: None
Component: None

This course introduces the principles of site planning, grading plans, and earthwork calculations. Topics include site analysis, site work, site utilities, cut and fill, soil erosion control, and other related topics. Upon completion, students should be able to prepare site development plans and details and perform cut and fill calculations.

**ARC 250 Survey of Architecture**

Prerequisites: None
Corequisites: None
Component: None

This course introduces the historical trends in architectural form. Topics include historical and current trends in architecture. Upon completion, students should be able to demonstrate an understanding of significant historical and current architectural styles.

**ARC 261 Solar Technology**

Prerequisites: ARC 111
Corequisites: None
Component: None

This course introduces passive solar design theory and application. Topics include passive solar design, active solar theory, heat loss analysis, and other related topics. Upon completion, students should be able to design a passive solar system.

**ARC 264 Digital Architecture**

Prerequisites: ARC 114 and ARC 114A OR DFT 151 AND DFT 152
Corequisites: None
Component: None

This course covers multiple digital architectural techniques. Topics include spreadsheets and word processing procedures, on-line resources, modems, e-mail, image capture, multimedia, and other related topics. Upon completion, students should be able to transmit/receive electronic data, create multimedia presentations, and produce a desktop publishing document.

**ART 111 Art Appreciation**

Prerequisites: None
Corequisites: None
Component: None

This course introduces the origins and historical development of art. Emphasis is placed on the relationship of design principles to various art forms including but not limited to sculpture, painting, and architecture. Upon completion, students should be able to identify and analyze a variety of artistic styles, periods, and media. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

**ART 113 Art Methods and Materials**

Prerequisites: None
Corequisites: None
Component: None

This course provides an overview of media and techniques. Emphasis is placed on exploration and manipulation of materials. Upon completion, students should be able to demonstrate familiarity with a variety of methods, materials, and processes. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

| ART 115     | Art History Survey II | 03 | 00 | 00 | 03 |
| Prerequisites: None | Corequisites: None | Component: None |
| This course covers the development of art forms from the Renaissance to the present. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of human social development. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course. |

| ART 116     | Survey of American Art | 03 | 00 | 00 | 03 |
| Prerequisites: Take DRE-098 or ENG-090, ENG-090A, and RED-090 or Placement Test Credit Equivalent | Corequisites: None | Component: None |
| This course covers the development of American art forms from colonial times to the present. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate an historical understanding of the history of the American creative experience. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. |

| ART 117     | Non-Western Art History | 03 | 00 | 00 | 03 |
| Prerequisites: Take DRE-098 or ENG-090, ENG-090A, and RED-090 or Placement Test Credit Equivalent | Corequisites: None | Component: None |
| This course introduces non-Western cultural perspectives. Emphasis is placed on, but not limited to, African, Oriental, and Oceanic art forms throughout history. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of non-Western social and cultural development. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. |

| ART 118     | Art by Women | 03 | 00 | 00 | 03 |
| Prerequisites: Take DRE-098 or ENG-090, ENG-090A, and RED-090 or Placement Test Credit Equivalent | Corequisites: None | Component: None |
| This course provides an analytical study of the works of representative female artists. Emphasis is placed on the historical and cultural contexts, themes, and aesthetic features of individual works. Upon completion, students should be able to interpret, analyze, and discuss selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. |

| ART 121     | Two-Dimensional Design | 00 | 06 | 00 | 03 |
| Prerequisites: None | Corequisites: None | Component: None |
| This course introduces the elements and principles of design as applied to two-dimensional art. Emphasis is placed on the structural elements, the principles of visual organization, and the theories of color mixing and interaction. Upon completion, students should be able to understand and use critical and analytical approaches as they apply to two-dimensional visual art. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement. |

| ART 122     | Three-Dimensional Design | 00 | 06 | 00 | 03 |
| Prerequisites: ART 121 | Corequisites: None | Component: None |
| This course introduces basic studio problems in three-dimensional visual design. Emphasis is placed on the structural elements and organizational principles as applied to mass and space. Upon completion, students should be able to apply three-dimensional design concepts. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement. |

| ART 131     | Drawing I | 00 | 06 | 00 | 03 |
| Prerequisites: None | Corequisites: None | Component: None |
| This course introduces the language of drawing and the use of various drawing materials. Emphasis is placed on drawing techniques, media, and graphic principles. Upon completion, students should be able to demonstrate competence in the use of graphic form and various drawing processes. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. |

| ART 132     | Drawing II | 00 | 06 | 00 | 03 |
| Prerequisites: ART 131 | Corequisites: None | Component: None |
| This course continues instruction in the language of drawing and the use of various materials. Emphasis is placed on experimentation in the use of drawing techniques, media, and graphic materials. Upon completion, students should be able to demonstrate increased competence in the expressive use of graphic form and techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. |

| ART 135     | Figure Drawing I | 00 | 06 | 00 | 03 |
| Prerequisites: ART 131 | Corequisites: None | Component: None |
| This course introduces rendering the human figure with various drawing materials. Emphasis is placed on the use of the visual elements, anatomy, and proportion in the representation of the draped and undraped figure. Upon completion, students should be able to demonstrate competence in drawing the human figure. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. |

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course introduces the use of the computer as a tool for solving visual problems. Emphasis is placed on fundamentals of computer literacy and design through bit-mapped image manipulation. Upon completion, students should be able to demonstrate an understanding of paint programs, printers, and scanners to capture, manipulate, and output images. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**ART 212 Gallery Assistantship I**

Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the practical application of display techniques. Emphasis is placed on preparation of artwork for installation, hardware systems, and exhibition graphics. Upon completion, students should be able to demonstrate basic gallery exhibition skills. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

**ART 213 Gallery Assistantship II**

Prerequisites: ART 212  
Corequisites: None  
Component: None  
This course provides additional experience in display techniques. Emphasis is placed on preparation of artwork for exhibition, alternative methods of installation, hardware systems, and exhibition graphics. Upon completion, students should be able to demonstrate independent decision-making and exhibition expertise. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

**ART 214 Portfolio and Résumé**

Prerequisites: None  
Corequisites: None  
Component: None  
This course covers résumé writing, interview skills, and the preparation and presentation of an art portfolio. Emphasis is placed on the preparation of a portfolio of original artwork, the preparation of a photographic portfolio, approaches to résumé writing, and interview techniques. Upon completion, students should be able to mount original art for portfolio presentation, photograph and display a professional slide portfolio, and write an effective résumé. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

**ART 222 Wood Design I**

Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the historical and contemporary design concepts and their application to the construction of functional and sculptural wood forms. Emphasis is placed on the mastery of hand and power tools. Upon completion, students should be able to demonstrate appropriate use of tools to create unique designs. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

**ART 231 Printmaking I**

Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces printmaking: its history, development techniques, and processes. Emphasis is placed on basic applications with investigation into image source and development. Upon completion, students should be able to produce printed images utilizing a variety of methods. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

**ART 232 Printmaking II**

Prerequisites: ART 231  
Corequisites: None  
Component: None  
This course includes additional methods and printmaking processes. Emphasis is placed on the printed image as related to method, source, and concept. Upon completion, students should be able to produce expressive images utilizing both traditional and innovative methods. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

**ART 235 Figure Drawing II**

Prerequisites: ART 135  
Corequisites: None  
Component: None  
This course extends the study and rendering of the draped and undraped human figure. Emphasis is placed on the exploration of materials and approaches to drawing. Upon completion, students should be able to demonstrate creativity in the representation of the figure. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

**ART 240 Painting I**

Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the language of painting and the use of various painting materials. Emphasis is placed on the understanding and use of various painting techniques, media, and color principles. Upon completion, students should be able to demonstrate competence in the use of creative processes directed toward the development of expressive form. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**ART 241 Painting II**

Prerequisites: ART 240  
Corequisites: None  
Component: None  
This course provides a continuing investigation of the materials, processes, and techniques of painting. Emphasis is placed on the exploration of expressive content using a variety of creative processes. Upon completion, students should be able to demonstrate competence in the expanded use of form and variety. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**ART 242 Landscape Painting**

Prerequisites: ART 240  
Corequisites: None  
Component: None  
This course introduces and practices the skills and techniques of open-air painting. Emphasis is placed on techniques of painting summer foliage, skies, and mountains, and the elements of aerial perspective. Upon completion, students should be able to complete an open-air landscape painting employing brush, knife, scumbling, and glazing techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
ART 244 Watercolor  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces basic methods and techniques used in watercolor. Emphasis is placed on application, materials, content, and individual expression. Upon completion, students should be able to demonstrate a variety of traditional and nontraditional concepts used in watercolor media. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ART 245 Metals I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces basic metal design in traditional and contemporary art forms using brass, copper, and silver. Emphasis is placed on designing and fabricating jewelry, small sculptures, and utilitarian objects. Upon completion, students should be able to design and produce small art objects. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 246 Metals II  
Prerequisites: ART 245  
Corequisites: None  
Component: None  
This course provides a continuation of metal design utilizing basic methods of casting and other processes. Emphasis is placed on individualized design. Upon completion, students should be able to design and produce expressive forms. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 247 Jewelry I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces a basic understanding of the design and production of jewelry. Emphasis is placed on concepts and techniques using metals and other materials. Upon completion, students should be able to demonstrate an ability to use appropriate methods to create unique jewelry. This course has been approved for transfer under theCAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

ART 248 Jewelry II  
Prerequisites: ART 247  
Corequisites: None  
Component: None  
This course is a continuation of the skills learned in ART 247. Emphasis is placed on the creation of individual designs that utilize a variety of techniques such as casting, cloisonne, and plique-a-jour. Upon completion, students should be able to create jewelry which demonstrates originality. This course has been approved for transfer under theCAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

ART 250 Surface Design: Textiles  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the basic principles and elements of art as applied to textile surfaces. Emphasis is placed on direct, top-dyed processes that utilize both synthetic and natural dyes, and techniques such as batting, stenciling, and stamping. Upon completion, students should be able to demonstrate a basic understanding of appropriate materials and techniques as they apply to original design on a variety of textile surfaces. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 251 Weaving I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides a basic understanding of the design and production of constructed textiles. Emphasis is placed on traditional weaving techniques. Upon completion, students should be able to warp and dress the loom and use appropriate techniques for the creation of unique woven fabrics. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

ART 252 Weaving II  
Prerequisites: ART 251  
Corequisites: None  
Component: None  
This course furthers an exploration of creative design as it relates to manipulated fiber construction. Emphasis is placed on traditional and experimental methods. Upon completion, students should be able to create fiber constructions that utilize appropriate techniques for individual expressive designs. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

ART 260 Photography Appreciation  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the origins and historical development of photography. Emphasis is placed on the study of composition and history of photography as an art form. Upon completion, students should be able to recognize and produce, using color transparencies, properly exposed, well-composed photographs. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 261 Photography I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces photographic equipment, theory, and processes. Emphasis is placed on camera operation, composition, darkroom technique, and creative expression. Upon completion, students should be able to successfully expose, develop, and print a well-conceived composition. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 262 Photography II  
Prerequisites: ART 261  
Corequisites: None  
Component: None  
This course introduces the creative manipulation of alternative photographic materials and processes such as toning, hand coloring, infrared, and multiple exposure. Emphasis is placed on personal vision and modes of seeing. Upon completion, students should be able to create properly exposed images using a variety of photographic materials and processes. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

| ART 265 Digital Photography II      | 01        | 04      | 00         | 03         |
| Prerequisites: ART 264             |           |         |            |            |
| Corequisites: None                  |           |         |            |            |
| Component: None                     |           |         |            |            |
| This course provides exploration of the concepts and processes of photo manipulation through complex composite images, special effects, color balancing and image/text integration. Emphasis is placed on creating a personal vision and style. Upon completion, students should be able to produce well-executed images using a variety of photographic and photo manipulative approaches. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement. |

| ART 266 Videography I              | 00        | 06      | 00         | 03         |
| Prerequisites: None                 |           |         |            |            |
| Corequisites: None                  |           |         |            |            |
| Component: None                     |           |         |            |            |
| This course introduces various aspects of basic video production including concept development, scripting, camera operation, and post-production. Emphasis is placed on creative expression, camera handling, story boarding, and editing. Upon completion, students should be able to demonstrate a basic understanding of video camera operation and production techniques. This course has been approved for transfer under the CAA as a pre-major and/or elective course requirement. This course has been approved for transfer under the ICAA as a pre-major and/or elective course requirement. |

| ART 267 Videography II              | 00        | 06      | 00         | 03         |
| Prerequisites: ART 266              |           |         |            |            |
| Corequisites: None                   |           |         |            |            |
| Component: None                      |           |         |            |            |
| This course is designed to provide a framework for the production of a long-term video project. Emphasis is placed on realization of the unique creative vision. Upon completion, students should be able to produce a thematically coherent, edited video with sound and titling. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement. |

| ART 271 Computer Art II             | 00        | 06      | 00         | 03         |
| Prerequisites: ART-171              |           |         |            |            |
| Corequisites: None                   |           |         |            |            |
| Component: None                      |           |         |            |            |
| This course includes advanced computer imaging techniques. Emphasis is placed on creative applications of digital technology. Upon completion, students should be able to demonstrate command of computer systems and applications to express their personal vision. This course has been approved for transfer under the CAA as a pre-major and/or elective course requirement. This course has been approved for transfer under the ICAA as a pre-major and/or elective course requirement. |

| ART 275 Intro to Commercial Art     | 00        | 06      | 00         | 03         |
| Prerequisites: None                 |           |         |            |            |
| Corequisites: None                   |           |         |            |            |
| Component: None                      |           |         |            |            |
| This course introduces the materials and techniques used in creative layout design for publication. Emphasis is placed on design for advertising in a variety of techniques and media including computer graphics. Upon completion, students should be able to demonstrate competence in manual camera-ready layout design and computer graphics literacy. This course has been approved for transfer under the CAA as a pre-major and/or elective course requirement. This course has been approved for transfer under the ICAA as a pre-major and/or elective course requirement. |

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
ART 286 Ceramics IV
Prerequisites: ART 285
Corequisites: None
Component: None
This course provides the opportunity for self-determined work in sculptural and functional ceramics. Emphasis is placed on developing the technical awareness of glaze materials, glaze formulation, and firing techniques necessary to fulfill the student's artistic goals. Upon completion, students should be able to demonstrate knowledge of materials and techniques necessary to successfully create original projects in the clay medium. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 288 Studio
Prerequisites: None
Corequisites: None
Component: None
This course provides the opportunity for advanced self-determined work beyond the limits of regular studio course sequences. Emphasis is placed on creative self-expression and in-depth exploration of techniques and materials. Upon completion, students should be able to create original projects specific to media, materials, and techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ASL 111 Elementary ASL I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental elements of American Sign Language within a cultural context. Emphasis is placed on the development of basic expressive and receptive skills. Upon completion, students will be able to comprehend and respond with grammatical accuracy to expressive American Sign Language and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ASL 112 Elementary ASL II
Prerequisites: ASL 111
Corequisites: None
Component: None
This course is a continuation of ASL 111 focusing on the fundamental elements of American Sign Language in a cultural context. Emphasis is placed on the progressive development of expressive and receptive skills. Upon completion, the students should be able to comprehend and respond with increasing accuracy to expressive American Sign Language and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ASL 181 ASL Lab 1
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of American Sign Language. Emphasis is placed on the progressive development of basic expressive and receptive skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing accuracy to expressive American Sign Language and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive articulation Agreement for transferability as a premajor and/or elective course requirement.

ASL 182 ASL Lab 2
Prerequisites: ASL 181
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of American Sign Language. Emphasis is placed on the progressive development of basic expressive and receptive skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing accuracy to expressive American Sign Language and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ASL 211 Intermediate ASL I
Prerequisites: ASL 112
Corequisites: None
Component: None
This course provides a review and expansion of the essential skills of American Sign Language. Emphasis is placed on the progressive development of expressive and receptive skills, study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively using American Sign Language about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ASL 212 Intermediate ASL II
Prerequisites: ASL 211
Corequisites: None
Component: None
This course provides a continuation of ASL 211. Emphasis is placed on the continuing development of expressive and receptive skills study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ASL 281 ASL Lab 3
Prerequisites: ASL 182
Corequisites: None
Component: None
This course provides an opportunity to enhance the review and the expansion of the essential skills of American Sign Language. Emphasis is placed on the progressive development of expressive and receptive skills study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ASL 282 ASL Lab 4
Prerequisites: ASL 281
Corequisites: None
Component: None
This course provides an opportunity to enhance the review and the expansion of the essential skills of American Sign Language. Emphasis is placed on the continuing development of expressive and receptive skills study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the comprehensive articulation Agreement for transferability as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
AST 111 Descriptive Astronomy
Prerequisites: None
Corequisites: None
Component: None
This course introduces an overall view of modern astronomy. Topics include an overview of the solar system, the sun, stars, galaxies, and the larger universe. Upon completion, students should be able to demonstrate an understanding of the universe around them. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

AST 111A Descriptive Astronomy Lab
Prerequisites: None
Corequisites: AST 111
Component: None
The course is a laboratory to accompany AST 111. Emphasis is placed on laboratory experiences which enhance the materials presented in AST 111 and which provide practical experience. Upon completion, students should be able to demonstrate an understanding of the universe around them. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

AST 151 General Astronomy I
Prerequisites: None
Corequisites: AST 151A
Component: None
This course introduces the science of modern astronomy with a concentration on the solar system. Emphasis is placed on the history and physics of astronomy and an introduction to the solar system, including the planets, comets, and meteors. Upon completion, students should be able to demonstrate a general understanding of the solar system. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

AST 151A General Astronomy I Lab
Prerequisites: None
Corequisites: AST 151
Component: None
The course is a laboratory to accompany AST 151. Emphasis is placed on laboratory experiences which enhance the materials presented in AST 151 and which provide practical experience. Upon completion, students should be able to demonstrate a general understanding of the solar system. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

AST 152 General Astronomy II
Prerequisites: AST 151
Corequisites: AST 152A
Component: None
This course is a continuation of AST 151 with primary emphasis beyond the solar system. Topics include the sun, stars, galaxies, and the larger universe, including cosmology. Upon completion, students should be able to demonstrate a working knowledge of astronomy. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

AST 152A General Astronomy II Lab
Prerequisites: AST 151
Corequisites: AST 152
Component: None
The course is a laboratory to accompany AST 152. Emphasis is placed on laboratory experiences which enhance the materials presented in AST 152 and which provide practical experience. Upon completion, students should be able to demonstrate a working knowledge of astronomy. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

Astride 211 Robot Programming
Prerequisites: CSC 133, ELN 249, and ELN 260
Corequisites: None
Component: None
This course provides the operational characteristics of robots and programming in their respective languages. Topics include robot programming, teach pendants, PLC integration, operator interfaces, the interaction of external sensors, machine vision, network systems, and other related devices. Upon completion, students should be able to program and demonstrate the operation of various robots.

ATT 140 Emerging Transp Tech
Prerequisites: None
Corequisites: None
Component: None
This course covers emerging technologies in the automotive industry and diagnostic procedures associated with those technologies. Topics include exploring new technologies, diagnostic tools, methods and repairs. Upon completion, students should be able to demonstrate practical skills applicable to emerging automotive technologies.

AUB 111 Painting & Refinishing I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the proper procedures for using automotive refinishing equipment and materials in surface preparation and application. Topics include federal, state, and local regulations, personal safety, refinishing equipment and materials, surface preparation, masking, application techniques, and other related topics. Upon completion, students should be able to identify and use proper equipment and materials in refinishing following accepted industry standards.

AUB 112 Painting & Refinishing II
Prerequisites: AUB 111
Corequisites: None
Component: None
This course covers advanced painting techniques and technologies with an emphasis on identifying problems encountered by the refinishing technician. Topics include materials application, color matching, correction of refinishing problems, and other related topics. Upon completion, students should be able to perform spot, panel, and overall refinishing repairs and identify and correct refinishing problems.

AUB 114 Special Finishes
Prerequisites: None
Corequisites: None
Component: None
This course introduces multistage finishes, custom painting, and protective coatings. Topics include base coats, advanced intermediate coats, clear coats, and other related topics. Upon completion, students should be able to identify and apply specialized finishes based on accepted industry standards.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
### AUT 115 Engine Fundamentals
**Prerequisites:** None
**Corequisites:** AUT 116
**Component:** None
This course covers the theory, construction, inspection, diagnosis, and repair of internal combustion engines and related systems. Topics include fundamental operating principles of engines and diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis/repair of automotive engines using appropriate tools, equipment, procedures, and service information. This course will become obsolete effective Fall 2008.

### AUT 116 Engine Repair
**Prerequisites:** Take DRE-097 or ENG-080 and RED-080 or Placement Test
**Credit Equivalent**
**Corequisites:** AUT-116A
**Component:** None
This course covers the theory, construction, inspection, diagnosis, and repair of internal combustion engines and related systems. Topics include fundamental operating principles of engines and diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis, measurement and repair of automotive engines using appropriate tools, equipment, procedures, and service information.

### AUT 116A Engine Repair Lab
**Prerequisites:** Take DRE-097 or ENG-080 and RED-080 or Placement Test
**Credit Equivalent**
**Corequisites:** AUT 116
**Component:** None
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis, measurement and repair of automotive engines using appropriate tools, equipment, procedures, and service information.

### AUT 114 Suspension & Steering Systems
**Prerequisites:** Take DRE-097 or ENG-080 and RED-080 or Placement Test
**Credit Equivalent**
**Corequisites:** AUT 141A
**Component:** None
This course covers principles of operation, types, and diagnosis/repair of suspension and steering systems to include steering geometry. Topics include manual and power steering systems and standard and electronically controlled suspension and steering systems. Upon completion, students should be able to service and repair steering and suspension components, check and adjust alignment angles, repair tires, and balance wheels.

### AUT 141A Suspension & Steering Lab
**Prerequisites:** Take DRE-097 or ENG-080 and RED-080 or Placement Test
**Credit Equivalent**
**Corequisites:** AUT 141
**Component:** None
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include manual and power steering systems and standard and electronically controlled suspension and steering systems. Upon completion, students should be able to service and repair steering and suspension components, check and adjust alignment angles, repair tires, and balance wheels.

### AUT 151 Brake Systems
**Prerequisites:** Take DRE-097 or ENG-080 and RED-080 or Placement Test
**Credit Equivalent**
**Corequisites:** AUT 151A
**Component:** None
This course covers principles of operation and types, diagnosis, service, and repair of brake systems. Topics include drum and disc brakes involving hydraulic, vacuum-boost, hydro-boost, electrically powered boost, and anti-lock and parking brake systems. Upon completion, students should be able to diagnose, service, and repair various automotive braking systems.

### AUT 151A Brakes Systems Lab
**Prerequisites:** Take DRE-097 or ENG-080 and RED-080 or Placement Test
**Credit Equivalent**
**Corequisites:** AUT 151
**Component:** None
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include drum and disc brakes involving hydraulic, vacuum-boost, hydro-boost, electrically powered boost, and anti-lock, parking brake systems and emerging brake systems technologies. Upon completion, students should be able to diagnose, service, and repair various automotive braking systems.

### AUT 152 Brake Systems Lab
**Prerequisites:** None
**Corequisites:** AUT 151
**Component:** None
This course provides a laboratory setting to enhance brake system skills. Emphasis is placed on practical experiences that enhance the topics presented in AUT 151. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in AUT 151. This course will become obsolete effective Fall 2008.

### AUT 161 Basic Auto Electricity
**Prerequisites:** None
**Credit Equivalent**
**Corequisites:** One course required: AUT 163, COE 111 or COE 212
**Component:** None
This course covers basic electrical theory, wiring diagrams, test equipment, and diagnosis, repair, and replacement of batteries, starters, and alternators. Topics include Ohm’s Law, circuit construction, wiring diagrams, circuit testing, and basic troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair basic wiring, battery, starting, charging, and electrical concerns.

### AUT 162 Chassis Electrical & Electronics
**Prerequisites:** None
**Corequisites:** One course required: AUT 163, COE 111 or COE 212
**Component:** None
This course covers electrical/electronic diagnosis/repair, including wiring diagrams, instrumentation, and electronic/computer-controlled devices and accessories. Topics include interpreting wiring diagrams and diagnosis and repair of chassis electrical and electronic systems. Upon completion, students should be able to read and interpret wiring diagrams and determine/perform needed repairs on chassis electrical and electronic systems. This course will become obsolete effective Fall 2008.

### AUT 163 Adv Auto Electricity
**Prerequisites:** Take TRN 120
**Corequisites:** Take AUT 163A
**Component:** None
This course covers electronic theory, wiring diagrams, test equipment, and diagnosis, repair, and replacement of electronics, lighting, gauges, horn, wiper, accessories, and body modules. Topics include networking and module communication, circuit construction, wiring diagrams, circuit testing, and troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair wiring, lighting, gauges, accessories, modules, and electronic concerns.

---

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academic_services/index.aspx](http://www.faytechcc.edu/academic_services/index.aspx).
### AUT 163A Adv Auto Electricity Lab
- **Prerequisites:** Take TRN 120
- **Corequisites:** AUT 163
- **Component:** None
- This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include automotive electrical/electronic systems technologies. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair wiring, lighting, gauges, accessories, modules, and electronic concerns.

### AUT 171 Auto Climate Control
- **Prerequisites:** Take DRE-097 or ENG-080 and RED-080 or Placement Test Equivalent
- **Corequisites:** None
- **Component:** None
- This course covers the theory of refrigeration and heating, electrical/electronic/pneumatic controls, and diagnosis/repair of climate control systems. Topics include diagnosis and repair of climate control components and systems, recovery/recycling of refrigerants, and safety and environmental regulations. Upon completion, students should be able to describe the operation, diagnose, and safely service climate control systems using appropriate tools, equipment, and service information.

### AUT 181 Engine Performance 1
- **Prerequisites:** Take DRE-097 or ENG-080 and RED-080 or Placement Test Equivalent
- **Corequisites:** AUT 181A
- **Component:** None
- This course covers the introduction, theory of operation, and basic diagnostic procedures required to restore engine performance to vehicles equipped with complex engine control systems. Topics include an overview of engine operation, ignition components and systems, fuel delivery, injection components and systems and emission control devices. Upon completion, students should be able to describe operation and diagnose/repair basic ignition, fuel and emission related driveability problems using appropriate test equipment/service information.

### AUT 181A Engine Performance 1 Lab
- **Prerequisites:** Take DRE-097 or ENG-080 and RED-080 or Placement Test Equivalent
- **Corequisites:** AUT 181
- **Component:** None
- This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include overviews of engine operation, ignition components and systems, fuel delivery, injection components and systems and emission control devices. Upon completion, students should be able to describe operation and diagnose/repair basic ignition, fuel and emission related driveability problems using appropriate test equipment/service information.

### AUT 183 Engine Performance 2
- **Prerequisites:** AUT 181
- **Corequisites:** None
- **Component:** None
- This course covers the study of the electronic engine control systems, the diagnostic process used to locate engine performance concerns, and procedures used to restore normal operation. Topics will include currently used fuels and fuel systems, exhaust gas analysis, emission control components and systems, and OBD II (on-board diagnostics) and inter-related electrical/electronic systems. Upon completion, students should be able to diagnose and repair complex engine performance concerns using appropriate test equipment and service information.

### AUT 211 Automotive Machining
- **Prerequisites:** AUT 116 and AUT 116A
- **Corequisites:** None
- **Component:** None
- This course covers engine machining processes for remanufacturing automotive engines. Emphasis is placed on cylinder head service, machining block surfaces, reconditioning connecting rod assemblies, camshafts, flywheels, and precision measurement. Upon completion, students should be able to explain the operation and proper use of automotive machining equipment.

### AUT 221 Auto Transm/Transaxles
- **Prerequisites:** Take DRE-097 or ENG-080 and RED-080 or Placement Test Equivalent
- **Corequisites:** AUT 221A
- **Component:** None
- This course covers operation, diagnosis, and repair of automatic transmissions/transaxles. Topics include hydraulic, pneumatic, mechanical, and electrical/electronic operation of automatic drive trains and the use of appropriate service tools and equipment. Upon completion, students should be able to explain operational theory, diagnose and repair automatic drive trains.

### AUT 221A Auto Transm/Transax Lab
- **Prerequisites:** Take DRE-097 or ENG-080 and RED-080 or Placement Test Equivalent
- **Corequisites:** AUT 221
- **Component:** None
- This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include hydraulic, pneumatic, mechanical, and electrical/electronic operation of automatic drive trains and the use of appropriate service tools and equipment. Upon completion, students should be able to diagnose and repair automatic drive trains.

### AUT 231 Man Trans/Axes/Drtrains
- **Prerequisites:** Take DRE-097 or ENG-080 and RED-080 or Placement Test Equivalent
- **Corequisites:** AUT 231A
- **Component:** None
- This course covers the operation, diagnosis, and repair of manual transmissions/transaxles, clutches, driveshafts, axles, and final drives. Topics include theory of torque, power flow, and manual drive train service and repair using appropriate service information, tools, and equipment. Upon completion, students should be able to explain operational theory, diagnose and repair manual drive trains.

### AUT 231A Man Trans/Axes/Drtrains Lab
- **Prerequisites:** Take DRE-097 or ENG-080 and RED-080 or Placement Test Equivalent
- **Corequisites:** AUT 231
- **Component:** None
- This course covers the operation, diagnosis, and repair of manual transmissions/transaxles, clutches, driveshafts, axles, and final drives. Topics include theory of torque, power flow, and manual drive train service and repair using appropriate service information, tools, and equipment. Upon completion, students should be able to explain operational theory, diagnose and repair manual drive trains.

### AUT 281 Adv Engine Performance
- **Prerequisites:** Take AUT-181
- **Corequisites:** None
- **Component:** None
- This course utilizes service information and specialized test equipment to diagnose and repair power train control systems. Topics include computerized ignition, fuel and emission systems, related diagnostic tools and equipment, data communication networks, and service information. Upon completion, students should be able to perform diagnosis and repair.

---

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
BAF 110 Principles of Banking
Prerequisites: None
Corequisites: None
Component: None
This course covers the fundamentals of bank functions in a descriptive fashion. Topics include banks and the monetary system, the relationship of banks to depositors, the payment functions, bank loans and accounting, regulations, and examinations. Upon completion, students should be able to demonstrate an understanding of the business of banking from a broad perspective.

BAF 111 Teller Training
Prerequisites: None
Corequisites: None
Component: None
This course provides an overview of banking teller operations, bank security, and customer relations in preparation for work as a bank teller. Topics include bank profitability, cash and cash handling, checks and other transactions, balancing and setting, and security threats and their detection. Upon completion, students should be able to discuss the components of teller performance and perform effectively as a teller after minimal on-the-job training.

BAF 131 Fund of Bank Lending
Prerequisites: ACC 120
Corequisites: None
Component: None
This course introduces the basic knowledge and skills needed to be an effective lender. Topics include the functions of the loan interview and credit investigation, the “C”’s of credit, elements of loan documentation, and warning signs of problem loans. Upon completion, students should be able to demonstrate an understanding of the credit functions and regulatory issues affecting this key banking function. This course is a unique concentration requirement of the Banking and Finance concentration in the Business Administration program.

BAF 141 Law & Banking: Principles
Prerequisites: Take DRE-096 or ENG-070 and RED-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an overview of the legal aspects of banking and the legal framework within which banks function. Topics include the court system, consumer protection, tangible and intangible property ownership, and the legalities and regulations of bank transactions. Upon completion, students should be able to discuss the non-technical aspects of the legal system and how these affect the bank’s organization and operation. This course is a unique concentration requirement of the Banking and Finance concentration in the Business Administration program.

BAF 143 Financial Planning
Prerequisites: None
Corequisites: None
Component: None
This course covers the perspectives, principles, and practices of financial planning. Topics include investment, retirement, tax, and estate planning. Upon completion, students should be able to understand the process that looks at a customer’s financial picture and recommend strategies to achieve the customer’s objectives.

BAF 222 Money and Banking
Prerequisites: Take DRE-096 or ENG-070 AND RED-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides a fundamental treatment of how money and banks function in the US and world economies. Topics include the roles of money in the US economy, the functions of the Federal Reserve Board, and the workings of monetary and fiscal policies. Upon completion, students should be able to explain how the monetary economy functions, how banks are creators of money, and the impact of the Federal Reserve. This course is a unique concentration requirement of the Banking and Finance concentration in the Business Administration program.

BAF 232 Consumer Lending
Prerequisites: Take DRE-096 or ENG-070 AND RED-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course details the many types of credit arrangements in which a finance charge is paid for the privilege of repaying debt in delayed payments. Topics include consumer credit policy, the loan process, servicing and collecting loans, consumer compliance, and evaluating credit risks. Upon completion, students should be able to identify collection policies and procedures, explain principles of credit evaluation, define open-end credit, and describe indirect lending.

BAF 234 Residential Mortgage Lending
Prerequisites: Take DRE-096 or ENG-070 AND RED-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an overview of the field of mortgage lending and the various financial markets for real estate mortgages. Topics include conventional and government related mortgages, contracts, financial markets, and qualifying prospective loan customers. Upon completion, students should be able to demonstrate an understanding of mortgage loan origination and processing, government regulations, and compliance issues.

BAF 235 Analyzing Financial Statements
Prerequisites: ACC 120
Corequisites: None
Component: None
This course provides practice in constructing and analyzing long-range, multiple-year forecasts of income statements and balance sheets, and cash budgets. Topics include trend, ratio, common size, comparative analysis, programs, projections, and cash budgets. Upon completion, students should be able to analyze income statements, balance sheets, and pro forma statements.

BIO 090 Foundations of Biology
Prerequisites: None
Corequisites: RED 090
Component: None
This course introduces basic biological concepts. Topics include basic biochemistry, cell structure and function, interrelationships among organisms, scientific methodology, and other related topics. Upon completion, students should be able to demonstrate preparedness for college-level biology courses.

BIO 092 Basics of Cell Biology
Prerequisites: None
Corequisites: RED 090 or Placement Test Credit Equivalent
Component: None
This course covers basic cell biology. Emphasis is placed on biological chemistry, cell structure and function, cellular metabolism, genetics, and other related topics. Upon completion, students should be able to demonstrate preparedness for college-level biology courses.

BIO 094 Concepts of Human Biology
Prerequisites: None
Corequisites: RED 090 or Placement Test Credit Equivalent
Component: None
This course focuses on fundamental concepts of human biology. Topics include terminology, biochemistry, cell biology, tissues, body systems, and other related topics. Upon completion, students should be able to demonstrate preparedness for college-level anatomy and physiology courses.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
BIO 165 Anatomy and Physiology I 03 03 00 04
Prerequisites: None
Component: None
This course provides a basic study of the anatomy and physiology of the human body. Topics include the structure, function, and interrelationship of organ systems with emphasis on the processes which maintain homeostasis. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

BIO 166 Anatomy and Physiology II 03 03 00 04
Prerequisites: BIO 165
Component: None
This course is the second in a two-course sequence which provides a comprehensive study of the anatomy and physiology of the human body. Topics include the structure, function, and interrelationship of organ systems with emphasis on the processes which maintain homeostasis. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
**BIO 180 Biological Chemistry**
Prerequisites: None
Corequisites: None
Component: None
This course provides an introduction to basic biochemical processes in living systems. Topics include properties of carbohydrates, lipids, proteins, nucleic acids, vitamins, and buffers, with emphasis on biosynthesis, degradation, function, and equilibrium. Upon completion, students should be able to demonstrate an understanding of fundamental biochemical concepts. This course has been approved to satisfy the Comprehensive Articulation Agreement premajor and/or elective course requirement.

**BIO 230 Entomology**
Prerequisites: BIO 112
Corequisites: None
Component: None
This course covers the biology of insects. Topics include harmful and beneficial insects, their identification, classification, life cycles, behavior, distribution, economic importance, and the methods involved in collection and preservation. Upon completion, students should be able to identify common insects and describe their biology and ecology. This course has been approved to satisfy the Comprehensive Articulation Agreement premajor and/or elective course requirement.

**BIO 243 Marine Biology**
Prerequisites: BIO-110 or BIO-111
Corequisites: None
Component: None
This course covers the physical and biological components of the marine environment. Topics include major habitats, the diversity of organisms, their biology and ecology, marine productivity, and the use of marine resources by humans. Upon completion, students should be able to identify various marine habitats and organisms and to demonstrate knowledge of their biology and ecology. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**BIO 250 Genetics**
Prerequisites: BIO 112
Corequisites: None
Component: None
This course covers principles of prokaryotic and eukaryotic cell genetics. Emphasis is placed on the molecular basis of heredity, chromosome structure, patterns of Mendelian and non-Mendelian inheritance, evolution, and biotechnological applications. Upon completion, students should be able to recognize and describe genetic phenomena and demonstrate knowledge of important genetic principles. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**BIO 275 Microbiology**
Prerequisites: One course required: BIO 110, BIO 111, BIO 163, BIO 165, or BIO 168
Corequisites: None
Component: None
This course covers principles of microbiology and the impact these organisms have on man and the environment. Topics include the various groups of microorganisms, their structure, physiology, genetics, microbial pathogenicity, infectious diseases, immunology, and selected practical applications. Upon completion, students should be able to demonstrate knowledge and skills including microscopy, aseptic technique, staining, culture methods, and identification of microorganisms. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**BPR 130 Blueprint Reading-Construction**
Prerequisites: None
Corequisites: None
Class: 03
Lab: 00
Clinic: 00
Credit: 03
This course covers the interpretation of prints and specifications that are associated with design and construction projects. Topics include interpretation of documents for foundations, floor plans, elevations, and related topics. Upon completion, students should be able to read and interpret construction prints and documents.

**BUS 110 Introduction to Business**
Prerequisites: Take DRE-096 or ENG-070 and RED-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides a survey of the business world. Topics include the basic principles and practices of the management of business. Upon completion, students should be able to demonstrate an understanding of business concepts as a foundation for studying other business subjects. This course has been approved to satisfy the Comprehensive Articulation Agreement premajor and/or elective course requirement.

**BUS 115 Business Law I**
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the ethics and legal framework of business. Emphasis is placed on contracts, negotiable instruments, Uniform Commercial Code, and the working of the court systems. Upon completion, students should be able to apply ethical issues and laws covered to selected business decision-making situations. This course has been approved to satisfy the Comprehensive Articulation Agreement premajor and/or elective course requirement.

**BUS 116 Business Law II**
Prerequisites: Take BUS 115 and DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course continues the study of ethics and business law. Emphasis is placed on bailments, sales, risk-bearing, forms of business ownership, and copyrights. Upon completion, students should be able to apply ethical issues and laws covered to selected business decision-making situations.

**BUS 121 Business Math**
Prerequisites: Take DMA-040 and DRE-096 or MAT 070, ENG-070 and RED-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers fundamental mathematical operations and their application to business problems. Topics include payroll, pricing, interest and discount, commission, taxes, and other pertinent uses of mathematics in the field of business. Upon completion, students should be able to apply mathematical concepts to business.

**BUS 125 Personal Finance**
Prerequisites: Take DRE-096 and DMA-030 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides a study of individual and family financial decisions. Emphasis is placed on building useful skills in buying, managing finances, increasing resources, and coping with current economic conditions. Upon completion, students should be able to develop a personal financial plan.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
The course introduces the basic responsibilities and duties of the supervisor and his/her relationship to higher-level supervisors, subordinates, and associates. Emphasis is placed on effective utilization of the work force and understanding the role of the supervisor. Upon completion, students should be able to apply supervisory principles in the work place. This course is also available through the Virtual Learning Community (VLC).

BUS 175 Contract Negotiations
Prerequisites: Take DRE-097 or ENG-080 and RED-090 or Placement Test
Credit Equivalent
Corequisites: None
Component: None
This course covers theory, strategies, techniques and tactics for negotiating contracts, and principles and practices of negotiations for government, corporate or institutional procurements. Topics include preparation and conduct of negotiations and methods of dealing with situations under different types of negotiations. Upon completion, students should be able to effectively negotiate contracts.

BUS 217 Employment Law and Regulations
Prerequisites: BUS 115 and DRE-098 or ENG-090 and RED-090 or Placement Test
Credit Equivalent
Corequisites: None
Component: None
This course introduces the principle laws and regulations affecting public and private organizations and their employees or prospective employees. Topics include fair employment practices, EEO, affirmative action, and employee rights and protections. Upon completion, students should be able to evaluate organization policy for compliance and assure that decisions are not contrary to law. This course is also available through the Virtual Learning Community (VLC).

BUS 225 Business Finance
Prerequisites: ACC 120 and CIS-110, CIS-111, or OST-137
Corequisites: None
Component: None
This course provides an overview of business financial management. Emphasis is placed on financial statement analysis, time value of money, management of cash flow, risk and return, and sources of financing. Upon completion, students should be able to interpret and apply the principles of financial management.

BUS 228 Business Statistics
Prerequisites: Take CIS-110 or CIS-111 and DRE-097 or ENG-080 and RED-080 or Placement Test
Credit Equivalent
Corequisites: None
Component: None
This course introduces the use of statistical methods and tools in evaluating research data for business applications. Emphasis is placed on basic probability, measures of spread and dispersion, central tendency, sampling, regression analysis, and inductive inference. Upon completion, students should be able to apply statistical problem solving to business. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

BUS 230 Small Business Management
Prerequisites: Take DRE-097 and DMA-030 or ENG-080, RED-080 and MAT-060 or Placement Test
Credit Equivalent
Corequisites: None
Component: None
This course introduces the challenges of entrepreneurship including the startup and operation of a small business. Topics include market research techniques, feasibility studies, site analysis, financing alternatives, and managerial decision making. Upon completion, students should be able to develop a small business plan.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
BUS 254 Training and Development
Prerequisites: Take DRE-097 or ENG-080 and RED-080 or Placement Test
Credit Equivalent
Component: None
This course covers the skills necessary for presenting active training programs applying the principles learned in BUS 234. Emphasis is placed on the equipment and materials employed by various media techniques. Upon completion, students should be able to make a variety of presentations based on audience, purpose of presentation, and presentation objectives.

BUS 260 Business Communication
Prerequisites: ENG 111 and CIS 110, CIS 111, CIS 113, or OST 137
Corequisites: None
Component: None
This course is designed to develop skills in writing business communications. Emphasis is placed on business reports, correspondence, and professional presentations. Upon completion, students should be able to communicate effectively in the work place.

BUS 261 Diversity in Management
Prerequisites: None
Corequisites: None
Component: None
This course is designed to help managers recognize the need to incorporate diversity into all phases of organizational management. Topics include self-evaluation, management, sexual harassment, workforce diversity, dual careers, role conflict, and communication issues. Upon completion, students should be able to implement solutions that minimize policies, attitudes, and stereotypical behaviors that block effective team building.
### BUS 274 Contract Administration

**Prerequisites:** Take DRE-098 and DMA-040 or ENG-090, RED-090, and MAT-070 or Placement Test Credit Equivalent

**Corequisites:** None

**Component:** None

This course covers the technical and fundamental procedures of contract management. Topics include contract oversight, quality assurance, compliance, financing, cost controls, documentation, terminations and disputes, subcontract management, and audit. Upon completion, students should be able to apply the principles of administering contracts.

### CAR 112 Carpentry II

**Prerequisites:** A set of courses is required: CAR 111 or CAR 111AA and CAR 111BB

**Corequisites:** None

**Component:** CAR 112AA, CAR 112BB

This course covers the advanced theory and construction methods associated with the building industry including framing and exterior finishes. Topics include safety, hand/power tool use, measurement and layout, construction framing, exterior trim and finish, and other related topics. Upon completion, students should be able to safely frame and apply exterior finishes to a residential building with supervision.

### BUS 276 Government Contract Law

**Prerequisites:** BUS 115

**Corequisites:** None

**Component:** None

This course provides an introduction to government contract law, contract clauses and provisions, and legal aspects associated with contracting. Topics include contractual relationships with the federal government, state and municipal agencies, contract formation, governmental liability, and the dispute process. Upon completion, students should be able to apply ethical issues and laws covered to procurement and contract management decisions.

### BUS 278 Contract Cost and Pricing

**Prerequisites:** BUS 121

**Corequisites:** None

**Component:** None

This course covers the establishment and administration of equitable costing and pricing systems in contracting for goods and services. Emphasis is placed on determining total price and estimating the elements of cost including labor, materials, indirect costs, and profit. Upon completion, students should be able to apply cost and pricing techniques to procurement and contracting issues.

### BUS 285 Business Management Issues

**Prerequisites:** ACC 120, BUS 110, BUS 115, BUS 137, MTK 120, and ECO 251 or ECO 252

**Corequisites:** None

**Component:** None

This course covers contemporary issues that affect successful businesses and their managers and employees. Emphasis is placed on using case studies and exercises to develop analytical and problem-solving skills, ethics, quality management concepts, team skills, and effective communication. Upon completion, students should be able to apply the specific knowledge and skills covered to become more effective managers and employees.

### CAR 113 Carpentry III

**Prerequisites:** A set of courses is required: CAR 111 or CAR 111AA and CAR 111BB

**Corequisites:** None

**Component:** None

This course covers interior trim and finishes. Topics include safety, hand/power tool use, measurement and layout, specialty framing, interior trim and finishes, cabinetry, and other related topics. Upon completion, students should be able to safely install various interior trim and finishes in a residential building with supervision.

### CAR 114 Residential Building Codes

**Prerequisites:** None

**Corequisites:** None

**Component:** None

This course covers building codes and the requirements of state and local construction regulations. Emphasis is placed on the minimum requirements of the North Carolina building codes related to residential structures. Upon completion, students should be able to determine if a structure is in compliance with North Carolina building codes.

### CAR 115 Residential Planning/Estimating

**Prerequisites:** All Courses Required: BPR 130

**Corequisites:** None

**Component:** None

This course covers project planning, management, and estimating for residential or light commercial buildings. Topics include planning and scheduling, interpretation of working drawings and specifications, estimating practices, and other related topics. Upon completion, students should be able to perform quantity take-offs and cost estimates.

### CCT 112 Ethics & High Technology

**Prerequisites:** None

**Corequisites:** None

**Component:** None

This course covers ethical considerations and accepted standard practices applicable to technological investigations and computer privacy issues relative to the cyber crime investigator. Topics include illegal and unethical investigative activities, end-justifying-the-means issues, and privacy issues of massive personal database information gathered by governmental sources. Upon completion, students should be able to examine their own value system and apply ethical considerations in identifiable cyber crime investigations.

### CCT 231 Technology Crimes & Law

**Prerequisites:** None

**Corequisites:** None

**Component:** None

This course covers the applicable technological laws dealing with the regulation of cyber security and criminal activity. Topics include an examination of state, federal and international laws regarding cyber crime with an emphasis on both general and North Carolina statutes. Upon completion, students should be able to identify the elements of cyber crime activity and discuss the trends of evolving laws.

CEG 210 Construction Mtls & Methods 02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the behavior and properties of Portland cement, asphaltic concretes, and other construction materials, including construction methods and equipment. Topics include cementing agents, aggregates, water and admixture materials with their proportions, production, placement, consolidation, curing; and their inspection. Upon completion, students should be able to proportion Portland concrete mixes to attain predetermined strengths, perform standard control tests on Portland cement concrete, identify inspection criteria for concretes, identify construction equipment and applications.

CEG 211 Hydrology & Erosion Control 02 03 00 03
Prerequisites: Take MAT-121, MAT-171 or DMA-080
Corequisites: None
Component: None
This course introduces basic engineering principles and characteristics of hydrology, erosion and sediment control. Topics include stormwater runoff, gravity pipe flow, open channel flow, low impact development (LID), erosion control devices and practices. Upon completion, students should be able to analyze and design gravitational drainage structures, identify LID and erosion control elements, and prepare a stormwater drainage plan.

CEG 212 Intro to Environmental Tech 02 03 00 03
Prerequisites: CEG-211 and EGR-250
Corequisites: None
Component: None
This course introduces basic engineering principles of hydraulics, and water and wastewater technologies. Topics include fluid statics, fluid dynamics, flow measurement, the collection, treatment, and distribution of water and wastewater. Upon completion, students should be able to identify water and wastewater system elements, describe water and wastewater system processes and perform basic hydraulics and treatment computations.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
CHM 090 Chemistry Concepts
Prerequisites: None
Corequisites: None
Component: None
This course provides a non-laboratory based introduction to basic concepts of chemistry. Topics include measurements, matter, energy, atomic theory, bonding, molecular structure, nomenclature, balancing equations, stoichiometry, solutions, acids and bases, gases, and basic organic chemistry. Upon completion, students should be able to understand and apply basic chemical concepts necessary for success in college-level science courses.

CHM 092 Fundamentals of Chemistry
Prerequisites: None
Corequisites: None
Component: None
This course covers fundamentals of chemistry with laboratory applications. Topics include measurements, matter, energy, atomic theory, bonding, molecular structure, nomenclature, balancing equations, stoichiometry, solutions, acids and bases, gases, and basic organic chemistry. Upon completion, students should be able to understand and apply basic chemical concepts and demonstrate basic laboratory skills necessary for success in college-level science courses.

CHM 115 Concepts in Chemistry
Prerequisites: None
Corequisites: None
Component: None
This course introduces basic chemical concepts and their applications to daily life for non-science majors. Topics include air pollution, global warming, energy, world of polymers, water and its importance to a technological society, food, drugs, and nuclear chemistry. Upon completion, students should be able to discuss, apply, and appreciate the impact of chemistry on modern society. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CHM 115A Concepts in Chemistry Lab
Prerequisites: None
Corequisites: CHM 115
Component: None
This course is a laboratory for CHM 115. Emphasis is placed on laboratory experiences that enhance materials presented in CHM 115. Upon completion, students should be able to utilize basic laboratory procedures and apply them to chemical concepts presented in CHM 115. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CHM 130 General, Organic, & Biochemistry
Prerequisites: None
Corequisites: CHM 130A
Component: None
This course provides a survey of basic facts and principles of general, organic, and biochemistry. Topics include measurement, molecular structure, nuclear chemistry, solutions, acid-base chemistry, gas laws, and the structure, properties, and reactions of major organic and biological groups. Upon completion, students should be able to demonstrate an understanding of fundamental chemical concepts. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CHM 130A General, Organic, & Biochemistry Lab
Prerequisites: None
Corequisites: CHM 130
Component: None
This course is a laboratory for CHM 130. Emphasis is placed on laboratory experiences that enhance materials presented in CHM 130. Upon completion, students should be able to utilize basic laboratory procedures and apply them to chemical principles presented in CHM 130. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CHM 131 Introduction to Chemistry
Prerequisites: Take DMA-050 and DRE-098 or Placement Test Equivalent
Corequisites: CHM-131A
Component: This course introduces the fundamental concepts of inorganic chemistry. Topics include measurement, matter and energy, atomic and molecular structure, nuclear chemistry, stoichiometry, chemical formulas and reactions, chemical bonding, gas laws, solutions, and acids and bases. Upon completion, students should be able to demonstrate a basic understanding of chemistry as it applies to other fields. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

CHM 131A Introduction to Chemistry Lab
Prerequisites: None
Corequisites: CHM 131
Component: None
This course is a laboratory to accompany CHM 131. Emphasis is placed on laboratory experiences that enhance materials presented in CHM 131. Upon completion, students should be able to utilize basic laboratory procedures and apply them to chemical principles presented in CHM 131. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

CHM 132 Organic and Biochemistry
Prerequisites: CHM 131 and CHM 131A or CHM 151
Corequisites: None
Component: None
This course provides a survey of major functional classes of compounds in organic and biochemistry. Topics include structure, properties, and reactions of the major organic and biological molecules and basic principles of metabolism. Upon completion, students should be able to demonstrate an understanding of fundamental chemical concepts needed to pursue studies in related professional fields. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

CHM 135 Survey of Chemistry I
Prerequisites: Take DMA 050 or DRE 098 or ENG 090, ENG-090A, MAT 070, and RED 090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an introduction to inorganic chemistry. Emphasis is placed on measurement, atomic structure, bonding, molecular geometry, nomenclature, reactions, the mole concept, stoichiometric calculations, states of matter, and the gas laws. Upon completion, students should be able to demonstrate a basic understanding of chemistry as it applies to other fields. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

CHM 136 Survey of Chemistry II
Prerequisites: CHM 135
Corequisites: None
Component: None
This course is a continuation of CHM 135 with further study of inorganic reactions and an introduction to organic, biological, and nuclear chemistry. Topics include solutions, acid-base theory, redox reactions, chemical kinetics, organic chemistry, biochemistry, and nuclear chemistry. Upon completion, students should be able to demonstrate a basic understanding of chemistry as it applies to other fields. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
Techniques employed in substance identification and volumetric analysis. Upon completion, students should be able to demonstrate an understanding of fundamental chemical laws and concepts as needed in CHM 152. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

CHM 152 General Chemistry II
Prerequisites: CHM 151
Corequisites: None
Component: None
This course provides a continuation of the study of the fundamental principles and laws of chemistry. Topics include kinetics, equilibrium, ionic and redox equations, acid-base theory, electrochemistry, thermodynamics, introduction to nuclear and organic chemistry, and complex ions. Upon completion, students should be able to demonstrate an understanding of chemical concepts as needed to pursue further study in chemistry and related professional fields. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

CHM 251 Organic Chemistry I
Prerequisites: CHM 152
Corequisites: None
Component: None
This course provides a systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of hydrocarbons, alkyl halides, alcohols, and ethers; further topics include isomerization, stereoisomerism, and spectroscopy. Upon completion, students should be able to demonstrate an understanding of the fundamental concepts of covered organic topics as needed in CHM 252. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CHM 252 Organic Chemistry II
Prerequisites: CHM 251
Corequisites: None
Component: None
This course provides a continuing study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of aromatics, aldehydes, ketones, carboxylic acids and derivatives, amines and heterocyclics; multi-step synthesis will be emphasized. Upon completion, students should be able to demonstrate an understanding of organic concepts as needed in CHM 252. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CHM 263 Analytical Chemistry
Prerequisites: Take One: CHM 132 or CHM 152
Corequisites: None
Component: None
This course covers the knowledge and laboratory skills needed to perform chemical analysis. Emphasis is placed on developing laboratory techniques used in the separation, identification, and quantification of selected substances. Upon completion, students should be able to perform laboratory techniques employed in substance identification and volumetric analysis and interpret the results. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

CIS 070 Fundamentals of Computing
Prerequisites: None
Corequisites: None
Component: None
This course covers fundamental functions and operations of the computer. Topics include identification of components, overview of operating systems, and other basic computer operations. Upon completion, students should be able to operate computers, access files, print documents and perform basic applications operations.

CIS 110 Introduction to Computers
Prerequisites: Take DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces computer concepts, including fundamental functions and operations of the computer. Topics include identification of hardware components, basic computer operations, security issues, and use of software applications. Upon completion, students should be able to demonstrate an understanding of the role and function of computers and use the computer to solve problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural science/mathematics (Quantitative Option). This course is also available through the Virtual Learning Community (VLC).

CIS 111 Basic PC Literacy
Prerequisites: Take DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an overview of computer concepts. Emphasis is placed on the use of personal computers and software applications for personal and fundamental workplace use. Upon completion, students should be able to demonstrate basic personal computer skills. This course is also available through the Virtual Learning Community (VLC).

CIS 113 Computer Basics
Prerequisites: Take DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces basic computer usage for non-computer majors. Emphasis is placed on developing basic personal computer skills. Upon completion, students should be able to demonstrate competence in basic computer applications. This course is also available through the Virtual Learning Community (VLC).

CIS 115 Intro to Prog & Logic
Prerequisites: Take DMA-040, MAT-121 or MAT-171 and DRE-096 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces computer programming and problem solving in a structured program logic environment. Topics include language syntax, data types, program organization, problem solving methods, algorithm design, and logic control structures. Upon completion, students should be able to manage files with operating system commands, use top-down algorithm design, and implement algorithmic solutions in a programming language. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural science/mathematics (Quantitative Option). This course is also available through the Virtual Learning Community (VLC).

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.

### CIV 250 Civil Eng Technology Project
Prerequisites: Departmental approval  
Corequisites: None  
Component: None  
This course includes an integrated team approach to civil engineering technology projects. Emphasis is placed on project proposal, site selection, analysis/design of structures, construction material selection, time and cost estimating, planning, and management of a project. Upon completion, students should be able to apply team concepts, prepare estimates, submit bid proposals, and manage projects.

### CJC 100 Basic Law Enforcement Training
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the skills and knowledge needed for entry-level employment as a law enforcement officer in North Carolina. Topics are divided into general units of study: legal, patrol duties, law enforcement communications, investigations, practical application and sheriff-specific. Upon successful completion, the student will be able to demonstrate competence in topics and areas required for the state comprehensive certification examination. This is a certificate-level course.

### CJC 111 Introduction to Criminal Justice
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the components and processes of the criminal justice system. Topics include history, structure, functions, and philosophy of the criminal justice system and their relationship to life in our society. Upon completion, students should be able to define and describe the major system components and their interrelationships and evaluate career options. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

### CJC 112 Criminology
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces deviant behavior as it relates to criminal activity. Topics include theories of crime causation; statistical analysis of criminal behavior; past, present, and future social control initiatives; and other related topics. Upon completion, students should be able to explain and discuss various theories of crime causation and societal response.

### CJC 113 Juvenile Justice
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the juvenile justice system and related juvenile issues. Topics include an overview of the juvenile justice system, treatment and prevention programs, special areas and laws unique to juveniles, and other related topics. Upon completion, students should be able to identify/discuss juvenile court structure/procedures, function and jurisdiction of juvenile agencies, processing/detention of juveniles, and case disposition. This course is also available through the Virtual Learning Community (VLC).

### CJC 114 Investigative Photography
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the operation of digital photographic equipment and its application to criminal justice. Topics include the use of digital cameras, storage of digital images, the retrieval of digital images and preparation of digital images as evidence. Upon completion, students should be able to demonstrate and explain the role and use of digital photography, image storage and retrieval in criminal investigations.

### CJC 116 Introduction to Information Security
Prerequisites: CIS 110 or CIS 111  
Corequisites: None  
Component: None  
This course introduces the students to undercover techniques necessary to identify information security breaches and establish, maintain and monitor information security systems. Emphasis will be placed on the investigative tools used to collect evidence in cases of illegal activity. Upon completion, students should be able to evaluate information systems, identify security problems and provide procedures to guard against security breaches. This course is a unique concentration requirement in the Financial Crime/Computer Fraud concentration in the Criminal Justice Technology Program.

### CJC 120 Interviews/Interrogations
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers basic and special techniques employed in criminal justice interviews and interrogations. Emphasis is placed on the interview/interrogation process, including interpretation of verbal and physical behavior and legal perspectives. Upon completion, students should be able to conduct interviews/interrogations in a legal, efficient, and professional manner and obtain the truth from suspects, witnesses, and victims.

### CJC 121 Law Enforcement Operations
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces fundamental law enforcement operations. Topics include the contemporary evolution of law enforcement operations and related issues. Upon completion, students should be able to explain theories, practices, and issues related to law enforcement operations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

### CJC 122 Community Policing
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the historical, philosophical, and practical dimensions of community policing. Emphasis is placed on the relationship between the police and the community to find solutions to problems by forming partnerships. Upon completion, students should be able to define community policing, describe how community policing strategies solve problems, and compare community policing to traditional policing.

### CJC 131 Criminal Law
Prerequisites: Take DRE-098 or ENG 090, ENG 090A, and RED 090 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course covers the history/evolution/principles and contemporary applications of criminal law. Topics include sources of substantive law, classification of crimes, parties to crime, elements of crimes, matters of criminal responsibility, and other related topics. Upon completion, students should be able to discuss the sources of law and identify, interpret, and apply the appropriate statutes/elements.

---

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academic_services/index.aspx](http://www.faytechcc.edu/academic_services/index.aspx).
This course covers judicial structure/process/procedure from incident to disposition, kinds and degrees of evidence, and the rules governing admissibility of evidence in court. Topics include consideration of state and federal courts, arrest, search and seizure laws, exclusionary and statutory rules of evidence, and other related issues. Upon completion, students should be able to identify and discuss procedures necessary to establish a lawful arrest/search, proper judicial procedures, and the admissibility of evidence. This course is also available through the Virtual Learning Community (VLC).

This course covers the theories and practices of crime scene processing and investigating. Topics include historical evolution, functions of the various components, alternatives to incarceration, treatment programs, inmate control, and other related topics. Upon completion, students should be able to evaluate the various components, processes, and functions of the correctional system. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

This course introduces the student to CAD software for crime scenes. Topics include drawing, editing, file management and drafting theory and practices. Upon completion, students should be able to produce and plot a crime scene drawing.

This course provides a study of trace evidence as it relates to forensic science. Topics include collection, packaging, and preservation of trace evidence from crime scenes such as bombings, fires and other scenes. Upon completion, students should be able to demonstrate the fundamental concepts of trace evidence collection, preservation and submission to the crime laboratory.

This course introduces the concepts and methods related to commercial and private security systems. Topics include the historical, philosophical, and legal basis of security, with emphasis on security surveys, risk analysis, and associated functions. Upon completion, students should be able to demonstrate and understand security systems, risk management, and the laws relative to loss prevention.

CJC 160 Terrorism: Underlying Issues
Prerequisites: None
Corequisites: None
Component: None
This course identifies the fundamental reasons why America is a target for terrorists, covering various domestic/international terrorist groups and ideologies from a historical aspect. Emphasis is placed upon recognition of terrorist crime scene; weapons of mass destruction; chemical, biological, and nuclear terrorism; and planning considerations involving threat assessments. Upon completion, students should be able to identify and discuss the methods used in terrorists' activities and complete a threat assessment for terrorists' incidents.

CJC 161 Intro to Homeland Security
Prerequisites: None
Corequisites: None
Component: None
This course introduces the historical, organizational and practical aspects of Homeland Security. Topics include a historic overview, definitions and concepts, organizational structure, communications, technology, mitigation, prevention and preparedness, response and recovery, and the future of Homeland Security. Upon completion, students should be able to explain essential characteristics of terrorism and Homeland Security, and define roles, functions and interdependency between agencies.

CJC 162 Intel Analysis & Sec Mgmt
Prerequisites: None
Corequisites: None
Component: None
This course examines intelligence analysis and its relationship to the security management of terrorist attacks and other threats to national security of the United States. Topics include a historic overview, definitions and concepts, intelligence evolution-politicization-operations-strategies, surveillance, analysis perspectives, covert action, and ethics. Upon completion, students should be able to outline intelligence policies, evaluate source information, implement intelligence techniques and analysis, identify threats, and apply ethical behaviors.

CJC 163 Trans and Border Security
Prerequisites: None
Corequisites: None
Component: None
This course provides an in-depth view of modern border and transportation security including the technologies used for detecting potential threats from terrorists and weapons. Topics include an overview of security challenges, detection devices and equipment, transportation systems, facilities, threats and counter-measures, and security procedures, policies and agencies. Upon completion, students should be able to describe border security, the technologies used to enforce it, and the considerations and strategies of border security agencies.

CJC 170 Critical Incident Mgmt Pub Saf
Prerequisites: None
Corequisites: None
Component: None
This course prepares the student to specialize in the direct response, operations, and management of critical incidents. Emphasis is placed upon the theoretical and applied models to understand and manage disasters, terrorism, and school/work place violence. Upon completion, the student should be able to identify and discuss managerial techniques legal issues, and response procedures to critical incidents.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
### CJC 193S Selected Topics in Criminal Justice

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course provides an opportunity to explore areas of current interest in specific program or discipline areas. Emphasis is placed on subject matter appropriate to the program or discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

### CJC 211 Counseling

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course introduces the basic elements of counseling and specific techniques applicable to the criminal justice setting. Topics include observation, listening, recording, interviewing, and problem exploration necessary to form effective helping relationships. Upon completion, students should be able to discuss and demonstrate the basic techniques of counseling.

### CJC 212 Ethics & Comm Relations

**Prerequisites:** Take DRE-098 or ENG-090, ENG-090A, and RED-090 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None  
This course covers ethical considerations and accepted standards applicable to criminal justice organizations and professionals. Topics include ethical systems; social change, values, and norms; cultural diversity; citizen involvement in criminal justice issues; and other related topics. Upon completion, students should be able to apply ethical considerations to the decision-making process in identifiable criminal justice situations. This course is also available through the Virtual Learning Community (VLC).

### CJC 213 Substance Abuse

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course is a study of substance abuse in our society. Topics include the history and classifications of drug abuse and the social, physical, and psychological impact of drug abuse. Upon completion, students should be able to identify various types of drugs, their effects on human behavior and society, and treatment modalities.

### CJC 214 Victimology

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course introduces the study of victims. Emphasis is placed on roles/characteristics of victims, victim interaction with the criminal justice system and society, current victim assistance programs, and other related topics. Upon completion, students should be able to discuss and identify victims, the uniqueness of victims’ roles, and current victim assistance programs.

### CJC 215 Organization & Administration

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course introduces the components and functions of organization and administration as it applies to the agencies of the criminal justice system. Topics include operations/functions of organizations; recruiting, training, and retention of personnel; funding and budgeting; communications; span of control and discretion; and other related topics. Upon completion, students should be able to identify and discuss the basic components and functions of a criminal justice organization and its administrative operations.

### CJC 216 Computer System Security Investigation

**Prerequisites:** CJC 116  
**Corequisites:** None  
**Component:** None  
This course covers the investigation of illegal activity affecting computer systems and security. Emphasis will be placed on design techniques, security architecture, discretionary and mandatory controls, memory protection, distributed systems and legal issues pertaining to computer operations security. Upon completion, students should be able to recognize and identify potential problem areas in computer systems and provide assistance in solving security problems. This course is a unique concentration requirement in the Financial Crime/Computer Fraud concentration in the Criminal Justice Technology Program.

### CJC 217 Net Security Troubleshooting

**Prerequisites:** CJC 216  
**Corequisites:** None  
**Component:** None  
This course enables students to apply the investigative skills they have learned to operating systems and networks. Topics will include security technologies for multiple platforms, encryption techniques and authentication and key distribution systems. Upon completion, students will be able to contrast competing schemes and describe mistakes made in design, which could lead to criminal activity. This course is a unique concentration requirement in the Financial Crime/Computer Fraud concentration in the Criminal Justice Technology Program.

### CJC 221 Investigative Principles

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course introduces the theories and fundamentals of the investigative process. Topics include crime scene/incident processing, information gathering techniques, collection/preservation of evidence, preparation of appropriate reports, court presentations, and other related topics. Upon completion, students should be able to identify, explain, and demonstrate the techniques of the investigative process, report presentation, and courtroom presentation. This course is also available through the Virtual Learning Community (VLC).

### CJC 222 Criminalistics

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course covers the functions of the forensic laboratory and its relationship to successful criminal investigations and prosecutions. Topics include advanced crime scene processing, investigative techniques, current forensic technologies, and other related topics. Upon completion, students should be able to identify and collect relevant evidence at simulated crime scenes and request appropriate laboratory analysis of submitted evidence.

### CJC 223 Organized Crime

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course introduces the evolution of traditional and non-traditional organized crime and its effect on society and the criminal justice system. Topics include identifying individuals and groups involved in organized crime, areas of criminal activity, legal and political responses to organized crime, and other related topics. Upon completion, students should be able to identify the groups and activities involved in organized crime and the responses of the criminal justice system.

---

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
CJC 225 Crisis Intervention
Prerequisites: None
Corequisites: None
Component: None
This course introduces critical incident intervention and management techniques as they apply to operational criminal justice practitioners. Emphasis is placed on the victim/offender situation as well as job-related high stress, dangerous or problem-solving citizen contacts. Upon completion, students should be able to provide insightful analysis of emotional, violent, drug-induced, and other critical and/or stressful incidents that require field analysis and/or resolution.

CJC 231 Constitutional Law
Prerequisites: Take DRE-098 or ENG-090, ENG-090A, and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
The course covers the impact of the Constitution of the United States and its amendments on the criminal justice system. Topics include the structure of the Constitution and its amendments, court decisions pertinent to contemporary criminal justice issues, and other related topics. Upon completion, students should be able to discuss the basic structure of the United States Constitution and the rights/procedures as interpreted by the courts. This course is also available through the Virtual Learning Community (VLC).

CJC 232 Civil Liability
Prerequisites: None
Corequisites: None
Component: None
This course covers liability issues for the criminal justice professional. Topics include civil rights violations, tort liability, employment issues, and other related topics. Upon completion, students should be able to explain civil trial procedures and discuss contemporary liability issues.

CJC 233 Correctional Law
Prerequisites: None
Corequisites: None
Component: None
This course introduces statutory/case law pertinent to correctional concepts, facilities, and related practices. Topics include examination of major legal issues encompassing incarceration, probation, parole, restitution, pardon, restoration of rights, and other related topics. Upon completion, students should be able to identify/discuss legal issues which directly affect correctional systems and personnel.

CJC 234 Community-Based Correction
Prerequisites: None
Corequisites: None
Component: None
This course covers programs for convicted offenders that are used both as alternatives to incarceration and in post-incarceration situations. Topics include offenders, diversion, house arrest, restitution, community service, probation and parole, including both public and private participation, and other related topics. Upon completion, students should be able to identify/discuss various programs from the perspective of the criminal justice professional, the offender, and the community.

CJC 244 Footwear and Tire Imprints
Prerequisites: None
Corequisites: None
Component: None
This course provides a study of the fundamental concepts of footwear and tire imprint evidence as related to forensic science. Topics include proper photographic recording, casting, recognition of wear patterns and imprint identification. Upon completion, the student should be able to recognize, record, photograph, and identify footwear and tire imprints.

CJC 245 Friction Ridge Analysis
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic elements of fingerprint technology and techniques applicable to the criminal justice field. Topics include the history and meaning of fingerprints, pattern types and classification, filing sequence, searching and referencing. Upon completion, students should be able to discuss and demonstrate the fundamental techniques of basic fingerprint technology.

CJC 246 Adv Friction Ridge Analysis
Prerequisites: CJC 245
Corequisites: None
Component: None
This course introduces the theories and processes of advanced friction ridge analysis. Topics include evaluation of friction ridges, chart preparation, comparative analysis for valued determination rendering proper identification, chemical enhancement and AFIS preparation and usage. Upon completion, students must show an understanding of proper procedures for friction ridge analysis through written testing and practical exercises.

CJC 249 Forensic Accounting
Prerequisites: ACC 220
Corequisites: None
Component: None
This course introduces students to theoretical and practical aspects of asset and cash control investigations through internal audit and fraud investigation procedure used in corporate investigation. The emphasis is placed on procedures used to identify the absence of proper controls or the existence of improper activity, which creates illegal activity. Upon completion, students will be able to conduct fraud investigations including the collection of evidence and preparation of the case for criminal prosecution. This course is a unique concentration requirement in the Financial Crime/Computer Fraud concentration in the Criminal Justice Technology Program.

CJC 250 Forensic Biology I
Prerequisites: None
Corequisites: None
Component: None
This course covers important biological principles that are applied in the crime laboratory. Topics include forensic toxicology, forensic serology, microscopy, and DNA typing analysis, with an overview of organic and inorganic analysis. Upon completion, students should be able to articulate how a crime laboratory processes physical evidence submitted by law enforcement agencies.

CJC 251 Forensic Chemistry I
Prerequisites: None
Corequisites: None
Component: None
This course provides a study of the fundamental concepts of chemistry as it relates to forensic science. Topics include physical and chemical properties of substances, metric measurements, chemical changes, elements, compounds, gases, and atomic structure. Upon completion, students should be able to demonstrate an understanding of the fundamental concepts of forensic chemistry.

CJC 252 Forensic Chemistry II
Prerequisites: CJC 251
Corequisites: None
Component: None
This course provides a study of specialized areas of chemistry specifically related to forensic science. Topics include properties of light, emission and absorption spectra, spectrophotometry, gas and liquid chromatography, and related topics in organic and biochemistry. Upon completion, students should be able to demonstrate an understanding of specialized concepts in forensic chemistry.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
CJC 256 Forensic Surveying 02 03 00 00
Prerequisites: None
Corequisites: None
Component: None
This course provides students with the requisite understanding and skills necessary to employ surveying equipment to position and map a crime or traffic homicide scene. Topics include triangulation and rectangular coordinate grids, polar coordinates, establishing datum points, Global Positioning Systems and total station positioning and mapping. Upon completion, students should be able to accurately use a total station system for the purpose of positioning and mapping crime or traffic homicide scenes.

CJC 260 Threat Assessment 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course prepares students to perform extensive security audits for private corporations and for local and state government, identifying weaknesses in their overall security programs. Emphasis will be placed on risk analysis studies that examine the methods, procedures, and systems for security gaps and vulnerabilities. Upon completion, students should be able to evaluate all facets of a protective program from corporate disaster response planning to security teams guarding local/state officials.

CJC 262 High-Risk Event Planning 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces students to the principles of high-risk executive protection and the planning associated with security during visits from government officials and other dignitaries. Emphasis will be placed on conducting advance surveys, residential security, restaurant and banquet security, surveillance detection, and counter surveillance operations. Upon completion, students should be able to demonstrate the ability to write security plans for high-risk events.

CMT 120 Codes and Inspections 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers building codes and the code inspections process used in the design and construction of residential and commercial buildings. Emphasis is placed on commercial, residential, and accessibility (handicapped) building codes. Upon completion, students should be able to understand the building code inspections process and apply building code principals and requirements to construction projects.

CMT 120 Codes and Inspections 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers building codes and the code inspections process used in the design and construction of residential and commercial buildings. Emphasis is placed on commercial, residential, and accessibility (handicapped) building codes. Upon completion, students should be able to understand the building code inspections process and apply building code principals and requirements to construction projects.

### COS 225 Adv Contemporary Hair Coloring
**Prerequisites:** Take COS-223
**Corequisites:** None
**Component:** None
This course covers advanced techniques in coloring applications and problem solving situations. Topics include removing unwanted color, replacing pigment and re-coloring, removing coatings, covering grey and white hair, avoiding color fading, and poor tint results. Upon completion, students should be able to apply problem solving techniques in hair coloring situations.

### COS 240 Contemporary Design
**Prerequisites:** COS 111 and COS 112
**Corequisites:** None
**Component:** None
This course covers methods and techniques for contemporary designs. Emphasis is placed on contemporary designs and other related topics. Upon completion, students should be able to demonstrate and apply techniques associated with contemporary design.

### COS 250 Computerized Salon Ops
**Prerequisites:** COS 111 and COS 112
**Corequisites:** None
**Component:** None
This course introduces computer and salon software. Emphasis is placed on various computer and salon software applications. Upon completion, students should be able to utilize computer skills and software applications in the salon setting.

### COS 260 Design Applications
**Prerequisites:** None
**Corequisites:** None
**Component:** None
This course provides an overview of the design concepts used in cosmetology. Topics include the application of art principles and elements to artistically design hair, nails, and make-up and other related topics. Upon completion, students should be able to demonstrate knowledge and techniques associated with design concepts.

### CSC 133 C Programming
**Prerequisites:** None
**Corequisites:** None
**Component:** None
This course introduces computer programming using the C programming language with structured programming principles. Topics include input/output operations, iteration, arithmetic operations, arrays, pointers, filters, and other related topics. Upon completion, students should be able to design, code, test and debug at a beginning level.

### CSC 134 C++ Programming
**Prerequisites:** Take CIS 115 and DRE-098 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
**Corequisites:** None
**Component:** None
This course introduces computer programming using the C++ programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test and debug at a beginning level. This course is also available through the Virtual Learning Community (VLC).

### CSC 135 COBOL Programming
**Prerequisites:** Take CIS 115 and DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
**Corequisites:** None
**Component:** None
This course introduces computer programming using the COBOL programming language with structured programming principles. Topics include input/output operations, iteration, arithmetic operations, arrays, pointers, filters, and other related topics. Upon completion, students should be able to design, code, test and debug at a beginning level.

### CSC 139 Visual BASIC Prog
**Prerequisites:** Take CIS 115 and DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
**Corequisites:** None
**Component:** None
This course introduces computer programming using the Visual BASIC programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test and debug at a beginning level. This course is also available through the Virtual Learning Community (VLC).

### CSC 141 Visual C++ Prog
**Prerequisites:** None
**Corequisites:** None
**Component:** None
This course introduces computer programming using the Visual C++ programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment at a beginning level.

### CSC 151 JAVA Programming
**Prerequisites:** Take CIS 115 and DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
**Corequisites:** None
**Component:** None
This course introduces computer programming using the JAVA programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

### CSC 153 C# Programming
**Prerequisites:** Take CIS-115 or CSC-133. Take DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
**Corequisites:** None
**Component:** None
This course introduces computer programming using the C# programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment at the beginning level.

### CSC 191S Selected Topics in Computer Programming
**Prerequisites:** None
**Corequisites:** None
**Component:** None
This course provides an opportunity to explore areas of current interest in specific program or discipline areas. Emphasis is placed on subject matter appropriate to the program or discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

CSC 234 Advanced C++
Prerequisites: Take CSC-134 and DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is a continuation of CSC 134 using the C++ programming language with standard programming principles. Emphasis is placed on advanced structures, file management/processing techniques, data structures, sub-programs, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design, code, test, debug and document programming solutions.

CSC 235 Advanced C# Programming
Prerequisites: Take CSC 135 and DRED-098 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is a continuation of CSC 135 using the C# programming language with structured programming principles. Emphasis is placed on abstract data types, file management/processing techniques, data structures, sub-programs, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design, code, test, debug and document programming solutions.

CSC 239 Advanced Visual BASIC
Prerequisites: CSC 139
Corequisites: None
Component: None
This course is a continuation of CSC 139 using the VISUAL BASIC programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment.

CSC 251 Advanced JAVA Programming
Prerequisites: CSC 151
Corequisites: None
Component: None
This course is a continuation of CSC 151 using the JAVA programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment.

CSC 253 Advanced C# Programming
Prerequisites: Take CSC-153 and DRE-098 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is a continuation of CSC 153 using the C# programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment.

CSC 258 JAVA Enterprise Programs
Prerequisites: Take CSC-151 and DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides a continuation to CSC 151 using the Java Enterprise Edition (JEE) programming architecture. Topics include distributed network applications, database connectivity, Enterprise Java Beans, servlets, collection frameworks, JNDI, RMI, JSP, multithreading XML and multimedia development. Upon completion, students should be able to program a client/server enterprise application using the JEE framework.
Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
CUL 110A Sanitation & Safety Lab  
Prerequisites: None  
Corequisites: CUL 110  
Component: None  
This course provides a laboratory experience for enhancing student skills in the basic principles of sanitation and safety. Emphasis is placed on personal hygiene, sanitation and safety regulations, use and care of equipment, the principles of food-borne illness, and other related topics. Upon completion, students should be able to demonstrate practical applications of sanitation and safety procedures in the hospitality industry.

CUL 111 Success in Hosp Studies  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an orientation to the resources available and academic skills necessary to achieve success in a hospitality program. Emphasis is placed on technical and interpersonal skills, study skills, ethics, professionalism and time management as they relate to a hospitality field. Upon completion, students should be able to manage their learning experiences to successfully meet their educational goals.

CUL 112 Nutrition for Foodservice  
Prerequisites: Take DRE-097 and DMA-030 or ENG-080, RED-080 and MAT-060 or Placement Test Credit equivalent  
Corequisites: None  
Component: None  
This course covers the principles of nutrition and its relationship to the foodservice industry. Topics include personal nutrition fundamentals, weight management, exercise, nutritional adaptation/analysis of recipes/menus, healthy cooking techniques and marketing nutrition in a foodservice operation. Upon completion, students should be able to apply basic nutritional concepts to food preparation and selection.

CUL 112A Nutrition for Fdsv Lab  
Prerequisites: Take DRE-097 or ENG 080 and RED-080 or Placement Test Credit equivalent  
Corequisites: CUL 112  
Component: None  
This course provides a laboratory experience for enhancing student skills in the principles of nutrition and its relationship to the foodservice industry. Emphasis is placed on personal nutrition fundamentals, weight management/ exercise, nutritional adaptation/analysis of recipes/menus, healthy cooking techniques and marketing nutrition in a foodservice operation. Upon completion, students should be able to apply basic nutritional concepts to food preparation and selection.

CUL 120 Purchasing  
Prerequisites: Take DRE-097 and DMA-030 or ENG-080, RED-080 and MAT-060 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course covers purchasing for foodservice operations. Emphasis is placed on yield tests, procurement, negotiating, inventory control, product specification, purchasing ethics, vendor relationships, food product specifications and software applications. Upon completion, students should be able to demonstrate practical applications of purchasing within the hospitality industry.

CUL 125 Hospitality Information Systems  
Prerequisites: Take DRE-097 and DMA-030 or ENG-080, RED-080 and MAT-060 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces hospitality and food service information systems. Topics include planning, cost controls, forecasting, inventory control, recipe control, production control, and nutritional analysis. Upon completion, students should be able to demonstrate competence in utilizing contemporary information application systems in a hospitality setting.

CUL 130 Menu Design  
Prerequisites: Take DRE-097 and DMA-030 or ENG-080, RED-080 and MAT-060, RED-070 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces menu design and its relationship to foodservice operations. Topics include layout, marketing, concept development, dietary concerns, product utilization, target consumers and trends. Upon completion, students should be able to design, create and produce menus for a variety of foodservice settings.

CUL 135 Food & Beverage Service  
Prerequisites: None  
Corequisites: None  
Component: None  
This course is designed to cover the practical skills and knowledge necessary for effective food and beverage service in a variety of settings. Topics include greeting/service of guests, dining room set-up, profitability, menu sales and merchandising, service styles and reservations. Upon completion, students should be able to demonstrate competence in human relations and the skills required in the service of foods and beverages.

CUL 135A Food & Beverage Service Lab  
Prerequisites: None  
Corequisites: CUL 135  
Component: None  
This course provides a laboratory experience for enhancing student skills in effective food and beverage service. Emphasis is placed on practical experiences including greeting/service of guests, dining room set-up, profitability, menu sales and merchandising, service styles and reservations. Upon completion, students should be able to demonstrate practical applications of human relations and the skills required in the service of foods and beverages.

CUL 140 Basic Culinary Skills  
Prerequisites: Take DRE-096 and DMA-030 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent  
Corequisites: CUL 110  
Component: None  
This course introduces the fundamental concepts, skills and techniques in basic cookery, and moist, dry and combination heat. Emphasis is placed on recipe conversion, measurements, terminology, classical knife cuts, safe food/equipment handling, flavorings/seasonings, stocks/sauces/soups, and related topics. Upon completion, students should be able to exhibit the basic cooking skills used in the foodservice industry.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course covers the chemical and physical changes in foods that occur with cooking, handling, and processing. Emphasis is placed on practical application of heat transfer and its effect on color/flavor/texture, emulsification, protein coagulation, leavening agents, viscosity, and gel formation. Upon completion, students should be able to demonstrate an understanding of these principles as they apply to food preparation in an experimental setting.

CUL 160 Baking I
Prerequisites: Take DRE-096 and DMA-030 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers basic ingredients, techniques, weights and measures, baking terminology and formula calculations. Topics include yeast/chemically leavened products, laminated/pastry dough, batter, pies/tarts, meringue, custard, cakes and cookies, icings, glazes and basic sauces. Upon completion, students should be able to demonstrate proper scaling and measurement techniques, and prepare and evaluate a variety of bakery products.

CUL 160A Baking I Lab
Prerequisites: None
Corequisites: CUL 110 and CUL 160
Component: None
This course provides a laboratory experience for enhancing student skills in basic baking. Emphasis is placed on the practical experiences of yeast/chemically leavened products, laminated/pastry dough, pastry dough batter, pies/tarts, meringue, custard, cakes and cookies, icings, glazes and basic sauces. Upon completion, students should be able to demonstrate a basic proficiency in bakeshop applications.

CUL 170 Garde Manger I
Prerequisites: Take DRE-096 and DMA-030 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: CUL 110
Component: None
This course introduces basic cold food preparation techniques and pantry production. Topics include salads, sandwiches, appetizers, dressings, basic garnishes, cheeses, cold sauces, and related food items. Upon completion, students should be able to present a cold food display and exhibit an understanding of the cold kitchen and its related terminology.

CUL 170A Garde Manger I Lab
Prerequisites: None
Corequisites: CUL 110 and CUL 170
Component: None
This course provides a laboratory experience for enhancing student skills in basic cold food preparation techniques and pantry production. Emphasis is placed on the practical experiences that include salads, sandwiches, appetizers, dressings, basic garnishes, cheeses, cold sauces, and related food items. Upon completion, students should be able to demonstrate proficiency in the design of a cold food display.

CUL 180 International & American Reg Cuisine
Prerequisites: CUL 140
Corequisites: None
Component: None
This course provides practical experience in the planning, preparation, and service of representative foods from different countries and regions of America. Emphasis is placed on eating habits, indigenous foods and customs, nutritional concerns, and traditional equipment. Upon completion, students should be able to research and execute international and domestic menus.

CUL 185 Nutritional Cuisine
Prerequisites: CUL 110 CUL 140
Corequisites: None
Component: None
This course introduces students to a healthful approach to food preparation by choosing techniques, ingredients, and portion sizes that have positive health benefits. Topics include food allergens, and preparation of quality ingredients incorporating plant based foods and flavor enhancers to preserve flavor, texture, appearance and nutritional value. Upon completion, students should be able to demonstrate the integration of culinary tradition and nutritional science for healthful cooking.

CUL 214 Wine Appreciation
Prerequisites: Take DRE-096 or ENG-070 and RED-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an introduction to information about wine from all the major wine producing regions. Emphasis is placed on the history of wine, production, characteristics, wine list development, laws, purchasing and storing requirements. Upon completion, students should be able to evaluate varietal wines and basic food pairings.

CUL 230 Global Cuisines
Prerequisites: CUL 110 and CUL 140
Corequisites: CUL 230
Component: None
This course provides practical experience in the planning, preparation, and presentation of representative foods from a variety of world cuisines. Emphasis is placed on indigenous ingredients and customs, nutritional concerns, and cooking techniques. Upon completion, students should be able to research and execute a variety of international and domestic menus.

CUL 230A Global Cuisines Lab
Prerequisites: CUL 110 and CUL 140
Corequisites: CUL 230
Component: None
This course provides a laboratory experience for enhancing student skills with cuisines from around the world. Emphasis is placed on production of global cuisines based on historical and geographical influences, ingredients, customs, and cooking techniques. Upon completion, students should be able to exhibit an understanding of the culinary practices and techniques of specific countries.

CUL 240 Advanced Culinary Skills
Prerequisites: CUL 110 and CUL 140
Corequisites: None
Component: None
This course is designed to further students' knowledge of the fundamental concepts, skills, and techniques involved in basic cookery. Emphasis is placed on meat identification/fabrication, butchery and cooking techniques/methods; appropriate vegetable/starch accompaniments; compound sauces; plate presentation; breakfast cookery; and quantity food preparation. Upon completion, students should be able to plan, execute, and successfully serve entrees with complementary side items.

CUL 250 Classical Cuisine
Prerequisites: CUL 110, CUL 140 and CUL 240
Corequisites: None
Component: None
This course is designed to reinforce the classical culinary kitchen. Topics include the working Grand Brigade of the kitchen, signature dishes and classical banquets. Upon completion, students should be able to demonstrate competence in food preparation in a classical/upscale restaurant or banquet setting.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course provides a laboratory experience for enhancing student skills in the classical kitchen. Emphasis is placed on practical experiences with the Grand Brigade of the kitchen, signature dishes and classical banquets. Upon completion, students should be able to exhibit culinary skills and techniques as they pertain to a classical/upscale restaurant or banquet settings.

**CUL 260 Baking II** 01 04 00 03
Prerequisites: CUL 110 and CUL 160
Corequisites: None
Component: None
This course is designed to further students' knowledge in ingredients, weights and measures, baking terminology and formula calculation. Topics include classical desserts, frozen desserts, cake and torte production, decorating and icings/glazes, dessert plating and presentation. Upon completion, students should be able to demonstrate pastry preparation, plating, and dessert buffet production skills.

**CUL 260A Baking II Lab** 00 03 00 01
Prerequisites: CUL 110 and CUL 160
Corequisites: CUL 260
Component: None
This course provides a laboratory experience for enhancing student skills in classical desserts, laminated pastry dough, cake and torte decorating. Topics include practical experiences with classical desserts, frozen desserts, cake and torte production, decorating and icings/glazes, dessert plating and presentation. Upon completion, students should be able to perform cake decorating techniques, produce pastry showpieces, and prepare and plate assorted pastries.

**CUL 270 Garde Manager II** 01 04 00 03
Prerequisites: CUL 110, CUL 140 and CUL 170
Corequisites: None
Component: None
This course is designed to further students' knowledge in basic cold food preparation techniques and pantry production. Topics include pâtés, terrines, galantines, decorative garnishing skills, carving, charcuterie, smoking, canapés, hors d'oeuvres, and related food items. Upon completion, students should be able to design, set up, and evaluate a catering/event display to include a cold buffet with appropriate showpieces.

**CUL 270A Garde Manager II Lab** 00 03 00 01
Prerequisites: CUL 110, CUL 140 and CUL 170
Corequisites: CUL 270
Component: None
This course provides a laboratory experience for enhancing student skills in basic cold food preparation techniques and pantry production. Emphasis is placed on practical experiences with pâtés, terrines, galantines, decorative garnishing skills, carving, charcuterie, smoking, canapés, hors d’oeuvres, and related food items. Upon completion, students should be able to demonstrate proficiency in the design/technical applications of advanced garde manger work including classical cold buffets incorporating appropriate showpieces.

**CUL 273 Career Development** 01 00 00 01
Prerequisites: Take DRE-097 or ENG 080 and RED 080 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces students to career planning/management practices that serve as a foundation for success in the hospitality industry. Emphasis is placed on self assessment, goal/career pathway development and employment strategies such as résumé preparation, interviewing techniques, and developing/utilizing the portfolio as a credential. Upon completion, students should be able to develop a career path leading to an effective job search.

**CUL 275 Catering Cuisine** 01 08 00 05
Prerequisites: CUL 110, CUL 140, and CUL 240
Corequisites: None
Component: None
This course covers the sequential steps to successful catering that include sales, client needs, menu planning, purchasing, costing, event pricing, staffing and sanitation concerns. Emphasis is placed on new culinary competencies and skills specific to catering preparation, presentation, and customer service. Upon completion, students should be able to demonstrate proficiency in the successful design and execution of various types of catering events.

**CUL 280 Pastry & Confections** 01 04 00 03
Prerequisites: CUL 110, CUL 140, CUL 160, and CUL 260
Corequisites: None
Component: None
This course includes confections and candy, chocolate techniques, transfer sheets, pulled and blown sugar, pastillage, marzipan and custom silicon molding. Emphasis is placed on practical experiences with showpieces, pre-set molding, stencil cutouts, pattern tracing and/or free-hand shaping. Upon completion, students should be able to design and produce centerpieces and showpieces.

**CUL 280A Pastry & Confections Lab** 00 03 00 01
Prerequisites: CUL 110, CUL 140, CUL 160, and CUL 260
Corequisites: CUL 280
Component: None
This course provides a laboratory experience for enhancing student skills in confections/candy, chocolate techniques, transfer sheets, pulled/blown sugar, pastillage, marzipan and custom silicon molding. Emphasis is placed on practical experiences with showpieces, pre-set molding, stencil cutouts, pattern tracing and/or free-hand shaping. Upon completion, students should be able to demonstrate proficiency in the execution of plated desserts, dessert platters and showpieces.

**CUL 283 Farm-To-Table** 02 06 00 05
Prerequisites: CUL 110 and CUL 140
Corequisites: None
Component: None
This course introduces students to the cooperation between sustainable farmers and foodservice operations. Emphasis is placed on environmental relationships, including how foods are grown, processed, and distributed, as well as related implications on quality and sustainability. Upon completion, students should be able to demonstrate an understanding of environmental relationships, including how foods are grown, processed, and distributed, as well as related implications on quality and sustainability. Upon completion, students should be able to demonstrate proficiency in the successful design and execution of various types of catering events.

**CUL 285 Competition Fundamentals** 03 00 00 03
Prerequisites: Take CUL-240, CUL-260; and CUL-110, CUL-110A, CUL-140, or CUL-160
Corequisites: None
Component: None
This course provides practical experience in planning, techniques, and procedures required for culinary competitions and exhibitions. Emphasis is placed on competition strategies including menu planning, teamwork, plate design, flavor profiles, recipe development, nutrition, advanced knife/culinary skills, professionalism, and portfolio development. Upon completion, students should be able to apply competition/exhibition skills and standards in the competition arena and professional kitchen.

**DAN 110 Dance Appreciation** 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course for non-dance majors surveys diverse dance forms and the religious and cultural values that shape them. Topics include dances from Europe, Africa, Asia, and America. Upon completion, students should be able to demonstrate an understanding of the diverse forms and values that dance embraces. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.
Prerequisites: None
Corequisites: None
Component: None
This course provides the fundamentals of elementary tap dance technique. Emphasis is placed on sounds, rhythms, terminology, and body placement. Upon completion, students should be able to demonstrate significant progress in elementary tap skills.

DAN 211 Dance History I
Prerequisites: None
Corequisites: None
Component: None
This course provides an in-depth study of world dance from pre-history to 1800. Emphasis is placed on examining the dance and dancers of diverse cultures including Africa, Asia, and Europe. Upon completion, students should be able to analyze the common need to dance and the forms, religions, and cultural values it embodies. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

DAN 212 Dance History II
Prerequisites: None
Corequisites: None
Component: None
This course provides an in-depth study of world dance from 1800 to the present. Emphasis is placed on Western theatrical dance (ballet, modern dance, tap, and jazz) and the personalities that shaped it. Upon completion, students should be able to analyze culturally diverse dance forms and their cross-pollination which have produced the “pan world dance of today”. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

DBA 110 Database Concepts
Prerequisites: Take CIS 110 or CIS 111. Take DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Test Equivalent
Corequisites: None
Component: None
This course introduces database design and creation using a DBMS product. Emphasis is placed on data dictionaries, normalization, data integrity, data modeling, and creation of simple tables, queries, reports, and forms. Upon completion, students should be able to design and implement normalized database structures by creating simple database tables, queries, reports, and forms.

DBA 120 Database Programming I
Prerequisites: Take DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is designed to develop SQL programming proficiency. Emphasis is placed on data definition, data manipulation, and data control statements as well as on report generation. Upon completion, students should be able to write programs which create, update, and produce reports.

DBA 220 Oracle DB Programming II
Prerequisites: Take DBA 120 and DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is designed to enhance programming skills developed in DBA 120. Topics include application development with GUI front-ends and embedded programming. Upon completion, students should be able to develop an Oracle DBMS application which includes a GUI front-end and report generation

DEN 101 Preclinical Procedures
Prerequisites: Department Approval
Corequisites: DEN 102 and DEN 111
Component: None
This course provides instruction in procedures for the clinical dental assistant as specified by the North Carolina Dental Practice Act. Emphasis is placed on orientation to the profession, infection control techniques, instruments, related expanded functions, and diagnostic, operative, and specialty procedures. Upon completion, students should be able to demonstrate proficiency in clinical dental assisting procedures. This course is intended for certificate and diploma programs.

DEN 102 Dental Materials
Prerequisites: Department Approval
Corequisites: DEN 101
Component: None
This course provides instruction in identification, properties, evaluation of quality, principles, and procedures related to manipulation and storage of operative and specialty dental materials. Emphasis is placed on the understanding and safe application of materials used in the dental office and laboratory. Upon completion, students should be able to demonstrate proficiency in the laboratory and clinical application of routinely used dental materials. This course is intended for certificate and diploma programs.

DEN 103 Dental Sciences
Prerequisites: None
Corequisites: None
Component: None
This course is a study of oral pathology, pharmacology, and dental office emergencies. Topics include oral pathological conditions, dental therapeutics, and management of emergency situations. Upon completion, students should be able to recognize abnormal oral conditions, identify classifications, describe actions and effects of commonly prescribed drugs, and respond to medical emergencies. This course is intended for certificate and diploma programs.

DEN 104 Dental Health Education
Prerequisites: A set of courses is required: DEN 101 and DEN 111
Corequisites: DEN 106
Component: None
This course covers the study of preventive dentistry to prepare dental assisting students for the role of dental health educator. Topics include etiology of dental diseases, preventive procedures, and patient education theory and practice. Upon completion, students should be able to demonstrate proficiency in patient counseling and oral health instruction in private practice or public health settings. This course is intended for certificate and diploma programs.

DEN 105 Practice Management
Prerequisites: None
Corequisites: DEN 106
Component: None
This course provides a study of principles and procedures related to management of the dental practice. Emphasis is placed on maintaining clinical and financial records, patient scheduling, and supply and inventory control. Upon completion, students should be able to demonstrate fundamental skills in dental practice management. This course is intended for certificate and diploma programs.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course introduces preoperative and clinical dental hygiene concepts. Upon completion, students should be able to demonstrate proficiency in the production of diagnostically acceptable radiographs using appropriate safety precautions. Students should be able to demonstrate knowledge of the management of dental office emergencies. Topics include methods of prevention, necessary equipment/drugs, medicolegal considerations, recognition and effective initial management of a variety of emergencies. Upon completion, the student should be able to recognize, assess and manage various dental office emergencies and activate advanced medical support when indicated.

**DEN 120 Dental Hygiene Preclinical Lecture**

Prerequisites: Enrollment in Dental Hygiene Program
Corequisites: DEN 121
Component: None
This course introduces preoperative and clinical dental hygiene concepts. Emphasis is placed on the assessment phase of patient care as well as the theory of basic dental hygiene instrumentation. Upon completion, students should be able to collect and evaluate patient data at a basic level and demonstrate knowledge of dental hygiene instrumentation.

**DEN 121 Dental Hygiene Theory I**

Prerequisites: Enrollment in Dental Hygiene and DEN 120
Corequisites: DEN 131
Component: None
This course is a continuation of the didactic dental hygiene concepts necessary for providing an oral prophylaxis. Topics include deposits/ removal, instrument sharpening, patient education, fluorides, planning for dental hygiene treatment, charting, and clinical records and procedures. Upon completion, students should be able to demonstrate knowledge needed to complete a thorough oral prophylaxis.

**DEN 122 Dental Radiography**

Prerequisites: Enrollment in Dental Assisting or Dental Hygiene Program
Corequisites: DEN 100 or DEN 110 and DEN 111
Component: None
This course provides a comprehensive view of the principles and procedures of radiology as they apply to dentistry. Topics include techniques in exposing, processing, and evaluating radiographs, as well as radiation safety, quality assurance, and legal issues. Upon completion, students should be able to understand infectious diseases, disease transmission, infection control procedures, biohazard management, OSHA standards, and applicable North Carolina laws.

**DEN 123 Nutrition/Dental Health**

Prerequisites: Enrollment in Dental Hygiene Program
Corequisites: DEN 220
Component: None
This course introduces basic principles of nutrition with emphasis on nutritional requirements and their application to individual patient needs. Topics include the study of the food pyramid, nutrient functions, Recommended Daily Allowances, and related psychological principles. Upon completion, students should be able to recommend and counsel individuals on their food intake as related to their dental health.

**DEN 124 Periodontology**

Prerequisites: Enrollment in Dental Hygiene Program and DEN 110
Corequisites: DEN 130
Component: None
This course provides an in-depth study of the periodontium, periodontal pathlogy, periodontal monitoring, and the principles of periodontal therapy. Topics include periodontal anatomy and a study of the etiology, classification, and treatment modalities of periodontal diseases. Upon completion, students should be able to describe, compare, and contrast techniques involved in periodontal/maintenance therapy, as well as patient care management.

**DEN 125 Dental Office Emergencies**

Prerequisites: Enrollment in Dental Hygiene Program
Corequisites: DEN 140
Component: None
This course provides a study of the management of dental office emergencies. Topics include methods of prevention, necessary equipment/drugs, medicolegal considerations, recognition and effective initial management of a variety of emergencies. Upon completion, the student should be able to recognize, assess and manage various dental office emergencies and activate advanced medical support when indicated.

**DEN 126 Clinical Practice I**

Prerequisites: All courses required: DEN 101, DEN 102 and DEN 111
Corequisites: All courses required: DEN 104, DEN 105 and DEN 112
Component: None
This course is designed to provide experience assisting in a clinical setting. Emphasis is placed on the application of principles and procedures of four-handed dentistry and laboratory and clinical support functions. Upon completion, students should be able to utilize classroom theory and laboratory and clinical skills in a dental setting. This course is intended for certificate and diploma programs.

**DEN 127 Clinical Practice II**

Prerequisites: DEN 106
Corequisites: None
Component: None
This course is designed to increase the level of proficiency in assisting in a clinical setting. Emphasis is placed on the application of principles and procedures of four-handed dentistry and laboratory and clinical support functions. Upon completion, students should be able to combine theoretical and ethical principles necessary to perform entry-level skills including functions delegable to a DA II. This course is intended for certificate and diploma programs.

**DEN 110 Orofacial Anatomy**

Prerequisites: Requires enrollment in the Dental Assisting or Dental Hygiene program.
Corequisites: BIO 163
Component: None
This course introduces the structures of the head, neck, and oral cavity. Topics include tooth morphology, head and neck anatomy, histology, and embryology. Upon completion, students should be able to relate the identification of normal structures and development to the practice of dental assisting and dental hygiene.

**DEN 111 Infection/Hazard Control**

Prerequisites: None
Corequisites: None
Component: None
This course introduces the infection and hazard control procedures necessary for the safe practice of dentistry. Topics include microbiology, practical infection control, sterilization and monitoring, chemical disinfectants, aseptic technique, infectious diseases, OSHA standards, and applicable North Carolina laws. Upon completion, students should be able to understand infectious diseases, disease transmission, infection control procedures, biohazard management, OSHA standards, and applicable North Carolina laws.

**DEN 112 Dental Radiography**

Prerequisites: Enrollment in Dental Assisting or Dental Hygiene Program
Corequisites: DEN 100 or DEN 110 and DEN 111
Component: None
This course provides a comprehensive view of the principles and procedures of radiology as they apply to dentistry. Topics include techniques in exposing, processing, and evaluating radiographs, as well as radiation safety, quality assurance, and legal issues. Upon completion, students should be able to demonstrate proficiency in the production of diagnostically acceptable radiographs using appropriate safety precautions.

**DEN 113 Dental Office Emergencies**

Prerequisites: Requires enrollment in the Dental Assisting or Dental Hygiene program.
Corequisites: BIO 163
Component: None
This course introduces the infection and hazard control procedures necessary for the safe practice of dentistry. Topics include microbiology, practical infection control, sterilization and monitoring, chemical disinfectants, aseptic technique, infectious diseases, OSHA standards, and applicable North Carolina laws. Upon completion, students should be able to understand infectious diseases, disease transmission, infection control procedures, biohazard management, OSHA standards, and applicable North Carolina laws.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
DEN 140 Dental Hygiene Theory II
- Prerequisites: Enrollment in Dental Hygiene and DEN 130
- Corequisites: DEN 141
- Component: None
This course provides a continuation of the development, theory, and practice of patient care. Topics include modification of treatment for special needs patients, advanced radiographic interpretation, and ergonomics. Upon completion, students should be able to differentiate necessary treatment modifications, effective ergonomic principles, and radiographic abnormalities.

DEN 141 Dental Hygiene Clinic II
- Prerequisites: Enrollment in Dental Hygiene and DEN 131
- Corequisites: DEN 140
- Component: None
This course continues skill development in providing an oral prophylaxis. Emphasis is placed on treatment of patients with early periodontal disease and subgingival deposits. Upon completion, students should be able to assess these patients’ needs and complete the necessary dental hygiene treatment.

DEN 220 Dental Hygiene Theory III
- Prerequisites: Enrollment in Dental Hygiene and DEN 140
- Corequisites: DEN 221
- Component: None
This course provides a continuation in developing the theories and practices of patient care. Topics include periodontal debridement, pain control, subgingival irrigation, air polishing, and case presentations. Upon completion, students should be able to demonstrate knowledge of methods of treatment and management of periodontally compromised patients.

DEN 221 Dental Hygiene Clinic III
- Prerequisites: Enrollment in Dental Hygiene Program and DEN 141
- Corequisites: DEN 220
- Component: None
This course continues skill development in providing an oral prophylaxis. Emphasis is placed on treatment of patients with moderate to advanced periodontal involvement and moderate deposits. Upon completion, students should be able to assess these patients’ needs and complete the necessary dental hygiene treatment.

DEN 222 General & Oral Pathology
- Prerequisites: Enrollment in Dental Hygiene Program and BIO 163 or BIO 163C and BIO 163L
- Corequisites: DEN 130
- Component: None
This course provides a general knowledge of oral pathological manifestations associated with selected systemic and oral diseases. Topics include developmental and degenerative diseases, selected microbial diseases, specific and nonspecific immune and inflammatory responses with emphasis on recognizing abnormalities. Upon completion, students should be able to differentiate between normal and abnormal tissues and refer unusual findings to the dentist for diagnosis.

DEN 223 Dental Pharmacology
- Prerequisites: Enrollment in Dental Hygiene Program
- Corequisites: DEN 220 and BIO 163
- Component: None
This course provides basic drug terminology, general principles of drug actions, dosages, routes of administration, adverse reactions, and basic principles of anesthesiology. Emphasis is placed on knowledge of drugs in overall understanding of patient histories and health status. Upon completion, students should be able to recognize that each patient’s general health or drug usage may require modification of the treatment procedures.

DEN 224 Materials and Procedures
- Prerequisites: Enrollment in Dental Hygiene Program and DEN 111
- Corequisites: DEN 231

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
DFT 152 CAD II  
Prerequisites: DFT-151  
Corequisites: None  
Component: None  
This course introduces extended CAD applications. Emphasis is placed upon intermediate applications of CAD skills. Upon completion, students should be able to use extended CAD applications to generate and manage drawings.

DMA 010 Operations With Integers  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides a conceptual study of integers and integer operations. Topics include integers, absolute value, exponents, square roots, perimeter and area of basic geometric figures, Pythagorean theorem, and use of the correct order of operations. Upon completion, students should be able to demonstrate an understanding of pertinent concepts and principles and apply this knowledge in the evaluation of expressions.

DMA 020 Fractions and Decimals  
Prerequisites: Take DMA-010  
Corequisites: None  
Component: None  
This course provides a conceptual study of the relationship between fractions and decimals and covers related problems. Topics include application of operations and solving contextual application problems, including determining the circumference and area of circles with the concept of pi. Upon completion, students should be able to demonstrate an understanding of the connections between fractions and decimals.

DMA 030 Proportion/Ratio/Rate/Percent  
Prerequisites: Take DMA 010 and DMA 020  
Corequisites: None  
Component: None  
This course provides a conceptual study of the problems that are represented by rates, ratios, percent, and proportions. Topics include rates, ratios, percent, proportion, conversion of English and metric units, and applications of the geometry of similar triangles. Upon completion, students should be able to use their understanding to solve conceptual application problems.

DMA 040 Express/Linear Equations/Inequalities  
Prerequisites: Take DMA 010, DMA 020, and DMA 030 or MAT 060  
Corequisites: None  
Component: None  
This course provides a conceptual study of problems involving linear expressions, equations, and inequalities. Emphasis is placed on solving contextual application problems. Upon completion, students should be able to distinguish between simplifying expressions and solving equations and apply this knowledge to problems involving linear expressions, equations, and inequalities.

DMA 050 Graphs/Equations of Lines  
Prerequisites: Take DMA 010, DMA 020, DMA 030, and DMA 040 or DMA 040 and MAT 060  
Corequisites: None  
Component: None  
This course provides a conceptual study of problems involving graphic and algebraic representations of lines. Topics include slope, equations of lines, interpretation of basic graphs, and linear modeling. Upon completion, students should be able to solve contextual application problems and represent real-world situations as linear equations in two variables.

DMA 060 Polynomial/Quadratic Applications  
Prerequisites: Take DMA 010, DMA 020, DMA 030, DMA 040, and DMA 050 or MAT 060 and MAT 070  
Corequisites: None  
Component: None  
This course provides a conceptual study of problems involving graphic and algebraic representations of quadratics. Topics include basic polynomial operations, factoring polynomials, and solving polynomial equations by means of factoring. Upon completion, students should be able to find algebraic solutions to contextual problems with quadratic applications.
DRA 111 Theater Appreciation
Prerequisites: None
Corequisites: None
Component: None
This course provides a study of the art, craft, and business of the theater. Emphasis is placed on the audience's appreciation of the work of the playwright, director, actor, designer, producer, and critic. Upon completion, students should be able to demonstrate a vocabulary of theater terms and to recognize the contributions of various theater artists. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

DRA 112 Literature of the Theater
Prerequisites: None
Corequisites: None
Component: None
This course provides a survey of dramatic works from the classical Greek through the present. Emphasis is placed on the language of drama, critical theory, and background as well as on play reading and analysis. Upon completion, students should be able to articulate, orally and in writing, their appreciation and understanding of dramatic works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

DRA 115 Theater Criticism
Prerequisites: DRA 111
Corequisites: None
Component: None
This course is designed to develop a critical appreciation of the theater from the viewpoint of the audience/consumer. Emphasis is placed on viewing, discussing, and evaluating selected theater performances, either live or on film/video. Upon completion, students should be able to express their critical judgments both orally and in writing. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

DRA 120 Voice for Performance
Prerequisites: None
Corequisites: None
Component: None
This course provides guided practice in the proper production of speech for the theater. Emphasis is placed on improving speech, including breathing, articulation, pronunciation, and other vocal variables. Upon completion, students should be able to demonstrate effective theatrical speech. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 122 Oral Interpretation
Prerequisites: None
Corequisites: None
Component: None
This course introduces the dramatistic study of literature through performance. Emphasis is placed on analysis and performance of poetry, drama, and prose fiction. Upon completion, students should be able to embody and discuss critically the speakers inherent in literature. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

DRA 124 Readers Theatre
Prerequisites: None
Corequisites: None
Component: None
This course provides a theoretical and applied introduction to the medium of readers theatre. Emphasis is placed on the group performance considerations posed by various genres of literature. Upon completion, students should be able to adapt and present a literary script following the conventions of readers theatre. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 126 Storytelling
Prerequisites: None
Corequisites: None
Component: None
This course introduces the art of storytelling and the oral traditions of folk literature. Topics include the history of storytelling, its value and purpose, and methods of collecting verbal art. Upon completion, students should be able to present and discuss critically stories from the world's repertory of traditional lore. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

DRA 128 Children’s Theatre
Prerequisites: None
Corequisites: None
Component: None
This course introduces the philosophy and practice involved in producing plays for young audiences. Topics include the selection of age-appropriate scripts and the special demands placed on directors, actors, designers, and educators in meeting the needs of young audiences. Upon completion, students should be able to present and critically discuss productions for children. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 130 Acting I
Prerequisites: None
Corequisites: None
Component: None
This course provides an applied study of the actor’s craft. Topics include role analysis, training the voice, and body concentration, discipline, and self-evaluation. Upon completion, students should be able to explore their creativity in an acting ensemble. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 131 Acting II
Prerequisites: DRA 130
Corequisites: None
Component: None
This course provides additional hands-on practice in the actor’s craft. Emphasis is placed on further analysis, characterization, growth, and training for acting competence. Upon completion, students should be able to explore their creativity in an acting ensemble. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 132 Stage Movement
Prerequisites: None
Corequisites: DRA 111
Component: None
This course provides an applied study of selected principles of stage movement for actors. Topics include improvisation, mime, stage combat, clowning, chorography, and masks. Upon completion, students should be able to focus properly on stage, to create characters, and to improvise scenes, perform minxes, fight, clown, juggle, and waltz. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.
DRA 135 Acting for the Camera I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an applied study of the camera actor’s craft. Topics include commercial, dramatic, and print performance styles. Upon completion, students should be able to explore their creativity in on-camera performance. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 136 Acting for the Camera II  
Prerequisites: DRA 135  
Corequisites: None  
Component: None  
This course provides additional hands-on study of the camera actor’s craft. Emphasis is placed on more advanced camera acting theories, auditioning techniques, daytime drama, feature film, and print advertisement performance styles. Upon completion, students should be able to explore their creativity in on-camera performance. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 140 Stagecraft I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the theory and basic construction of stage scenery and properties. Topics include stage carpentry, scene painting, stage electrics, properties, and backstage organization. Upon completion, students should be able to pursue vocational and avocational roles in technical theatre. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 141 Stagecraft II  
Prerequisites: DRA 140  
Corequisites: None  
Component: None  
This course provides additional hands-on practice in the elements of stagecraft. Emphasis is placed on the design and implementation of the arts and crafts of technical theatre. Upon completion, students should be able to pursue vocational and avocational roles in technical theatre. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 142 Costuming  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the techniques of costume construction and crafts processes. Emphasis is placed on learning costuming techniques, using equipment and materials, and finishing production-appropriate costumes. Upon completion, students should be able to demonstrate an understanding of pattern drafting, construction techniques, and costume fitting procedures. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

DRA 145 Stage Make-up  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the research, design, selection of materials, and application of stage make-up, prosthetics, wigs, and hairpieces. Emphasis is placed on the development of techniques, style, and presentation of the finished make-up. Upon completion, students should be able to create and apply make-up, prosthetics, and hairpieces. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 170 Play Production I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 171 Play Production II  
Prerequisites: DRA 170  
Corequisites: None  
Component: None  
This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 175 Teleplay Production I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an applied laboratory study of the processes involved in production of a dramatic television program. Emphasis is placed on the fundamental practices, principles, and techniques associated with producing dramatic television programming. Upon completion, students should be able to participate in an assigned position with a college dramatic television production. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 211 Theatre History I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the development of theater from its origin to the closing of the British theater in 1642. Topics include the history, aesthetics, and representative dramatic literature of the period. Upon completion, students should be able to trace the evolution of theater and recognize the styles and types of world drama. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

DRA 212 Theatre History II  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the development of theater from 1660 through the diverse influences which shaped the theater of the twentieth century. Topics include the history, aesthetics, and representative dramatic literature of the period. Upon completion, students should be able to trace the evolution of theater and recognize the styles and types of world drama. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
DRE 240 Lighting for the Theatre
Prerequisites: None
Corequisites: None
Component: None
This course is an applied study of theatre lighting and is designed to train theatre technicians. Emphasis is placed on lighting technology including the mechanics of lighting and light control equipment by practical work with lighting equipment. Upon completion, students should be able to demonstrate competence with lighting equipment. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAP as a premajor and/or elective course requirement.

DRA 260 Directing
Prerequisites: DRA 130
Corequisites: DRA 140
Component: None
This course provides an analysis and application of the techniques of theatrical directing. Topics include script selection, analysis, casting, rehearsal planning, blocking, stage business, tempo, and technical considerations. Upon completion, students should be able to plan, execute, and critically discuss a student-directed production. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRE 270 Play Production III
Prerequisites: Take DRA-171
Corequisites: None
Component: None
This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position within a college theatre production. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAP as a premajor and/or elective course requirement.

DRA 271 Play Production IV
Prerequisites: Take DRA-270
Corequisites: None
Component: None
This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position within a college theatre production. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAP as a premajor and/or elective course requirement.

DRE 096 Integrated Reading and Writing
Prerequisites: None
Corequisites: None
Component: None
This course is designed to develop proficiency in specific integrated and contextualized reading and writing skills and strategies. Topics include reading and writing processes, critical thinking strategies, and recognition and composition of well-developed, coherent, and unified texts; except where noted, these topics are taught at a reinforcement level using texts primarily in a Lexile® range of 970 to 1220. Upon completion, students should be able to demonstrate and apply those skills toward understanding a variety of complex academic and career texts and composing essays incorporating relevant, valid evidence.

DRE 097 Integrated Reading Writing III
Prerequisites: Take DRE 096
Corequisites: None
Component: None
This course is designed to develop proficiency in integrated and contextualized reading and writing skills and strategies. Topics include reading and writing processes, critical thinking strategies, and recognition and composition of well-developed, coherent, and unified texts; these topics are taught at a reinforcement level using texts primarily in a Lexile® range of 1185 to 1385. Upon completion, students should be able to apply those skills toward understanding a variety of texts at the career and college ready level and toward composing a documented essay.

DRA 098 Integrated Reading Writing III
Prerequisites: Take DRE 097
Corequisites: None
Component: None
This course is designed to develop proficiency in integrated and contextualized reading and writing skills and strategies. Topics include reading and writing processes, critical thinking strategies, and recognition and composition of well-developed, coherent, and unified texts; these topics are taught at a reinforcement level using texts primarily in a Lexile® range of 1070 to 1220. Upon completion, students should be able to demonstrate and apply those skills toward understanding a variety of complex academic and career texts and composing essays incorporating relevant, valid evidence.

ECM 210 Intro. to E-Commerce
Prerequisites: Take DRE-097 or ENG 080 and RED 080 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides a survey of the world of electronic business. Topics include the definition of electronic business, current practices as they evolve using Internet strategy in business, and application of basic business principles to the world of Electronic Commerce. Upon completion, students should be able to define electronic business and demonstrate an understanding of the benefits of Electronic Commerce as a foundation for developing plans leading to electronic business implementation. This course is a unique concentration requirement of the E-Commerce concentration in the Business Administration program. This course is also available through the Virtual Learning Community (VLC).

ECM 220 E-Commerce Plan. & Implem.
Prerequisites: Take DRE-098 or ENG-090, ENG-090A, and RED-090, or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course builds on currently accepted business practices to develop a business plan and implementation model for e-commerce. Topics include analysis and synthesis of the planning cycle, cost/benefit analysis, technical systems, marketing, security, financial support, Internet strategies, website design, customer support and feedback and assessment. Upon completion, students should be able to develop a plan for e-commerce in a small to medium size business. This course is a unique concentration requirement of the E-Commerce concentration in the Business Administration program. This course is also available through the Virtual Learning Community (VLC).

ECM 213
This course is designed to develop proficiency in integrated and contextualized reading and writing skills and strategies. Topics include reading and writing processes, critical thinking strategies, and recognition and composition of well-developed, coherent, and unified texts; except where noted, these topics are taught at a reinforcement level using texts primarily in a Lexile® range of 970 to 1220. Upon completion, students should be able to demonstrate and apply those skills toward understanding a variety of complex academic and career texts and composing essays incorporating relevant, valid evidence.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
ECO 251 Principles of Microeconomics  
Prerequisites: Take DRE-097 and DMA-050 or ENG-080, RED-080 and MAT-070 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces economic analysis of individual, business, and industry in the market economy. Topics include the price mechanism, supply and demand, optimizing economic behavior, costs and revenue, market structures, factor markets, income distribution, market failure, and government intervention. Upon completion, students should be able to identify and evaluate consumer and business alternatives in order to efficiently achieve economic objectives. This course has been approved for transfer under the CAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences. This is a Universal General Education Transfer Component (UGETC) course.

ECO 252 Principles of Macroeconomics  
Prerequisites: Take DRE-097 and DMA-050 or ENG-080, RED-080 and MAT-070 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces economic analysis of aggregate employment, income, and prices. Topics include major schools of economic thought; aggregate supply and demand; economic measures, fluctuations, and growth; money and banking; stabilization techniques; and international trade. Upon completion, students should be able to evaluate national economic components, conditions, and alternatives for achieving socioeconomic goals. This course has been approved for transfer under the CAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences. This is a Universal General Education Transfer Component (UGETC) course.

EDU 118 Princ & Prac of Inst Asst  
Prerequisites: Take DRE-097  
Corequisites: None  
Component: None  
This course covers the instructional assistant's role in the educational system. Topics include history of education, professional responsibilities and ethics, cultural diversity, communication skills, and identification of the optimal learning environment. Upon completion, students should be able to describe the supporting role of the instructional assistant, demonstrate positive communication skills, and discuss educational philosophy.

EDU 119 Intro to Early Childhood Education  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the foundations of the education profession, the diverse educational settings for young children, professionalism and planning developmentally appropriate programs for all children. Topics include historical foundations, program types, career options, professionalism and creating inclusive environments and curriculum responsive to the needs of all children and families. Upon completion, students should be able to design career plans and develop schedules, environments and activity plans appropriate for all children. This course is also available through the Virtual Learning Community (VLC).

EDU 131 Child, Family, & Communities  
Prerequisites: Take DRE-097  
Corequisites: None  
Component: None  
This course covers the development of partnerships between culturally and linguistically diverse families, children, schools and communities. Emphasis is placed on developing skills and identifying benefits for establishing, supporting, and maintaining respectful, collaborative relationships between diverse families, programs/schools, and community agencies/resources. Upon completion, students should be able to explain appropriate relationships between families, educators, and professionals that enhance development and educational experiences of all children. This course is also available through the Virtual Learning Community (VLC).

EDU 144 Child Development I  
Prerequisites: Take DRE-097  
Corequisites: None  
Component: None  
This course includes the theories of child development, needs, milestones, and factors that influence development, from conception through approximately 36 months. Emphasis is placed on developmental sequences in physical/motor, emotional/social, cognitive, and language domains and the impact of multiple influences on development and learning. Upon completion, students should be able to compare/contrast typical/atypical developmental characteristics, explain environmental factors that impact development, and identify strategies for enhancing development. This course is also available through the Virtual Learning Community (VLC). This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

EDU 145 Child Development II  
Prerequisites: Take DRE-097  
Corequisites: None  
Component: None  
This course includes the theories of child development, needs, milestones, and factors that influence development, from preschool through middle childhood. Emphasis is placed on developmental sequences in physical/motor, emotional/social, cognitive, and language domains and the impact of multiple influences on development and learning. Upon completion, students should be able to compare/contrast typical/atypical developmental characteristics, explain environmental factors that impact development, and identify strategies for enhancing development. This course is also available through the Virtual Learning Community (VLC). This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
EDU 146 Child Guidance
Prerequisites: Take DRE-097
Corequisites: None
Component: None
This course introduces principles and practical techniques including the design of learning environments for providing developmentally appropriate guidance for all children, including those at risk. Emphasis is placed on observation skills, cultural influences, underlying causes of behavior, appropriate expectations, development of self control and the role of communication and guidance. Upon completion, students should be able to demonstrate direct/indirect strategies for preventing problem behaviors, teaching appropriate/acceptable behaviors, negotiation, setting limits and recognizing at risk behaviors. This course is also available through the Virtual Learning Community (VLC). This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

EDU 147 Behavior Disorders
Prerequisites: None
Corequisites: None
Component: None
This course is a comprehensive study of behavior disorders encompassing characteristics, assessments, and placement alternatives. Topics include legislation, appropriate management interventions, and placement options for children with behavioral disorders. Upon completion, students should be able to identify, develop, and utilize appropriate behavior management applications. This course is a unique concentration requirement in the Special Education concentration in the Early Childhood Associate program.

EDU 148 Learning Disabilities
Prerequisites: None
Corequisites: None
Component: None
This course is a comprehensive study of the characteristics, teaching strategies, assessment tools, and placement alternatives for children with learning disabilities. Topics include characteristics, causes, assessment instruments, learning strategies, and collaborative methods for children with learning disabilities. Upon completion, students should be able to assist in identifying, assessing, and providing educational interventions for children with learning disabilities. This course is a unique concentration requirement in the Special Education concentration in the Early Childhood Associate program.

EDU 151 Creative Activities
Prerequisites: Take DRE-097
Corequisites: None
Component: None
This course covers planning, creation and adaptation of developmentally supportive learning environments with attention to curriculum, interactions, teaching practices and learning materials. Emphasis is placed on creating and adapting integrated, meaningful, challenging and engaging developmentally supportive learning experiences in art, music, movement and dramatics for all children. Upon completion, students should be able to create, adapt, implement and evaluate developmentally supportive learning materials, experiences and environments. This course is also available through the Virtual Learning Community (VLC).

EDU 151A Creative Activities Lab
Prerequisites: Take DRE-097
Corequisites: EDU 151
Component: None
This course provides a laboratory component to complement EDU 151. Emphasis is placed on practical experiences that enhance concepts introduced in the classroom. Upon completion, students should be able to demonstrate a practical understanding of the development and implementation of appropriate creative activities.

EDU 152 Health, Safety, & Nutrition
Prerequisites: Take DRE-097
Corequisites: None
Component: None
This course covers promoting and maintaining the health and well-being of all children. Topics include health and nutritional guidelines, common childhood illnesses, maintaining safe and healthy learning environments, recognition and reporting of abuse and neglect and state regulations. Upon completion, students should be able to demonstrate knowledge of health, safety, and nutritional needs, safe learning environments, and adhere to state regulations. This course is also available through the Virtual Learning Community (VLC).

EDU 153 Health, Safety, & Nutrition
Prerequisites: Take DRE-097
Corequisites: None
Component: None
This course covers planning, creation and adaptation of developmentally appropriate activities for all children. Topics include health and nutritional guidelines, common childhood illnesses, maintaining safe and healthy learning environments, recognition and reporting of abuse and neglect and state regulations. Upon completion, students should be able to demonstrate knowledge of health, safety, and nutritional needs, safe learning environments, and adhere to state regulations. This course is also available through the Virtual Learning Community (VLC).

EDU 154 Child Guidance
Prerequisites: Take DRE-097
Corequisites: None
Component: None
This course introduces students to early childhood settings and applying teaching strategies, individual student differences and learning styles, and developmentally appropriate classroom guidance techniques. Upon completion, students should be able to utilize developmentally appropriate behavior management and instructional strategies that enhance the teaching/learning process and promote students' academic success.

EDU 154 Early Child Intro Pract
Prerequisites: Take EDU-119 and DRE-097
Corequisites: None
Component: None
This course introduces students to early childhood settings and applying skills in a three star (minimum) or NAECY accredited or equivalent, quality early childhood environment. Emphasis is placed on observing children and assisting in the implementation of developmentally appropriate activities/environments for all children; and modeling reflective/professional practices. Upon completion, students should be able to demonstrate developmentally appropriate interactions with children and ethical/professional behaviors as indicated by assignments and onsite faculty visits.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
### EDU 186 Reading & Writing Methods
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course covers concepts, resources, and methods for teaching reading and writing to school-age children. Topics include the importance of literacy, learning styles, skills assessment, various reading and writing approaches, and instructional strategies. Upon completion, students should be able to assess, plan, implement, and evaluate developmentally appropriate reading and writing experiences.

### EDU 188 Issues in Early Childhood Education
**Prerequisites:** Take DRE-097  
**Corequisites:** None  
**Component:** None  
This course covers topics and issues in early childhood education. Emphasis is placed on current advocacy issues, emerging technology, professional growth experiences, and other related topics. Upon completion, students should be able to list, discuss, and explain current topics and issues in early childhood education.

### EDU 216 Foundations of Education
**Prerequisites:** Take DRE-098  
**Corequisites:** None  
**Component:** None  
This course introduces the American educational system and the teaching profession. Topics include historical and philosophical foundations of education, contemporary educational, structural, legal, and financial issues, and experiences in public school classrooms. Upon completion, students should be able to relate classroom observations to the roles of teachers and schools and the process of teacher education. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement at select institutions only. This course is also available through the Virtual Learning Community (VLC).

### EDU 220 Prog Poli in Early Interv
**Prerequisites:** Take EDU-144 and DRE-098  
**Corequisites:** None  
**Component:** None  
This course covers program policies, issues, legislation, and service delivery models included in early intervention. Emphasis is placed on trends and policies in early intervention relating to programs for infants and young children with disabilities, family roles, and research outcomes. Upon completion, students should be able to identify roles and responsibilities, describe the referral and placement options and explain the different service delivery models.

### EDU 221 Children with Exceptional
**Prerequisites:** Take EDU 144, EDU 145, and DRE 098  
**Corequisites:** None  
**Component:** None  
This course introduces children with exceptionalities, their families, support services, inclusive/diverse settings, and educational/family plans based on the foundations of child development. Emphasis is placed on the characteristics of exceptionalities, observation and assessment of children, strategies for adapting the learning environment, and identification of community resources. Upon completion, students should be able to recognize diverse abilities, describe the referral process, and depict collaboration with families/professionals to plan/implement, and promote best practice. This course is also available through the Virtual Learning Community (VLC).

### EDU 222 Learn w/ Behav Disord
**Prerequisites:** Take EDU-144, EDU-145 and DRE-098  
**Corequisites:** None  
**Component:** None  
This course provides a comprehensive study of learners with behavioral disorders encompassing characteristics, assessments, placement alternatives, inclusion and family interventions. Topics include legislation, appropriate management interventions, and placement options for children with behavior disorders. Upon completion, students should be able to identify, develop, and utilize positive behavior support systems.

### EDU 223 Specific Learning Disab
**Prerequisites:** Take EDU-144, EDU-145, and DRE-098  
**Corequisites:** None  
**Component:** None  
This course provides a comprehensive study of characteristics, alternative assessments, teaching strategies, placement options, inclusion, and family intervention for children with specific learning disabilities. Topics include causes, assessment instruments, learning strategies, and collaborative/inclusion methods for children with specific learning disabilities. Upon completion, students should be able to assist in identifying, assessing, and providing educational interventions for children with specific learning disabilities and their families.

### EDU 234 Infants, Toddlers, & Twos
**Prerequisites:** Take EDU-119 and DRE-098  
**Corequisites:** None  
**Component:** None  
This course covers the unique needs and rapid changes that occur in the first three years of life and the inter-related factors that influence development. Emphasis is placed on recognizing and supporting developmental milestones through purposeful strategies, responsive care routines and identifying elements of quality, inclusive early care and education. Upon completion, students should be able to demonstrate respectful relationships that provide a foundation for healthy infant/toddler/twos development, plan/select activities/materials, and partner with diverse families.

### EDU 234A Infants/Toddlers/Twos Lab
**Prerequisites:** Take DRE 098  
**Corequisites:** Take EDU 234  
**Component:** None  
This course focuses on practical applications that support the healthy development of very young children by applying principles of quality inclusive early care and education. Emphasis is placed on recognizing the interrelated factors that impact children’s development through planning, evaluating and adapting quality environments, including activities and adult/child interactions. Upon completion, students should be able to demonstrate the ability to engage in respectful, responsive care that meets the unique needs of individual children/families.

### EDU 235 School-Age Development & Program
**Prerequisites:** Take DRE 098  
**Corequisites:** None  
**Component:** None  
This course includes developmentally appropriate practices in group settings for school-age children. Emphasis is placed on principles of development, environmental planning, and positive guidance techniques. Upon completion, students should be able to discuss developmental principles for all children ages five to twelve and plan and implement developmentally-appropriate activities.

---

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
EDU 243 Learning Theory
Prerequisites: Take DRE 098
Corequisites: None
Component: None
This course provides lateral entry teachers an introduction to learning theory, various styles of learning, and motivational factors involved in the learning process. Emphasis is placed on the development of cognitive skills using the eight types of intelligence and applying these to practical classroom situations. Upon completion, students should be able to describe theories and styles of learning and discuss the relationship between different types of intelligence to learning motivation.

EDU 245 Policies and Procedures
Prerequisites: Take DRE 098
Corequisites: None
Component: None
This course is designed to introduce new lateral entry teachers to the policies and procedures established by the local education agency. Topics include emergency situation procedures, acceptable discipline, chain of command, role of mentors, evaluation procedures, employment requirements, dress codes, and other policies and procedures. Upon completion, students should be able to explain the policies and procedures to students, parents, or others and discuss the purpose of each policy category.

EDU 247 Sensory & Physical Disability
Prerequisites: Take EDU-144, EDU-145 and DRE 098
Corequisites: None
Component: None
This course covers characteristics, intervention strategies, assistive technologies, and inclusive practices for children with sensory and physical disabilities. Topics include inclusive placement options, utilization of support services, other health impairments and family involvement for children with sensory and physical disabilities. Upon completion, students should be able to identify and utilize intervention strategies and service delivery options for those specific disabilities.

EDU 248 Developmental Delays
Prerequisites: Take EDU-144, EDU-145 and DRE 098
Corequisites: None
Component: None
This course covers the causes and assessment of developmental delays and individualized instruction and curriculum for children with developmental delays. Emphasis is placed on definition, characteristics, assessment, educational strategies, inclusion, family involvement, and services for children with developmental delays. Upon completion, students should be able to identify, assess, and plan educational intervention strategies for children with developmental delays and their families.

EDU 250 PRAXIS I Preparation
Prerequisites: Take DRE 098
Corequisites: None
Component: None
This course is designed to prepare potential teachers for the PRAXIS I exam that is necessary to enter the field of education. Emphasis is placed on content specifications of the PRAXIS I exam, study skills and simulated examinations. Upon completion, students should be able to demonstrate an understanding of the content necessary for successful completion of the PRAXIS I exam.

EDU 256 Inst Strat/Social Studies
Prerequisites: Take DRE 098
Corequisites: None
Component: None
This course covers objectives, content, materials, and instructional approaches to social studies. Topics include the integration of history, geography, economics, and government materials; research/study techniques; and critical thinking. Upon completion, students should be able to assess, plan, implement, and evaluate developmentally appropriate experiences as it relates to the NC Standard Course of Study.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
EDU 263 School-Age Program Admin  02  00  00  02
Prerequisites:  Take DRE-098
Corequisites:  None
Component:  None
This course introduces the methods and procedures for development and administration of school-age programs in the public or proprietary setting. Emphasis is placed on the construction and organization of the physical environment. Upon completion, students should be able to plan, develop and administer a quality school-age program.

EDU 271 Educational Technology  02  02  00  03
Prerequisites:  Take DRE-098
Corequisites:  None
Component:  None
This course introduces the use of technology to enhance teaching and learning in all educational settings. Topics include technology concepts, instructional strategies, materials and adaptive technology for children with exceptionalities, facilitation of assessment/evaluation, and ethical issues surrounding the use of technology. This course is also available through the Virtual Learning Community (VLC).

EDU 275 Effective Teacher Training  02  00  00  02
Prerequisites:  Take DRE-098
Corequisites:  None
Component:  None
This course provides specialized training using an experienced-based approach to learning. Topics include instructional preparation and presentation, student interaction, time management, learning expectations, evaluation, and curriculum principles and planning. Upon completion, students should be able to prepare and present a six-step lesson plan and demonstrate ways to improve students' time-on-task.

EDU 280 Language & Literacy Exp  03  00  00  03
Prerequisites:  Take DRE-098
Corequisites:  None
Component:  None
This course is designed to expand students' understanding of children's language and literacy development and provides strategies for enhancing language/literacy experiences in an enriched environment. Topics include selection of diverse literature and interactive media, the integration of literacy concepts throughout the curriculum, appropriate observations/assessments and inclusive practices. Upon completion, students should be able to select, plan, implement and evaluate developmentally appropriate and diverse language/literacy experiences. This course is also available through the Virtual Learning Community (VLC).

EDU 281 Instruct Strat/Read & Writ  02  02  00  03
Prerequisites:  Take DRE-098
Corequisites:  None
Component:  None
This course covers concepts, resources, and methods for teaching reading and writing to elementary through middle-grade children. Topics include the importance of literacy, learning styles, skills assessment, various reading and writing approaches and instructional strategies. Upon completion, students should be able to assess, plan, implement and evaluate school-age literacy experiences as related to the North Carolina Standard Course of Study. This course is also available through the Virtual Learning Community (VLC).

EDU 282 Early Childhood Literature  03  00  00  03
Prerequisites:  Take DRE-098
Corequisites:  None
Component:  None
This course covers the history, selection, and integration of literature and language in the early childhood curriculum. Topics include the history and selection of developmentally appropriate children's literature and the use of books and other media to enhance language and literacy in the classroom. Upon completion, students should be able to select appropriate books for storytelling, reading aloud, puppetry, flannel board use, and other techniques.

EDU 284 Early Child Capstone Prac  01  09  00  04
Prerequisites:  Take EDU 119, EDU 144, EDU 145, EDU 146, EDU 151 and DRE-098
Corequisites:  None
Component:  None
This course is designed to allow students to apply skills in a three star (minimum) or NAEYC accredited or equivalent, quality early childhood environment. Emphasis is placed on designing, implementing and evaluating developmentally appropriate activities and environments for all children; supporting/involving families; and modeling reflective and professional practices. Upon completion, students should be able to demonstrate developmentally appropriate plans/assessments, appropriate guidance techniques and ethical/professional behaviors as indicated by assignments and onsite faculty visits.

EDU 285 Internship Exp-School Age  01  09  00  04
Prerequisites:  Take EDU-118, EDU-144, EDU-145, EDU-163 and DRE-098
Corequisites:  None
Component:  None
This course is designed to allow students to apply skills in a quality public or private school environment. Emphasis is placed on designing, implementing and evaluating developmentally appropriate activities and environments for all children; supporting/involving families; and modeling reflective and professional practices. Upon completion, students should be able to demonstrate developmentally appropriate lesson plans/assessments, appropriate guidance techniques, ethical/professional behaviors as indicated by assignments and onsite faculty visits.

EDU 289 Adv Issues/School Age  02  00  00  02
Prerequisites:  Take DRE-098
Corequisites:  None
Component:  None
This course covers advanced topics and issues that relate to school-age programs. Emphasis is placed on current advocacy issues, emerging technology, professional growth, ethics, and organizations for providers/teachers working with school-age populations. Upon completion, students should be able to list, discuss, and explain advanced current topics and issues surrounding school-aged populations.

EFL 083 Grammar III  05  00  00  05
Prerequisites:  EFL 082
Corequisites:  None
Component:  None
This course is designed to provide high-intermediate non-native speakers of English with a knowledge of grammatical structures that improves academic communication. Emphasis is placed on using high-intermediate grammatical structures in meaningful contexts through exercised integrating the use of newly acquired structures with previously learned structures. Upon completion, students should be able to demonstrate improved proficiency, comprehension, and grammatical accuracy.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
EGR 115 Introduction to Technology  
Prerequisites: None  
Corequisites: None  
Component: None  
This course is designed to give non-native speakers of English a full understanding of advanced grammatical structures and techniques. Emphasis is placed on oral and written communicative fluency through the study of advanced grammatical forms. Upon completion, students should be able to incorporate the structures covered in both spoken and written form, demonstrating improved proficiency, comprehension, and grammatical accuracy.

EFL 091 Composition I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces basic sentence structure and writing paragraphs. Emphasis is placed on word order, verb tense-aspect system, auxiliaries, word forms, and simple organization and basic transitions in writing paragraphs. Upon completion, students should be able to demonstrate a basic understanding of grammar and ability to write English paragraphs using appropriate vocabulary, organization, and transitions.

EFL 092 Composition II  
Prerequisites: EFL 091  
Corequisites: None  
Component: None  
This course provides preparation in low-intermediate academic and general-purpose writing. Emphasis is placed on writing as a process, paragraph development, and basic essay organization. Upon completion, students should be able to write and independently edit and understand the major elements of the writing process, sentence, paragraph, and essay.

EFL 093 Composition III  
Prerequisites: EFL 092  
Corequisites: None  
Component: None  
This course covers intermediate-level academic and general-purpose writing. Emphasis is placed on the writing process, content, organization, and language use in formal academic compositions in differing rhetorical modes. Upon completion, students should be able to effectively use the writing process in a variety of rhetorical modes.

EFL 094 Composition IV  
Prerequisites: EFL 093  
Corequisites: None  
Component: None  
This course prepares low-advanced non-native speakers of English to determine the purpose of their writing and to write paragraphs and essays to fulfill that purpose. Emphasis is placed on unity, coherence, completeness, audience, and the writing process; and the grammatical forms and punctuation appropriate for each kind of writing. Upon completion, students should be able to write unified, coherent, and complete paragraphs and essays which are grammatical and appropriate for the intended audience.

EFL 095 Composition V  
Prerequisites: EFL 094  
Corequisites: None  
Component: None  
This course is designed to prepare advanced non-native speakers of English for college-level composition courses. Emphasis is placed on the study and process of writing formal essays and research papers and the analysis of literary, expository, and descriptive writings. Upon completion, students should be able to write and analyze professional and peer compositions and apply basic research principles.

EGR 115 Introduction to Technology  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the basic skills and career fields for technicians. Topics include career options, technical vocabulary, dimensional analysis, measurement systems, engineering graphics, calculator applications, professional ethics, safety practices, and other related topics. Upon completion, students should be able to demonstrate an understanding of the basic technologies, prepare drawings and sketches, and perform computations using a scientific calculator.

EGR 120 Eng and Design Graphics  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the graphical tools for engineering and design communications. Emphasis is placed upon selecting the appropriate methods and tools and conveying ideas using sketches, orthographic views and projections, and computer graphics applications. Upon completion, students should be able to communicate essential features or two-dimensional and three-dimensional objects using the proper tools and methods.

EGR 131 Intro to Electronics Tech  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the basic skills required for electrical/electronics technicians. Topics include soldering/desoldering, safety practices, test equipment, scientific calculators, AWG wire table, the resistor color code, electronic devices, problem solving, and use of hand tools. Upon completion, students should be able to solder/desolder, operate test equipment, apply problem-solving techniques, and use a scientific calculator.

EGR 150 Intro to Engineering  
Prerequisites: None  
Corequisites: None  
Component: None  
This course is an overview of the engineering profession. Topics include goal setting and career assessment, ethics, public safety, the engineering method and design process, written and oral communication, interpersonal skills and team building, and computer applications. Upon completion, students should be able to understand the engineering process, the engineering profession, and utilize college resources to meet their educational goals. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

EGR 210 Intro to Elec/Comp Eng Lab  
Prerequisites: MAT 271 and PHY 251  
Corequisites: None  
Component: None  
This course provides an overview of electrical and computer engineering, through a lecture and laboratory setting. Topics include fundamental concepts, electronic circuits, digital circuits, communication systems, and signal processing. Upon completion, students should be able to discuss the wide range of fields available to the electrical or computer engineer. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
EGR 213 Electric Circuits
Prerequisites: EGR 210, MAT 271, and PHY 251
Corequisites: None
Component: None
This course provides an introduction to theory, analysis and design of electric circuits. Topics include voltage, current, power, resistance, capacitance, inductance, Kirchoff’s laws, nodal and mesh analysis, Thuevenin’s theorem, Norton’s theorem, steady state and transient analysis, and operational amplifiers. Upon completion, students should be able to explain voltage, current, and power; to analyze electric circuits; and to design circuits using operational amplifiers. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

EGR 250 Statics/Strength of Mater
Prerequisites: MAT-121 or MAT-171
Corequisites: None
Component: None
This course includes vector analysis, equilibrium of force systems, friction, sectional properties, stress/strain, and deformation. Topics include resultants and components of forces, moments and couples, free-body diagrams, shear and moment diagrams, trusses, frames, beams, columns, connections, and combined stresses. Upon completion, students should be able to analyze simple structures.

ELC 112 DC/AC Electricity
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental concepts of and computations related to DC/AC electricity. Emphasis is placed on DC/AC circuits, components, operation of test equipment; and other related topics. Upon completion, students should be able to construct, verify, and analyze simple DC/AC circuits.

ELC 113 Residential Wiring
Prerequisites: None
Corequisites: None
Component: None
This course introduces the care/usage of tools and materials used in residential electrical installations and the requirements of the National Electrical Code. Topics include NEC, electrical safety, and electrical print reading; planning, layout; and installation of electrical distribution equipment; lighting; overcurrent protection; conductors; branch circuits; and conduits. Upon completion, students should be able to properly install conduits, wiring, and electrical distribution equipment associated with residential electrical installations.

ELC 114 Commercial Wiring
Prerequisites: None
Corequisites: None
Component: None
This course provides instruction in the application of electrical tools, materials, and test equipment associated with commercial electrical installations. Topics include the NEC; safety; electrical blueprints; planning, layout, and installation of equipment and conduits; and wiring devices such as panels and overcurrent devices. Upon completion, students should be able to properly install equipment and conduit associated with commercial electrical installations.

ELC 117 Motors and Controls
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental concepts of motors and motor controls. Topics include ladder diagrams, pilot devices, contactors, motor starters, motors, and other control devices. Upon completion, students should be able to properly select, connect, and troubleshoot motors and control circuits.

ELC 118 National Electrical Code
Prerequisites: None
Corequisites: None
Component: None
This course covers the use of the current National Electrical Code. Topics include the NEC history, wiring methods, overcurrent protection, materials, and other related topics. Upon completion, students should be able to effectively use the NEC.

ELC 119 NEC Calculations
Prerequisites: None
Corequisites: None
Component: None
This course covers branch circuit, feeder, and service calculations. Emphasis is placed on sections of the National Electrical Code related to calculations. Upon completion, students should be able to use appropriate code sections to size wire, conduit, and overcurrent devices for branch circuits, feeders, and service.

ELC 121 Electrical Estimating
Prerequisites: None
Corequisites: None
Component: None
This course covers the principles involved in estimating electrical projects. Topics include take-offs of materials and equipment, labor, overhead, and profit. Upon completion, students should be able to estimate simple electrical projects.

ELC 128 Intro to PLC
Prerequisites: None
Corequisites: None
Component: None
This course introduces the programmable logic controller (PLC) and its associated applications. Topics include ladder logic diagrams, input/output modules, power supplies, surge protection, selection/installation of controllers, and interfacing of controllers with equipment. Upon completion, students should be able to understand basic PLC systems and create simple programs.

ELC 131 Circuit Analysis I
Prerequisites: Take DMA-080, MAT 080, or MAT 161 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course introduces DC and AC electricity with an emphasis on circuit analysis, measurements, and operation of test equipment. Topics include DC and AC principles, circuit analysis laws and theorems, components, test equipment operation, circuit simulation, and other related topics. Upon completion, students should be able to interpret circuit schematics; design, construct, verify, and analyze DC/AC circuits; and properly use test equipment.

ELC 131A Circuit Analysis I Lab
Prerequisites: None
Corequisites: ELC 131
Component: None
This course provides laboratory assignments as applied to fundamental principles of DC/AC electricity. Emphasis is placed on measurements and evaluation of electrical components, devices and circuits. Upon completion, the students will gain hands-on experience by measuring voltage, current, and opposition to current flow utilizing various meters and test equipment.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course introduces the concepts, tools, techniques, and materials needed to understand systems that convert solar energy into electricity with photovoltaic (pv) technologies. Topics include site analysis for system integration, building codes, and advances in photovoltaic technology. Upon completion, students should be able to demonstrate an understanding of the principles of photovoltaic technology and current applications.

**ELC 220 Photovoltaic Sys Tech**

- Prerequisites: None
- Corequisites: None
- Component: None
- This course introduces the concepts, tools, techniques, and materials needed to understand systems that convert solar energy into electricity with photovoltaic ( pv ) technologies. Topics include site analysis for system integration, building codes, and advances in photovoltaic technology. Upon completion, students should be able to demonstrate an understanding of the principles of photovoltaic technology and current applications.

**ELC 221 Adv PV Sys Designs**

- Prerequisites: Take ELC-220
- Corequisites: None
- Component: None
- This course introduces specific elements in photovoltaic ( pv ) systems technologies including efficiency, modules, inverters, charge controllers, batteries, and system installation. Topics include National Electrical Code ( NEC ), electrical specifications, photovoltaic system components, array design and power integration requirements that combine to form a unified structure. Upon completion, students should be able to demonstrate an understanding of various photovoltaic designs and proper installation of NEC compliant solar electric power systems.

**ELC 229 Applications Project**

- Prerequisites: None
- Corequisites: None
- Component: None
- This course provides an individual and/or integrated team approach to a practical project as approved by the instructor. Topics include project selection and planning, implementation and testing, and a final presentation. Upon completion, students should be able to plan and implement an applications-oriented project.

**ELC 230 Wind & Hydro Power Sys**

- Prerequisites: CSC 133, ELC 231, and ELN 260
- Corequisites: None
- Component: None
- This course introduces concepts, designs, tools, techniques, and material requirements for systems that convert wind and water into usable energy. Topics include the analysis, measurement, and estimation of potential energy of wind and water systems. Upon completion, students should be able to demonstrate an understanding of the technologies associated with converting wind and water into a viable energy source.

**ELC 231 Electric Power Systems**

- Prerequisites: ELC 131 and ELN 133
- Corequisites: None
- Component: None
- This course covers the basic principles of electric power systems, including transmission lines, generator and transformer characteristics, and fault detection and correction. Emphasis is placed on line diagrams and per unit calculations for circuit performance analysis in regards to voltage regulation, power factor, and protection devices. Upon completion, students should be able to analyze simple distribution subsystems, calculate fault current, and determine the size and type of circuit protection devices.

**ELN 131 Analog Electronics I**

- Prerequisites: ELC 131
- Corequisites: None
- Component: None
- This course introduces the characteristics and applications of semiconductor devices and circuits. Emphasis is placed on analysis, selection, biasing, and applications. Upon completion, students should be able to construct, analyze, verify, and troubleshoot analog circuits using appropriate techniques and test equipment.

**ELN 132 Linear IC Applications**

- Prerequisites: ELN 131

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
ELN 234 Communication Systems
Prerequisites: ELN 131 and ELN 133
Corequisites: None
Component: None
This course introduces the fundamentals of electronic communication systems. Topics include the frequency spectrum, electrical noise, modulation techniques, characteristics of transmitters and receivers, and digital communications. Upon completion, students should be able to interpret analog and digital communication circuit diagrams, analyze transmitter and receiver circuits, and use appropriate communication test equipment.

ELN 247 Electronic App Project
Prerequisites: ELN 232 and ELN 234
Corequisites: None
Component: None
This course provides a structured approach to an application-oriented electronics project. Emphasis is placed on selecting, planning, implementing, testing, and presenting an application-oriented project. Upon completion, students should be able to present and demonstrate an electronics application-oriented project.

ELN 249 Digital Communication
Prerequisites: CSC 133 and ELN 232
Corequisites: None
Component: None
This course covers the core processes and applications associated with digital communication techniques. Topics include the characteristics of RF circuits, modulation, transmitters and receivers, electromagnetic transmission, antennas, and related applications. Upon completion, students should be able to demonstrate knowledge of the concepts associated with digital communication systems.

ELN 260 Prog Logic Controllers
Prerequisites: ELC 231 and ELN 232
Corequisites: None
Component: None
This course provides a detailed study of PLC applications, with a focus on design of industrial controls using the PLC. Topics include PLC components, memory organization, math instructions, documentation, input/output devices, and applying PLCs in industrial control systems. Upon completion, students should be able to select and program a PLC system to perform a wide variety of industrial control functions.

ELN 275 Troubleshooting
Prerequisites: ELN 131 and ELN 133
Corequisites: ELN 232
Component: None
This course covers techniques of analyzing and repairing failures in electronic equipment. Topics include safety, signal tracing, use of service manuals, and specific troubleshooting methods for analog, digital, and other electronics-based circuits and systems. Upon completion, students should be able to logically diagnose and isolate faults and perform necessary repairs to meet manufacturers’ specifications.

EMS 110 EMT
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course introduces basic emergency medical care. Topics include preparatory, airway, patient assessment, medical emergencies, trauma, infants and children, and operations. Upon completion, students should be able to demonstrate the knowledge and skills necessary to achieve North Carolina State or National Registry EMT certification.

EMS 115 Defense Tactics for EMS
Prerequisites: Department Approval
Corequisites: None
Component: None
This course is designed to provide tactics that can be used for self-protection in dangerous and violent situations. Emphasis is placed on prediction, recognition, and response to dangerous and violent situations. Upon completion, students should be able to recognize potentially hostile situations and protect themselves during a confrontation.

EMS 122 EMS Clinical Practicum I
Prerequisites: Take EMS-110
Corequisites: Take EMS-130
Component: None
This course provides the introductory hospital clinical experience for the paramedic student. Emphasis is placed on mastering fundamental paramedic skills. Upon completion, students should be able to demonstrate competence with fundamental paramedic level skills.

EMS 125 EMS Instructor Methodology
Prerequisites: None
Corequisites: None
Component: None
This course covers the information needed to develop and instruct EMS courses. Topics include instructional methods, lesson plan development, time management skills, and theories of adult learning. Upon completion, students should be able to teach EMS courses and meet the North Carolina EMS requirements for instructor methodology.

EMS 130 Pharmacology
Prerequisites: Take EMS 110
Corequisites: Take EMS-122
Component: None
This course introduces the fundamental principles of pharmacology and medication administration and is required for paramedic certification. Topics include medical terminology, pharmacological concepts, weights, measures, drug calculations, vascular access for fluids and medication administration and legislation. Upon completion, students should be able to accurately calculate drug dosages, properly administer medications, and demonstrate general knowledge of pharmacology.

EMS 131 Advanced Airway Management
Prerequisites: Take EMS 110
Corequisites: None
Component: None
This course is designed to provide advanced airway management techniques and is required for paramedic certification. Topics include respiratory anatomy and physiology, airway/ventilation, adjuncts, surgical intervention, and rapid sequence intubation. Upon completion, students should be able to properly utilize all airway adjuncts and pharmacology associated with airway control and maintenance.

EMS 140 Rescue Scene Management
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course introduces rescue scene management. Topics include response to hazardous material conditions, incident command, and extrication of patients from a variety of situations. Upon completion, students should be able to recognize and manage rescue operations based upon initial and follow-up scene assessment.

EMS 160 Cardiology I
Prerequisites: Take EMS-110
Corequisites: None
Component: None
This course introduces the study of cardiovascular emergencies and is required for paramedic certification. Topics include anatomy and physiology, pathophysiology, electrophysiology, and basic rhythm interpretation in the monitoring leads. Upon completion, students should be able to recognize and interpret basic rhythms.

| Prerequisites:                    | Take All: EMS-122 and EMS-130           |           |        |           |            |
| Corequisites:                     | None                                     |           |        |           |            |
| Component:                        | None                                     |           |        |           |            |
| This course provides clinical experiences in the hospital and/or field. Emphasis is placed on increasing the proficiency of students' skills and abilities in patient assessments and the delivery of care. Upon completion, students should be able to demonstrate continued progress in advanced-level patient care. |

| EMS 230 Pharmacology II for EMS   | EMS Pharmacology II for EMS              | 01        | 03     | 00        | 02         |
| Prerequisites:                    | EMS 130                                  |           |        |           |            |
| Corequisites:                     | None                                     |           |        |           |            |
| Component:                        | None                                     |           |        |           |            |
| This course explores the fundamental classification and action of common pharmacological agents. Emphasis is placed on the action and use of compounds most commonly encountered in the treatment of chronic and acutely ill patients. Upon completion, students should be able to demonstrate general knowledge of drugs covered during the course. |

| EMS 231 EMS Clinical Practicum III| EMS Clinical Practicum III               | 00        | 00     | 09        | 03         |
| Prerequisites:                    | Take All: EMS-130 and EMS-221            |           |        |           |            |
| Corequisites:                     | None                                     |           |        |           |            |
| Component:                        | None                                     |           |        |           |            |
| This course provides clinical experiences in the hospital and/or field. Emphasis is placed on enhancing the students' skills and abilities in providing advanced-level care. Upon completion, students should be able to demonstrate continued progress in advanced-level patient care. |

| EMS 235 EMS Management            | EMS Management                           | 02        | 00     | 00        | 02         |
| Prerequisites:                    | Departmental Approval                    |           |        |           |            |
| Corequisites:                     | None                                     |           |        |           |            |
| Component:                        | None                                     |           |        |           |            |
| This course stresses the principles of managing a modern emergency medical service system. Topics include structure and function of municipal governments, EMS grantsmanship, finance, regulatory agencies, system management, legal issues, and other topics relevant to the EMS manager. Upon completion, students should be able to understand the principles of managing emergency medical service delivery systems. |

| EMS 240 Special Needs Patients    | Special Needs Patients                   | 01        | 02     | 00        | 02         |
| Prerequisites:                    | Take All: EMS-122 and EMS-130            |           |        |           |            |
| Corequisites:                     | None                                     |           |        |           |            |
| Component:                        | None                                     |           |        |           |            |
| This course includes concepts of crisis intervention and techniques of interacting with patients with special challenges and is required for paramedic certification. Topics include appropriate intervention and interaction for neglected, abused, terminally ill, chronically ill, technology assisted, bariatric, physically challenged, mentally challenged, or assaulted patients as well as behavioral emergencies. Upon completion, students should be able to recognize and manage the care of patients with special challenges. |

| EMS 241 EMS Clinical Practicum IV | EMS Clinical Practicum IV               | 00        | 00     | 09        | 03         |
| Prerequisites:                    | Take All: EMS-130 and EMS-231            |           |        |           |            |
| Corequisites:                     | None                                     |           |        |           |            |
| Component:                        | None                                     |           |        |           |            |
| This course provides clinical experiences in the hospital and/or field. Emphasis is placed on mastering the skills/competencies required of the paramedic providing advanced-level care. Upon completion, students should be able to provide advanced-level patient care as an entry-level paramedic. |

| EMS 250 Advanced Medical Emergency | EMS Advanced Medical Emergency           | 03        | 03     | 00        | 04         |
| Prerequisites:                    | Take All: EMS-122 and EMS-130            |           |        |           |            |
| Corequisites:                     | None                                     |           |        |           |            |
| Component:                        | None                                     |           |        |           |            |
| This course provides an in-depth study of medical conditions frequently encountered in the prehospital setting and is required for paramedic certification. Topics include appropriate interventions/treatments for disorders/diseases/injuries affecting the following systems: respiratory, neurological, abdominal/gastrointestinal, endocrine, genitourinary, musculoskeletal, and immunological as well as toxicology, infectious diseases and diseases of the eyes, ears, nose and throat. Upon completion, students should be able to recognize, assess and manage the care of frequently encountered medical conditions based upon initial patient assessment. |

| EMS 260 Advanced Trauma Emergencies | EMS Advanced Trauma Emergencies          | 01        | 03     | 00        | 02         |
| Prerequisites:                    | Take All: EMS-122 and EMS-130            |           |        |           |            |
| Corequisites:                     | None                                     |           |        |           |            |
| Component:                        | None                                     |           |        |           |            |
| This course provides in-depth study of trauma including pharmacological interventions for conditions frequently encountered in the prehospital setting and is required for paramedic certification. Topics include an overview of thoracic, abdominal, genitourinary, orthopedic, neurological, and multi-system trauma, soft tissue trauma of the head, neck, and face as well as environmental emergencies. Upon completion, students should be able to recognize and manage trauma situations based upon patient assessment and should adhere to standards of care. |

| EMS 270 Life Span Emergencies      | EMS Life Span Emergencies                | 02        | 03     | 00        | 03         |
| Prerequisites:                    | Take All: EMS-122 and EMS-130            |           |        |           |            |
| Corequisites:                     | None                                     |           |        |           |            |
| Component:                        | None                                     |           |        |           |            |
| This course covers medical/ethical/legal issues and the spectrum of age-specific emergencies from conception through death required for paramedic certification. Topics include gynecological, obstetrical, neonatal, pediatric, and geriatric emergencies and pharmacological therapeutics. Upon completion, students should be able to recognize and treat age-specific emergencies. |

| EMS 280 EMS Bridging Course       | EMS Bridging Course                      | 02        | 02     | 00        | 03         |
| Prerequisites:                    | Departmental Approval                    |           |        |           |            |
| Corequisites:                     | None                                     |           |        |           |            |
| Component:                        | None                                     |           |        |           |            |
| This course is designed to bridge the knowledge gained in a continuing education paramedic program with the knowledge gained in an EMS curriculum program. Emphasis is placed on patient assessment, advanced electrocardiography utilizing the twelve-lead ECG, advanced pharmacology, the appropriate intervention and treatment of multi-system injuries/disorders, ethics, and NC laws and rules. Upon completion, students should be able to perform advanced patient assessment and practice skills. |

| EMS 285 EMS Capstone              | EMS Capstone                             | 01        | 03     | 00        | 02         |
| Prerequisites:                    | All courses required: EMS 220, EMS 250 and EMS 260 |
| Corequisites:                     | None                                     |           |        |           |            |
| Component:                        | None                                     |           |        |           |            |
| This course provides an opportunity to demonstrate problem-solving skills as a team leader in simulated patient scenarios and is required for paramedic certification. Emphasis is placed on critical thinking, integration of didactic and psychomotor skills, and effective performance in simulated emergency situations. Upon completion, students should be able to recognize and appropriately respond to a variety of EMS-related events. |

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
ENG 101 Applied Communications I
Prerequisites: None
Corequisites: None
Component: None
This course is designed to enhance reading and writing skills for the workplace. Emphasis is placed on technical reading, job-related vocabulary, sentence writing, punctuation, and spelling. Upon completion, students should be able to identify main ideas with supporting details and produce mechanically correct short writings appropriate to the workplace. This course is intended for certificate and diploma programs.

ENG 111 Writing and Inquiry
Prerequisites: Take DRE-098 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course is designed to develop the ability to produce clear writing in a variety of genres and formats using a recursive process. Emphasis includes inquiry, analysis, effective use of rhetorical strategies, thesis development, audience awareness, and revision. Upon completion, students should be able to produce unified, coherent, well-developed essays using standard written English. This course has been approved for transfer under the CAA as a general education course in English Composition. This course has been approved for transfer under the ICAA as a general education course in English Composition. This is a Universal General Education Transfer Component (UGETC) course.

ENG 112 Writing/Research in the Disc
Prerequisites: ENG 111
Corequisites: None
Component: None
This course, the second in a series of two, introduces research techniques, documentation styles, and writing strategies. Emphasis is placed on analyzing information and ideas and incorporating research findings into documented writing and research projects. Upon completion, students should be able to evaluate and synthesize information from primary and secondary sources using documentation appropriate to various disciplines. This course has been approved for transfer under the CAA as a general education course in English Composition. This course has been approved for transfer under the ICAA as a general education course in English Composition. This is a Universal General Education Transfer Component (UGETC) course.

ENG 113 Literature-Based Research
Prerequisites: ENG 111
Corequisites: None
Component: None
This course, the second in a series of two, expands the concepts developed in ENG 111 by focusing on writing that involves literature-based research and documentation. Emphasis is placed on critical reading and thinking and the analysis and interpretation of prose, poetry, and drama: plot, characterization, theme, cultural context, etc. Upon completion, students should be able to construct mechanically-sound, documented essays and research papers that analyze and respond to literary works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.

ENG 114 Professional Research & Reporting
Prerequisites: ENG 111
Corequisites: None
Component: None
This course, the second in a series of two, is designed to teach professional communication skills. Emphasis is placed on research, listening, critical reading and thinking, analysis, interpretation, and design used in oral and written presentations. Upon completion, students should be able to work individually and collaboratively to produce well-designed business and professional written and oral presentations. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.

ENG 125 Creative Writing I
Prerequisites: ENG 111
Corequisites: None
Component: None
This course is designed to provide students with the opportunity to practice the art of creative writing. Emphasis is placed on writing, fiction, poetry, and sketches. Upon completion, students should be able to craft and critique their own writing and critique the writing of others. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 126 Creative Writing II
Prerequisites: ENG 125
Corequisites: None
Component: None
This course is designed as a workshop approach for advancing imaginative and literary skills. Emphasis is placed on the discussion of style, techniques, and challenges for first publications. Upon completion, students should be able to submit a piece of their writing for publication. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 131 Introduction to Literature
Prerequisites: ENG 111
Corequisites: One course required: ENG 112, ENG 113, or ENG 114
Component: None
This course introduces the principal genres of literature. Emphasis is placed on literary terminology, devices, structure, and interpretation. Upon completion, students should be able to analyze and respond to literature. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ENG 132 Introduction to Drama
Prerequisites: ENG 111
Corequisites: One course required: ENG 112, ENG 113, or ENG 114
Component: None
This course provides intensive study of drama as a literary form, based on close reading of representative texts. Emphasis is placed on the development and analysis of drama. Upon completion, students should be able to interpret, analyze, and discuss the distinguishing features of drama. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 134 Introduction to Poetry
Prerequisites: ENG 111
Corequisites: One course required: ENG 112, ENG 113, or ENG 114
Component: None
This course provides intensive study of the poem as a literary form, based on close reading of representative texts. Emphasis is placed on the development and analysis of poetry. Upon completion, students should be able to interpret, analyze, and discuss the distinguishing features of poetry. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 231 American Literature I
Prerequisites: One course required: ENG 112, ENG 113, or ENG 114
Corequisites: None
Component: None
This course covers selected works in American literature from its beginnings to 1865. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to analyze and interpret literary works in their historical and cultural contexts. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

**ENG 232 American Literature II**

Prerequisites: Take one: ENG 112, ENG 113 or ENG 114  
Component: None  
This course covers selected works in American literature from 1865 to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret and analyze literary works in their historical and cultural contexts. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

**ENG 233 Major American Writers**

Prerequisites: One course required: ENG 112, ENG 113 or ENG 114  
Component: None  
This course provides an intensive study of the works of several major American authors. Emphasis is placed on American history, culture, and the literary merits. Upon completion, students should be able to interpret, analyze, and evaluate the works studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**ENG 241 British Literature I**

Prerequisites: One course required: ENG 112, ENG 113 or ENG 114  
Component: None  
This course covers selected works in British literature from its beginnings to the Romantic Period. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).

**ENG 242 British Literature II**

Prerequisites: One course required: ENG 112, ENG 113 or ENG 114  
Component: None  
This course covers selected works in British literature from the Romantic Period to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).

**ENG 243 Major British Writers**

Prerequisites: One course required: ENG 112, ENG 113 or ENG 114  
Component: None  
This course provides an intensive study of the works of several major British authors. Emphasis is placed on British history, culture, and the literary merits. Upon completion, students should be able to interpret, analyze, and evaluate the works studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**ENG 251 Western World Literature I**

Prerequisites: One course required: ENG 112, ENG 113 or ENG 114  
Component: None  
This course provides a survey of selected European works from the Classical period through the Renaissance. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**ENG 252 Western World Literature II**

Prerequisites: One course required: ENG 112, ENG 113 or ENG 114  
Component: None  
This course provides a survey of selected European works from the Neoclassical period to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**ENG 253 The Bible as Literature**

Prerequisites: One course required: ENG 112, ENG 113 or ENG 114  
Component: None  
This course includes a study of contemporary literature. Emphasis is placed on the Bible's literary aspects including history, composition, structure, and cultural contexts. Upon completion, students should be able to identify and analyze selected books and passages using appropriate literary conventions. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**ENG 261 World Literature I**

Prerequisites: One course required: ENG 112, ENG 113 or ENG 114  
Component: None  
This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from their literary beginnings through the seventeenth century. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**ENG 262 World Literature II**

Prerequisites: One course required: ENG 112, ENG 113 or ENG 114  
Component: None  
This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from the eighteenth century to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).

**ENG 271 Contemporary Literature**

Prerequisites: One course required: ENG 112, ENG 113 or ENG 114  
Component: None  
This course includes a study of contemporary literature. Emphasis is placed on literary and cultural trends of selected texts. Upon completion, students should be able to interpret, analyze, and respond to the literature. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
ENG 272 Southern Literature 03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course provides an analytical study of the works of several Southern authors. Emphasis is placed on the historical and cultural contexts, themes, aesthetic features of individual works, and biographical backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and discuss selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 273 African-American Literature 03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course provides a survey of the development of African-American literature from its beginnings to the present. Emphasis is placed on historical and cultural context, themes, literary traditions, and backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and respond to selected texts. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).

ENG 274 Literature by Women 03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course provides an analytical study of the works of several women authors. Emphasis is placed on the historical and cultural contexts, themes and aesthetic features of individual works, and biographical backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and discuss selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 275 Science Fiction 03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course covers the relationships between science and literature through analysis of short stories and novels. Emphasis is placed on scientific discoveries that shaped Western culture and our changing view of the universe as reflected in science fiction literature. Upon completion, students should be able to trace major themes and ideas and illustrate relationships between science, world view, and science fiction literature. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

EPT 120 Sociology of Disaster 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course is designed to overview sociological disaster research, disaster systems, and alternative research approaches. Topics include human and organizational behaviors, long term disaster impact on communities, disaster warning, and evacuation considerations. Upon completion, students should be able to assess and predict the impact of disaster-related human behavior.

EPT 124 EM Services Law & Ethics 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers federal and state laws that affect emergency service personnel in the event of a natural disaster or terrorist incident. Topics include initial response and long-term management strategies, with an emphasis on legal and ethical considerations and coordination between local, state, and federal agencies. Upon completion, students should have an understanding of the role of private industry, government agencies, public policies, and federal/state declarations of disasters in emergency situations.

EPT 130 Mitigation & Preparedness 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the mitigation and preparation techniques and methods necessary to minimize the impact of natural, technological, and man-made disasters. Topics include hazard identification and mapping, design and construction applications, financial incentives, insurance, structural controls, preparation, planning, assessment, implementation, and exercises. Upon completion students should be able to develop a mitigation and preparedness plan.

EPT 150 EMS Incident Management 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the fully integrated incident management system for EMS response to high impact incidents. Topics include mass casualty incidents, terrorists events, communications, training, triage, law and fire incident command. Upon completion, students should be able to implement and operate within the National Incident Management System.

EPT 210 Response & Recovery 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course focuses on the recovery of communities affected by a disaster. Students will learn about the processes involved in recovery, including the roles of various agencies and the importance of community resilience.

EPT 220 Terrorism and Emer. Mgt. 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the fully integrated incident management system for terrorism response and recovery. Topics include the history of terrorism, response to terrorist incidents, and the role of law enforcement.

EPT 275 Emergency OPS Center Mgt 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides students with the knowledge and skills to effectively manage and operate an EOC during crisis situations. Topics include proper locating and designing an EOC, staffing, training and briefing EOC personnel, and how to operate an EOC. Upon completion, students should be able to demonstrate how to set up and operate an effective emergency operations center.

ETR 220 Innovation and Creativity 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides a study of developing and enhancing individual and organizational creativity and innovation. Topics include the role of innovation in business, the process of innovation, and the importance of creative thinking.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
Upon completion, students should be able to conduct a fire code compliance identifying hazards, plan reviews, site sketches, and other related topics. Topics include review of fire and building codes, writing inspection reports, procedures to conduct an inspection referenced in NFPA standard 1730. This course covers the fundamentals of fire and building codes and procedures to conduct an inspection referenced in NFPA standard 1730. Topics include review of fire and building codes, writing inspection reports, identifying hazards, plan reviews, site sketches, and other related topics. Upon completion, students should be able to conduct a fire code compliance inspection and produce a written report.

ETR 240 Funding for Entrepreneurs
Prerequisites: ACC 120
Corequisites: None
Component: None
This course provides a focus on the financial issues and needs confronting entrepreneurs attempting to grow their businesses by attracting startup and growth capital. Topics include sources of funding including: angel investors, venture capital, IPO’s, private placement, banks, suppliers, buyers, partners, and the government. Upon completion, students should be able to demonstrate an understanding of how to effectively finance a business venture.

FIP 120 Intro to Fire Protection
Prerequisites: None
Corequisites: None
Component: None
This course provides an overview of the development, methods, systems and regulations that apply to the fire protection field. Topics include history, evolution, statistics, suppression, organizations, careers, curriculum, and related subjects. Upon completion, students should be able to demonstrate a broad understanding of the fire protection field.

FIP 124 Fire Prevention & Public Ed
Prerequisites: None
Corequisites: None
Component: None
This course introduces fire prevention concepts as they relate to community and industrial operations referenced in NFPA standard 101. Topics include the development and maintenance of fire prevention programs, educational programs, and inspection programs. Upon completion, students should be able to research, develop, and present a fire safety program to a citizens or industrial group.

FIP 128 Detection & Investigation
Prerequisites: None
Corequisites: None
Component: None
This course covers procedures for determining the origin and cause of accidental and incendiary fires referenced in NFPA standard 921. Topics include collection and preservation of evidence, detection and determination of accelerants, courtroom procedure and testimony, and documentation of the fire scene. Upon completion, students should be able to conduct a competent fire investigation and present those findings to appropriate officials or equivalent. This course is also available through the Virtual Learning Community (VLC).

FIP 132 Building Construction
Prerequisites: None
Corequisites: None
Component: None
This course covers the principles and practices reference in NFPA standard 220 related to various types of building construction, including residential and commercial, as impacted by fire conditions. Topics include types of construction and related elements, fire resistive aspects of construction materials, building codes, collapse, and other related topics. Upon completion, students should be able to understand and recognize various types of construction and their positive or negative aspects as related to fire conditions.

FIP 136 Inspections & Codes
Prerequisites: None
Corequisites: None
Component: None
This course covers the fundamentals of fire and building codes and procedures to conduct an inspection referenced in NFPA standard 1730. Topics include review of fire and building codes, writing inspection reports, identifying hazards, plan reviews, site sketches, and other related topics. Upon completion, students should be able to conduct a fire code compliance inspection and produce a written report.

FIP 140 Industrial Fire Protect
Prerequisites: None
Corequisites: None
Component: None
This course covers fire protection systems in industrial facilities referenced in NFPA standard 1. Topics include applicable health and safety standards, insurance carrier regulations, other regulatory agencies, hazards of local industries, fire brigade operation, and loss prevention programs. Upon completion, students should be able to plan and evaluation an industrial facility’s fire protection program.

FIP 152 Fire Protection Law
Prerequisites: None
Corequisites: None
Component: None
This course covers fire protection law as referenced in NFPA standard 1. Topics include legal terms, contracts, liability, review of case histories, and other related topics. Upon completion, students should be able to discuss laws, codes, and ordinances as they relate to fire protection.

FIP 164 OSHA Standards
Prerequisites: None
Corequisites: None
Component: None
This course covers public and private sector OSHA work site requirements referenced in NFPA standard 1250. Emphasis is placed on accident prevention and reporting, personal safety, machine operations, and hazardous material handling. Upon completion, students should be able to analyze and interpret specific OSHA regulations and write workplace policies designed to achieve compliance.

FIP 180 Wildland Fire Behavior
Prerequisites: None
Corequisites: None
Component: None
This course covers the principles of wildland fire behavior and meteorology referenced in NFPA standard 1143. Emphasis is placed on fire calculations, fuels, and related weather effects. Upon completion, students should be able to demonstrate and apply fire behavior theories through written and performance evaluations.

FIP 184 Wildland Fire Safety
Prerequisites: None
Corequisites: None
Component: None
This course covers safety principles used when working in the wildland fire environment referenced in NFPA standard 1143. Emphasis is placed on personal safety and working with equipment, aircraft, and fire-ground operations. Upon completion, students should be able to understand and demonstrate fire safety procedures through written and performance evaluations.

FIP 220 Fire Fighting Strategies
Prerequisites: None
Corequisites: None
Component: None
This course provides preparation for command of initial incident operations involving emergencies within both the public and private sector referenced in NFPA standards 1561, 1710, and 1720. Topics include incident management, fire-ground tactics and strategies, incident safety, and command/control of emergency operations. Upon completion, students should be able to describe the initial incident system as it relates to operations involving various emergencies in fire and non-fire situations.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
FIP 221 Adv Fire Fighting Strat  
Prerequisites: FIP 220  
Corequisites: None  
Component: None  
This course covers command-level operations for multi-company/agency operations involving fire and non-fire emergencies. Topics include advanced use of the Incident Command System (ICS), advanced incident analysis, command-level fire operations, and control of both man made and natural major disasters. Upon completion, students should be able to describe proper and accepted systems for the mitigation of emergencies at the level of overall scene command.

FIP 224 Instructional Methodology  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the knowledge, skills, and abilities needed to train others in fire service operations. Topics include planning, presenting, and evaluating lesson plans, learning styles, use of media, communication, and other related topics. Upon completion, students should be able to meet the requirements of the Fire Instructor I and II objectives from National Fire Protection Association (NFPA) 1041.

FIP 228 Local Govt Finance  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces local governmental financial principles and practices. Topics include budget preparation and justification, revenue policies, statutory requirements, audits, and the economic climate. Upon completion, students should be able to comprehend the importance of finance as it applies to the operations of a department.

FIP 229 Fire Dynamics and Combust  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the theories and fundamentals of how and why fires start and spread, and how they are safely controlled referenced in NFPA standard 1001. Topics include components of fire, fire sources, fire behavior, properties of combustible solids, classification of hazards, and the use of fire extinguishing agents. Upon completion, students should be able to describe the properties of matter and dynamics of fire, identify fuel sources, and compare suppressants and extinguishment techniques.

FIP 230 Chem of Hazardous Mat I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the evaluation of hazardous materials referenced in NFPA standard 1072. Topics include use of the periodic table, hydrocarbon derivatives, placards and labels, parameters of combustion, and spill and leak mitigation. Upon completion, students should be able to demonstrate knowledge of the chemical behavior of hazardous materials.

FIP 232 Hydraulics & Water Dist  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the flow of fluids through fire hoses, nozzles, appliances, pumps, standpipes, water mains, and other devices reference in NFPA standard 25. Emphasis is placed on supply and delivery systems, fire flow testing, hydraulic calculations, and other related topics. Upon completion, students should be able to perform hydraulic calculations, conduct water availability tests, and demonstrate knowledge of water distribution systems.

FIP 236 Emergency Management  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers fire-related aspects of human behavior, with an emphasis on research and a systems approach to human-behavior analysis. Topics include identification of populations and structures at high risk, evaluation of systems models, and use of computer models to predict human behavior during fires. Upon completion, students should be able to identify and anticipate human behavior in response to various residential, commercial, board-and-care facility, and wildland/rural fire events.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
FLO 189 Basic Floral Design
Prerequisites: None
Corequisites: None
Component: None
This course provides general knowledge of floral design on a non-commercial level. Topics include simple corsage work, vase arrangements, and holiday novelty items. Upon completion, students should be able to tie a bow and construct simple corsages, bud vases, and holiday items.

FRE 111 Elementary French I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental elements of the French language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written French and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

FRE 112 Elementary French II
Prerequisites: FRE 111
Corequisites: None
Component: None
This course is a continuation of FRE 111 focusing on the fundamental elements of the French language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written French and demonstrate further cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

FRE 181 French Lab 1
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the French language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written French and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

FRE 182 French Lab 2
Prerequisites: FRE 181
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the French language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written French and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

FRE 211 Intermediate French I
Prerequisites: FRE 112
Corequisites: None
Component: None
This course provides a review and expansion of the essential skills of the French language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

FRE 212 Intermediate French II
Prerequisites: FRE 211
Corequisites: None
Component: None
This course is a continuation of FRE 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

FRE 221 French Conversation
Prerequisites: FRE 212
Corequisites: None
Component: None
This course provides an opportunity for intensive communication in spoken French. Emphasis is placed on vocabulary acquisition and interactive communication through the discussion of media materials and authentic texts. Upon completion, students should be able to discuss selected topics, express ideas and opinions clearly, and engage in formal and informal conversations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

FRE 281 French Lab 3
Prerequisites: FRE 182
Corequisites: None
Component: None
This course provides an opportunity to enhance the review and expansion of the essential skills of the French language. Emphasis is placed on the study of authentic and representative literary and cultural texts through the use of supplementary learning media and materials. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

FSE 112 Principles of Funeral Service
Prerequisites: Take DMA 050 and DRE 098 or ENG 090 and RED 090
Corequisites: None
Component: None
This course covers the principles of funeral service and various religious and cultural customs of funeral service in the US. Emphasis is placed on Protestant, Catholic, Jewish, and other religious groups and the professional and ethical obligations of the profession. Upon completion, students should be able to demonstrate an understanding of religious and cultural traditions and how various funeral services are conducted.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.

This course is a continuation of FSE 210 and covers more detailed embalming procedures. Topics include anatomical consideration for embalming, case analysis, positioning features, arterial injection, cavity treatment, autopsies, and other post mortem conditions. Upon completion, students should be able to demonstrate knowledge of embalming theory and sanitation to protect the public health.

This course covers the fundamentals of organic chemistry and biochemistry as related to the funeral service profession. Emphasis is placed on chemical changes in the human body during life, after death, and during chemical preservation. Upon completion, students should be able to use various embalming chemicals and mix embalming solutions for laboratory use.

This course covers the fundamentals of mortuary law and ethical considerations relevant to the funeral profession. Emphasis is placed on North Carolina Mortuary Law, OSHA requirements, anatomical donations, vital statistics, and general law relative to mortuary law. Upon completion, students should be able to demonstrate an understanding of the legal and ethical aspects of funeral service.

This course covers fundamentals of mortuary law and ethical considerations relevant to the funeral profession. Emphasis is placed on North Carolina Mortuary Law, OSHA requirements, anatomical donations, vital statistics, and general law relative to mortuary law. Upon completion, students should be able to demonstrate an understanding of the legal and ethical aspects of funeral service.

This course covers the general anatomy needed in funeral service. Emphasis is placed on medical terminology and the normal structure and function of the human body with special consideration of the circulatory system. Upon completion, students should be able to understand the normal structure and function of the human body and how it relates to the embalming process.

This course is a survey of the basic principles of microbiology and related funeral service considerations. Emphasis is placed on sanitation, disinfection, public health, and embalming practices as it relates to various microorganisms. Upon completion, students should be able to characterize various microbial agents and discuss topical, chemical, and biological methods of control.

This course introduces various embalming procedures and the purpose, history, and need for embalming. Emphasis is placed on laboratory equipment, post mortem changes, and the proper use of embalming chemicals. Upon completion, students should be able to identify various instruments and relate theoretical case analysis to embalming procedures used in the funeral home.

This course provides hands-on experience with general embalming techniques. Emphasis is placed on preparation of human remains in the embalming laboratory. Upon completion, students should be able to utilize sanitation and disinfection procedures correctly and properly prepare human remains for burial.

This course provides an overview of funeral service practices and procedures, including computer software used in the funeral service profession. Emphasis is placed on utilizing funeral service software and on topics required for licensure. Upon completion, students should be able to enter information, generate documents, and demonstrate knowledge of the topics covered on state or national licensure exams.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
### GEL 111 Geology

**Prerequisites:** Take DRE-098 or ENG-090 and RED-090 or Placement Test

**Corequisites:** None

**Component:** None

This course introduces the regional concept which emphasizes the spatial association of people and their environment. Emphasis is placed on the physical, cultural, and economic systems that interact to produce the distinct regions of the earth. Upon completion, students should be able to describe variations in physical and cultural features of a region and demonstrate an understanding of their functional relationships. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences. This course is also available through the Virtual Learning Community (VLC).

### GEO 131 Physical Geography I

Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the basic physical components that help shape the earth. Emphasis is placed on the geographic grid, cartography, weather, climate, biogeography, and soils. Upon completion, students should be able to identify these components and explain how they interact. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

### GEO 132 Physical Geography II

Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the study of minerals, rocks, evolution of landforms, and consequences of landscape change. Emphasis is placed on mineral composition, fluvial processes, erosion and deposition, glaciers, and coastal processes. Upon completion, students should be able to identify these components and processes and to explain how they interact. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

### GER 111 Elementary German I

Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the fundamental elements of the German language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written German and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

### GER 112 Elementary German II

Prerequisites: GER 111  
Corequisites: None  
Component: None  
This course is a continuation of GER 111 focusing on the fundamental elements of the German language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written German and demonstrate further cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

### GER 181 German Lab 1

Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an opportunity to enhance acquisition of the fundamental elements of the German language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written German and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

### GER 211 Intermediate German I

Prerequisites: GER 112  
Corequisites: None  
Component: None  
This course provides a review and expansion of the essential skills of the German language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
### GIS 111 Introduction to GIS

| Prerequisites: | Take DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent |
| Component: | None |

This course introduces the hardware and software components of a Geographic Information System and reviews GIS applications. Topics include data structures and basic functions, methods of data capture and sources of data, and the nature and characteristics of spatial data and objects. Upon completion, students should be able to identify GIS hardware components, typical operations, products/applications, and differences between database models and between raster and vector systems. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

### GIS 112 Introduction to GPS

| Prerequisites: | None |
| Component: | None |

This course provides an overview of Global Positioning Systems (GPS). Topics include the theory, implementation, and operations of GPS, as well as alternate data source remote sensing. Upon completion, students should be able to demonstrate an understanding of the fundamentals of GPS.

### GIS 161 Intro to Comp/BASIC & C++

| Prerequisites: | None |
| Component: | None |

This course introduces the electronic computer and includes a general description of computer design and operation, associated vocabulary, and most widely used applications. Emphasis is placed on hands-on experience with software. Upon completion, students should be able to utilize and depict calculations, decision-making and branching and looping functions processing, and top-down programming methodology.

### GRD 110 Typography I

| Prerequisites: | None |
| Component: | None |

This course introduces the history and mechanics of type and its application to layout and design. Topics include typographic fundamentals, anatomy, measurements, composition, identification, and terminology. Upon completion, students should be able to demonstrate proficiency in design application, analysis, specification, and creation of typographic elements.

### GRD 117 Design Career Exploration

| Prerequisites: | None |
| Component: | None |

This course covers opportunities in the graphic design field and employment requirements. Topics include evaluation of career choices, operations, structure of advertising and graphic design businesses, and related business issues. Upon completion, students should be able to demonstrate an understanding of the graphic design field and consider an appropriate personal direction of career specialization.

### GRD 121 Drawing Fundamentals I

| Prerequisites: | None |
| Component: | None |

This course increases observation skills using basic drawing techniques and media in graphic design. Emphasis is placed on developing the use of graphic design principles, media applications, spatial considerations, drawing styles, and approaches. Upon completion, students should be able to show competence and proficiency in finished works.

### GRD 131 Illustration I

| Prerequisites: | ART 131, DES 125, or GRD 121 |

This course is a continuation of GRD 131. Topics include editorial, product, fashion, and advertising illustrations. Upon completion, students should be able to produce quality illustrations from conception through finished artwork.

### GRD 132 Illustration II

| Prerequisites: | GRD 131 |
| Component: | None |

This course is a continuation of GRD 131. Topics include editorial, product, fashion, and advertising illustrations. Upon completion, students should be able to produce quality illustrations from conception through finished artwork.

### GRD 141 Graphic Design I

| Prerequisites: | GRD 131 |
| Component: | None |

This course covers advanced theories and practices in the field of computer design. Emphasis is placed on learning the principles of design and on the manipulation and organization of elements. Upon completion, students should be able to apply design principles and visual elements to projects.

### GRD 142 Graphic Design II

| Prerequisites: | ART 121 or GRD 141, and GRD 110, GRD 151 |
| Component: | None |

This course covers designing and drawing with various types of software applications for advertising and graphic design. Emphasis is placed on creative and imaginative use of space, shapes, value, texture, color, and typography to provide effective solutions to advertising and graphic design problems. Upon completion, students should be able to use the computer as a creative tool.

### GRD 151 Computer Design Basics

| Prerequisites: | GRD 151 |
| Component: | None |

This course covers designing and drawing with various types of software applications for advertising and graphic design. Emphasis is placed on creative and imaginative use of space, shapes, value, texture, color, and typography to provide effective solutions to advertising and graphic design problems. Upon completion, students should be able to use the computer as a creative tool.

### GRD 152 Computer Design Tech I

| Prerequisites: | GRD 152 |
| Component: | None |

This course covers complex design problems utilizing various design and drawing software applications. Topics include the expressive use of typography, image, and organization to communicate a message. Upon completion, students should be able to use appropriate computer software to professionally present their work.

### GRD 153 Computer Design Tech II

| Prerequisites: | GRD 152 |
| Component: | None |

This course covers advanced theories and practices in the field of computer design. Emphasis is placed on advanced use of color palettes, layers, and paths. Upon completion, students should be able to creatively produce designs and articulate their rationale.
GRD 167 Photographic Imaging I
Prerequisites: None
Corequisites: None
Component: None
This course introduces basic camera operations and photographic production. Topics include subject composition, depth of field, shutter control, light control, color, photo-finishing, and digital imaging, correction and output. Upon completion, students should be able to produce traditional and/or digital photographic prints with acceptable technical and compositional quality.

GRD 168 Photographic Imaging II
Prerequisites: GRD 167
Corequisites: None
Component: None
This course introduces advanced camera operations and photographic production. Topics include lighting, specialized equipment, digital image correction and output, and other methods and materials. Upon completion, students should be able to demonstrate proficiency in producing high quality photographic prints.

GRD 220 Calligraphy
Prerequisites: None
Corequisites: None
Component: None
This course covers calligraphy as a design element. Emphasis is placed on the history, methods, materials, tools, and techniques of hand lettering. Upon completion, students should be able to use a variety of pens, brushes, inks, paint, and surfaces to produce several finished calligraphic works.

GRD 241 Graphic Design III
Prerequisites: GRD 142 and GRD 152
Corequisites: None
Component: None
This course is an advanced exploration of various techniques and media for advertising and graphic design. Emphasis is placed on advanced concepts and solutions to complex and challenging graphic design problems. Upon completion, students should be able to demonstrate competence and professionalism in visual problem solving.

GRD 242 Graphic Design IV
Prerequisites: GRD 241 and GRD 153
Corequisites: None
Component: None
This course is a continuation of GRD 241. Emphasis is placed on using advanced media techniques, concepts, strategies, and professionalism in all aspects of design. Upon completion, students should be able to conceptualize, create, and produce designs for reproduction.

GRD 247 Design Applications IV
Prerequisites: None
Corequisites: GRD 242
Component: None
This course is designed to provide additional hands-on training in graphic design. Emphasis is placed on producing sophisticated design projects utilizing concepts and techniques covered in GRD 242. Upon completion, students should be able to solve complex design problems by producing projects to meet client specifications for reproduction.

GRD 263 Illustrative Imaging
Prerequisites: GRD 151 and GRD 152
Corequisites: None
Component: None
This course covers the creative manipulation of images utilizing digital techniques of masking, layering, airbrushing, and painting. Topics include the aesthetic analysis of visual imagery as well as the legalities of manipulating images. Upon completion, students should be able to utilize software applications to creatively manipulate and illustratively build digital images which accomplish design objectives.

GRD 265 Digital Print Production
Prerequisites: GRD 151 or GRA 151
Corequisites: None
Component: None
This course covers preparation of digital files for output and reproduction. Emphasis is placed on output options, separations, color proofing, and cost and design considerations. Upon completion, students should be able to prepare files and select appropriate output methods for design solutions.

GRD 271 Multimedia Design I
Prerequisites: GRD 151 and GRD 152
Corequisites: None
Component: None
This course introduces the fundamentals of multimedia design and production for computer-related presentations. Topics include interface design, typography, storyboard, scripting, simple animation, graphics, digital audio/video, and copyright issues. Upon completion, students should be able to design and produce multimedia presentations.

GRD 272 Multimedia Design II
Prerequisites: GRD 271
Corequisites: None
Component: None
This course is a continuation of GRD 271. Emphasis is placed on advanced animation, specialized software, quality control, and cross-platform delivery, as well as problems associated with delivery media and interactivity. Upon completion, students should be able to produce multimedia presentations and determine and adapt to technical specifications for delivery.

GRD 280 Portfolio Design
Prerequisites: COM 231 or ENG 115, and GRD 142, GRD 153, GRD 241, and GRD 152 or GRA 152
Corequisites: None
Component: None
This course covers the organization and presentation of a design/advertising or graphic art portfolio and appropriate related materials. Emphasis is placed on development and evaluation of the portfolio, design and production of a resume and self-promotional materials, and interview techniques. Upon completion, students should be able to prepare and professionally present an effective portfolio and related self-promotional materials.

GRD 282 Advertising Copywriting
Prerequisites: ENG 111
Corequisites: None
Component: None
This course covers copywriting for print, electronic, and broadcast advertising and promotion. Topics include advertising strategies, proposals, headlines, slogans, and text copy for various types of advertising. Upon completion, students should be able to write and articulate advertising proposals and understand the ethical and regulatory environment for advertising.

GRD 285 Client/Media Relations
Prerequisites: ENG 111, GRD 142, and GRA 121 or GRA 152 or GRD 152
Corequisites: None
Component: None
This course introduces media pricing, scheduling, and business ethics. Emphasis is placed on communication with clients and determination of clients' advertising needs. Upon completion, students should be able to use professional communication skills to effectively orchestrate client/media relationships.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course provides an introduction to basic personal health and wellness. Emphasis is placed on current health issues such as nutrition, mental health, and fitness. Upon completion, students should be able to demonstrate an understanding of the factors necessary to the maintenance of health and wellness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

HEA 120 Community Health
Prerequisites: None
Corequisites: None
Component: None
This course provides information about contemporary community health and school hygiene issues. Topics include health education and current information about health trends. Upon completion, students should be able to recognize and devise strategies to prevent today’s community health problems. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

HET 115 Electronic Engines
Prerequisites: None
Corequisites: None
Component: None
This course introduces the principles of electronically controlled diesel engines. Emphasis is placed on testing and adjusting diesel engines in accordance with manufacturers’ specifications. Upon completion, students should be able to diagnose, test, and calibrate electronically controlled diesel engines.

HET 125 Preventive Maintenance
Prerequisites: None
Corequisites: None
Component: None
This course introduces preventive maintenance practices used on medium and heavy duty vehicles and rolling assemblies. Topics include preventive maintenance schedules, services, DOT rules and regulations, and roadability. Upon completion, students should be able to set up and follow a preventive maintenance schedule as directed by manufacturers.

HET 126 Prevent Maintenance Lab
Prerequisites: None
Corequisites: HET 125
Component: None
This course provides a laboratory setting to enhance preventive maintenance practices used on medium and heavy duty vehicles and rolling assemblies. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in HET 125.

HET 231 Med/Heavy Duty Brake Sys
Prerequisites: None
Corequisites: None
Component: None
This course covers the theory and repair of braking systems used in medium and heavy duty vehicles. Topics include air, hydraulic, and ABS system diagnosis and repair. Upon completion, students should be able to troubleshoot, adjust, and repair braking systems on medium and heavy duty vehicles.

HET 232 Med/Hvy Duty Brake Sys Lab
Prerequisites: None
Corequisites: None
Component: HET 231
This course provides a laboratory setting to enhance the skills for troubleshooting, adjusting, and repairing brake systems on medium and heavy duty vehicles. Emphasis is placed on practical experiences that enhance the topics presented in HET 231. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in HET 231.

HET 233 Suspension and Steering
Prerequisites: None
Corequisites: None
Component: None
This course introduces the theory and principles of medium and heavy duty steering and suspension systems. Topics include wheel and tire problems, frame members, fifth wheel, bearings, and coupling systems. Upon completion, students should be able to troubleshoot, adjust, and repair suspension and steering components on medium and heavy duty vehicles.

HIS 111 World Civilizations I
Prerequisites: None
Corequisites: None
Component: None
This course introduces world history from the early modern era to the present. Topics include the cultures of Africa, Europe, India, China, Japan, and the Americas. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in modern world civilizations. This course has been approved for transfer under the CAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences. This is a Universal General Education Transfer Component (UGETC) course.

HIS 112 World Civilizations II
Prerequisites: None
Corequisites: None
Component: None
This course introduces world history from the early modern era to the present. Topics include the cultures of Africa, Europe, India, China, Japan, and the Americas. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in modern world civilizations. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the CAA as a general education course in Social/Behavioral Sciences. This is a Universal General Education Transfer Component (UGETC) course.

HIS 114 Comparative World History
Prerequisites: None
Corequisites: None
Component: None
This course provides a comparison of western and non-western cultures. Emphasis is placed on historical developments and their impact on the modern world through religion, politics, economics, and social developments. Upon completion, students should be able to compare and contrast western and non-western cultures. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.

This course is a survey of American history from the Civil War era to the present. Topics include industrialization, immigration, the Great Depression, the major American wars, the Cold War, and social conflict. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in American history since the Civil War. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences. This is a Universal General Education Transfer Component (UGETC) course.
### HIS 226 The Civil War  03 00 00 03
**Corequisites:** None
**Component:** None
This course examines the social, political, economic, and ideological forces that led to the Civil War and Reconstruction. Topics include regional conflicts and sectionalism, dissolution of the Union, military campaigns, and the War’s socioeconomic impact, aftermath, and consequences. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in the United States during the era of the Civil War. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

### HIS 227 Native American History  03 00 00 03
**Corequisites:** None
**Component:** None
This course surveys the history and cultures of Native Americans from pre-history to the present. Topics include Native American civilizations, relations with Europeans, and the continuing evolution of Native American cultures. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments among Native Americans. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

### HIS 236 North Carolina History  03 00 00 03
**Corequisites:** None
**Component:** None
This course is a study of geographical, political, economic, and social conditions existing in North Carolina from America’s discovery to the present. Topics include native and immigrant backgrounds; colonial, antebellum, and Reconstruction periods; party politics; race relations; and the transition from an agrarian to an industrial economy. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in North Carolina. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

### HIS 260 History of Africa  03 00 00 03
**Corequisites:** None
**Component:** None
This course surveys the history of Africa from pre-history to the present. Emphasis is placed on the evolution of social, political, economic, and governmental structures in Africa. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in Africa. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

### HIS 271 The French Revolution Era  03 00 00 03
**Corequisites:** None
**Component:** None
This course traces the causes and effects of the French Revolution. Topics include the Enlightenment; Jacobins; Reign of Terror; Napoleon’s republic, empire, and wars; and the French Revolution’s impact upon world history. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments during the French revolutionary era. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

### HIT 211 ICD Coding  02 06 00 04
**Corequisites:** None
**Component:** None
This course covers ICD diagnostics and procedural coding conventions and guidelines for inpatient, outpatient and ambulatory care. Emphasis is placed on a comprehensive application of anatomy, physiology and interrelationships among organ systems. Upon completion, students should be able to accurately assign and sequence diagnostic and procedural codes for patient outcomes, statistical and reimbursement purposes.

Refer to the FTCC website for the most current information. Go to www.faytechncc.edu/academic_services/index.aspx.
This course introduces the concepts of medical insurance. Topics include prospective payment systems, billing process and procedures, chargemaster maintenance, regulatory guidelines, reimbursement monitoring, and compliance strategies and reporting. Upon completion, students should be able to perform data quality reviews to validate code assignment and comply with reimbursement and reporting requirements. In addition, a review of the hospital coding exam will be administered in preparation to sit for the AAPC CPC-H certification exam.

HIT 110 Intro to Healthcare Mgt 03 00 00 03
Prerequisites: Take DRE-096 or ENG 070 and RED-070, or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the functions, practices, organizational structures, and professional issues in healthcare management. Emphasis is placed on planning, controlling, directing, and communicating within health and human services organizations. Upon completion, students should be able to apply the concepts of management within a healthcare service environment.

HMT 210 Medical Insurance 03 00 00 03
Prerequisites: Take OST 142. Take DMA-020 and DRE-096 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the concepts of medical insurance. Topics include types and characteristics of third-party payers, coding concepts, payment systems, and manual/electronic claims form preparation. Upon completion, students should be able to process third-party claims forms.

HMT 211 Long-Term Care Admin 03 00 00 03
Prerequisites: HMT 110
Corequisites: None
Component: None
This course introduces the administration of long-term care facilities and services. Emphasis is placed on nursing home care, home health care, hospice, skilled nursing facilities, and other long-term care services. Upon completion, students should be able to administer state and national standards and regulations as they apply to long-term care.

HMT 212 Mgt of Healthcare Org 03 00 00 03
Prerequisites: HMT 110
Corequisites: None
Component: None
This course covers reimbursement methodologies used in all healthcare settings as they relate to national billing, compliance, and reporting requirements. Topics include prospective payment systems, billing process and procedures, chargemaster maintenance, regulatory guidelines, reimbursement monitoring, and compliance strategies and reporting. Upon completion, students should be able to design and construct common landscape construction techniques, and fabrication. Upon completion, students should be able to identify current health care issues and their impact on healthcare management.

HMT 215 Legal Asp of Healthcare Admin 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides a practical examination of healthcare law from the administrative perspective. Emphasis is placed on healthcare law with a working knowledge of ways to improve quality and the legal delivery of healthcare. Upon completion, students should be able to understand and apply healthcare laws as they relate to the financing, delivery, privacy, and malpractice of healthcare organizations.

HMT 220 Healthcare Financial Mgmt 04 00 00 04
Prerequisites: HMT 110 and ACC 121
Corequisites: None
Component: None
This course covers the methods and techniques utilized in the financial management of healthcare programs. Topics include cost determination, pricing of services, financial statement analysis, forecasting/projections, third-party billing, reimbursement, Medicare, Medicaid, and budgeting. Upon completion, students should be able to interpret and apply the principles of financial management in a healthcare environment.

HOR 110 Introduction to Landscaping 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic skills and concepts of drafting and surveying necessary to complete landscape site analysis and topographical drawings. Emphasis is placed on proper use of drafting and survey equipment. Upon completion, students should be able to draw a site analysis drawing with topographical lines.

HOR 112 Landscape Design I 02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers landscape principles and practices for residential and commercial sites. Emphasis is placed on drafting, site analysis, and common elements of good design, plant material selection, and proper plant utilization. Upon completion, students should be able to read, plan, and draft a landscape design.

HOR 114 Landscape Construction 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the design and fabrication of landscape structures/features. Emphasis is placed on safety, tool identification and use, material selection, construction technique s, and fabrication. Upon completion, students should be able to design and construct common landscape structures/features.
Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course covers basic irrigation design, layout, and installation. Topics include site analysis, components of irrigation systems, safety, types of irrigation systems, and installation techniques. Upon completion, students should be able to design and install basic landscape irrigation systems.

HOR 251 Insects & Diseases
Prerequisites: None
Corequisites: None
Component: None
This course introduces insects and diseases of economic importance to horticultural crops. Topics include insect life cycles and identifying characteristics; plant diseases, including their signs and symptoms; control methods; and insect scouting for IPM. Upon completion, students should be able to demonstrate an understanding of insect and disease identification, collection, and control.

HOR 253 Horticulture Turfgrass
Prerequisites: HOR 162 or HOR 166
Corequisites: None
Component: None
This course covers information and skill development necessary to establish and manage landscape turfgrasses. Topics include grass identification, establishment, cultural requirements, application of control products, fertilization, and overseeding techniques. Upon completion, students should be able to analyze a landscape site and determine those cultural and physical activities needed to establish or manage a quality turf.

HOR 255 Interiorscapes
Prerequisites: None
Corequisites: None
Component: None
This course covers plant selection, design, and management for interior settings. Topics include tropical plant identification, cultural requirements, insect and disease identification and control, and design and management requirements for interior plants. Upon completion, students should be able to design, install, and manage plants in interior settings.

HOR 257 Arboriculture Practices
Prerequisites: HOR 160 or LSG 111
Corequisites: None
Component: None
This course covers the culture and maintenance of trees and shrubs. Topics include fertilization, pruning, approved climbing techniques, pest control, and equipment use and safety. Upon completion, students should be able to properly prune trees and shrubs and perform arboricultural practices.

HOR 260 Plant Materials II
Prerequisites: None
Corequisites: None
Component: None
This course is a continuation of HOR 160 and covers additional plants. Emphasis is placed on reinforcement of skills and the introduction of additional plants. Upon completion, students should be able to demonstrate knowledge of the proper selection and utilization of plant materials.

HOR 265 Advanced Plant Materials
Prerequisites: None
Corequisites: None
Component: None
This course covers important landscape plants. Emphasis is placed on identification, plant nomenclature, growth characteristics, cultural requirements, and landscape uses. Upon completion, students should be able to correctly select plants for specific landscape uses.

HOR 275 Horticulture Production Management
Prerequisites: None
Corequisites: None
Component: None
This course introduces starting and/or managing a horticulture production operation. Emphasis is placed on types of horticulture production businesses, production management practices and skills, and appropriate safety measures for equipment, personnel, and facilities. Upon completion, students should be able to identify various types of production businesses, prepare appropriate schedules and inventories, and manage personnel/facilities for safe crop production.

HOR 277 Horticulture Sales & Services
Prerequisites: None
Corequisites: None
Component: None
This course introduces various strategies for marketing horticulture products and services. Topics include wholesale, retail, and consignment sales; advertising media; costing products and services; preparing estimates, bids, and proposals; and consumer relations. Upon completion, students should be able to develop a marketing strategy for various horticulture products and services.

HOR 278 Horticulture Business Entrepreneurship
Prerequisites: None
Corequisites: None
Component: None
This course introduces starting and/or managing a horticulture business operation. Emphasis is placed on types of business ownership, legal aspects of licenses, worker safety and facility criteria, and creating inventories, schedules, and financial statements. Upon completion, students should be able to prepare appropriate schedules and financial statements and demonstrate knowledge of legal standards for equipment and personnel.

HRM 110 Intro to Hosp & Tourism
Prerequisites: Take DRE-096 or ENG-070 and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers the growth and progress of the hospitality industry. Topics include tourism, lodging, resorts, gaming, restaurants, foodservice and clubs. Upon completion, students should be able to demonstrate an understanding of the background, context, and career opportunities that exist within the hospitality industry.

HRM 120 Front Office Procedures
Prerequisites: Take DRE-096 and DMA-030 or ENG-070, RED-070 and MAT 060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces a systematic approach to lodging front office procedures. Topics include reservations, registration, guest satisfaction, occupancy and revenue management, security, interdepartmental communications, and related guest services. Upon completion, students should be able to demonstrate a basic understanding of current front office operating systems, including efficient and courteous guest services.

HRM 124 Guest Service Management
Prerequisites: Take DRE-096 or ENG-070 and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is designed to provide an introduction to the culture of dining room service management. Emphasis is placed on the dignity and psychology of service work, dining room organization/infrastructure, service delivery, and modeling management roles in a dining room environment. Upon completion, students should be able to demonstrate an understanding of the guest/server dynamic and apply these principles in a dining room setting.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course provides an overview of the responsibilities and activities encountered in managing a food and beverage operation. Topics include planning, organization, accounting, marketing, trends, and human resources from an integrated managerial viewpoint. Upon completion, students should be able to demonstrate an understanding of the operation of a restaurant.

HRM 220 Cost Control-Food & Bev
Prerequisites: Take DMA-050 and DRE-097 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces controls and accounting procedures as applied to costs in the hospitality industry. Topics include reports, cost control, planning and forecasting, control systems, financial statements, operational efficiencies, labor controls and scheduling. Upon completion, students should be able to demonstrate an understanding of food, beverage, and labor cost control systems for operational troubleshooting and problem solving.

HRM 220A Food & Beverage Controls Lab
Prerequisites: Take MAT-115, MAT-140, OR MAT-161 AND CIS-110 OR CIS-111
Corequisites: HRM 220
Component: None
This course is a laboratory to accompany HRM 220. Emphasis is placed on practical computer applications of food and beverage control procedures. Upon completion, students should be able to demonstrate proficiency in computer-based control applications.

HRM 230 Club & Resort Management
Prerequisites: Take DRE-096 and DMA-030 or ENG-070, RED-070, and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces specific principles of managing a hospitality operation in a resort or club setting. Topics include operational efficiencies, resort and club marketing, recreational and sport activity management, and retail management. Upon completion, students should be able to demonstrate an understanding of the specialized skills involved in resort and club management.

HRM 240 Marketing for Hospitality
Prerequisites: Take DRE-096 or ENG-070 and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers planning, organizing, directing, and analyzing the results of marketing programs for the hospitality industry. Emphasis is placed on target marketing, marketing mix, analysis, product and image development, use of current media, sales planning, advertising, public relations, and collateral materials. Upon completion, students should be able to apply the marketing process as it relates to the hospitality industry.

HRM 245 Human Resource Mgmt-Hosp
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces a systematic approach to human resource management in the hospitality industry. Topics include training/development, staffing, selection, hiring, recruitment, evaluation, benefit administration, employee relations, labor regulations/laws, discipline, motivation, productivity, shift management, contract employees and organizational culture. Upon completion, students should be able to apply human resource management skills for the hospitality industry.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course is designed to introduce students to timely issues within the hospitality industry and is intended to move students into a managerial mindset. Emphasis is placed on problem-solving skills using currently available resources. Upon completion, students should be able to demonstrate knowledge of how hospitality management principles may be applied to real challenges facing industry managers.

**HSC 120 CPR**
- Prerequisites: None
- Corequisites: None
- This course covers the basic knowledge and skills for the performance of infant, child, and adult CPR and the management of foreign body airway obstruction. Emphasis is placed on recognition, assessment, and proper management of emergency care. Upon completion, students should be able to perform infant, child, and adult CPR and manage foreign body airway obstructions.

**HUM 110 Technology and Society**
- Prerequisites: Take DRE-098 or ENG 090 or RED 090 or Placement Test
- Corequisites: None
- Component: None
- This course considers technological change from historical, artistic, and philosophical perspectives and its effects on human needs and concerns. Emphasis is placed on the causes and consequences of technological change. Upon completion, students should be able to critically evaluate the implications of technology. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**HUM 115 Critical Thinking**
- Prerequisites: Take DRE-098 or Placement Test Credit Equivalent
- Corequisites: None
- Component: None
- This course introduces the use of critical thinking skills in the context of human conflict. Emphasis is placed on evaluating information, problem solving, approaching cross-cultural perspectives, and resolving controversies and dilemmas. Upon completion, students should be able to demonstrate orally and in writing the use of critical thinking skills in the analysis of appropriate texts. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

**HUM 120 Cultural Studies**
- Prerequisites: Take DRE-098 or ENG 090 and RED 090 or Placement Test Credit Equivalent
- Corequisites: None
- Component: None
- This course introduces the distinctive features of a particular culture. Topics include art, history, music, literature, politics, philosophy, and religion. Upon completion, students should be able to appreciate the unique character of the study culture. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**HUM 121 The Nature of America**
- Prerequisites: Take DRE-098 or ENG 090 and RED 090 or Placement Test Credit Equivalent
- Corequisites: None
- Component: None
- This course provides an interdisciplinary survey of the American cultural, social, and political experience. Emphasis is placed on the multicultural character of American society, distinctive qualities of various regions, and the American political system. Upon completion, students should be able to analyze significant cultural, social, and political aspects of American life. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**HUM 122 Southern Culture**
- Prerequisites: Take DRE-098 or ENG 090 and RED 090 or Placement Test Credit Equivalent
- Corequisites: None
- Component: None
- This course explores the major qualities that make the South a distinct region. Topics include music, politics, literature, art, religion, race relations, and the role of social class in historical and contemporary contexts. Upon completion, students should be able to identify the characteristics that distinguish Southern culture. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).

**HUM 130 Myth in Human Culture**
- Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
- Corequisites: None
- Component: None
- This course provides an in-depth study of myths and legends. Topics include the varied sources of myths and their influence on the individual and society within diverse cultural contexts. Upon completion, students should be able to demonstrate a general familiarity with myths and a broad-based understanding of the influence of myths and legends on modern culture. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**HUM 150 American Women's Studies**
- Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
- Corequisites: None
- Component: None
- This course provides an inter-disciplinary study of the history, literature, and social roles of American women from Colonial times to the present. Emphasis is placed on women's roles as reflected in American language usage, education, law, the workplace, and mainstream culture. Upon completion, students should be able to identify and analyze the roles of women as reflected in various cultural forms. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**HUM 160 Introduction to Film**
- Prerequisites: TAKE DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
- Corequisites: None
- Component: None
- This course introduces the fundamental elements of film artistry and production. Topics include film styles, history, and production techniques, as well as the social values reflected in film art. Upon completion, students should be able to critically analyze the elements covered in relation to selected films. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
HUM 161 Advanced Film Studies  
Prerequisites: HUM 160
Corequisites: None
Component: None
This course provides an advanced study of film art and production, building on skills learned in HUM 160. Topics include film production techniques, film genres, examination of master directors’ styles, and the relation of film to culture. Upon completion, students should be able to recognize and critically analyze advanced elements of film production. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

HUM 170 The Holocaust  
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides a survey of the destruction of European Jewry by the Nazis during World War II. Topics include the anti-Semitic ideology, bureaucratic structures, and varying conditions of European occupation and domination under the Third Reich. Upon completion, students should be able to demonstrate an understanding of the historical, social, religious, political, and economic factors which cumulatively resulted in the Holocaust. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

HUM 211 Humanities I  
Prerequisites: ENG 111
Corequisites: None
Component: None
This course introduces the humanities as a record in literature, music, art, history, religion, and philosophy of humankind’s answers to the fundamental questions of existence. Emphasis is placed on the interconnectedness of various aspects of cultures from ancient through early modern times. Upon completion, students should be able to identify significant figures and cultural contributions of the periods studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

HUM 212 Humanities II  
Prerequisites: ENG 111
Corequisites: None
Component: None
This course introduces the humanities as a record in literature, music, art, history, religion, and philosophy of humankind’s answers to the fundamental questions of existence. Emphasis is placed on the interconnectedness of various aspects of cultures from early modern times to the present. Upon completion, students should be able to identify significant figures and cultural contributions of the periods studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

HUM 220 Human Values and Meaning  
Prerequisites: ENG 111
Corequisites: None
Component: None
This course presents some major dimensions of human experience as reflected in art, music, literature, philosophy, and history. Topics include the search for identity, the quest for knowledge, the need for love, the individual and society, and the meaning of life. Upon completion, students should be able to recognize interdisciplinary connections and distinguish between open and closed questions and between narrative and scientific models of understanding. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

HUM 230 Leadership Development  
Prerequisites: ENG 111
Corequisites: None
Component: None
This course explores the theories and techniques of leadership and group process. Emphasis is placed on leadership styles, theories of group dynamics, and the moral and ethical responsibilities of leadership. Upon completion, students should be able to identify and analyze a personal philosophy and style of leadership and integrate these concepts in various practical situations. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. (TAC 11/16/05)

INT 110 International Business  
Prerequisites: None
Corequisites: None
Component: None
This course provides an overview of the environment, concepts, and basic differences involved in international business. Topics include forms of foreign involvement, international trade theory, governmental influences on trade and strategies, international organizations, multinational corporations, personnel management, and international marketing. Upon completion, students should be able to describe the foundation of international business.

ISC 112 Industrial Safety  
Prerequisites: None
Corequisites: None
Component: None
This course introduces the principles of industrial safety. Emphasis is placed on industrial safety and OSHA regulations. Upon completion, students should be able to demonstrate knowledge of a safe working environment and OSHA compliance.

ISC 115 Construction Safety  
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic concepts of construction site safety. Topics include ladders, lifting, lock-out/tag-out, personal protective devices, scaffolds, and above/below ground work based on OSHA regulations. Upon completion, students should be able to demonstrate knowledge of applicable safety regulations and safely participate in construction projects.

ISC 121 Envir Health & Safety  
Prerequisites: Take DRE-097 or ENG-080 and RED 080 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers workplace environmental, health, and safety issues. Emphasis is placed on managing the implementation and enforcement of environmental health and safety regulations and on preventing accidents, injuries, and illnesses. Upon completion, students should be able to demonstrate an understanding of basic concepts of environmental, health, and safety issues.

ISC 131 Quality Management  
Prerequisites: Take DRE-097 or ENG-080 and RED-080 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides a study and analysis of the aspects and implications of quality management that lead to customer satisfaction through continuous quality improvement. Topics include Total Quality Management, ISO 9000, organizing for quality, supplier/vendor relationships, and the role of leadership in quality management. Upon completion, students should be able to demonstrate an understanding of quality management concepts and techniques.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
### Course Descriptions

**ISC 210 Oper & Prod Planning**

- **Prerequisites:** Take DRE-098 and DMA-050 or ENG-090 and RED 090 or Placement Test Credit Equivalent
- **Corequisites:** None
- **Component:** None

This course includes the fundamentals of operations and production planning, forecasting, and scheduling. Topics include demand management, production planning and control, scheduling, and budgeting. Upon completion, students should be able to demonstrate an understanding of the concepts and techniques involved in operations and production planning.

**ITA 111 Elementary Italian I**

- **Prerequisites:** None
- **Corequisites:** None
- **Component:** None

This course introduces the fundamental elements of the Italian language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Italian and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**ITA 112 Elementary Italian II**

- **Prerequisites:** ITA 111
- **Corequisites:** None
- **Component:** None

This course is a continuation of ITA 111 focusing on the fundamental elements of the Italian language within a cultural context. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Italian and demonstrate further cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**ITA 181 Italian Lab 1**

- **Prerequisites:** None
- **Corequisites:** None
- **Component:** None

This course provides an opportunity to enhance acquisition of the fundamental elements of the Italian language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Italian and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**ITA 182 Italian Lab 2**

- **Prerequisites:** ITA 181
- **Corequisites:** None
- **Component:** None

This course provides an opportunity to enhance acquisition of the fundamental elements of the Italian language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Italian and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**ITA 211 Intermediate Italian I**

- **Prerequisites:** ITA 112
- **Corequisites:** None
- **Component:** None

This course provides a review and expansion of the essential skills of the Italian language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**ITA 212 Intermediate Italian II**

- **Prerequisites:** ITA 211
- **Corequisites:** None
- **Component:** None

This course provides a continuation of ITA 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**ITA 221 Italian Conversation**

- **Prerequisites:** ITA 212
- **Corequisites:** None
- **Component:** None

This course provides an opportunity for intensive communication in spoken Italian. Emphasis is placed on vocabulary acquisition and interactive communication through the discussion of media materials and authentic texts. Upon completion, students should be able to discuss selected topics, express ideas and opinions clearly, and engage in formal and informal conversations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**ITA 281 Italian Lab 3**

- **Prerequisites:** ITA 182
- **Corequisites:** None
- **Component:** None

This course provides an opportunity to enhance the review and expansion of the essential skills of the Italian language. Emphasis is placed on the study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**ITA 282 Italian Lab 4**

- **Prerequisites:** ITA 281
- **Corequisites:** None
- **Component:** None

This course provides an opportunity to enhance the review and expansion of the essential skills of the Italian language. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**ITN 150 Internet Protocols**

- **Prerequisites:** Take DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
- **Corequisites:** None
- **Component:** None

This course introduces the student to the application protocols used on the Internet. Topics include HTTP, Secure HTTP, TCP/IP, and related applications such as FTP, TELNET, and PING. Upon completion, students should be able to use the protocols as they pertain to the Internet, as well as, setup and maintain these protocols. This course is also available through the Virtual Learning Community (VLC).

---

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
LEX 120 Legal Research/Writing I  
Prerequisites: Take DRE-098 or ENG 090 and RED 090 or Placement Test  
Corequisites: None  
Component: None  
This course introduces the techniques of legal research and writing. Emphasis is placed on locating, analyzing, applying, and updating sources of law; effective legal writing, including proper citation; and the use of electronic research methods. Upon completion, students should be able to perform legal research and writing assignments using techniques covered in the course. This course is also available through the Virtual Learning Community (VLC).

LEX 130 Civil Injuries  
Prerequisites: Take DRE-098 or ENG 090 and RED 090 or Placement Test  
Corequisites: None  
Component: None  
This course covers traditional tort concepts and the evolving body of individual rights created by statute. Topics include intentional and non-intentional torts with emphasis on negligence, strict liability, civil rights, workplace and environmental liability, remedies, and damages. Upon completion, students should be able to recognize, explain, and evaluate elements of civil injuries and related defenses. This course is also available through the Virtual Learning Community (VLC).

LEX 140 Civil Litigation I  
Prerequisites: Take DRE-098 or ENG 090 and RED 090 or Placement Test  
Corequisites: None  
Component: None  
This course introduces the structure of the legal system and the rules governing civil litigation. Topics include jurisdiction and the state and federal rules of civil procedure and evidence. Upon completion, students should be able to assist an attorney in pre-litigation matters and preparation of pleadings and motions. This course is also available through the Virtual Learning Community (VLC).

LEX 141 Civil Litigation II  
Prerequisites: LEX 140 and DRE-098 or ENG-090 and RED-090 or Placement Test  
Corequisites: None  
Component: None  
This course covers advanced topics in the civil litigation process. Topics include motions, discovery, and trial and appellate procedures. Upon completion, students should be able to assist an attorney in preparing and organizing documents for trial, settlement and post-trial practice.

LEX 150 Commercial Law I  
Prerequisites: Take DRE-098 or ENG 090 and RED 090 or Placement Test  
Corequisites: None  
Component: None  
This course covers legally enforceable agreements, forms of organization, and selected portions of the Uniform Commercial Code. Topics include drafting and enforcement of contracts, leases, and related documents and selection and implementation of business organization forms, sales, and commercial papers. Upon completion, students should be able to apply the elements of a contract, prepare various business documents, and understand the role of commercial paper. This course is also available through the Virtual Learning Community (VLC).

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
LEX 160 Criminal Law & Procedure  02  02  00  03
Prerequisites: Take DRE-098 or ENG 090 and RED 090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces substantive criminal law and procedural rights of the accused. Topics include elements of state/federal crimes, defenses, constitutional issues, pre-trial and trial process, and other related topics. Upon completion, students should be able to explain elements of specific crimes and assist an attorney in preparing a criminal case.

LEX 180 Case Analysis & Reasoning  01  02  00  02
Prerequisites: Take DRE-098 or ENG 090 and RED 090 or Placement Test Credit Equivalent
Corequisites: LEX 120
Component: None
This course covers the techniques of reading and applying legal opinions and the skills of case analysis. Emphasis is placed on the components of opinions and on types of legal writing. Upon completion, students should be able to read, analyze, and brief opinions and prepare legal memoranda, briefs, and other legal documents.

LEX 210 Real Property I  03  00  00  03
Prerequisites: Take DRE-098 or ENG 090 and RED 090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the study of real property law. Topics include the distinction between real and personal property, various estates, mechanics of conveyance and encumbrance, recordation, special proceedings, and other related topics. Upon completion, students should be able to identify estates, forms of deeds, requirements for recording, and procedures to enforce rights to real property. This course is also available through the Virtual Learning Community (VLC).

LEX 211 Real Property II  01  04  00  03
Prerequisites: LEX 210 and DRE-098 and DMA-030 or ENG-090, RED-090 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course continues the study of real property law relating to title examination and preparation of closing documents. Topics include use of courthouse and other public records in title examination and preparation of documents required in real estate transactions and closings. Upon completion, students should be able to plot/draft a description, perform complete title examination, draft closing documents including title insurance forms, and prepare disbursement reconciliation.

LEX 240 Family Law  03  00  00  03
Prerequisites: Take DRE-098 and DMA-030 or ENG-090, RED-090 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers laws governing domestic relations. Topics include marriage, separation, divorce, child custody, support, property division, adoption, domestic violence, and other related topics. Upon completion, students should be able to interview clients, gather information, and draft documents related to family law. This course is also available through the Virtual Learning Community (VLC).

LEX 250 Wills, Estates, & Trusts  02  02  00  03
Prerequisites: Take DRE-098 and DMA-030 or ENG-090, RED-090 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers various types of wills, trusts, probate, estate administration, and intestacy. Topics include types of wills and execution requirements, caveats and dissents, intestate succession, inventories and accountings, distribution and settlement, and other related topics. Upon completion, students should be able to draft simple wills, prepare estate forms, understand administration of estates including taxation, and explain terms regarding trusts. This course is also available through the Virtual Learning Community (VLC).

LEX 260 Bankruptcy & Collections  03  00  00  03
Prerequisites: Take DRE-098 and DMA-030 or ENG-090, RED-090 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an overview of the laws of bankruptcy and the rights of creditors and debtors. Topics include bankruptcy procedures and estate management, attachment, claim and delivery, repossession, foreclosure, collection, garnishment, and post-judgment collection procedure. Upon completion, students should be able to prepare and file bankruptcy forms, collection letters, statutory liens, and collection of judgments.

LEX 270 Law Office Management/Technology  01  02  00  02
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an overview of law office management and organization. Topics include office forms, filing systems, billing/time keeping, computer systems, calendar systems, library administration, case management, office/personnel procedures, ethics, and technology. Upon completion, students should be able to establish and maintain various law office systems, monitor case progress, and supervise non-lawyer personnel.

LEX 283 Investigation  01  02  00  02
Prerequisites: Take DRE-098 or ENG 090 and RED 090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers various aspects of civil and criminal investigation. Topics include locating witnesses, interviewing techniques, obtaining records, sketching and photographing accident scenes, collecting and preserving evidence, and preparation of exhibits for trial. Upon completion, students should be able to locate witnesses, prepare questionnaires, interview witnesses, obtain criminal/motor vehicle/medical/accident records, sketch scenes, and prepare exhibits.

LEX 285 Workers’ Comp Law  02  00  00  02
Prerequisites: Take DRE-098 and DMA-030 or ENG-090, RED-090 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers the process of initiating and handling workers’ compensation claims. Emphasis is placed on reviewing and drafting relevant Industrial Commission forms. Upon completion, students should be able to interview clients, gather information, and draft documents related to workers’ compensation claims.

LOG 110 Introduction to Logistics  03  00  00  03
Prerequisites: Take DRE-098 and DMA-050 or ENG-090, RED-090 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an overview of logistics. Topics include traffic management, warehousing, inventory control, material handling, global logistics, and the movement and storage of goods from raw materials sources to end consumers. Upon completion, students should be able to identify the different segments of logistics and use the terminology of the industry. This course is also available through the Virtual Learning Community (VLC).

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course introduces basic principles essential to landscape gardening. Topics include soils, propagation, watering, fertilizing, pruning, pest control, and planting. Upon completion, students should be able to perform basic gardening techniques essential to maintaining a landscape.

MAC 111 Machining Technology I 02 12 00 06
Prerequisites: None
Corequisites: None
Component: None
This course introduces machining operations as they relate to the metalworking industry. Topics include machine shop safety, measuring tools, lathes, drilling machines, saws, milling machines, bench grinders, and layout instruments. Upon completion, students should be able to safely perform the basic operations of measuring, layout, drilling, sawing, turning, and milling.

MAC 121 Introduction to CNC 02 00 00 02
Prerequisites: MAC 121
Corequisites: None
Component: None
This course introduces the concepts and capabilities of computer numerical control machine tools. Topics include setup, operation, and basic applications. Upon completion, students should be able to explain operator safety, machine protection, data input, program preparation, and program storage.
This course covers the basic principles of blueprint reading and sketching. Topics include multi-view drawings; interpretation of conventional lines; and dimensions, notes, and thread notations. Upon completion, students should be able to interpret basic drawings, visualize parts, and make pictorial sketches.

MAC 152 Adv Machining Calc  01 02 00 02
Prerequisites: MAC 151
Corequisites: None
Component: None
This course combines mathematical functions with practical machine shop applications and problems. Emphasis is placed on gear ratios, lead screws, indexing problems, and their applications in the machine shop. Upon completion, students should be able to perform basic shop calculations.

MAC 224 Advanced CNC Milling  01 03 00 02
Prerequisites: MAC 124
Corequisites: None
Component: None
This course covers advanced methods in setup and operation of CNC machining centers. Emphasis is placed on programming and production of complex parts. Upon completion, students should be able to demonstrate skills in programming, operations, and setup of CNC machining centers.

MAC 226 CNC EDM Machining  01 03 00 02
Prerequisites: MAC 121
Corequisites: None
Component: None
This course introduces the programming, setup, and operation of CNC electrical discharge machines. Topics include programming formats, control functions, program editing, production of parts, and inspection. Upon completion, students should be able to manufacture simple parts using CNC electrical discharge machines.

MAC 228 Advanced CNC Processes  02 03 00 03
Prerequisites: MAC 121
Corequisites: None
Component: None
This course covers advanced programming, setup, and operation of CNC turning centers and CNC milling centers. Topics include advanced programming formats, control functions, program editing, and part production and inspection. Upon completion, students should be able to manufacture complex parts using CNC turning and milling centers.

MAC 233 Appl in CNC Machining  02 12 00 06
Prerequisites: MAC 228
Corequisites: None
Component: None
This capstone course provides students the opportunity to apply skills learned throughout the curriculum. Emphasis is placed on production of parts and assemblies using modern CNC machine tools. Upon completion, students should be able to manufacture complex parts using a variety of CNC machine tools.

MAC 241 Jigs & Fixtures I  02 06 00 04
Prerequisites: MAC 112, MAC 132, and MAC 152
Corequisites: None
Component: None
This course introduces the application and use of jigs and fixtures. Emphasis is placed on design and manufacture of simple jigs and fixtures. Upon completion, students should be able to design and build simple jigs and fixtures.

MAC 243 Die Making I  02 06 00 04
Prerequisites: None
Corequisites: None
Component: None
This course introduces the principles and applications of die making. Topics include types, construction, and application of dies. Upon completion, students should be able to design and build simple dies.

MAM 101 Mam Proc & Image Analysis  03 03 00 04
Prerequisites: None
Corequisites: None
Component: None
This course is a comprehensive study of digital mammography. Topics include producing digital mammograms, understanding image processing, and guidelines for selecting exposure factors. Upon completion, students should be able to demonstrate competence in these areas.

MAM 102 Mam Instrumentation & Qa  03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides the fundamentals of mammography positioning, patient care, and image analysis. Topics include breast anatomy/physiology, pathology and treatment of breast disease, patient preparation/education, mammographic procedures, and interventional procedures. Upon completion, students should be able to demonstrate competence in these areas.

MAM 103 Digital Mammography  01 00 00 01
Prerequisites: None
Corequisites: None
Component: None
This course is a comprehensive study of digital mammography. Topics include producing digital mammograms, understanding image processing, display, archive, and communication techniques, and determining proper image quality, radiation dose, and quality control procedures. Upon completion, students should be able to demonstrate the concepts of digital imaging, the process to produce digital mammograms, and the establishment of QC procedures.

MAM 105 Mammography Clinical Ed  00 00 15 05
Prerequisites: None
Corequisites: None
Component: None
This course provides the opportunity to apply knowledge gained from classroom instruction to the mammography clinical setting. Emphasis is placed on patient care and positioning, mammographic procedures, interventional/special examinations, image analysis, and quality control testing. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
MAT 109 Mammography Capstone
Prerequisites: None
Corequisites: None
Component: None
This course provides an overview of mammographic topics as practiced in the didactic and clinical settings. Emphasis is placed on critical thinking and integration of didactic and clinical components. Upon completion, students should be able to demonstrate the comprehensive knowledge required of an entry-level mammographer.

MAT 101 Applied Mathematics I
Prerequisites: Take One Set:
Set 1: DMA-010, DMA-020, and DMA-030
Set 2: MAT-060
Set 3: MAT-070
Set 4: MAT-080
Set 5: MAT-090
Set 6: MAT-095 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is a comprehensive review of arithmetic with basic algebra designed to meet the needs of certificate and diploma programs. Topics include arithmetic and geometric skills used in measurement, ratio and proportion, exponents and roots, applications of percent, linear equations, formulas, and statistics. Upon completion, students should be able to solve practical problems in their specific areas of study. This course is intended for diploma programs.

MAT 110 Math Measurement & Literacy
Prerequisites: Take All: DMA-010, DMA-020, and DMA-030 or Placement Test Equivalent
Corequisites: None
Component: None
This course provides an activity-based approach that develops measurement skills and mathematical literacy using technology to solve problems for non-math intensive programs. Topics include unit conversions and estimation within a variety of measurement systems; ratio and proportion; basic geometric concepts; financial literacy; and statistics including measures of central tendency, dispersion, and charting of data. Upon completion, students should be able to demonstrate the use of mathematics and technology to solve practical problems, and to analyze and communicate results.

MAT 115 Mathematical Models
Prerequisites: One Course Required: MAT 070 or DMA 050 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course develops the ability to utilize mathematical skills and technology to solve problems at a level found in non-mathematics-intensive programs. Topics include application to percent, ratio and proportion, formulas, statistics, functional notation, linear functions and their graphs, probability, sampling techniques, scatter plots, and modeling. Upon completion, students should be able to solve practical problems, reason and communicate with mathematics, and work confidently, collaboratively, and independently.

MAT 120 Geometry and Trigonometry
Prerequisites: One Course Required: MAT 070 or DMA 050 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course introduces the concepts of plane trigonometry and geometry with emphasis on applications to problem solving. Topics include the basic definitions and properties of plane and solid geometry, area and volume, right triangle trigonometry, and oblique triangles. Upon completion, students should be able to solve applied problems both independently and collaboratively using technology.

MAT 121 Algebra/Trigonometry I
Prerequisites: Take All: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, and DMA-060 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides an integrated approach to technology and the skills required to manipulate, display, and interpret mathematical functions and formulas used in problem solving. Topics include the properties of plane and solid geometry, area and volume, and basic proportion applications; simplification, evaluation, and solving of algebraic equations and inequalities and radical functions; complex numbers; right triangle trigonometry; and systems of equations. Upon completion, students will be able to demonstrate the ability to use mathematics and technology for problem-solving, analyzing and communicating results.

MAT 122 Algebra/Trigonometry II
Prerequisites: Take MAT121
Corequisites: None
Component: None
This course is designed to cover concepts in algebra, function analysis, and trigonometry. Topics include exponential and logarithmic functions, transformations of functions, Law of Sines, Law of Cosines, vectors, and statistics. Upon completion, students should be able to understand mathematical applications, think logically, and be able to work collaboratively and independently. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

MAT 140 Survey of Mathematics
Prerequisites: One Course Required: MAT 070 or DMA 050 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides an introduction in a non-technical setting to selected topics in mathematics. Topics may include, but are not limited to, sets, logic, probability, statistics, matrices, mathematical systems, geometry, topology, mathematics of finance, and modeling. Upon completion, students should be able to understand a variety of mathematical applications, think logically, and be able to work collaboratively and independently. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

MAT 143 Quantitative Literacy
Prerequisites: Take All One Set:
Set 1: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, and DRE-098
Set 2: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, and ENG-095*
Set 3: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, and ENG-090* and RED-090* or Placement Test Equivalent
Corequisites: None
Component: None
This course is designed to engage students in complex and realistic situations involving the mathematical phenomena of quantity, change and relationship, and uncertainty through project- and activity-based assessment. Emphasis is placed on authentic contexts which will introduce the concepts of numeracy, proportional reasoning, dimensional analysis, rates of growth, personal finance, consumer statistics, practical probabilities, and mathematics for citizenship. Upon completion, students should be able to utilize quantitative information as consumers and to make personal, professional, and civic decisions by decoding, interpreting, using, and communicating quantitative information found in modern media and encountered in everyday life. This course has been approved for transfer under the CAA as a general education course in Mathematics (Quantitative). This is a Universal General Education Transfer Component (UGETC) course.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
MAT 151 Statistics I
Prerequisites: One course required: MAT 080 or DMA 080 or Placement Test Equivalent.
Corequisites: None
Component: None
This course provides a project-based approach to the study of basic probability, descriptive and inferential statistics, and decision making. Emphasis is placed on measures of central tendency and dispersion, correlation, regression, discrete and continuous probability distributions, quality control, population parameter estimation, and hypothesis testing. Upon completion, students should be able to describe important characteristics of a set of data and draw inferences about a population from sample data. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics (Quantitative Option).

MAT 151A Statistics I Lab
Prerequisites: One Course Required: MAT 080 or DMA 080 or Placement Test Equivalent.
Corequisites: MAT 151
Component: None
This course is a laboratory for MAT 151. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

MAT 152 Statistical Methods I
Prerequisites: Take One Set:
Set 1: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, and DRE-098
Set 2: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, and ENG-095
Set 3: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, and ENG-090 and RED-090 or Placement Test Equivalent
Corequisites: None
Component: None
This course provides a project-based approach to introductory statistics with an emphasis on using real-world data and statistical literacy. Topics include descriptive statistics, correlation and regression, basic probability, discrete and continuous probability distributions, confidence intervals and hypothesis testing. Upon completion, students should be able to use appropriate technology to describe important characteristics of a data set, draw inferences about a population from sample data, and interpret and communicate results. This course has been approved for transfer under the CAA as a general education course in Mathematics (Quantitative). This course has been approved for transfer under the ICAA as a general education course in Mathematics (Quantitative). This is a Universal General Education Transfer Component (UGETC) course.

MAT 155 Statistical Analysis
Prerequisites: One course required: MAT 080 or DMA 080 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course is an introduction to descriptive and inferential statistics. Topics include sampling, distributions, plotting data, central tendency, dispersion, Central Limits Theorem, confidence intervals, hypothesis testing, correlations, regressions, and multinomial experiments. Upon completion, students should be able to describe data and test inferences about populations using sample data. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics (Quantitative Option).

MAT 161 College Algebra
Prerequisites: One course required: MAT 080 or DMA 080 or Placement Test Credit Equivalent.
Corequisites: MAT 161A
Component: None
This course provides an integrated technological approach to algebraic topics used in problem solving. Emphasis is placed on applications involving equations and inequalities; polynomial, rational, exponential and logarithmic functions; and graphing and data analysis/modeling. Upon completion, students should be able to choose an appropriate model to fit a data set and use the model for analysis and prediction. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics for the Associate in Arts Degree. This course is also available through the Virtual Learning Community (VLC).

MAT 161A College Algebra Lab
Prerequisites: One course required: MAT 080 or DMA 080 or Placement Test Credit Equivalent.
Corequisites: MAT 161
Component: None
This course is a laboratory for MAT 161. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

MAT 162 College Trigonometry
Prerequisites: MAT 161
Corequisites: None
Component: None
This course provides an integrated technological approach to trigonometric applications used in problem solving. Emphasis is placed on applications involving trigonometric ratios, right triangles, oblique triangles, trigonometric functions, graphing, vectors, and complex numbers. Upon completion, students should be able to apply the above principles of trigonometry to problem solving and communication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics for the Associate in Arts Degree.

MAT 162A College Trig Lab
Prerequisites: MAT 161
Corequisites: MAT 162
Component: None
This course is a laboratory for MAT 162. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

MAT 165 Finite Mathematics
Prerequisites: One course required: MAT 161, MAT 171, or MAT 175
Corequisites: MAT 165A
Component: None
This course provides topics used to formulate models and to solve and interpret solutions using an algorithmic approach. Topics include linear algebra, linear programming, simplex method, sets and counting, probability, mathematics of finance, and logic. Upon completion, students should be able to demonstrate both an understanding of the theoretical concepts of finite mathematics and the ability to solve related problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

MAT 165A Finite Math Lab
Prerequisites: One course required: MAT 161, MAT 171, or MAT 175
Corequisites: MAT 165
Component: None
This course is a laboratory for MAT 165. Emphasis is placed on experiences
that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

MAT 167 Discrete Mathematics 03 00 00 03
Prerequisites: Take MAT 121 or MAT 171
Corequisites: None
Component: None
This course is designed to develop problem-solving and reasoning skills using an algorithmic approach. Topics include sets, number theory, numeration systems, linear programming, traditional and propositional logic, truth tables, Venn diagrams, elementary proofs, and Boolean algebra. Upon completion, students should be able to apply logic and other mathematical concepts to solve a variety of problems. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

MAT 171 Precalculus Algebra 03 02 00 04
Prerequisites: Take One Set:
Set 1: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, DMA-060, DMA-070, and DMA-080
Set 2: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, and DMA-065
Set 3: MAT-121 or Placement Test Equivalent
Corequisites:
Component: None
This course is designed to develop topics which are fundamental to the study of Calculus. Emphasis is placed on solving equations and inequalities, solving systems of equations and inequalities, and analysis of functions (absolute value, radical, polynomial, rational, exponential, and logarithmic) in multiple representations. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to algebra-related problems with and without technology. This course has been approved for transfer under the CAA as a general education course in Mathematics. This course has been approved for transfer under the ICAA as a general education course in Mathematics. This is a Universal General Education Transfer Component (UGETC) course.

MAT 172 Precalculus Trigonometry 03 02 00 04
Prerequisites: Take MAT 171
Corequisites:
Component: None
This course is designed to develop an understanding of topics which are fundamental to the study of Calculus. Emphasis is placed on the analysis of trigonometric functions in multiple representations, right and oblique triangles, vectors, polar coordinates, conic sections, and parametric equations. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to trigonometry-related problems with and without technology. This course has been approved for transfer under the CAA as a general education course in Mathematics. This course has been approved for transfer under the ICAA as a general education course in Mathematics. This is a Universal General Education Transfer Component (UGETC) course.

MAT 263 Brief Calculus 03 02 00 04
Prerequisites: Take MAT 171
Corequisites: None
Component: None
This course is designed to introduce concepts of differentiation and integration and their applications to solving problems. Topics include graphing, differentiation, and integration with emphasis on applications drawn from business, economics, and biological and behavioral sciences. Upon completion, students should be able to demonstrate an understanding of the use of basic calculus and technology to solve problems and to analyze and communicate results. This course has been approved for transfer under the CAA as a general education course in Mathematics. This course has been approved for transfer under the ICAA as a general education course in Mathematics. This is a Universal General Education Transfer Component (UGETC) course.

MAT 271 Calculus I 03 02 00 04
Prerequisites: Take MAT 172
Corequisites: None
Component: None
This course is designed to develop the topics of differential and integral calculus. Emphasis is placed on limits, continuity, derivatives and integrals of algebraic and transcendental functions of one variable. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to derivative-related problems with and without technology. This course has been approved for transfer under the CAA as a general education course in Mathematics. This course has been approved for transfer under the ICAA as a general education course in Mathematics. This is a Universal General Education Transfer Component (UGETC) course.

MAT 272 Calculus II 03 02 00 04
Prerequisites: Take MAT 271
Corequisites: None
Component: None
This course is designed to develop advanced topics of differential and integral calculus. Emphasis is placed on the applications of definite integrals, techniques of integration, indeterminate forms, improper integrals, infinite series, conic sections, parametric equations, polar coordinates, and differential equations. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to integral-related problems with and without technology. This course has been approved for transfer under the CAA as a general education course in Mathematics.

MAT 273 Calculus III 03 02 00 04
Prerequisites: Take MAT 272
Corequisites: None
Component: None
This course is designed to develop the topics of multivariate calculus. Emphasis is placed on multivariate functions, partial derivatives, multiple integration, solid analytical geometry, vector valued functions, and line and surface integrals. Upon completion, students should be able to select and use appropriate models and techniques for finding the solution to multivariate-related problems with and without technology. This course has been approved for transfer under the CAA as a general education course in Mathematics.

MAT 280 Linear Algebra 02 02 00 03
Prerequisites: Take MAT 271
Corequisites: None
Component: None
This course provides an introduction to linear algebra topics. Emphasis is placed on the development of abstract concepts and applications for vectors, systems of equations, matrices, determinants, vector spaces, multi-dimensional linear transformations, eigenvectors, eigenvalues, diagonalization and orthogonality. Upon completion, students should be able to demonstrate understanding of the theoretical concepts and select and use appropriate models and techniques for finding solutions to linear algebra-related problems with and without technology. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
MAT 285 Differential Equations
Prerequisites: Take MAT 272
Corequisites: None
Component: None
This course provides an introduction to topics involving ordinary differential equations. Emphasis is placed on the development of abstract concepts and applications for first-order and linear higher-order differential equations, systems of differential equations, numerical methods, series solutions, eigenvalues and eigenvectors, and LaPlace transforms. Upon completion, students should be able to demonstrate understanding of the theoretical concepts and select and use appropriate models and techniques for finding solutions to differential equations-related problems with and without technology. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement.

MEC 142 Physical Metallurgy
Prerequisites: None
Corequisites: MAC 112
Component: None
This course covers the heat treating of metals. Emphasis is placed on the effects of hardening, tempering, and annealing on the structure and physical properties of metals. Upon completion, students should be able to heat treat materials.

MED 116 Introduction to A & P
Prerequisites: Take DRE-096 or ENG-070 and RED-070 or Placement Test
Credit Equivalent
Corequisites: None
Component: None
This course introduces basic anatomy and physiology. Emphasis is placed on the relationship between body structure and function and the procedures common to health care. Upon completion, students should be able to identify body system components and functions relating this knowledge to the delivery of health care.

MED 120 Survey of Med Terminology
Prerequisites: None
Corequisites: None
Component: None
This course introduces the vocabulary, abbreviations, and symbols used in the language of medicine. Emphasis is placed on building medical terms using prefixes, suffixes, and word roots. Upon completion, students should be able to pronounce, spell, and define accepted medical terms.

MKT 120 Principles of Marketing
Prerequisites: Take DRE-096 or ENG-070 and RED 070 or Placement Test
Credit Equivalent
Corequisites: None
Component: None
This course introduces principles and problems of marketing goods and services. Topics include promotion, placement, and pricing strategies for products. Upon completion, students should be able to apply marketing principles in organizational decision making.

MKT 121 Retailing
Prerequisites: Take DRE-096 or ENG-070 and RED 070 or Placement Test
Credit Equivalent
Corequisites: None
Component: None
This course examines the role of retailing in the economy. Topics include the development of present retail structure, functions performed, effective operations, and managerial problems resulting from current economic and social trends. Upon completion, students should be able to demonstrate an understanding of the basic principles of retailing.

MKT 122 Visual Merchandising
Prerequisites: Take DRE-096 or ENG-070 and RED 070 or Placement Test
Credit Equivalent
Corequisites: None
Component: None
This course introduces basic layout design and commercial display in retail and service organizations. Topics include an analysis of display as a visual merchandising medium and an examination of the principles and applications of display and design. Upon completion, students should be able to plan, build, and evaluate designs and displays. This course is a unique concentration requirement of the Marketing and Retailing concentration in the Business Administration program.

MKT 123 Fundamentals of Selling
Prerequisites: Take DRE-096 or ENG-070 and RED 070 or Placement Test
Credit Equivalent
Corequisites: None
Component: None
This course is designed to emphasize the necessity of selling skills in a modern business environment. Emphasis is placed on sales techniques involved in various types of selling situations. Upon completion, students should be able to demonstrate an understanding of the techniques covered.

MKT 220 Advertising and Sales Promotion
Prerequisites: Take DRE-096 or ENG-070 and RED 070 or Placement Test
Credit Equivalent
Corequisites: None
Component: None
This course covers the elements of advertising and sales promotion in the business environment. Topics include advertising and sales promotion appeals, selection of media, use of advertising and sales promotion as a marketing tool, and means of testing effectiveness. Upon completion, students should be able to demonstrate an understanding of the concepts covered through application.

MKT 221 Consumer Behavior
Prerequisites: Take DRE-096 or ENG-070 and RED 070 or Placement Test
Credit Equivalent
Corequisites: None
Component: None
This course is designed to describe consumer behavior as applied to the exchange processes involved in acquiring, consuming, and disposing of goods and services. Topics include an analysis of basic and environmental determinants of consumer behavior with emphasis on the decision-making process. Upon completion, students should be able to analyze concepts related to the study of the individual consumer.

MKT 223 Customer Service
Prerequisites: Take DRE-096 or ENG-070 and RED 070 or Placement Test
Credit Equivalent
Corequisites: None
Component: None
This course stresses the importance of customer relations in the business world. Emphasis is placed on learning how to respond to complex customer requirements and to efficiently handle stressful situations. Upon completion, students should be able to demonstrate the ability to handle customer relations. This course is also available through the Virtual Learning Community (VLC).

MKT 225 Marketing Research
Prerequisites: Take MKT 120 and DRE-098 and DMA-050 or ENG 090, RED-090 and MAT-070 Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides information for decision making by providing guidance in developing, analyzing, and using data. Emphasis is placed on marketing research as a tool in decision making. Upon completion, students should be able to design and conduct a marketing research project and interpret the results. This course is a unique concentration requirement of the Marketing and Retailing concentration in the Business Administration program. This course is also available through the Virtual Learning Community (VLC).

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course extends the study of diverse marketing strategies. Emphasis is placed on the development of case studies and small-group projects involving research and planning. Upon completion, students should be able to effectively participate in the formulation a marketing study. This course is a unique concentration requirement of the Marketing and Retailing concentration in the Business Administration program.

MKT 230 Public Relations 03 00 00 03
Prerequisites: RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces public relations as it affects communications, strategic planning, and management of the organization. Topics include basic principles and functions of management that guide public relations activities as applied to businesses, services, institutions, and associations. Upon completion, students should be able to perform the communications, evaluation, planning, and research activities of the public relations professional.

MKT 231 Health Care Marketing 03 00 00 03
Prerequisites: Take MKT-120
Corequisites: None
Component: None
This course is designed to help students gain an understanding of how the principles of marketing are used in a health care setting. Topics include market development, market segmentation, market research, advertising and promotion, and service development for health care marketing. Upon completion, students should be able to plan, develop, and implement a basic marketing plan for an institution within the health care industry.

MKT 232 Social Media Marketing 03 02 00 04
Prerequisites: None
Corequisites: None
Component: None
This course is designed to build students’ social media marketing skills by utilizing projects that give students hands on experience implementing social media marketing strategies. Topics include integrating different social media technologies into a marketing plan, creating social media marketing campaigns, and applying appropriate social media tools. Upon completion, students should be able to use social media technologies to create and improve marketing efforts for businesses.

MUS 110 Music Appreciation 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course is a basic survey of the music of the Western world. Emphasis is placed on the elements of music, terminology, composers, form, and style within a historical perspective. Upon completion, students should be able to demonstrate skills in basic listening and understanding of the art of music. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

MUS 112 Introduction to Jazz 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the origins and musical components of jazz and the contributions of its major artists. Emphasis is placed on the development of discriminating listening habits, as well as the investigation of the styles and structural forms of the jazz idiom. Upon completion, students should be able to demonstrate skills in listening and understanding this form of American music. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

MUS 113 American Music 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces various musical styles, influences, and composers of the United States from pre-Colonial times to the present. Emphasis is placed on the broad variety of music particular to American culture. Upon completion, students should be able to demonstrate skills in basic listening and understanding of American music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

MUS 114 Non-Western Music 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides a basic survey of the music of the non-Western world. Emphasis is placed on non-traditional instruments, sources, and performing practices. Upon completion, students should be able to demonstrate skills in basic listening and understanding of the art of non-Western music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

MUS 115 Orchestral Music 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers representational orchestral and chamber works from the Baroque period to the present. Emphasis is placed on the characteristics of important orchestral forms and styles. Upon completion, students should be able to demonstrate skills in listening to and analyzing orchestral music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

MUS 121 Music Theory I 03 02 00 04
Prerequisites: MUS 121
Corequisites: None
Component: None
This course provides an in-depth introduction to melody, rhythm, and harmony. Emphasis is placed on fundamental melodic, rhythmic, and harmonic analysis, introduction to part writing, ear-training, and sight-singing. Upon completion, students should be able to demonstrate proficiency in the recognition and application of the above. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

MUS 122 Music Theory II 03 02 00 04
Prerequisites: MUS 121
Corequisites: None
Component: None
This course is a continuation of studies begun in MUS 121. Emphasis is placed on advanced melodic, rhythmic, and harmonic analysis and continued studies in part-writing, ear-training, and sight-singing. Upon completion, students should be able to demonstrate proficiency in the recognition and application of the above. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

This course provides a study of jazz ensemble techniques and the study and performance of a variety of styles of jazz literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
MUS 151 Class Music I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides group instruction in skills and techniques of the particular instrument or voice for those with little or no previous experience. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 152 Class Music II  
Prerequisites: MUS 151  
Corequisites: None  
Component: None  
This course is a continuation of MUS 151. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 161 Applied Music I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides individual instruction in the skills and techniques of the particular instrument or voice. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 162 Applied Music II  
Prerequisites: MUS 161  
Corequisites: None  
Component: None  
This course is a continuation of MUS 161. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 173 Opera Production I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an applied laboratory study of the processes involved in the production of an opera. Topics include fundamental practices, principles, and techniques associated with producing operas of various musical periods with an emphasis on vocal technique. Upon completion, students should be able to participate in an assigned position in a college opera production. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 174 Opera Production II  
Prerequisites: Take MUS-173  
Corequisites: None  
Component: None  
This course provides an applied laboratory study of the processes involved in the production of an opera. Topics include fundamental practices, principles, and techniques associated with producing operas of various musical periods with an emphasis on musical/language production. Upon completion, students should be able to participate in an assigned position in a college opera production. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 181 Show Choir I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides students the initial training in basic competencies of dance/voice-based performances and to the nuances of preparation for such pop/jazz/theatre performances. Emphasis is placed on the introduction to, and subsequent development of, basic performance skills necessary for choreographed performance. Upon completion, students should be able to demonstrate the found competencies necessary to perform the assigned literature in various venues and under various professional conditions. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

MUS 182 Show Choir II  
Prerequisites: MUS-181  
Corequisites: None  
Component: None  
This course provides intermediate training in dance/voice-based performances and in the nuances of preparation for such pop/jazz/theatre performances. Emphasis is placed on continued development of skills necessary for professional group choral preparation and performance, as well as effective social interaction with a performance troupe. Upon completion, students should be able to demonstrate the intermediate competencies necessary to perform the assigned literature in various venues and under various professional conditions. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

MUS 210 History of Rock Music  
Prerequisites: None  
Corequisites: None  
Component: None  
This course is a survey of Rock music from the early 1950's to the present. Emphasis is placed on musical groups, soloists, and styles related to the evolution of this idiom and on related historical and social events. Upon completion, students should be able to identify specific styles and to explain the influence of selected performers within their respective eras. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. (TAC – 11/16/05)

MUS 211 History of Country Music  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the varied origins of country music and the commercialization of this art form. Emphasis is placed on historical, sociocultural, and stylistic factors related to country music and musicians. Upon completion, students should be able to identify specific styles and explain the influence of pop culture on the development of country music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. (TAC – 11/16/05)

MUS 261 Applied Music III  
Prerequisites: MUS 162  
Corequisites: None  
Component: None  
This course is a continuation of MUS 162. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 262 Applied Music IV  
Prerequisites: MUS 261  
Corequisites: None  
Component: None  
This course is a continuation of MUS 261. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

NAS 101 Nursing Assistant I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces basic nursing skills required to provide personal care for patients, residents, or clients in a health care setting. Topics include communications, safety, patients’ rights, personal care, vital signs, elimination, nutrition, emergencies, rehabilitation, and mental health. Upon completion, students should be able to demonstrate skills necessary to qualify as Nursing Assistant I with the North Carolina Nurse Aide I Registry.

NAS 102 Nursing Assistant II  
Prerequisites: NAS 101  
Corequisites: None  
Component: None  
This course provides training in selected advanced nursing assistant procedures. Emphasis is placed on sterile techniques, respiratory procedures, catheterizations, wound and trach care, irrigations, and ostomy care. Upon completion, students should be able to demonstrate skills necessary to qualify as a Nursing Assistant II with the North Carolina Board of Nursing.

NAS 103 Home Health Care  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers basic health issues that affect clients in the home setting. Emphasis is placed on home safety, recognizing significant changes in the client’s condition, family dynamics, and use of home health care equipment. Upon completion, students should be able to identify care for clients at home.

NET 110 Networking Concepts  
Prerequisites: Take DRE-096 and DMA-020 or ENG-070, RED-070 or MAT-060 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces students to the networking field. Topics include network terminology and protocols, local-area networks, wide-area networks, OSI model, cabling, router programming, Ethernet, IP addressing, and network standards. Upon completion, students should be able to perform tasks related to networking mathematics, terminology, and models, media, Ethernet, subnetting, and TCP/IP Protocols. This course is also available through the Virtual Learning Community (VLC).

NET 125 Networking Basics
01 04 00 00 03
Prerequisites: Take DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the networking field. Emphasis is placed on network terminology and protocols, local-area networks, wide-area networks, OSI model, cabling, router programming, Ethernet, IP addressing, and network standards. Upon completion, students should be able to perform tasks related to networking mathematics, terminology, and models, media, Ethernet, subnetting, and TCP/IP Protocols.

NET 126 Routing Basics
01 04 00 00 03
Prerequisites: Take NET 125 and DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course focuses on initial router configuration, router software management, routing protocol configuration, TCP/IP, and access control lists (ACLs). Emphasis will be placed on the fundamentals of router configuration, managing router software, routing protocol, and access lists. Upon completion, students should have an understanding of routers and their role in WANs, router configuration, routing protocols, TCP/IP, troubleshooting, and ACLs.

NET 175 Wireless Technology
02 02 00 00 03
Prerequisites: Take NET 110 or NET 125. Take DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the student to wireless technology and interoperability with different communication protocols. Topics include Wireless Application Protocol (WAP), Wireless Mark-up language (WML), link manager, service discovery protocol, transport layer and frequency band. Upon completion, students should be able to discuss in written and oral form protocols and procedures required for different wireless applications.

NET 191S Selected Topics in Networking Technology
00 02 00 01 01
Prerequisites: Take DRE-096 or ENG-070 and RED-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an opportunity to explore areas of current interest in specific program or discipline areas. Emphasis is placed on subject matter appropriate to the program or discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

NET 225 Routing & Switching I
01 04 00 00 03
Prerequisites: Take NET 126 and DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course focuses on advanced IP addressing techniques, intermediate routing protocols, command-line interface configuration of switches, Ethernet switching, VLANs, STP, and VTP. Emphasis will be placed on application and demonstration of skills acquired in pre-requisite courses. Upon completion, students should be able to perform tasks related to VLSM, routing protocols, switching concepts and configuration, STP, VLANs, and VTP.

NET 226 Routing & Switching II
01 04 00 00 03
Prerequisites: Take NET 225 and DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces WAN theory and design, WAN technology, PPP, Frame Relay, ISDN, and additional case studies. Topics include network congestion problems, TCP/IP transport and network layer protocols, advanced routing and switching configuration, ISDN protocols, PPP encapsulation operations on a router. Upon completion, students should be able to provide solutions for network routing problems, identify ISDN protocols, and describe the Spanning Tree protocol.

NET 260 Internet Dev & Support
03 00 00 00 03
Prerequisites: NET 110
Corequisites: None
Component: None
This course covers issues relating to the development and implementation of Internet related tools and services. Topics include Internet organization, site registration, e-mail servers, Web servers, Web page development, legal issues, firewalls, multimedia, TCP/IP, service providers, FTP, list servers, and gateways. Upon completion, students should be able to develop and support the Internet services needed within an organization.

NET 289 Networking Project
01 04 00 00 03
Prerequisites: Take DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: NET 226
Component: None
This course provides an opportunity to complete a significant networking project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, documentation, installation, testing, presentation, and training. Upon completion, students should be able to complete a project from the definition phase through implementation.

NMT 110 Intro to Nuclear Medicine
02 00 00 00 02
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course provides a comprehensive introduction to the field of nuclear medicine. Topics include overview of school, program, and profession; medical terminology and ethics; medical legal issues; general patient care and radiation safety practices; and departmental organization. Upon completion, students should be able to utilize various learning resources and demonstrate understanding of radiation safety standards and ethical, professional conduct.

NMT 126 Nuclear Physics
02 00 00 00 02
Prerequisites: NMT 110
Corequisites: None
Component: None
This course introduces the fundamental principles of the physics that underlie nuclear medicine. Topics include atomic structure, electromagnetic and particulate radiation, decay schemes, production of radionuclides with emphasis on radionuclide generators, and decay calculations. Upon completion, students should be able to demonstrate an understanding of the physical concepts covered in the course.

NMT 132 Overview-Clinical Nuc Med
02 00 06 00 04
Prerequisites: NMT 110
Corequisites: NMT 212
Component: None
This course is designed to familiarize students with the clinical practice of nuclear medicine. Emphasis is placed on the routine clinical procedures, radiopharmaceuticals and dosage, equipment manipulation, and basic patient care. Upon completion, students should be able to demonstrate integration of the principles covered in the classroom with the clinical experience.

NMT 134 Nuclear Pharmacy
02 00 00 00 02
Prerequisites: NMT 110
Corequisites: None
Component: None
This course covers the formulation and application of radiopharmaceuticals. Topics include the preparation, handling, disposition, and quality control of radiopharmaceuticals and dosage, equipment manipulation, and basic nuclear medicine. Emphasis is placed on the routine clinical procedures, radionuclide generators, and decay calculations. Upon completion, students should be able to demonstrate an understanding of the specific area of study.
clinically useful radiopharmaceuticals. Upon completion, students should be able to discuss the appropriate use and disposition of radiopharmaceuticals currently used in clinical nuclear medicine.

NMT 211 NMT Clinical Practice I
Prerequisites: NMT 132
Corequisites: None
Component: None
This course is one of two courses designed to provide clinical practice in nuclear medicine. Topics include radiation protection, radiopharmaceutical use, patient care, imaging procedures, non-imaging procedures, administrative procedures, and the therapeutic use of radionuclides. Upon completion, students should be able to demonstrate performance of the procedures covered in the course.

NMT 212 Proc for Nuclear Med I
Prerequisites: NMT 132
Corequisites: None
Component: None
This course begins the in-depth study of clinical procedures performed by nuclear medicine technologists. Emphasis is placed on dose administration, use of instrumentation, computer applications, and normal and abnormal presentation. Upon completion, students should be able to demonstrate an understanding of the principles related to the procedures presented in the course.

NMT 215 Non-Imaging Instrumentation
Prerequisites: NMT 132
Corequisites: None
Component: None
This course covers the proper operation of various types of non-imaging equipment used in nuclear medicine. Emphasis is placed on principles of radiation detection, quality control procedures, various counting problems, and machine-specific operating procedures. Upon completion, students should be able to demonstrate the proper use of the devices discussed in the course.

NMT 217 Radiobiology and Protection
Prerequisites: NMT 132
Corequisites: None
Component: None
This course covers the principles of radiation biology. Emphasis is placed on the effects of ionizing radiation on body tissues, use of radiation in medicine, and protective measures. Upon completion, students should be able to demonstrate an understanding of the effects and uses of radiation in nuclear medicine.

NMT 221 NMT Clinical Practice II
Prerequisites: NMT 132
Corequisites: None
Component: None
This course is one of two courses designed to provide clinical practice in nuclear medicine. Topics include radiation protection, radiopharmaceutical use, patient care, imaging procedures, non-imaging procedures, administrative procedures, and the therapeutic use of radionuclides. Upon completion, students should be able to demonstrate performance of the procedures covered in this course.

NMT 222 Proc for Nuclear Med II
Prerequisites: NMT 132
Corequisites: None
Component: None
This course concludes the in-depth study of clinical procedures performed in nuclear medicine. Topics include method of dose administration, data acquisition parameters, computer use, and data patterns consistent with normal and described pathological states. Upon completion, students should be able to demonstrate an understanding of the principles related to the procedures discussed in the course.

NMT 289 Nuc Med Tech Topics
Prerequisites: NMT 211
Corequisites: NMT 222
Component: None
This course covers professional practice in nuclear medicine. Emphasis is placed on the procedures vital to a clinical nuclear medicine staff technologist. Upon completion, students should be able to demonstrate a comprehensive knowledge of nuclear medicine and be prepared for the comprehensive examination.

NOS 110 Operating System Concepts
Prerequisites: TAKE DRE-096 or ENG-070 and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces students to a broad range of operating system concepts, including installation and maintenance. Emphasis is placed on operating system concepts, management, maintenance, and resources required. Upon completion of this course, students will have an understanding of OS concepts, installation, management, maintenance, using a variety of operating systems.

NOS 120 Linux/UNIX Single User
Prerequisites: Take CET-211, CTI-130 or NOS 110.
Corequisites: None
Component: None
This course develops the necessary skills for students to develop both GUI and command line skills for using and customizing a Linux workstation. Topics include Linux file system and access permissions, GNOME Interface, VI editor, X Window System expression pattern matching, I/O redirection, network and printing utilities. Upon completion, students should be able to customize and use Linux systems for command line requirements and desktop productivity roles.

NOS 130 Windows Single User
Prerequisites: Take CET-211, CTI-130 or NOS 110. Take DRE-096 and DMA-020 or ENG-070, RED-070 or MAT-060 or Placment Test Credit Equivalent
Corequisites: None
Component: None
This course introduces operating system concepts for single-user systems. Topics include Linux file system and access permissions, GNOME Interface, VI editor, X Window System expression pattern matching, I/O redirection, network and printing utilities. Upon completion, students should be able to perform operating systems functions at the support level in a single-user environment.

NOS 220 Linux/UNIX Admin I
Prerequisites: Take NOS 120 and DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the Linux file system, group administration, and system hardware controls. Topics include installation, creation and maintaining file systems, NIS client and DHCP client configuration, NFS, SMB/Samba, Configure X, Gnome, KDE, basic memory, processes, and security. Upon completion, students should be able to perform system administration tasks including installation, configuring and attaching a new Linux workstation to an existing network.

NOS 230 Windows Administration I
Prerequisites: Take NOS 130 and DRE-096 or ENG-070 and RED-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers the installation and configuration of a Windows Server operating system. Emphasis is placed on the basic configuration of core network services, Active Directory and group policies. Upon completion, students should be able to install and configure a Windows Server operating system.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
NUR 101 Practical Nursing I  
Prerequisites: None  
Component: None  
This course will introduce students to the Novel network operating system.  
Topics include installing and using NetWare, managing printing, storage  
space, implementing internet services, and managing security. Upon  
completion, students should have basic knowledge about implementing  
NetWare and using its management tools.

NPO 110 Intro to Nonprofit Mgmt  
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test  
Credit Equivalent  
Corequisites: None  
Component: None  
This course provides an overview of the nonprofit sector and its role in  
society. Topics include growth and development, organizational structure,  
and working with diverse communities. Upon completion, students should  
be able to demonstrate an understanding of the nonprofit sector and its  
impact on communities.

NPO 111 Governance & Leadership  
Prerequisites: Take NPO 110 and DRE-098 or ENG-090 and RED-090 or  
Placement Test Credit  
Corequisites: None  
Component: None  
This course introduces leadership roles and their relation to governance  
issues in nonprofit organizations. Topics include board interactions with  
staff, shared governance, and stewardship. Upon completion, students  
should be able to identify and assess the leader’s role in bringing about  
significant organizational and societal changes through non-profit  
organizations.

NPO 120 Fundraising/Stewardship  
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test  
Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces the principles, strategies, and practice of fundraising  
and stewardship in nonprofit organizations. Topics include private/public  
donor cultivation and research, donor database management, special events,  
planned giving, annual and capital campaigns and software and tracking  
mechanisms. Upon completion, students should be able to assist in the  
development of relationship-building strategies and funding plans.

NUR 101 Practical Nursing I  
Prerequisites: Departmental Approval  
Corequisites: BIO 163 and NUR 102AA  
Component: None  
This course introduces concepts as related to the practical nurse’s caregiver  
and discipline-specific roles. Emphasis is placed on the nursing process,  
legal/ethical/professional issues, wellness/illness patterns, and basic nursing  
skills. Upon completion, students should be able to demonstrate beginning  
understanding of nursing process to promote/maintain/restore optimum  
health for diverse clients throughout the life span. This course must be  
completed satisfactorily to progress to Nursing 102B and Nursing 103A.  
This course is intended for certificate and diploma programs.

NUR 102BB Practical Nursing II  
Prerequisites: NUR 101 and NUR 102AA  
Corequisites: None  
Component: None  
This course includes more advanced concepts as related to the practical  
nurse’s caregiver and discipline-specific roles. Emphasis is placed on the  
nursing process, delegation, cost effectiveness, legal/ethical/professional  
issues, and wellness/illness patterns. Upon completion, students should  
be able to begin participating in the nursing process to promote/maintain/  
restore optimum health for diverse clients throughout the life span. The  
focus will be on nursing care of patients with illnesses and disorders of  
various body systems, child-bearing family and the pediatric patient which  
must be completed satisfactorily to progress to Nursing 103B. This course  
is intended for certificate and diploma programs.

NUR 103AA Practical Nursing III  
Prerequisites: NUR 101 and NUR 102AA  
Corequisites: CIS 113, NUR 103AA and PSY 110  
Component: None  
This course focuses on use of nursing/related concepts by practical nurses  
as providers of care/members of discipline in collaboration with health  
team members. Emphasis is placed on the nursing process, wellness/  
illness patterns, entry-level issues, accountability, advocacy, professional  
development, evolving technology, and changing health care delivery  
systems. Upon completion, students should be able to use the nursing  
process to promote/maintain/restore optimum health for diverse clients  
throughout the life span. The focus will be on reproductive diseases,  
mental health disorders and parenteral medication administration which  
must be completed satisfactorily to progress to Nursing 103B. This course  
is intended for certificate and diploma programs.

NUR 103BB Practical Nursing III  
Prerequisites: NUR 102BB and NUR 103AA  
Corequisites: ENG 111  
Component: None  
This course focuses on use of nursing/related concepts by practical nurses  
as providers of care/members of discipline in collaboration with health  
team members. Emphasis is placed on the nursing process, wellness/  
illness patterns, entry-level issues, accountability, advocacy, professional  
development, evolving technology, and changing health care delivery  
systems. Upon completion, students should be able to use the nursing  
process to promote/maintain/restore optimum health for diverse clients  
throughout the life span. The focus will be on nursing care of patients  
with disorders involving various body systems which must be completed  
satisfactorily to successfully complete the program. This course is intended  
for certificate and diploma programs.

NUR 110 Nursing I  
Prerequisites: Departmental Approval  
Corequisites: BIO 168, PSY 150 and ACA 111  
Component: None  
This course introduces concepts basic to beginning nursing practice.  
Emphasis is placed on introducing the nurse’s role as provider of care,  
manager of care, and member of the discipline of nursing. Upon completion,  
students should be able to demonstrate beginning competence in caring  
for individuals with common alterations in health.

NUR 111 Intro to Health Concepts  
Prerequisites: None  
Corequisites: BIO 168, ENG 111, PSY 150 & ACA 111 or ACA 115  
Component: None  
This course introduces the concepts within the three domains of the individual,  
healthcare, and nursing. Emphasis is placed on the concepts within each
domain including medication administration, assessment, nutrition, ethics, interdisciplinary teams, informatics, evidence-based practice, individual-centered care, and quality improvement. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 112 Health-Illness Concepts
Prerequisites: NUR 111
Corequisites: BIO-169 and PSY-241
Component: None
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of acid-base, metabolism, cellular regulation, oxygenation, infection, stress/coping, health-wellness-illness, communication, caring interventions, managing care, safety, quality improvement, and informatics. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 113 Family Health Concepts
Prerequisites: NUR 111, NUR-112, & NUR-114
Corequisites: CIS 110 or CIS 113
Component: None
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of oxygenation, sexuality, reproduction, grief/loss, mood/affect, behavior, development, family, health-wellness-illness, communication, caring interventions, managing care, safety, and advocacy. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 114 Holistic Health Concepts
Prerequisites: NUR 111
Corequisites: BIO-169 and PSY-241
Component: None
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of cellular regulation, perfusion, inflammation, sensory perception, stress/coping, mood/affect, cognition, self, violence, health-wellness-illness, professional behaviors, caring interventions, and safety. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 120 Nursing II
Prerequisites: NUR 110
Corequisites: BIO 169 and PSY 241
Component: None
This course provides an expanded knowledge base for delivering nursing care to individuals of various ages. Emphasis is placed on developing the nurse’s role as provider of care, manager of care, and member of the discipline of nursing. Upon completion, students should be able to participate in the delivery of nursing care for individuals with common alterations in health. The focus will be on reproductive health, intrapartal, newborn, and postpartum nursing.

NUR 130 Nursing III
Prerequisites: NUR 120
Corequisites: CIS 113
Component: None
This course provides an expanded knowledge base for delivering nursing care to individuals of various ages. Emphasis is placed on expanding the nurse’s role as provider of care, manager of care, and member of the discipline of nursing. Upon completion, students should be able to deliver nursing care to individuals with common alterations in health. The focus will be on reproductive health, intrapartal, newborn, and postpartum nursing.

NUR 189 Nursing Transition
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course is designed to adjust selected nursing skills and physical assessment. Upon completion, students should be able to articulate into the ADN program at the level of the generic student.

NUR 210 Nursing IV
Prerequisites: NUR 130
Corequisites: BIO 275 and ENG 111
Component: None
This course provides an expanded knowledge base for delivering nursing care to individuals of various ages. Emphasis is placed on using collaboration as a provider of care, manager of care, and member of the discipline of nursing. Upon completion, students should be able to modify nursing care for individuals with common alterations in health. The focus will be on psychiatric concepts, community based approaches, renal, cardiovascular, and respiratory functioning.

NUR 211 Health Care Concepts
Prerequisites: NUR-111, NUR-112, NUR-113 and NUR-114
Corequisites: None
Component: None
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of cellular regulation, perfusion, infection, immunity, mobility, comfort, behaviors, health-wellness-illness, clinical decision-making, caring interventions, managing care, and safety. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 212 Health System Concepts
Prerequisites: NUR-111
Corequisites: NUR-211
Component: None
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of grief/loss, violence, health-wellness-illness, collaboration, managing care, safety, advocacy, legal issues, policy, healthcare systems, ethics, accountability, and evidence-based practice. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 213 Complex Health Concepts
Prerequisites: NUR 111, NUR 112, NUR 113, NUR 114, NUR 211, and NUR 212
Corequisites: COM-231 or ENG-115
Component: None
This course is designed to assimilate the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of fluid/electrolytes, metabolism, perfusion, mobility, stress/coping, violence, health-wellness-illness, professional behaviors, caring interventions, managing care, healthcare systems, and quality improvement. Upon completion, students should be able to demonstrate the knowledge, skills, and attitudes necessary to provide quality, individualized, entry level nursing care.

NUR 214 Nsg Transition Concepts
Prerequisites: None
Corequisites: None
Component: None
This course is designed to introduce concepts within the three domains of the individual, healthcare, and nursing as the LPN transitions to the ADN role. Emphasis is placed on the concepts within each domain including evidenced-based practice, quality improvement, communication, safety, interdisciplinary team, clinical decision-making, informatics, assessment, caring, and health-wellness-illness. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
NUR 220 Nursing V  
Prerequisites: NUR 210  
Corequisites: ENG 115 or COM 231 and Humanities/Fine Arts Elective  
Component: None  
This course provides an expanded knowledge base for delivering nursing care to individuals of various ages. Emphasis is placed on the nurse’s role as an independent provider and manager of care for a group of individuals and member of a multi-disciplinary team. Upon completion, students should be able to provide comprehensive nursing care to a group of individuals with common complex health alterations. The focus will be on neurologic and neurosensory functioning, mental health, multisystem trauma and leadership skills.

NUR 221 LPN to ADN Concepts I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course is designed for the LPN to ADN student to explore the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of safety, perfusion, inflammation, oxygenation, mood/affect, behavior, development, family, health-wellness-illness, sensory perception, stress/coping, cognition, self, violence, and professional behaviors. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 223 LPN to ADN Concepts II  
Prerequisites: Take NUR 221  
Corequisites: None  
Component: None  
This course is designed for the LPN to ADN student to assimilate the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of fluid/electrolytes, metabolism, thermoregulation, oxygenation, tissue integrity, infection, perfusion, mobility, reproduction, sexuality, health-wellness-illness, professional behaviors, accountability, advocacy, and collaboration. Upon completion, students should be able to demonstrate the knowledge, skills, and attitudes necessary to provide quality, individualized, entry-level nursing care.

NUT 110 Nutrition  
Prerequisites: Take DMA-030 and DRE-097 or ENG-080, MAT-060 and RED-080 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course covers basic principles of nutrition and their relationship to human health. Topics include meeting nutritional needs of healthy people, menu modification based on special dietary needs, food habits, and contemporary problems associated with food selection. Upon completion, students should be able to apply basic nutritional concepts as they relate to health and well-being. This course is also available through the Virtual Learning Community (VLC).

OMT 110 Introduction to Operations Management  
Prerequisites: Take DMA 050 and DRE 098 or ENG 090, MAT 070 and RED 090 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course provides an overview of the operations management field. Topics include production and operations planning, materials management, environmental health and safety, and quality management. Upon completion, students should be able to demonstrate an understanding of the operations management functions.

OMT 112 Materials Management  
Prerequisites: Take DMA 050 and DRE 098 or ENG 090, MAT-070, and RED 090 or Placement Test Credit Equivalent.  
Corequisites: None  
Component: None  
This course introduces the keypad and the touch method using the electronic

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
calculation. Topics include mathematical functions in business applications. Upon completion, students should be able to use the electronic calculator to solve a wide variety of problems commonly encountered in business.

**OST 130 Comprehensive Keyboarding**

This course introduces Current Procedural Terminology, International Classification of Diseases, and Healthcare Common Procedural Coding System coding as they apply to dental insurance and billing. Topics include Current Procedural Terminology-2 Dental Codes, office collections, American Dental Association Dental Claim Form, and insurance coverage. Upon completion, students should be able to describe the steps of the total billing/collections cycle for a dental office.

| OST 148    | Medical Coding Billing & Insurance                       | 03        | 00      | 00         | 03         |
|            | Prerequisites: Take OST 141 and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent |           |         |            |            |
|            | Corequisites: None                                        |           |         |            |            |
|            | Component: None                                           |           |         |            |            |

This course introduces fundamentals of medical coding, billing, and insurance. Emphasis is placed on the medical billing cycle to include third party payers, coding concepts, and form preparation. Upon completion, students should be able to explain the life cycle of and accurately complete a medical insurance claim. This course is also available through the Virtual Learning Community (VLC).

| OST 149    | Medical Legal Issues                                     | 03        | 00      | 00         | 03         |
|            | Prerequisites: Take DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent |           |         |            |            |
|            | Corequisites: None                                        |           |         |            |            |
|            | Component: None                                           |           |         |            |            |

This course introduces the complex legal, moral, and ethical issues involved in providing health-care services. Emphasis is placed on the legal requirements of medical practices; the relationship of physician, patient, and office personnel; professional liabilities; and medical practice liability. Upon completion, students should be able to demonstrate a working knowledge of current medical law and accepted ethical behavior. This course is also available through the Virtual Learning Community (VLC).

| OST 153    | Office Finance Solutions                                 | 01        | 02      | 00         | 02         |
|            | Prerequisites: OST 122                                  |           |         |            |            |
|            | Corequisites: None                                        |           |         |            |            |
|            | Component: None                                           |           |         |            |            |

This course introduces basic bookkeeping concepts. Topics include entering data in accounts payable and receivable, keeping petty cash records, maintaining inventory, reconciling bank statements, running payroll, and generating simple financial reports. Upon completion, students should be able to demonstrate competence in the entry and manipulation of data to provide financial solutions for the office.

| OST 162    | Executive Terminology                                     | 03        | 00      | 00         | 03         |
|            | Prerequisites: None                                        |           |         |            |            |
|            | Corequisites: None                                        |           |         |            |            |
|            | Component: None                                           |           |         |            |            |

This course is designed to increase and improve proficiency in word usage. Topics include root words, prefixes, suffixes, homonyms, synonyms, and specialized vocabularies. Upon completion, students should be able to use acquired vocabulary skills in the global workplace.

| OST 164    | Text Editing Applications                                 | 03        | 00      | 00         | 03         |
|            | Prerequisites: Take DRE 097                              |           |         |            |            |
|            | Corequisites: None                                        |           |         |            |            |
|            | Component: None                                           |           |         |            |            |

This course provides a comprehensive study of editing skills needed in the workplace. Emphasis is placed on grammar, punctuation, sentence structure, proofreading, and editing. Upon completion, students should be able to use reference materials to compose and edit text. This course is also available through the Virtual Learning Community (VLC).

| OST 165    | Adv Text Editing Apps                                     | 02        | 02      | 00         | 03         |
|            | Prerequisites: Take ENG 111, OST 134 and OST 164          |           |         |            |            |
|            | Corequisites: None                                        |           |         |            |            |
|            | Component: None                                           |           |         |            |            |

This course is designed to develop proficiency in advanced editing skills needed in the office environment. Emphasis is placed on the application of creating effective electronic office documents. Upon completion, students should be able to apply advanced editing skills to compose text. This course emphasizes the development of skills in composing and editing business communications that will exemplify the students ability to communicate effectively in an office environment.

| OST 181    | Introduction to Office Systems                            | 02        | 02      | 00         | 03         |
|            | Prerequisites: OST 130                                   |           |         |            |            |
|            | Corequisites: None                                        |           |         |            |            |
|            | Component: None                                           |           |         |            |            |

This course introduces the skills and abilities needed in today’s office. Topics include effectively interacting with co-workers and the public, processing simple financial and informational documents, and performing functions typical of today’s offices. Upon completion, students should be able to display skills and decision-making abilities essential for functioning in the total office context.

| OST 184    | Records Management                                       | 02        | 02      | 00         | 03         |
|            | Prerequisites: Take DRE 096 or ENG 070 or Placement Test Credit Equivalent |           |         |            |            |
|            | Corequisites: None                                        |           |         |            |            |
|            | Component: None                                           |           |         |            |            |

This course includes the creation, maintenance, protection, security, and disposition of records stored in a variety of media forms. Topics include alphabetic, geographic, subject, and numeric filing methods. Upon completion, students should be able to set up and maintain a records management system. This course is also available through the Virtual Learning Community (VLC).

| OST 223    | Admin Office Transcript I                                 | 02        | 02      | 00         | 03         |
|            | Prerequisites: OST 164 and OST 134 or OST 136             |           |         |            |            |
|            | Corequisites: None                                        |           |         |            |            |
|            | Component: None                                           |           |         |            |            |

This course provides experience in transcribing documents. Emphasis is placed on appropriate formatting, advanced text editing skills, and transcription techniques. Upon completion, students should be able to transcribe office documents.

| OST 224    | Admin. Ofc Transcript II                                  | 01        | 02      | 00         | 02         |
|            | Prerequisites: OST 223                                   |           |         |            |            |
|            | Corequisites: None                                        |           |         |            |            |
|            | Component: None                                           |           |         |            |            |

This course provides instruction and practice in advanced transcription skills. Emphasis is placed on specialized transcription features. Upon completion, students should be able to transcribe complex business documents.

| OST 233    | Office Publications Design                                | 02        | 02      | 00         | 03         |
|            | Prerequisites: Take OST 136 and OST 137                  |           |         |            |            |
|            | Corequisites: None                                        |           |         |            |            |
|            | Component: None                                           |           |         |            |            |

This course provides entry-level skills in using software with desktop publishing capabilities. Topics include principles of page layout, desktop publishing terminology and applications, and legal and ethical considerations of software use. Upon completion, students should be able to design and produce professional business documents and publications.

| OST 236    | Advanced Word/Information Processing                      | 02        | 02      | 00         | 03         |
|            | Prerequisites: OST 136                                   |           |         |            |            |
|            | Corequisites: None                                        |           |         |            |            |
|            | Component: None                                           |           |         |            |            |

This course introduces Current Procedural Terminology, International Classification of Diseases, and Healthcare Common Procedural Coding System coding as they apply to dental insurance and billing. Topics include Current Procedural Terminology-2 Dental Codes, office collections, American Dental Association Dental Claim Form, and insurance coverage. Upon completion, students should be able to describe the steps of the total billing/collections cycle for a dental office.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course develops proficiency in the utilization of advanced word/information processing functions. Emphasis is placed on advanced word processing features. Upon completion, students should be able to produce a variety of complex business documents. This course is also available through the Virtual Learning Community (VLC).

**OST 241 Medical Office Transcription I**
- **Prerequisites:** OST 142, OST 164 and MED 121 or OST 141
- **Corequisites:** None
- **Component:** None
- This course introduces machine transcription techniques as applied to medical documents. Emphasis is placed on accurate transcription, proofreading, and use of reference materials as well as vocabulary building. Upon completion, students should be able to prepare accurate and usable transcripts of voice recordings in the covered specialties.

**OST 242 Medical Office Transcription II**
- **Prerequisites:** Take OST 241 and DRE 096 or ENG 070 and RED 070 or Placement Test Equivalent
- **Corequisites:** None
- **Component:** None
- This course continues building transcription techniques as applied to medical documents. Emphasis is placed on accurate transcription and text editing, efficient use of reference materials, increasing transcription speed and accuracy, and improving understanding of medical terminology. Upon completion, students should be able to display competency in accurately transcribing medical documents.

**OST 243 Medical Office Simulation**
- **Prerequisites:** Take OST 142, OST 148, and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
- **Corequisites:** OST 285
- **Component:** None
- This course introduces medical systems used to process information in the automated office. Topics include traditional and electronic information resources, storing and retrieving information, and the billing cycle. Upon completion, students should be able to use the computer accurately to schedule, bill, update, and make corrections. This course is a unique concentration requirement in the Medical Office Systems Technology concentration in the Office Systems Technology program.

**OST 244 Medical Document Production**
- **Prerequisites:** Take OST 134, OST 142, OST 164, and DRE 096 or ENG 070 and RED 070 or Placement Test Equivalent
- **Corequisites:** None
- **Component:** None
- This course provides production-level skill development in processing medical documents. Emphasis is placed on producing marketable documents through the use of medical-related materials. Upon completion, students should be able to perform competently in preparing accurate, correctly formatted, and usable documents.

**OST 245 Dental Office Management**
- **Prerequisites:** Take OST 147 and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
- **Corequisites:** None
- **Component:** None
- This course introduces the organizational structures, professional issues, and major functions of management in a dental office. Topics include communication skills, telephone techniques, patient relations, clinical records, bookkeeping procedures, office equipment, and inventory management. Upon completion, students should be able to apply the concepts of management within a dental office.

**OST 246 Dental Office Simulation**
- **Prerequisites:** Take OST 147 and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
- **Corequisites:** None
- **Component:** None
- This course provides an in-depth study of diagnostic coding. Emphasis is placed on CPT and HCPCS coding systems. Upon completion, students should be able to properly code diagnoses in a medical facility.

**OST 247 Procedure Coding**
- **Prerequisites:** Take OST 141 AND OST 148 OR HMT 210. Take DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
- **Corequisites:** None
- **Component:** None
- This course introduces dental software systems used to process information in the dental office. Topics include electronic information entering, storing, and retrieving in the dental office billing cycle. Upon completion, students should be able to use the computer accurately to schedule, bill, update, and make corrections in a dental office software system.

**OST 248 Diagnostic Coding**
- **Prerequisites:** OST 141 AND OST 148 OR HMT 210. Take DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
- **Corequisites:** None
- **Component:** None
- This course provides an in-depth study of diagnostic coding. Emphasis is placed on ICD coding system. Upon completion, students should be able to properly code diagnoses in a medical facility.

**OST 249 CPC Certification**
- **Prerequisites:** Take OST 247, OST 248, and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
- **Corequisites:** None
- **Component:** None
- This course provides instruction that will prepare students to sit for the American Association of Professional Coders (AAPC) CPC Exam. Topics include diagnostic and procedural coding. Upon completion, students should be able to sit for the AAPC CPC Exam.

**OST 281 Emerg Issues in Med Ofc**
- **Prerequisites:** Take OST 130, OST 142, OST 148, and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
- **Corequisites:** None
- **Component:** None
- This course provides a comprehensive discussion of topics familiar to the health care setting. Topics include emerging issues in the health care setting. Upon completion, students should be able to demonstrate an understanding of current medical office procedures and treatments.

**OST 284 Emerging Technologies**
- **Prerequisites:** Take OST 137 and OST 164
- **Corequisites:** None
- **Component:** None
- This course provides opportunities to explore emerging technologies. Emphasis is placed on identifying, researching, and presenting current technological topics for class consideration and discussion. Upon completion, students should be able to understand the importance of keeping abreast of technological changes that affect the office professional.

**OST 285 Adv Emerg Issu in Med Ofc**
- **Prerequisites:** Take OST 281 and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
- **Corequisites:** None
- **Component:** None
- This course provides an advanced comprehensive discussion of topics familiar to the health care setting. Topics include advanced emerging issues in the health care setting. Upon completion, students should be able to demonstrate an understanding of advanced medical office procedures and treatments.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
Prerequisites: Take DRE 098 or ENG 090 and RED 090 or Placement Test Credit Equivalent
Corequisites: None
Component: None

This course covers the personal competencies and qualities needed to project a professional image in the office. Topics include interpersonal skills, health lifestyles, appearance, attitude, personal and professional growth, multi-cultural awareness, and professional etiquette. Upon completion, students should be able to demonstrate these attributes in the classroom, office, and society.

OST 289 Office Systems Management 02 02 00 03
Prerequisites: OST 134, OST 136, OST 137, and OST 164
Corequisites: None
Component: None

This course is designed to be a capstone course for the office professional and provides a working knowledge of modern office procedures. Emphasis is placed on scheduling, telephone procedures, travel arrangements, event planning, office design, and ergonomics. Upon completion, students should be able to adapt in an office environment.

PAD 151 Introduction to Public Administration 03 00 00 03
Prerequisites: Take DRE 098 or ENG 090 and RED 090 or Placement Test Credit Equivalent
Corequisites: None
Component: None

This course provides an overview of the role of the public administrator in government and an examination of the development and implementation of public policy. Topics include public personnel administration and management, decision making, public affairs, ethics, organizational theories, budgetary functions within governmental agencies, and other governmental issues. Upon completion, students should be able to explain the functions of government in society and in the lives of people composing that society. This course is a unique concentration requirement of the Public Administration concentration in the Business Administration program.

PAD 152 Ethics in Government 03 00 00 03
Prerequisites: RED 080 or Placement Test Credit Equivalent
Corequisites: None
Component: None

This course introduces the ethical issues and problems within the public administration field. Emphasis is placed on building analytical skills, stimulating moral imagination, and recognizing the discretionary power of the administrator’s role. Upon completion, students should be able to understand the moral dimensions of public administrative decision making. This course is a unique concentration requirement of the Public Administration concentration in the Business Administration program.

PAD 251 Public Finance & Budgeting 03 00 00 03
Prerequisites: Take DMA 030 and DRE 098 or ENG 090, MAT 060, and RED 090 or Placement Test Credit Equivalent
Corequisites: None
Component: None

This course provides an overview of the public finance and budgeting processes used in the allocation of public resources to meet differing public interests. Topics include the political environment, government expenditures, revenues, taxation, budgetary process theories and techniques, and the relation of government finance to the economy. Upon completion, students should be able to recognize impacts of government revenue and expenditure policies and understand the role of budgeting in executing governmental policy. This course is a unique concentration requirement of the Public Administration concentration in the Business Administration program.

PAD 252 Public Policy Analysis 03 00 00 03
Prerequisites: Take DRE 098 or ENG 090 and RED 090 or Placement Test Credit Equivalent
Corequisites: None
Component: None

This course is a study of methods and techniques used to determine the effectiveness of public programs. Emphasis is placed on the concept of ecology and environmental impact, informal groups and information networks, and the relationship between public and private sectors. Upon completion, students should be able to analyze case studies with the use of political analysis techniques. This course is a unique concentration requirement of the Public Administration concentration in the Business Administration program.

PAD 253 Introduction to Urban Planning 03 00 00 03
Prerequisites: PAD 251
Corequisites: None
Component: None

This course includes an analysis of current urban problems and the forces responsible for urban and regional growth. Topics include historical perspectives on the planning approach to urban phenomena and the evaluation of current proposals dealing with aspects of the urban situation. Upon completion, students should be able to evaluate urban and regional growth problems through case study analysis.

PED 110 Fit and Well for Life 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None

This course is designed to investigate and apply the basic concepts and principles of lifetime physical fitness and other health-related factors. Emphasis is placed on wellness through the study of nutrition, weight control, stress management, and consumer facts on exercise and fitness. Upon completion, students should be able to plan a personal, lifelong fitness program based on individual needs, abilities, and interests. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 111 Physical Fitness I 00 03 00 01
Prerequisites: None
Corequisites: None
Component: None

This course provides an individualized approach to physical fitness utilizing the five major components. Emphasis is placed on the scientific basis for setting up and engaging in personalized physical fitness programs. Upon completion, students should be able to set up and implement an individualized physical fitness program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 112 Physical Fitness II 00 03 00 01
Prerequisites: PED 111
Corequisites: None
Component: None

This course is an intermediate-level fitness class. Topics include specific exercises contributing to fitness and the role exercise plays in developing body systems. Upon completion, students should be able to implement and evaluate an individualized physical fitness program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 113 Aerobics I 00 03 00 01
Prerequisites: None
Corequisites: None
Component: None

This course introduces a program of cardiovascular fitness involving continuous, rhythmic exercise. Emphasis is placed on developing cardiovascular efficiency, strength, and flexibility and on safety precautions. Upon completion, students should be able to select and implement a rhythmic aerobic exercise program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course covers a continuation of a program of cardiovascular fitness involving rhythmic exercise. Emphasis is placed on a wide variety of aerobic activities which include cardiovascular efficiency, strength, and flexibility. Upon completion, students should be able to participate in and design a rhythmic aerobic exercise routine. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 115 Step Aerobics I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamentals of step aerobics. Emphasis is placed on basic stepping up and down on an adjustable platform; cardiovascular fitness; and upper body, floor, and abdominal exercises. Upon completion, students should be able to participate in basic step aerobics. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 116 Step Aerobics II
Prerequisites: PED 115
Corequisites: None
Component: None
This course provides a continuation of step aerobics. Emphasis is placed on a wide variety of choreographed step patterns; cardiovascular fitness; and upper body, abdominal, and floor exercises. Upon completion, students should be able to establish and implement a personal weight training program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 117 Weight Training I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basics of weight training. Emphasis is placed on developing muscular strength, muscular endurance, and muscle tone. Upon completion, students should be able to establish and implement a personal weight training program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 118 Weight Training II
Prerequisites: PED 117
Corequisites: None
Component: None
This course covers advanced levels of weight training. Emphasis is placed on meeting individual training goals and addressing weight training needs and interests. Upon completion, students should be able to establish and implement an individualized advanced weight training program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 119 Circuit Training
Prerequisites: None
Corequisites: None
Component: None
This course covers the skills necessary to participate in a developmental fitness program. Emphasis is placed on the circuit training method which involves a series of conditioning timed stations arranged for maximum benefit and variety. Upon completion, students should be able to understand and appreciate the role of circuit training as a means to develop fitness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 120 Walking for Fitness
Prerequisites: None
Corequisites: None
Component: None
This course introduces fitness through walking. Emphasis is placed on stretching, conditioning exercises, proper clothing, fluid needs, and injury prevention. Upon completion, students should be able to participate in a recreational walking program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 121 Walk, Jog, Run
Prerequisites: None
Corequisites: None
Component: None
This course covers the basic concepts involved in safely and effectively improving cardiovascular fitness. Emphasis is placed on walking, jogging, or running as a means of achieving fitness. Upon completion, students should be able to understand and appreciate the benefits derived from these activities. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 122 Yoga I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic discipline of yoga. Topics include proper breathing, relaxation techniques, and correct body positions. Upon completion, students should be able to demonstrate the procedures of yoga. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 123 Yoga II
Prerequisites: PED 122
Corequisites: None
Component: None
This course introduces more detailed aspects of the discipline of yoga. Topics include breathing and physical postures, relaxation, and mental concentration. Upon completion, students should be able to demonstrate advanced procedures of yoga. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 124 Run, Swim, Cycle
Prerequisites: None
Corequisites: None
Component: None
This course introduces the sport of the triathlon. Topics include the rules, equipment, and skills necessary for the triathlon. Upon completion, students should be able to participate in a triathlon competition. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 125 Self-Defense-Beginning
Prerequisites: None
Corequisites: None
Component: None
This course is designed to aid students in developing rudimentary skills in self-defense. Emphasis is placed on stances, blocks, punches, and kicks as well as non-physical means of self-defense. Upon completion, students should be able to demonstrate basic self-defense techniques of a physical and non-physical nature. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
PED 126 Self-Defense-Intermediate
Prerequisites: PED 125
Corequisites: None
Component: None
This course is designed to aid students in building on the techniques and skills developed in PED 125. Emphasis is placed on psychological and physiological responses to various encounters. Upon completion, students should be able to demonstrate intermediate skills in self-defense stances, blocks, punches, and kick combinations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 128 Golf-Beginning
Prerequisites: None
Corequisites: None
Component: None
This course emphasizes the fundamentals of golf. Topics include the proper grips, stance, alignment, swings for the short and long game, putting, and the rules and etiquette of golf. Upon completion, students should be able to perform the basic golf shots and demonstrate a knowledge of the rules and etiquette of golf. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 129 Golf-Intermediate
Prerequisites: PED 128
Corequisites: None
Component: None
This course covers the more advanced phases of golf. Emphasis is placed on refining the fundamental skills and learning more advanced phases of the game such as club selection, trouble shots, and course management. Upon completion, students should be able to demonstrate the knowledge and ability to play a recreational round of golf. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 130 Tennis-Beginning
Prerequisites: None
Corequisites: None
Component: None
This course emphasizes the fundamentals of tennis. Topics include basic strokes, rules, etiquette, and court play. Upon completion, students should be able to play recreational tennis. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 131 Tennis-Intermediate
Prerequisites: PED 130
Corequisites: None
Component: None
This course emphasizes the refinement of playing skills. Topics include continuing the development of fundamentals, learning advanced serves, and strokes and pace and strategies in singles and doubles play. Upon completion, students should be able to play competitive tennis. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 132 Racquetball-Beginning
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamentals of racquetball. Emphasis is placed on rules, fundamentals, and strategies of racquetball. Upon completion, students should be able to play recreational racquetball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 133 Racquetball-Intermediate
Prerequisites: PED 132
Corequisites: None
Component: None
This course covers more advanced racquetball techniques. Emphasis is placed on refining basic skills, performing advanced shots, and playing strategies for singles and doubles. Upon completion, students should be able to play competitive racquetball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 134 Fencing-Beginning
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamentals of fencing. Emphasis is placed on grip, stance, and establishment of good techniques for attacks and parries. Upon completion, students should be able to perform elementary foil techniques and demonstrate the basics of fencing. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 135 Fencing-Intermediate
Prerequisites: PED 134
Corequisites: None
Component: None
This course covers more advanced fencing techniques. Topics include advanced foil techniques and elementary sabre techniques. Upon completion, students should be able to participate in competitive fencing. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 136 Fencing-Intermediate
Prerequisites: PED 135
Corequisites: None
Component: None
This course covers more advanced fencing techniques. Topics include advanced foil techniques and elementary sabre techniques. Upon completion, students should be able to participate in competitive fencing. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 137 Badminton
Prerequisites: None
Corequisites: None
Component: None
This course covers the fundamentals of badminton. Emphasis is placed on the basics of serving, clears, drops, drives, smashes, and the rules and strategies of singles and doubles. Upon completion, students should be able to apply these skills in playing situations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 138 Archery
Prerequisites: None
Corequisites: None
Component: None
This course introduces basic archery safety and skills. Topics include proper techniques of stance, bracing, drawing, and releasing as well as terminology and scoring. Upon completion, students should be able to participate safely in target archery. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 139 Bowling-Beginning
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamentals of bowling. Emphasis is placed on ball selection, grips, stance, and delivery along with rules and etiquette. Upon completion, students should be able to participate in recreational bowling. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 140 Bowling-Intermediate
Prerequisites: PED 139
Corequisites: None
Component: None
This course covers the more advanced phases of bowling. Emphasis is placed on refining the fundamental skills and learning more advanced phases of the game such as club selection, trouble shots, and course management. Upon completion, students should be able to demonstrate safe bowling techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course covers more advanced bowling techniques. Emphasis is placed on refining basic skills and performing advanced shots, spins, pace, and strategy. Upon completion, students should be able to participate in competitive bowling. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 141 Tumbling and Gymnastics**

<table>
<thead>
<tr>

| This course provides practice in the basic skills of river and whitewater canoeing. Emphasis is placed on river running, safety, and care of equipment. Upon completion, students should be able to demonstrate navigation in a moving current, canoe safety, and self-rescue skills. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. |       |      |        |        |      |

| **PED 161 Canoeing-Rivers**                 |       |      |        |        | 00   |
| Prerequisites: PED 160                      |       |      |        |        | 02   |
| Corequisites: None                          |       |      |        |        | 00   |
| Component: None                             |       |      |        |        | 01   |
| This course provides practice in the basic skills of river and whitewater canoeing. Emphasis is placed on river running, safety, and care of equipment. Upon completion, students should be able to maneuver and demonstrate safe kayaking practices. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. |       |      |        |        |      |

| **PED 162 Kayaking-Basic**                  |       |      |        |        | 00   |
| Prerequisites: PED 162                      |       |      |        |        | 02   |
| Corequisites: None                          |       |      |        |        | 00   |
| Component: None                             |       |      |        |        | 01   |
| This course is designed to teach the basic skills of kayaking. Topics include forward and reverse strokes, sweeps, Eskimo roll, and self-rescue skills. Upon completion, students should be able to maneuver and demonstrate safe kayaking practices. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. |       |      |        |        |      |

| **PED 163 Kayaking-Intermediate**           |       |      |        |        | 00   |
| Prerequisites: PED 163                      |       |      |        |        | 02   |
| Corequisites: None                          |       |      |        |        | 00   |
| Component: None                             |       |      |        |        | 01   |
| This course covers the skills necessary to safely negotiate Class II and some Class III rapids. Topics include execution of a river roll, maneuvering, rescuing and retrieving kayaker and equipment. Upon completion, students should be able to safely negotiate Class II and some Class III rapids and perform all rescue skills. Some Class III rapids and perform all rescue skills. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. |       |      |        |        |      |

| **PED 164 Kayaking-Whitewater**             |       |      |        |        | 00   |
| Prerequisites: PED 164                      |       |      |        |        | 02   |
| Corequisites: None                          |       |      |        |        | 00   |
| Component: None                             |       |      |        |        | 01   |
| This course covers the skills necessary to safely negotiate Class II and some Class III rapids. Topics include execution of a river roll, maneuvering, rescuing and retrieving kayaker and equipment. Upon completion, students should be able to safely negotiate Class II and some Class III rapids and perform all rescue skills. Some Class III rapids and perform all rescue skills. | **PED 165 Sport Science as a Career**       |       |      |        |        | 03   |
| Prerequisites: Take DRE-097 or ENG 090 and RED 090 or Placement Test Equivalent |       |      |        |        |      |
| Corequisites: None                          |       |      |        |        | 00   |
| Component: None                             |       |      |        |        | 03   |
| This course provides students with foundational knowledge about the study of physical activity and career opportunities within the discipline. Emphasis will be placed on the role of physical activity, the subdisciplines of the field, and possible career choices. Upon completion, students should have an understanding of the subdisciplines and employment opportunities within an Exercise and Sport Science program. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement. |       |      |        |        |      |

| **PED 166 Orienteering**                    |       |      |        |        | 00   |
| Prerequisites: None                         |       |      |        |        | 02   |
| Corequisites: None                          |       |      |        |        | 00   |
| Component: None                             |       |      |        |        | 01   |
| This course introduces the various types of orienteering and proper orienteering techniques. Emphasis is placed on defining various types of orienteering and recognizing and drawing topographic map symbols. Upon completion, students should be able to draw topographic map symbols and negotiate a 3-5 km cross-country orienteering course in a specified time period. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. |       |      |        |        |      |

| **PED 167 Backpacking**                    |       |      |        |        | 00   |
| Prerequisites: None                         |       |      |        |        | 02   |
| Corequisites: None                          |       |      |        |        | 00   |
| Component: None                             |       |      |        |        | 01   |
| This course covers the proper techniques for establishing a campsite, navigating in the wilderness, and planning for an overnight trip. Topics include planning for meals, proper use of maps and compass, and packing |       |      |        |        |      |

This course introduces the fundamentals of snow skiing. Topics include basic techniques, safety, and equipment involved in snow skiing. Upon completion, students should be able to ski a down slope, enter and exit a ski lift, and perform basic maneuvers on skis. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 182 Snow Skiing Intermediate  
Prerequisites: PED 181  
Corequisites: None  
Component: None  
This course is designed to further develop snow skiing skills. Topics include selection and care of equipment, parallel skiing and turns, christies, advanced jumps, trail skiing, and slalom racing. Upon completion, students should be able to ski on varying terrains and snow conditions with control and safety. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 183 Folk Dancing  
Prerequisites: None  
Corequisites: None  
Component: None  
This course teaches the fundamental folk dance movements along with cultural traditions from various countries. Emphasis is placed on the history and traditions of the folk dance as well as the movements and the dances themselves. Upon completion, students should be able to demonstrate folk dances as well as knowledge of their origins and cultural traditions. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 184 Square Dancing I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the terminology and skills necessary to perform square dancing. Topics include working from squared sets-squared circles to squared throughs, right and left throughs, and Dixie Chains. Upon completion, students should be able to perform square dance routines and recognize the calls made for all formations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 185 Square Dancing II  
Prerequisites: PED 184  
Corequisites: None  
Component: None  
This course includes additional variations and forms of square dancing. Topics include such routines as turns, grand swing, triple trades, wheel and deal, T-cup chain, and arky change. Upon completion, students should be able to demonstrate and perform country and western square dance routines. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 186 Dancing for Fitness  
Prerequisites: None  
Corequisites: None  
Component: None  
This course is designed to develop movement and recreational dance skills, safety, fitness, coordination, and techniques used to teach various groups. Emphasis is placed on participation and practice with adapting dances for ages and ability levels. Upon completion, students should be able to demonstrate knowledge of fitness through social, folk, and square dance participation and instruction. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course introduces the fundamentals of popular social dances. Emphasis is placed on basic social dance techniques, dances, and a brief history of social dance. Upon completion, students should be able to demonstrate specific dance skills and perform some dances. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 188 Social Dance-Intermediate**
Prerequisites: PED 187
Corequisites: None
Component: None
This course covers advanced fundamentals of social dancing. Topics include rhythm, appearance, and routine sequence. Upon completion, students should be able to perform more difficult steps and types of dances. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 210 Team Sports**
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamentals of popular American team sports. Emphasis is placed on rules, equipment, and motor skills used in various sports. Upon completion, students should be able to demonstrate knowledge of the sports covered. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 211 New Games**
Prerequisites: None
Corequisites: None
Component: None
This course includes explanation, demonstration, and participation in games that provide an alternative to traditional sports. Emphasis is placed on playing for pleasure rather than for competitive purposes. Upon completion, students should be able to participate and lead others in participating in non-competitive games. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 217 Pilates I**
Prerequisites: None
Corequisites: None
Component: None
This course provides an introduction to the pilates method of body conditioning exercise. Topics include instruction in beginning and intermediate pilates exercises using a mat or equipment, history of the pilates method, and relevant anatomy and physiology. Upon completion, students should be able to perform beginning and intermediate exercises, and possess an understanding of the benefits of conditioning the body’s core muscles. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**PED 218 Pilates II**
Prerequisites: PED 217
Corequisites: None
Component: None
This course provides continued instruction in the pilates method of body conditioning exercise. Topics include instruction in intermediate and advanced pilates exercises using a mat or equipment, relevant anatomy and physiology, and further discussion of related concepts. Upon completion, students should be able to perform intermediate and advanced exercises, and possess the autonomy to maintain their own personal pilates practice.

**PED 220 Exercise for Physically Challenged**
Prerequisites: None
Corequisites: None
Component: None
This course is designed to improve physical strength, endurance, and range of motion while focusing on individual needs. Emphasis is placed on exercises which are designed and adapted to serve those with special needs. Upon completion, students should be able to show improved physical fitness, body awareness, and an appreciation for their physical well-being. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 240 Advanced PE Skills**
Prerequisites: None
Corequisites: None
Component: None
This course provides those who have mastered skills in a particular physical education area the opportunity to assist with instruction. Emphasis is placed on methods of instruction, class organization, and progressive skill development. Upon completion, students should be able to design, develop, and implement a unit lesson plan for a skill they have mastered. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 252 Officiating/Baseball/Softball**
Prerequisites: None
Corequisites: None
Component: None
This course introduces the rules and techniques for sports officiating in baseball and softball. Emphasis is placed on officiating fundamentals and responsibilities. Upon completion, students should be able to demonstrate proper mechanics and knowledge of officiating procedures in baseball and softball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 254 Coaching Basketball**
Prerequisites: None
Corequisites: None
Component: None
This course introduces the theory and methods of coaching basketball. Emphasis is placed on rules, game strategies, and selected techniques of coaching basketball. Upon completion, students should be able to demonstrate competent coaching skills in basketball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 256 Coaching Baseball**
Prerequisites: None
Corequisites: None
Component: None
This course introduces the theory and methods of coaching baseball. Emphasis is placed on rules, game strategies, and selected techniques of coaching baseball. Upon completion, students should be able to demonstrate competent coaching skills in baseball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 259 Prevention & Care of Athletic Injuries**
Prerequisites: None
Corequisites: None
Component: None
This course provides information on the prevention and care of athletic injuries. Topics include safety devices, taping, therapeutic techniques,

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
and conditioning exercises. Upon completion, students should be able to demonstrate proper preventive measures and skills in caring for athletic injuries. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PET 110 Introduction to PET**
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course introduces the students to the Positron Emission Tomography profession. Topics include the history of the profession and the role of the PET technologist, medical ethics and legal issues, and department organizations. Upon completion, students should be able to demonstrate a basic understanding of the PET profession through computerized exams and projects.

**PET 112 PET Procedures**
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course covers the procedures of Positron Emission Tomography. Topics include all relevant procedures related to PET imaging with an emphasis placed on oncology, neurology and cardiology. Upon completion, students should be able to demonstrate competence in PET procedures through computerized exams and projects.

**PHI 210 History of Philosophy**
Prerequisites: ENG 111
Corequisites: None
Component: None
This course introduces fundamental philosophical issues through an historical perspective. Emphasis is placed on such figures as Plato, Aristotle, Lao-Tzu, Confucius, Augustine, Aquinas, Descartes, Locke, Kant, Wollstonecraft, Nietzsche, and Sartre. Upon completion, students should be able to identify and distinguish among the key positions of the philosophers studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**PHI 215 Philosophical Issues**
Prerequisites: ENG 111
Corequisites: None
Component: None
This course introduces fundamental issues in philosophy considering the views of classical and contemporary philosophers. Emphasis is placed on knowledge and belief, appearance and reality, determinism and free will, faith and reason, and justice and inequality. Upon completion, students should be able to identify, analyze, and critically evaluate the philosophical components of an issue. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

**PHI 220 Western Philosophy I**
Prerequisites: ENG 111
Corequisites: None
Component: None
This course covers Western intellectual and philosophic thought from the early Greeks through the medievalists. Emphasis is placed on such figures as the pre-Socratics, Plato, Aristotle, Epicurus, Epictetus, Augustine, Suarez, Anselm, and Aquinas. Upon completion, students should be able to trace the development of leading ideas regarding reality, knowledge, reason, and faith. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**PHI 221 Western Philosophy II**
Prerequisites: ENG 111
Corequisites: None
Component: None
This course covers Western intellectual and philosophic thought from post-medievalists through recent thinkers. Emphasis is placed on such figures as Descartes, Spinoza, Leibnitz, Locke, Berkeley, Hume, Kant, Hegel, Marx, Mill, and representatives of pragmatism, logical positivism, and existentialism. Upon completion, students should be able to trace the development of leading ideas concerning knowledge, reality, science, society, and the limits of reason. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**PHI 230 Introduction to Logic**
Prerequisites: ENG 111
Corequisites: None
Component: None
This course introduces basic concepts and techniques for distinguishing between good and bad reasoning. Emphasis is placed on deduction, induction, validity, soundness, syllogisms, truth functions, predicate logic, analogical inference, common fallacies, and scientific methods. Upon completion, students should be able to analyze arguments, distinguish between deductive and inductive arguments, test validity, and appraise inductive reasoning. This course has been approved to satisfy the Comprehensive Articulation general education core requirement in humanities/fine arts.

**PHI 240 Introduction to Ethics**
Prerequisites: ENG 111
Corequisites: None
Component: None
This course introduces theories about the nature and foundations of moral judgments and applications to contemporary moral issues. Emphasis is placed on moral theories such as consequentialism, deontology, and virtue ethics. Upon completion, students should be able to apply various ethical theories to moral issues such as abortion, capital punishment, poverty, war, terrorism, the treatment of animals, and issues arising from new technologies. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

**PHM 110 Introduction to Pharmacy**
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course introduces pharmacy practice and the technician’s role in a variety of pharmacy settings. Topics include medical terminology and abbreviations, drug delivery systems, law and ethics, prescription and medication orders, and the health care system. Upon completion, students should be able to explain the role of pharmacy technicians, read and interpret drug orders, describe quality assurance, and utilize pharmacy references.

**PHM 111 Pharmacy Practice I**
Prerequisites: Departmental Approval
Corequisites: PHM 110 and PHM 115
Component: None
This course provides instruction in the technical procedures for preparing and dispensing drugs in the hospital and retail settings under supervision of a registered pharmacist. Topics include drug packaging and labeling, outpatient dispensing, hospital dispensing procedures, controlled substance procedures, inventory control, and non-sterile compounding. Upon completion, students should be able to perform basic supervised dispensing techniques in a variety of pharmacy settings.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
an understanding of pharmacy operations, utilize references, dispense with personnel, developing proper employee attitude, and dispensing of pharmacist’s supervision. Emphasis is placed on effective communication. This course provides an opportunity to work in pharmacy settings under a pharmacist’s supervision. Emphasis is placed on effective communication with personnel, developing proper employee attitude, and dispensing of medications. Upon completion, students should be able to demonstrate an understanding of pharmacy operations, utilize references, dispense medications, prepare patient charges, and efficiently operate computers.

PHM 115 Pharmacy Calculations
Prerequisites: Departmental Approval
Corequisites: None
This course provides an introduction to the metric, apothecaries, and apothecary systems of measurement and the calculations used in pharmacy practice. Topics include ratio and proportion, dosage determinations, percentage preparations, reducing and enlarging formulas, dilution and concentration, aliquots, specific gravity and density, and flow rates. Upon completion, students should be able to correctly perform calculations required to properly prepare a medication order.

PHM 115A Pharmacy Calculations Lab
Prerequisites: Department Approval
Corequisites: None
This course provides an opportunity to practice and perform calculations encountered in pharmacy practice. Emphasis is placed on ratio and proportion, dosage calculations, percentage, reduction/enlargement formulas, aliquots, flow rates, and specific gravity/density. Upon completion, students should be able to perform the calculations required to properly prepare a medication order.

PHM 118 Sterile Products
Prerequisites: PHM 110, PHM 111 and PHM 115
Corequisites: PHM 120, PHM 136, and PHM 155
Component: None
This course provides an introduction to intravenous admixture preparation and other sterile products, including total parenteral nutrition and chemotherapy. Topics include aseptic techniques; facilities, equipment, and supplies utilized in admixture preparation; incompatibility and stability; laminar flow hoods; immunizations and irrigation solutions; and quality assurance. Upon completion, students should be able to describe and demonstrate the steps involved in preparation of intermittent and continuous infusions, total parenteral nutrition, and chemotherapy.

PHM 120 Pharmacology I
Prerequisites: PHM 120
Corequisites: None
Component: None
This course introduces the study of the properties, effects, and therapeutic value of the primary agents in the major drug categories. Topics include nutritional products, blood modifiers, hormones, diuretics, cardiovascular agents, respiratory drugs, and gastrointestinal agents. Upon completion, students should be able to place major drugs into correct therapeutic categories and identify indications, side effects, and trade and generic names.

PHM 125 Pharmacology II
Prerequisites: PHM 120
Corequisites: None
Component: None
This course provides a continuation of the study of the properties, effects, and therapeutic value of the primary agents in the major drug categories. Topics include autonomic and central nervous system agents, anti-inflammatory agents, and anti-infective drugs. Upon completion, students should be able to place major drugs into correct therapeutic categories and identify indications, side effects, and trade and generic names.

PHM 136 Pharmacy Clinical
Prerequisites: PHM 110, PHM 111 and PHM 115
Corequisites: PHM 118, PHM 120 and PHM 155
Component: None
This course provides an opportunity to work in pharmacy setting under a pharmacist’s supervision. Emphasis is placed on effective communication with personnel, developing proper employee attitude, and dispensing of medications. Upon completion, students should be able to demonstrate an understanding of pharmacy operations, utilize references, dispense medications, prepare patient charges, and efficiently operate computers.

PHM 138 Pharmacy Clinical
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to work in pharmacy settings under a pharmacist’s supervision. Emphasis is placed on effective communication with personnel, developing proper employee attitude, and dispensing of medications. Upon completion, students should be able to demonstrate an understanding of pharmacy operations, utilize references, dispense medications, prepare patient charges, and efficiently operate computers.

PHM 140 Trends in Pharmacy
Prerequisites: PHM 136
Corequisites: PHM 125
Component: None
This course covers the major issues, trends, and concepts in contemporary pharmacy practice. Topics include professional ethics, continuing education, job placement, and the latest developments in pharmacy technician practice. Upon completion, students should be able to demonstrate a basic knowledge of the topics discussed.

PHM 150 Hospital Pharmacy
Prerequisites: None
Corequisites: PHM-118
Component: None
This course provides an in-depth study of hospital pharmacy practice. Topics include hospital organizational structure, committee functions, utilization of reference works, purchasing and inventory control, drug delivery systems, and intravenous admixture preparation. Upon completion, students should be able to explain hospital organization/committee functions, interpret and enter patient orders, fill unit-dose cassettes, and prepare intravenous admixtures.

PHM 155 Community Pharmacy
Prerequisites: PHM 110, PHM 111 and PHM 115
Corequisites: PHM 118, PHM 120, and PHM 136
Component: None
This course covers the operational procedures relating to retail pharmacy. Emphasis is placed on a general knowledge of over-the-counter products, prescription processing, business/inventory management, and specialty patient services. Upon completion, students should be able to provide technical assistance and support to the retail pharmacist.

PHM 160 Pharm Dosage Forms
Prerequisites: None
Corequisites: None
Component: None
This course is a study of pharmaceutical dosage forms and considerations in their manufacture. Topics include bioavailability, routes of administration, tablets, capsules, solutions, syrups, suspensions, elixirs, aerosols, transdermals, topicals, ophthalmics, otics, and other dosage forms. Upon completion, students should be able to describe the characteristics of the major dosage forms and explain how these characteristics affect the action of the drug.

PHM 165 Pharmacy Prof Practice
Prerequisites: None
Corequisites: None
Component: None
This course provides a general overview of all aspects of pharmacy technician practice. Emphasis is placed on pharmacy law, calculations, compounding, pharmacology, and pharmacy operations. Upon completion, students should be able to demonstrate competence in the areas required for the Pharmacy Technician Certification Examination.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This algebra-based course introduces fundamental physical concepts as applied in industrial and service technology fields. Emphasis is placed on systems of units, problem-solving methods, graphical analysis, static electricity, AC and DC circuits, magnetism, transformers, AC and DC motors, and generators. Upon completion, students should be able to demonstrate an understanding of the principles studied as applied in industrial and service fields.

PHY 125 Health Sciences Physics  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces fundamental physical principles as they apply to health technologies. Topics include motion, force, work, power, simple machines, and other topics as required by the students' area of study. Upon completion, students should be able to demonstrate an understanding of the fundamental principles covered as they relate to practical applications in the health sciences.

PHY 151 College Physics I  
Prerequisites: Take MAT 171  
Corequisites: None  
Component: None  
This course uses algebra- and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include units and measurement, vectors, linear kinematics and dynamics, energy, power, momentum, fluid mechanics, and heat. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

PHY 152 College Physics II  
Prerequisites: PHY 151  
Corequisites: None  
Component: None  
This course uses algebra- and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include electrostatic forces, electric fields, electric potentials, direct-current circuits, magnetostatic forces, magnetic fields, electromagnetic induction, alternating-current circuits, and light. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

PHY 251 General Physics I  
Prerequisites: MAT 271  
Corequisites: MAT 272  
Component: None  
This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include units and measurement, vector operations, linear kinematics and dynamics, energy, power, momentum, rotational mechanics, periodic motion, fluid mechanics, and heat. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
PHY 252 General Physics II
Prerequisites: MAT 272 and PHY 251
Corequisites: None
Component: None
This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include electrostatic forces, electric fields, electric potentials, direct-current circuits, magnetostatic forces, magnetic fields, electromagnetic induction, alternating-current circuits, and light. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

PLU 110 Modern Plumbing
Prerequisites: None
Corequisites: None
Component: PLU 110AA, PLU 110BB
This course introduces the tools, equipment, and materials associated with the plumbing industry. Topics include safety, use and care of tools, recognition and assembly of fittings and pipes, and other related topics. Upon completion, students should be able to safely assemble various pipes and fittings in accordance with state code requirements. requirements.

PLU 120 Plumbing Applications
Prerequisites: None
Corequisites: None
Component: None
This course covers general plumbing layout, fixtures, and water heaters. Topics include drainage, waste and vent pipes, water service and distribution, fixture installation, water heaters, and other related topics. Upon completion, students should be able to safely install common fixtures and systems in compliance with state and local building codes.

PLU 130 Plumbing Systems
Prerequisites: None
Corequisites: None
Component: None
This course covers the maintenance and repair of plumbing lines and fixtures. Emphasis is placed on identifying and diagnosing problems related to water, drain and vent lines, water heaters, and plumbing fixtures. Upon completion, students should be able to identify and diagnose needed repairs to the plumbing system.

PLU 140 Introduction to Plumbing Codes
Prerequisites: None
Corequisites: None
Component: None
This course covers plumbing industry codes and regulations. Emphasis is placed on North Carolina regulations and the minimum requirements for plumbing materials and design. Upon completion, students should be able to research and interpret North Carolina plumbing codes.

PLU 150 Plumbing Diagrams
Prerequisites: PLU 110
Corequisites: None
Component: None
This course introduces sketching diagrams and interpretation of blueprints applicable to the plumbing trades. Emphasis is placed on plumbing plans for domestic and/or commercial buildings. Upon completion, students should be able to sketch plumbing diagrams applicable to the plumbing trades.

POL 110 Introduction to Political Science
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test
Corequisites: None
Component: None
This course introduces basic political concepts used by governments and addresses a wide range of political issues. Topics include political theory, ideologies, legitimacy, and sovereignty in democratic and non-democratic systems. Upon completion, students should be able to discuss a variety of issues inherent in all political systems and draw logical conclusions in evaluating these systems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

POL 120 American Government
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test
Corequisites: None
Component: None
This course is a study of the origins, development, structure, and functions of American government. Topics include the constitutional framework, federalism, the three branches of government including the bureaucracy, civil rights and liberties, political participation and behavior, and policy process. Upon completion, students should be able to demonstrate an understanding of the basic concepts and participatory processes of the American political system. This course has been approved for transfer under the CAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences.

POL 130 State & Local Government
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test
Corequisites: None
Component: None
This course covers state and local political institutions and practices in the context of American federalism. Emphasis is placed on procedural and policy differences as well as political issues in state, regional, and local governments of North Carolina. Upon completion, students should be able to identify and discuss various problems associated with intergovernmental politics and their effect on the community and the individual. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

POL 210 Comparative Government
Prerequisites: ENG-111
Corequisites: None
Component: None
This course provides a cross-national perspective on the government and politics of contemporary nations such as Great Britain, France, Germany, and Russia. Topics include each country’s historical uniqueness, key institutions, attitudes and ideologies, patterns of interaction, and current political problems. Upon completion, students should be able to identify and compare various nations’ governmental structures, processes, ideologies, and capacity to resolve major problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

POL 220 International Relations
Prerequisites: ENG-111
Corequisites: None
Component: None
This course provides a study of the effects of ideologies, trade, armaments, and alliances on relations among nation-states. Emphasis is placed on regional and global cooperation and conflict, economic development, trade, non-governmental organizations, and international institutions such as the World Court and UN. Upon completion, students should be able to identify and discuss major international relationships, institutions, and problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
### PSF 110 Exercise Science
Prerequisites: None
Corequisites: None
Component: None
This course is a survey of scientific principles, methodologies, and research as applied to exercise and physical adaptations to exercise. Topics include the basic elements of kinesiology, biomechanics, and motor learning. Upon completion, students should be able to identify and describe physiological responses and adaptations to exercise.

### PSF 111 Fitness & Exer Testing I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the student to graded exercise testing. Topics include various exercise testing protocols with methods for prescribing exercise programs based on exercise tolerance tests and the use of various equipment and protocols. Upon completion, students should be able to conduct specific exercise tests and the use of various equipment.

<table>

### PSF 116 Pnt & Care Exer Injuries
Prerequisites: None
Corequisites: None
Component: None
This course provides information about the care and prevention of exercise injuries. Topics include proper procedures, prevention techniques, and on-site care of injuries. Upon completion, students should be able to demonstrate the knowledge and skills necessary to prevent and care for exercise related injuries.

### PSF 118 Fitness Facility Mgmt
Prerequisites: None
Corequisites: None
Component: None
This course provides information about the management and operation of health and fitness facilities and programs. Topics include human resources, sales and marketing, member retention, financial management, facility design and maintenance, and risk management. Upon completion, students should be able to demonstrate the knowledge and skills necessary to effectively manage a fitness facility.

### PSF 120 Group Exer Instruction
Prerequisites: Take PSF 110
Corequisites: None
Component: None
This course introduces the concepts and guidelines of instructing exercise classes. Topics include program designs, working with special populations, and principles of teaching and monitoring physical activity. Upon completion, students should be able to demonstrate basic skills in instructing an exercise class and monitoring workout intensity.

<table>

### PSF 212 Exercise Programming
Prerequisites: Take PSF 110
Corequisites: None
Component: None
This course provides information about organizing, scheduling, and implementation of physical fitness programs. Topics include programming for various age groups, competitive activities and special events, and evaluating programs. Upon completion, students should be able to organize and implement exercise activities in a competent manner.

<table>

### PSY 101 Applied Psychology
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic principles of psychology as they apply to daily life. Topics include perception, emotions, motivation, adjustment, behavior management, communication, and related topics that promote growth and development on the job and in one's personal life. Upon completion, students should be able to apply the principles learned in this class to everyday living. This course is intended for certificate and diploma programs.

### PSY 110 Life Span Development
Prerequisites: None
Corequisites: None
Component: None
This course provides an introduction to the study of human growth and development. Emphasis is placed on the physical, cognitive, and psychosocial aspects of development from conception to death. Upon completion, students should be able to demonstrate knowledge of development across the life span and apply this knowledge to their specific field of study.

<table>

### PSY 118 Interpersonal Psychology
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic principles of psychology as they apply to personal and professional development. Emphasis is placed on personality traits, communication/leadership styles, effective problem solving, and cultural diversity as they apply to personal and work environments. Upon completion, students should be able to demonstrate an understanding of these principles of psychology as they apply to personal and professional development.

### PSY 141 Psychology of Death and Dying
Prerequisites: None
Corequisites: None
Component: None
This course presents psychological perspectives on death and dying. Topics include the culturally diverse aspects of death and the grieving process, adjustment mechanisms, interventions, and the psychological and ethical dimensions of death and dying. Upon completion, students should be able to demonstrate an understanding of the psychosocial aspects of death and dying.

### PSY 150 General Psychology
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides an overview of the scientific study of human behavior. Topics include history, methodology, biopsychology, sensation, perception, learning, motivation, cognition, abnormal behavior, personality theory, social psychology, and other relevant topics. Upon completion, students should be able to demonstrate a basic knowledge of the science of psychology. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
**PSY 211 Psychology of Adjustment**  
Prerequisites: PSY 150  
Corequisites: None  
Component: None  
This course introduces the study of the adjustment process focusing on contemporary challenges individuals must deal with in everyday life. Topics include theories of behavior, career choices, self-understanding, coping mechanisms, human relationships, intimacy, sociocultural factors influencing healthy personal adjustment, and other related topics. Upon completion, students should be able to demonstrate an awareness of the processes of adjustment. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**PSY 231 Forensic Psychology**  
Prerequisites: PSY-150  
Corequisites: None  
Component: None  
This course introduces students to concepts which unite psychology and the legal system. Topics include defining competency, insanity, involuntary commitment, as well as introducing forensic assessment techniques, such as interviewing process, specialized assessments, and collecting collateral information. Upon completion, students should be able to demonstrate knowledge in areas of forensic psychology: risk assessment, criminal competencies, insanity, psychopathology, and mentally disordered offenders. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**PSY 237 Social Psychology**  
Prerequisites: PSY 150 or SOC 210  
Corequisites: None  
Component: None  
This course introduces the study of individual behavior within social contexts. Topics include affiliation, attitude formation and change, conformity, altruism, aggression, attribution, interpersonal attraction, and group behavior. Upon completion, students should be able to demonstrate an understanding of the basic principles of social influences on behavior. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**PSY 239 Psychology of Personality**  
Prerequisites: PSY 150  
Corequisites: None  
Component: None  
This course covers major personality theories and personality research methods. Topics include psychoanalytic, behavioristic, social learning, cognitive, humanistic, and trait theories including supporting research. Upon completion, students should be able to compare and contrast traditional and contemporary approaches to the understanding of individual differences in human behavior. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**PSY 241 Developmental Psychology**  
Prerequisites: PSY 150  
Corequisites: None  
Component: None  
This course is a study of human growth and development. Emphasis is placed on major theories and perspectives as they relate to the physical, cognitive, and psychosocial aspects of development from conception to death. Upon completion, students should be able to demonstrate knowledge of development across the life span. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**PSY 243 Child Psychology**  
Prerequisites: PSY 150  
Corequisites: None  
Component: None  
This course provides an overview of physical, cognitive, and psychosocial development from conception through adolescence. Topics include theories and research, interaction of biological and environmental factors, language development, learning and cognitive processes, social relations, and moral development. Upon completion, students should be able to identify typical and atypical childhood behavior patterns as well as appropriate strategies for interacting with children. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PSY 246 Adolescent Psychology**  
Prerequisites: PSY 150  
Corequisites: None  
Component: None  
This course provides an overview of the behavior patterns, life changes, and social issues that accompany the developmental stage of adolescence. Topics include developmental theories; physical, cognitive and psychosocial growth; transitions to young adulthood; and sociocultural factors that influence adolescent roles in home, school and community. Upon completion, students should be able to identify typical and atypical adolescent behavior patterns as well as appropriate strategies for interacting with adolescents. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PSY 247 Psychology of Adulthood**  
Prerequisites: PSY 150  
Corequisites: None  
Component: None  
This course examines the major theories and patterns of adult development from young adulthood to late adulthood. Topics include physical, cognitive, and psychosocial changes with an emphasis on relationships, family patterns, work roles, community interactions, and the challenges of each stage of adulthood. Upon completion, students should be able to demonstrate a knowledge of adult development and an ability to apply this knowledge to their own lives. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PSY 249 Psychology of Aging**  
Prerequisites: PSY 150  
Corequisites: None  
Component: None  
This course covers the particular needs and behaviors of the maturing adult. Emphasis is placed on psychosocial processes; biological and intellectual aspects of aging; adjustments to retirement, dying, bereavement; and the stereotypes and misconceptions concerning the elderly. Upon completion, students should be able to show an understanding of the psychological factors related to the aging process. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PSY 255 Introduction to Exceptionality**  
Prerequisites: PSY 150  
Corequisites: None  
Component: None  
This course introduces the psychology of the exceptional person. Topics include theoretical perspectives, terminology, and interventions pertaining to various handicapping conditions as well as the resulting psychosocial adjustments. Upon completion, students should be able to demonstrate a basic understanding of the potentials and limitations of the exceptional person.

---

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academic_services/index.aspx](http://www.faytechcc.edu/academic_services/index.aspx).
This course provides an examination of the various psychological disorders, as well as theoretical, clinical, and experimental perspectives of the study of psychopathology. Emphasis is placed on terminology, classification, etiology, assessment, and treatment of the major disorders. Upon completion, students should be able to distinguish between normal and abnormal behavior patterns as well as demonstrate knowledge of etiology, symptoms, and therapeutic techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

PSY 259 Human Sexuality 03 00 00 03
Prerequisites: PSY 150
Corequisites: None
Component: None
This course provides the biological, psychological, and sociocultural aspects of human sexuality and related research. Topics include reproductive biology, sexual and psychosexual development, sexual orientation, contraception, sexually transmitted diseases, sexual disorders, theories of sexuality, and related issues. Upon completion, students should be able to demonstrate an overall knowledge and understanding of human sexuality. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PSY 263 Educational Psychology 03 00 00 03
Prerequisites: PSY 150
Corequisites: None
Component: None
This course examines the application of psychological theories and principles to the educational process and setting. Topics include learning and cognitive theories, achievement motivation, teaching and learning styles, teacher and learner roles, assessment, and developmental issues. Upon completion, students should be able to demonstrate an understanding of the application of psychological theory to educational practice. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PSY 265 Behavioral Modification 03 00 00 03
Prerequisites: PSY 150
Corequisites: None
Component: None
This course is an applied study of factors influencing human behavior and strategies for behavioral change. Emphasis is placed on cognitive-behavioral theory, behavioral assessment, practical applications of conditioning techniques, and maintenance of adaptive behavior patterns. Upon completion, students should be able to implement basic learning principles to effect behavioral changes in self and others.

PSY 271 Sports Psychology 03 00 00 03
Prerequisites: PSY 150
Corequisites: None
Component: None
This course provides an overview of the field of sports and exercise psychology. Topics include concentration, goal setting, arousal level, exercise psychology, mental imagery, confidence, and other issues related to sport and exercise performance. Upon completion, students should be able to demonstrate a knowledge of psychological factors involved in sport and exercise. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PSY 275 Health Psychology 03 00 00 03
Prerequisites: PSY 150
Corequisites: None
Component: None
This course covers the biopsychosocial dynamics of stress and the maintenance of good health. Topics include enhancing health and well-being, stress management, lifestyle choices and attitudes, the mind-body relationship, nutrition, exercise, and fitness. Upon completion, students should be able to demonstrate an understanding of the psychological factors related to health and well-being. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PSY 281 Abnormal Psychology 03 00 00 03
Prerequisites: PSY 150
Corequisites: None
Component: None
This course provides an examination of the various psychological disorders, as well as theoretical, clinical, and experimental perspectives of the study.
PTA 160 Physical Therapy Procedures III
Prerequisites: PTA 150
Corequisites: PTA 170 and PTA 180AA
Component: None
This course introduces treatment and measurement techniques and discusses treatment programs for selected neuromusculoskeletal dysfunction and injuries. Topics include soft tissue and joint dysfunction, selected assessment techniques, and various exercise programs. Upon completion, students should be able to demonstrate the application of selected data collection methods and functional interventions.

PTA 170 Pathophysiology
Prerequisites: None
Corequisites: PTA 160 and PTA 180AA
Component: None
This course is a survey of basic pathology with emphasis on conditions most frequently observed and treated in physical therapy. Topics include etiology, pathology, manifestation, treatment, and prognosis. Upon completion, students should be able to explain repair processes, categorize diseases, define pathology, identify organ/body systems involved, and discuss treatment and prognosis.

PTA 180 PTA Clinical Education Introduction
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course introduces the physical therapy clinic in planned learning experiences and practice under supervision. Emphasis is placed on reinforcement of learned skills in direct patient care and communication. Upon completion, students should be able to demonstrate satisfactory performance in learned patient care skills, communication activities, and professional behaviors. PTA 180A must be completed satisfactorily before registering for PTA 180B.

PTA 212 Health Care/Resources
Prerequisites: PTA 222
Corequisites: PTA 260
Component: None
This course provides an overview of various aspects of health care delivery systems and the interrelationships of health care team members. Topics include health agencies and their functions, health care team member roles, management, and other health care issues. Upon completion, students should be able to discuss the functions of health organizations and team members and aspects of health care affecting physical therapy delivery.

PTA 222 Professional Interactions
Prerequisites: PTA 160
Corequisites: None
Component: None
This course is designed to assist in the development of effective interpersonal skills in the physical therapist assistant setting. Topics include reactions to disability, the grieving process, methods of communication, motivation, health promotion, disease prevention, and aging. Upon completion, students should be able to discuss and demonstrate methods for achieving effective interaction with patients, families, the public, and other health care providers.

PTA 240 Physical Therapy Procedures IV
Prerequisites: None
Corequisites: None
Component: None
This course covers normal development, adult and pediatric/CNS dysfunction, spinal cord injuries, amputee rehabilitation techniques, and cardiopulmonary rehabilitation. Topics include neurology review, selected rehabilitation techniques, ADL and functional training, prosthetic and orthotic training, and environmental access. Upon completion, students should be able to demonstrate safe and correct application of selected rehabilitation techniques for neurological dysfunction, cardiopulmonary conditions, and amputations.

PTA 260 Advanced PTA Clinical Education
Prerequisites: PTA 180AA and PTA 180BB
Corequisites: PTA 212
Component: None
This course provides full-time clinical affiliations for planned learning experiences and practice under supervision. Emphasis is placed on reinforcement of learned skills in direct patient care, communications, and professional behaviors. Upon completion, students should be able to demonstrate satisfactory performance as an entry-level physical therapist assistant and as a member of the physical therapy team.

RAD 110 RAD Introduction & Patient Care
Prerequisites: Departmental Approval
Corequisites: RAD 111 and RAD 151
Component: None
This course provides an overview of the radiography profession and student responsibilities. Emphasis is placed on basic principles of patient care, radiation protection, technical factors, and medical terminology. Upon completion, students should be able to demonstrate basic skills in these areas.

RAD 111 RAD Procedures I
Prerequisites: Departmental Approval
Corequisites: All courses required: RAD 110 and RAD 151
Component: None
This course provides the knowledge and skills necessary to perform standard radiographic procedures. Emphasis is placed on radiography of the chest, abdomen, extremities, spine, and pelvis. Upon completion, students should be able to demonstrate competence in these areas.

RAD 112 RAD Procedures II
Prerequisites: All courses required: RAD 110, RAD 111 and RAD 151
Corequisites: RAD 121 and RAD 161
Component: None
This course provides the knowledge and skills necessary to perform standard radiographic procedures. Emphasis is placed on radiography of the skull, bony thorax, and gastrointestinal, biliary, and urinary systems. Upon completion, students should be able to demonstrate competence in these areas.

RAD 121 Radiographic Imaging I
Prerequisites: All courses required: RAD 110, RAD 111 and RAD 151
Corequisites: None
This course provides the principles of conventional film-screen radiography. Emphasis is placed on the factors that impact density, contrast, recorded detail, and distortion. Upon completion, students should be able to demonstrate an understanding of conventional film-screen radiographic imaging.

RAD 122 Radiographic Imaging II
Prerequisites: All courses required: RAD 112, RAD 121 and RAD 161
Corequisites: RAD 131 and RAD 171
Component: None
This course provides advanced principles of imaging including digital radiography. Emphasis is placed on the factors that impact brightness, contrast, recorded detail, and distortion. Upon completion, students should be able to demonstrate an understanding of advanced principles of imaging.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
Topics include the effects of ionizing radiation on body tissues, protective measures for limiting exposure to the patient and personnel, and radiation production.

This course covers the principles of radiation protection and radiobiology.

Emphasis is placed on applying appropriate technical factors to all studies and mastering positioning of the spine, pelvis, head and neck, and thorax and adapting procedures to meet patient variations. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

This course provides experience in patient management specific to pediatric and geriatric variations, and a further awareness of radiation protection requirements. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

This course introduces the principles of radiation characteristics and production. Emphasis is placed on imaging equipment. Upon completion, students should be able to demonstrate a basic understanding of radiation characteristics and production.

This course introduces patient management and basic radiographic procedures in the clinical setting. Emphasis is placed on mastering positioning of the chest and extremities, manipulating equipment, and applying principles of ALARA. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

Emphasis is placed on mastering positioning of the chest and extremities, manipulating equipment, and applying principles of ALARA. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

This course introduces the principles of radiation characteristics and production. Emphasis is placed on imaging equipment. Upon completion, students should be able to demonstrate a basic understanding of radiation characteristics and production.

This course introduces the respiratory care profession. Topics include the role of the respiratory care practitioner, medical gas administration, basic patient assessment, infection control, and medical terminology. Upon completion, students should be able to demonstrate competence in concepts and procedures through written and laboratory evaluations.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course introduces the major Asian religious traditions. Topics include Hinduism, Buddhism, Taoism, Confucianism, and Shinto. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

REL 211 Introduction to Old Testament 03 00 00 03
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is a survey of the literature of the Hebrews with readings from the law, prophets, and other writings. Emphasis is placed on the use of literary, historical, archeological, and cultural analysis. Upon completion, students should be able to use the tools of critical analysis to read and understand Old Testament literature. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

REL 221 Religion in America 03 00 00 03
Prerequisites: ENG-111
Corequisites: None
Component: None
This course is an examination of religious beliefs and practice in the United States. Emphasis is placed on mainstream religious traditions and non-traditional religious movements from the Colonial period to the present. Upon completion, students should be able to recognize and appreciate the diversity of religious traditions in America. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

RUS 111 Elementary Russian I 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental elements of the Russian language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Russian and to demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.
### RUS 112 Elementary Russian II
Prerequisites: RUS 111
Corequisites: None
Component: None
This course is a continuation of RUS 111 focusing on the fundamental elements of the Russian language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Russian and to demonstrate further cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

### RUS 181 Russian Lab 1
Prerequisites: None
Corequisites: None
Component: None
This course is a continuation of RUS 111 focusing on the fundamental elements of the Russian language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Russian and to demonstrate further cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

### RUS 182 Russian Lab 2
Prerequisites: RUS 181
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the Russian language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Russian and to demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

### RUS 211 Intermediate Russian I
Prerequisites: RUS 112
Corequisites: None
Component: None
This course provides a review and expansion of the essential skills of the Russian language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

### RUS 212 Intermediate Russian II
Prerequisites: RUS 211
Corequisites: None
Component: None
This course provides a continuation of RUS 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

### SEC 110 Security Concepts
Prerequisites: Take DMA 040 and RED 096 or ENG 070, MAT 070, and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the concepts and issues related to securing information systems and the development of policies to implement information security controls. Topics include the historical view of networking and security, security issues, trends, security resources, and the role of policy, people, and processes in information security. Upon completion, students should be able to identify information security risks, create an information security policy, and identify processes to implement and enforce policy.

### SEC 150 Secure Communications
Prerequisites: Take SEC 110 and NET 110 or NET 125.
Corequisites: None
Component: None
This course provides an overview of current technologies used to provide secure transport of information across networks. Topics include data integrity through encryption, Virtual Private Networks, SSL, SSH, and IPSec. Upon completion, students should be able to implement secure data transmission technologies.

### SEC 160 Secure Admin I
Prerequisites: Take SEC 110 and NET 110 or NET 125.
Corequisites: None
Component: None
This course provides an overview of security administration and fundamentals of designing security architectures. Topics include networking technologies, TCP/IP concepts, protocols, network traffic analysis, monitoring, and security best practices. Upon completion, students should be able to identify normal network traffic using network analysis tools and design basic security defenses.

SEC 191S Selected Topics in Security
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to explore areas of current interest in specific program or discipline areas. Emphasis is placed on subject matter appropriate to the program or discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

SEC 210 Intrusion Detection
Prerequisites: SEC 160
Corequisites: None
Component: None
This course introduces the student to intrusion detection methods in use today. Topics include the types of intrusion detection products, traffic analysis, and planning and placement of intrusion detection solutions. Upon completion, students should be able to plan and implement intrusion detection solutions for networks and host-based systems.

SEC 220 Defense-In-Depth
Prerequisites: None
Corequisites: SEC 160
Component: None
This course introduces students to the concepts of defense-in-depth, a security industry best practice. Topics include firewalls, backup systems, redundant systems, disaster recovery, and incident handling. Upon completion, students should be able to plan effective information security defenses, backup systems, and disaster recovery procedures. This course is restricted to the Information Systems Security, the Information Systems Security/Operating Systems, and the Information Systems Security/Security Hardware curriculums.

SEC 240 Wireless Security
Prerequisites: Take SEC 110, NET 175, DMA 040, and DRE 096 or ENG 070, MAT 070, and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces security principles and topics related to the wireless networking environment. Topics include network topologies, network protocols, security issues, and best practices for wireless environments. Upon completion, students should be able to design, setup, manage, and secure a wireless network.

SEC 289 Security Capstone Project
Prerequisites: Take SEC 220, DMA 040, and DRE 096 or ENG 070, MAT 070, and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides the student the opportunity to put into practice all the skills learned at this point. Emphasis is placed on security policy, process planning, procedure definition, business continuity, and systems security architecture. Upon completion, students should be able to design and implement comprehensive information security architecture from the planning and design phase through implementation. This course is restricted to the Information Systems Security, the Information Systems Security/Operating Systems, and the Information Systems Security/Security Hardware curriculums.

SGD 111 Introduction to SGD
Prerequisites: Take DMA 040 or MAT 070
Corequisites: None
Component: None
This course provides students with an introduction to simulation and game development. Topics include setting, story telling, narrative, character design, interface design, game play, internal economy, core mechanics, game genres, AI, the psychology of game design and professionalism. Upon completion, students should be able to demonstrate knowledge of the major aspects of simulation and game design and development.

SGD 112 SGD Design
Prerequisites: Take DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
Corequisites: SGD 111
Component: None
This course introduces the fundamentals of simulation and game design. Topics include industry standards and design elements for simulations and games. Upon completion, students should be able to design simple simulations and/or games.

SGD 113 SGD Programming
Prerequisites: Take DMA 040 or MAT 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the fundamentals of programming languages and tools employed in simulation and game development. Emphasis is placed on programming concepts used to create simulations and games. Upon completion, students should be able to program simple games and/or simulations.

SGD 114 3D Modeling
Prerequisites: None
Corequisites: None
Component: None
This course introduces the tools required to create three dimensional (3D) models. Emphasis is placed on exploring tools used to create 3D models. Upon completion, students should be able to create and animate 3D models using 3D modeling tools.

SGD 116 Graphic Design Tools
Prerequisites: None
Corequisites: None
Component: None
This course introduces students to computer-based graphic design tools and their use within the context of simulation and game design. Topics include texture creation, map creation, and introduction to advanced level graphic design techniques. Upon completion, students should be able to competently use and explain industry-standard graphic design software.

SGD 122 SG Database Programming
Prerequisites: Take SGD 113
Corequisites: None
Component: None
This course covers the creation and application of databases for simulation and game development. Emphasis is placed on various database and software development kits. Upon completion, students should be able to apply their knowledge of databases to the creation of simulations and games.

SGD 125 SG Artificial Intellig
Prerequisites: CSC 153 and MAT 171
Corequisites: None
Component: None
This course introduces the artificial intelligence concepts related to simulation and game development. Emphasis is placed on expert systems. Upon completion, students should be able to describe the basic concepts and procedures related to the development of artificial intelligence systems used in simulations and games.

SGD 134 SG Quality Assurance
Prerequisites: None
Corequisites: None
Component: None
This course provides an introduction to software quality assurance as it relates to simulation and game development. Emphasis is placed on designing testing tools, bug databases, and on learning methodologies required for systematic, detail-oriented testing procedures for the simulation and game industry. Upon completion, students should be able to demonstrate the proper skills to obtain a job as a quality assurance tester in the simulation/game industry.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
SGD 158 SGD Business Management 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the business side of the interactive game industry. Emphasis will be placed on licenses, serious games, psychological profiling, publisher/developer relations, and contract negotiation skills. Upon completion, students should be able to understand how a game evolves from concept to the customer.

SGD 159 SGD Production Management 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the techniques and methods used in interactive game production and how to manage a project. Emphasis is placed on scheduling, production plans, marketing and budgeting. Upon completion, students should be able to manage a team, track production, and understand the process of project management.

SGD 161 SG Animation 02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental principles of animation used in simulation and game development. Emphasis is placed on acquiring advanced programming skills for use in creating simulations and games. Upon completion, students should be able to create a simple simulation or game.

SGD 162 SG 3D Animation 02 03 00 03
Prerequisites: SGD 114
Corequisites: None
Component: None
This course introduces the fundamental principles of 3D animation used in simulation and game development. Emphasis is placed on acquiring advanced programming skills for use in creating simulations and games. Emphasis is placed on scheduling, production plans, marketing and budgeting. Upon completion, students should be able to produce character sketches, morph simple objects, create walk and run cycles and develop professional storyboards.

SGD 163 SG Documentation 02 03 00 03
Prerequisites: None
Corequisites: SGD 212
Component: None
This course introduces the techniques and methods used to create simulation and game production and design documents. Emphasis is placed on the design document to include scheduling, production plans, marketing and budgeting. Upon completion, students should be able to create design and produce documents for any simulation or game.

SGD 164 SG Audio/Video 02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces various aspects of audio and video and their application in simulations and games. Topics include techniques for producing and editing audio and video for multiple digital mediums. Upon completion, students should be able to produce and edit audio and video for simulations and games.

SGD 168 Mobile SG Programming I 02 03 00 03
Prerequisites: SGD 113
Corequisites: None
Component: None
This course introduces the mobile simulation and game programming process. Topics include mobile simulation/game programming, performance tuning, animation, sound effects, music, and mobile networks. Upon completion, students should be able to apply simulation/game programming concepts to the creation of mobile simulations and games.

SGD 170 Flash SG Programming 02 03 00 03
Prerequisites: SGD 113
Corequisites: None
Component: None
This course introduces the Flash programming environment for use in simulation and game development. Topics include timeline effects, extensibility layers, alias text, globalization tools, ActionScript and lingo programming. Upon completion, students should be able to create a simple simulation or game using Flash.

SGD 171 Flash SG Programming 02 03 00 03
Prerequisites: SGD 113
Corequisites: None
Component: None
This course introduces the Flash programming environment for use in simulation and game development. Topics include timeline effects, extensibility layers, alias text, globalization tools, ActionScript and lingo programming. Upon completion, students should be able to create a simple simulation or game using Flash.

SGD 172 Virtual SG Environments 02 03 00 03
Prerequisites: SGD 114 and CSC134, CSC151, CSC153 or SGD113
Component: None
This course covers the use of virtual reality tools and techniques in simulation and game development. Emphasis is placed on acquiring the skills necessary to create scalable virtual characters and environments for use in simulations and games. Upon completion, students should be able to create a simple game or simulation in a virtual environment.

SGD 174 SG Level Design 02 03 00 03
Prerequisites: Take SGD 111
Corequisites: None
Component: None
This course introduces the tools used to create levels for real-time simulations and games. Topics include level design, architecture theory, modeling for 3D engines and texturing methods. Upon completion, students should be able to design simple levels using industry standard tools.

SGD 181 Machinima 02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers machinima techniques in the simulation and game industry. Emphasis is placed on developing movies and animations within industry-standard game engines for simulations and games. Upon completion, students should be able to demonstrate a basic understanding of in-game cinematic creation.

SGD 210 3D Data Capture 02 03 00 03
Prerequisites: SGD 114
Corequisites: None
Component: None
This course introduces students to the tools used to capture data in a 3D environment. Emphasis is placed on capturing data from motion capture and/or 3D scanning devices for use in 3D models and animations. Upon completion, students should be able to capture data from a 3D environment and import for use in 3D models, simulations, and animations.

SGD 212 SGD Design II 02 03 00 03
Prerequisites: SGD 112
Corequisites: None
Component: None
The course covers the advanced principles of simulation and game design. Topics include advanced design concepts in simulation and game development. Upon completion, students should be able to design an advanced simulation or game.

SGD 213 SGD Programming II 02 03 00 03
Prerequisites: SGD 113, CSC-134, CSC-151, or CSC-153
Corequisites: None
Component: None
The course covers advanced programming concepts used to create simulations and games. Emphasis is placed on acquiring advanced programming skills for use in creating simulations and games. Upon completion, students should be able to program an advanced simulation or game.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
SGD 214 3D Modeling II  
Prerequisites: SGD-114  
Corequisites: None  
Component: None  
This course introduces the tools used to create and animate advanced 3 dimensional models. Emphasis is placed on identifying and utilizing the tools required to create and animate advanced 3D models. Upon completion, students should be able to create and animate advanced 3D models using 3D modeling tools.  

SGD 244 3D Modeling III  
Prerequisites: Take SGD-214  
Corequisites: None  
Component: None  
This course is designed to further a student’s knowledge in creating visually compelling 3D models through the use of industry-standard software. Emphasis is placed on learning how to develop accurate textures and normal maps. Upon completion, students should be able to develop industry caliber 3D models.  

SGD 268 Mobile SG Programming II  
Prerequisites: SGD-168  
Corequisites: None  
Component: None  
This course introduces advanced mobile simulation and game programming processes. Topics include advanced mobile simulation/game platforms, performance tuning, animation, sound effects, music, and mobile networks. Upon completion, students should be able to apply advanced simulation/game programming concepts to the creation of mobile simulations and games.  

SGD 271 Adv Flash Programming  
Prerequisites: SGD 171  
Corequisites: None  
Component: None  
This course is designed to expand students’ previous knowledge of the Flash programming environment. Emphasis is placed on learning advanced Flash techniques for use in the simulation and game industry. Upon completion, students should be able to create industry-quality simulations or games using Flash.  

SGD 274 SG Level Design II  
Prerequisites: SGD 174  
Corequisites: None  
Component: None  
This course introduces the advanced tools used to create levels for real-time simulations and games. Topics include advanced level design and architecture theory, concepts related to “critical path” and “flow,” game balancing, playtesting and storytelling. Upon completion, students should be able to design complex levels using industry standard tools.  

SGD 285 SG Software Engineering  
Prerequisites: Take One: SGD-212, SGD-213, or SGD-214  
Corequisites: None  
Component: None  
This course introduces object oriented software engineering concepts related to simulation and game development. Topics include systematic approaches to the development, operation and maintenance of simulations and games. Upon completion, students should be able to apply software engineering techniques to the development of simulations and games.  

SGD 289 SGD Project  
Prerequisites: SGD 212, SGD 213, SGD 214, or SGD 285  
Corequisites: None  
Component: None  
This course provides students with the opportunity to create a functional simulation or game with minimal instructor support. Emphasis is placed upon verbal and written communication, skill documentation, professional presentation and user training. Upon completion, students should be able to create and professionally present a fully functional simulation or game.  

SLP 111 Ethics and Standards for SLPA’s  
Prerequisites: Departmental Approval  
Corequisites: None  
Component: None  
This course provides an overview of the theory, practice, and philosophy of speech-language pathology assisting. Topics include legal and ethical issues, scope of practice, multiculturalism, and diversity. Upon completion, students should be able to describe characteristics of the profession and identify components of safe and ethical practice.  

SLP 112 SLP Anatomy & Physiology  
Prerequisites: Departmental approval and a set of courses is required: BIO 163 or BIO 169  
Corequisites: SLP 130 and SLP 140  
Component: None  
This course introduces the basic pathophysiology of the orofacial and thoracic structures of the human body. Emphasis is placed on the most commonly treated speech, language, and hearing disorders. Upon completion, students should be able to identify and describe basic pathophysiology related to the production of speech and hearing.  

SLP 120 SLPA Administrative Procedures and Management  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers organizational and functional skills appropriate to the speech-language pathology workplace. Emphasis is placed on scheduling, office etiquette, operation of office equipment, time management, and quality issues. Upon completion, students should be able to demonstrate correct operation of office equipment and work cooperatively and effectively within the speech-language pathology professional environment.  

SLP 130 Phonetics/Speech Patterns  
Prerequisites: Department Approval  
Corequisites: SLP 112 and SLP 140  
Component: None  
This course introduces the International Phonetic Alphabet and the categories of speech sounds, including voice, place, and manner of production. Emphasis is placed on the accurate transcription of normal and abnormal speech samples using the IPA and on the production of effective natural speech. Upon completion, students should be able to transcribe and categorize speech sounds and produce natural speech using appropriate breathing, articulation, and pronunciation.  

SLP 140 Normal Communication  
Prerequisites: Departmental Approval  
Corequisites: None  
Component: None  
This course introduces normal verbal and non-verbal communications across the life span, including appropriate social interaction with diverse populations. Topics include normal speech, language, and hearing in a multicultural society and an introduction to screening for normality and abnormality. Upon completion, students should be able to identify normal speech, language, and hearing patterns.  

SLP 211 Developmental Disorders  
Prerequisites: All courses required: SLP 111, SLP 130 and SLP 140  
Corequisites: All courses required: ASL 111, SLP 120 and SLP 212  
Component: None  
This course covers screening for speech, language, and hearing disorders; use of observational checklists; and administration of therapeutic protocols. Emphasis is placed on conditions commonly treated in speech-language pathology. Upon completion, students should be able to accurately administer screening tests and therapeutic protocols and identify characteristics of developmental speech, language, and hearing disorders.  

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
### SLP 212 Acquired Disorders
Prerequisites: SLP 111, SLP 112, SLP 130, and SLP 140
Corequisites: SLP 120 and ASL 111
Component: None
This course is a continuation of SLP 211 and includes an introduction to clinical settings. Emphasis is placed on acquiring conditions commonly treated in speech-language pathology. Upon completion, students should be able to accurately administer screening tests and therapeutic protocols and identify characteristics of acquired speech, language, and hearing disorders.

### SLP 220 Assistive Technology
Prerequisites: All courses required: SLP 111, SLP 130 and SLP 140
Corequisites: SLP 211 and SLP 212
Component: None
This course introduces the preparation, use, and maintenance of selected communication equipment in the treatment of respective disorders. Emphasis is placed on the collaborative use of assistive equipment for speech, language, and hearing disorders. Upon completion, students should be able to instruct the patient and caregiver in the use and maintenance of assistive communication equipment.

### SLP 230 SLP Fieldwork
Prerequisites: SLP 211 and SLP 212
Corequisites: SLP 231
Component: None
This course provides supervised fieldwork experience in speech-language pathology assisting in a minimum of two diverse sites. Emphasis is placed on the use of written protocols in providing patient care. Upon completion, students should be able to integrate ethical concepts into safe and effective clinical practice.

### SOC 210 Introduction to Sociology
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course introduces the scientific study of human society, culture, and social interactions. Topics include socialization, research methods, diversity and inequality, cooperation and conflict, social change, social institutions, and organizations. Upon completion, students should be able to demonstrate knowledge of sociological concepts as they apply to the interplay among individuals, groups, and societies. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

### SOC 213 Sociology of the Family
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course covers the institution of the family and other intimate relationships. Emphasis is placed on mate selection, gender roles, sexuality, communication, power and conflict, parenthood, diverse lifestyles, divorce and remarriage, and economic issues. Upon completion, students should be able to analyze the family as a social institution and the social forces which influence its development and change. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

### SOC 215 Group Processes
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces group processes and dynamics. Emphasis is placed on small group experiences, roles and relationships within groups, communication, cooperation and conflict resolution, and managing diversity within and among groups. Upon completion, students should be able to demonstrate the knowledge and skills essential to analyze group interaction and to work effectively in a group context. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

### SOC 220 Social Problems
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides an in-depth study of current social problems. Emphasis is placed on causes, consequences, and possible solutions to problems associated with families, schools, workplaces, communities, and the environment. Upon completion, students should be able to recognize, define, analyze, and propose solutions to these problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences. This course is also available through the Virtual Learning Community (VLC).

### SOC 225 Social Diversity
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides a comparison of diverse roles, interests, opportunities, contributions, and experiences in social life. Topics include race, ethnicity, gender, sexual orientation, class, and religion. Upon completion, students should be able to analyze how cultural and ethnic differences evolve and how they affect personality development, values, and tolerance. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

### SOC 230 Race and Ethnic Relations
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course includes an examination of the various aspects of race and ethnicity and how these lead to different experiences, opportunities, problems, and contributions. Topics include prejudice, discrimination, perceptions, myths, stereotypes, and intergroup relationships. Upon completion, students should be able to identify and analyze relationships among racial and ethnic groups within the larger society. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

### SOC 232 Social Context of Aging
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides an overview of the social implications of the aging process. Emphasis is placed on the roles of older adults within families, work and economics, politics, religion, education, and health care. Upon completion, students should be able to identify and analyze changing perceptions, diverse lifestyles, and social and cultural realities of older adults. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academic_services/index.aspx](http://www.faytechcc.edu/academic_services/index.aspx).
### SOC 234 Sociology of Gender
- **Prerequisites:** Take DRE-098 or ENG-090 and RED-090 or Placement Test
- **Credit Equivalent:**
- **Corequisites:** None
- **Component:** None

This course examines contemporary roles in society with special emphasis on recent changes. Topics include sex role socialization, myths and stereotypes, gender issues related to family, work, and power. Upon completion, students should be able to analyze modern relationships between men and women. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

### SOC 240 Social Psychology
- **Prerequisites:** Take DRE-098 or ENG-090 and RED-090 or Placement Test
- **Credit Equivalent:**
- **Corequisites:** None
- **Component:** None

This course examines the influence of culture and social groups on individual behavior and personality. Emphasis is placed on the process of socialization, communication, conformity, deviance, interpersonal attraction, intimacy, race and ethnicity, small group experiences, and social movements. Upon completion, students should be able to identify and analyze cultural and social forces that influence the individual in a society. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

### SOC 242 Sociology of Deviance
- **Prerequisites:** Take DRE-098 or ENG-090 and RED-090 or Placement Test
- **Credit Equivalent:**
- **Corequisites:** None
- **Component:** None

This course provides an overview of deviant behavior and the processes involved in its definition, causation, prevention, control, and treatment. Topics include theories of causation, social control, delinquency, victimization, criminality, the criminal justice system, punishment, rehabilitation, and restitution. Upon completion, students should be able to identify and analyze issues surrounding the nature and development of social responses to deviance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement.

### SOC 244 Sociology of Death & Dying
- **Prerequisites:** Take DRE-098 or ENG-090 and RED-090 or Placement Test
- **Credit Equivalent:**
- **Corequisites:** None
- **Component:** None

This course presents sociological perspectives on death and dying. Emphasis is placed on analyzing the different death rates among various groups, races, and societies, as well as various types of death. Upon completion, students should be able to discuss the rituals of death, both cultural and religious, and examine current issues relating to death and dying. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

### SOC 250 Sociology of Religion
- **Prerequisites:** Take DRE-098 or ENG-090 and RED-090 or Placement Test
- **Credit Equivalent:**
- **Corequisites:** None
- **Component:** None

This course examines religion from a sociological perspective as part and product of human society. Topics include the origins, development, and functions of belief systems; religious organizations; conversion; and interactions with politics, the economy, science, and the class system. Upon completion, students should be able to describe and analyze religious systems. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

### SOC 252 Sociology of Work
- **Prerequisites:** Take DRE-098 or ENG-090 and RED-090 or Placement Test
- **Credit Equivalent:**
- **Corequisites:** None
- **Component:** None

This course provides an understanding of the work experience in terms of rewards, satisfaction, exploitation, alienation, and institutional function and structure. Topics include an examination of industrial, professional, office, and executive work settings in relation to technology, management, and career opportunities. Upon completion, students should be able to understand work in its changing roles, institutions, and economic impact. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

### SPA 111 Elementary Spanish I
- **Prerequisites:** None
- **Corequisites:** None
- **Component:** None

This course introduces the fundamental elements of the Spanish language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Spanish and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

### SPA 112 Elementary Spanish II
- **Prerequisites:** SPA 111
- **Corequisites:** None
- **Component:** None

This course introduces the fundamental elements of the Spanish language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Spanish and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

### SPA 120 Spanish for the Workplace
- **Prerequisites:** None
- **Corequisites:** None
- **Component:** None

This course offers applied Spanish for the workplace to facilitate basic communication with people whose native language is Spanish. Emphasis is placed on oral communication and career-specific vocabulary that targets health, business, and/or public service professions. Upon completion, students should be able to communicate at a functional level with native speakers and demonstrate cultural sensitivity.

### SPA 141 Culture and Civilization
- **Prerequisites:** None
- **Corequisites:** None
- **Component:** None

This course provides an opportunity to explore issues related to the Hispanic world. Topics include historical and current events, geography, and customs. Upon completion, students should be able to identify and discuss selected topics and cultural differences related to the Hispanic world. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

---

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academic_services/index.aspx](http://www.faytechcc.edu/academic_services/index.aspx).
Corequisites: None
Prerequisites: None
SPA 161 Cultural Immersion
Prerequisites: SPA 111
Component: None
This course explores Hispanic culture through intensive study on campus and field experience in a host country or comparable area within the United States. Topics include an overview of linguistic, historical, geographical, sociopolitical, economic, and/or artistic concerns of the area visited. Upon completion, students should be able to exhibit first-hand knowledge of issues pertinent to the host area and demonstrate understanding of cultural differences. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

SPA 181 Spanish Lab 1
Prerequisites: SPA 111
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the Spanish language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning materials and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Spanish and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

SPA 182 Spanish Lab 2
Prerequisites: SPA 181
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the Spanish language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Spanish and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

SPA 211 Intermediate Spanish I
Prerequisites: SPA 112
Component: None
This course provides a review and expansion of the essential skills of the Spanish language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

SPA 212 Intermediate Spanish II
Prerequisites: SPA 211
Component: None
This course provides a continuation of SPA 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

SPA 215 Spanish Phonetics/Structu
Prerequisites: None
Component: None
This course is designed to improve the understanding of Spanish phonetics and the structure of the Spanish language. Topics include the structure of the Spanish language, phonology, morphology, and syntax. Upon completion, students should have an understanding of the phonetics and structure of the Spanish language and be able to contrast the structure of the Spanish and English languages.

SPA 221 Spanish Conversation
Prerequisites: SPA 212
Component: None
This course provides an opportunity for intensive communication in spoken Spanish. Emphasis is placed on vocabulary acquisition and interactive communication through the use of media materials and authentic texts. Upon completion, students should be able to discuss selected topics, express ideas and opinions clearly, and engage in formal and informal conversations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

SPA 231 Reading and Composition
Prerequisites: SPA 212
Component: None
This course provides an opportunity for intensive reading and composition in Spanish. Emphasis is placed on the study of literary and cultural materials to enhance and expand reading and writing skills. Upon completion, students should be able to demonstrate in writing an in-depth understanding of assigned readings. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

SPA 281 Spanish Lab 3
Prerequisites: SPA 182
Component: None
This course provides an opportunity to enhance the review and expansion of the essential skills of the Spanish language. Emphasis is placed on the study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

SPA 282 Spanish Lab 4
Prerequisites: SPA 281
Component: None
This course provides an opportunity to enhance the review and expansion of the essential skills of the Spanish language. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

SRV 110 Surveying I
Prerequisites: None
Component: None
This course introduces the theory and practice of plane surveying. Topics include the precise measurement of distances, angles, and elevations; bearing, azimuth and traverse computations; topography and mapping. Upon completion, students should be able to use/equipment, collect field survey data, perform traverse computations and create a contour map.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course introduces route surveying and roadway planning and layout. Topics include simple, compound, reverse, spiral, and vertical curves; geometric design and layout; planning of cross-section and grade line; drainage; earthwork calculations; and mass diagrams. Upon completion, students should be able to calculate and lay out highway curves; prepare roadway plans, profiles, and sections; and perform slope staking.

SRV 210 Surveying III
Prerequisites: SRV 110
Corequisites: None
Component: None
This course introduces boundary surveying, land partitioning, and calculations of areas. Topics include advanced traverses and adjustments, preparation of survey documents, and other related topics. Upon completion, students should be able to research, survey, and map a boundary.

SRV 220 Surveying Law
Prerequisites: SRV 110
Corequisites: None
Component: None
This course introduces the law as related to the practice of surveying. Topics include surveyors’ responsibilities, deed descriptions, title searches, eminent domain, easements, weight of evidence, riparian rights, and other related topics. Upon completion, students should be able to identify and apply the basic legal aspects associated with the practice of land surveying.

SRV 230 Subdivision Planning
Prerequisites: All courses required: CIV 211, SRV 111 and SRV 210
Corequisites: None
Component: None
This course covers the planning aspects of residential subdivisions from analysis of owner and municipal requirements to plat layout and design. Topics include municipal codes, lot sizing, roads, incidental drainage, esthetic considerations, and other related topics. Upon completion, students should be able to prepare a set of subdivision plans.

SRV 240 Topo/Site Surveying
Prerequisites: SRV 110
Corequisites: None
Component: None
This course covers topographic, site, and construction surveying. Topics include topographic mapping, earthwork, site planning, construction staking, and other related topics. Upon completion, students should be able to prepare topographic maps and site plans and locate and start out construction projects.

SST 110 Intro to Sustainability
Prerequisites: None
Corequisites: None
Component: None
This course introduces sustainability issues and individual contributions toward environmental sustainability. Topics include management processes needed to maximize renewable/non-renewable energy resources, economics of sustainability, and reduction of environmental impacts. Upon completion, students should be able to discuss sustainability practices and demonstrate an understanding of their effectiveness and impacts.

SST 140 Green Building Concepts
Prerequisites: None
Corequisites: None
Component: None
This course is designed to introduce the student to sustainable building design and construction principles and practices. Topics include sustainable building rating systems and certifications, energy efficiency, indoor environmental quality, sustainable building materials and water use. Upon completion, students should be able to identify the principles and practices of sustainable building design and construction.

STP 101 Intro Sterile Processing
Prerequisites: None
Corequisites: STP 102 and STP 103
Component: None
This course is designed to introduce the primary responsibilities of a central sterile technician. Emphasis is placed on preparation, storage, and distribution of instruments, supplies and equipment, quality assurance, and inventory management. Upon completion, students should be able to demonstrate competence in sterile processing techniques.

STP 102 STP Clinical Practice
Prerequisites: None
Corequisites: STP 101 and STP 103
Component: None
This course provides supervised experience in sterile processing techniques in a clinical facility. Emphasis is placed on preparation, storage, and distribution of instruments, supplies and equipment, quality assurance, and inventory management. Upon completion, students should be able to demonstrate competence in sterile processing techniques.

STP 103 Prof Success Prep
Prerequisites: None
Corequisites: STP 101 and STP 102
Component: None
This course provides job-seeking skills and an overview of theoretical knowledge in preparation for certification. Topics include test taking strategies, résumé preparation, and interviewing techniques. Upon completion, students should be able to prepare a résumé, demonstrate appropriate interview techniques, and identify strengths and weaknesses in preparation for certification. This is a diploma-level course.

SUR 110 Introduction to Surgical Technology
Prerequisites: Departmental Approval
Corequisites: SUR 111
Component: None
This course provides a comprehensive study of the operative environment, professional roles, moral/legal/ethical responsibilities, and medical communications used in surgical technology. Topics include: professional behaviors, medical terminology, interdepartmental/peer/relationships, operating room environment/safety, pharmacology, anesthesia, incision sites, physiology of wound healing, and biomedical sciences. Upon completion, students should be able to apply theoretical knowledge of the course topics to the operative environment.

SUR 111 Periop Patient Care
Prerequisites: Department Approval
Corequisites: SUR 110
Component: None
This course provides theoretical knowledge for the application of essential operative skills during the perioperative phase. Topics include surgical asepsis, sterilization/disinfection, and perioperative patient care. Upon completion, students should be able to demonstrate the principles and practices of aseptic technique, sterile attire, basic case preparation, and other relevant skills.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course provides an introduction to selected basic and intermediate surgical specialties that students are exposed to in the first clinical rotation. Emphasis is placed on related surgical anatomy, pathology, and procedures that enhance theoretical knowledge of patient care, instrumentation, supplies, and equipment. Upon completion, students should be able to correlate, integrate, and apply theoretical knowledge of the course topics to the clinical operative environment.

SUR 123 SUR Clinical Practice I 00 00 21 07
Prerequisites: All courses required: SUR 110, SUR 111
Corequisites: SUR 122
Component: None
This course provides clinical experience with a variety of perioperative assignments to build upon skills learned in SUR 111. Emphasis is placed on the scrub and circulating roles of the surgical technologist including aseptic technique and basic case preparation for selected surgical procedures. Upon completion, students should be able to prepare, assist with, and dismantle basic surgical cases in both the scrub and circulating roles.

SUR 134 Surgical Procedures II 05 00 00 05
Prerequisites: SUR 123 or STP 101
Corequisites: None
Component: None
This course provides a comprehensive study of intermediate and advanced surgical specialties that students are exposed to in the second clinical rotation. Emphasis is placed on related surgical anatomy, pathology, and procedures that enhance theoretical knowledge of patient care, instrumentation, supplies, and equipment. Upon completion, students should be able to correlate, integrate, and apply theoretical knowledge of the course topics to the clinical operative environment.

SUR 135 SUR Clinical Practice II 00 00 12 04
Prerequisites: SUR 123
Corequisites: SUR 134
Component: None
This course provides clinical experience with a variety of perioperative assignments to build skills required for complex perioperative patient care. Emphasis is placed on greater technical skills, critical thinking, speed, efficiency, and autonomy in the operative setting. Upon completion, students should be able to function in the role of an entry-level surgical technologist.

SUR 137 Prof Success Preparation 01 00 00 01
Prerequisites: SUR 123
Corequisites: SUR 134 and SUR 135
Component: None
This course provides job-seeking skills and an overview of theoretical knowledge in preparation for certification. Topics include test-taking strategies, resume preparation, and interviewing techniques. Upon completion, students should be able to prepare a resume, demonstrate appropriate interview techniques, and identify strengths and weaknesses in preparation for certification.

SUR 210 Advanced SUR Clinical Practice 00 00 06 02
Prerequisites: Departmental Approval
Corequisites: Component: None
This course is designed to provide individualized experience in advanced practice, education, circulating, and managerial skills. Emphasis is placed on developing and demonstrating proficiency in skills necessary for advanced practice. Upon completion, students should be able to assume leadership roles in a chosen specialty area.

SUR 211 Advanced Theoretical Concepts 02 00 00 02
Prerequisites: Departmental Approval
Corequisites: Component: None
This course covers theoretical knowledge required for extension of the surgical technologist role. Emphasis is placed on advanced practice in complex surgical specialties, educational methodologies, and managerial skills. Upon completion, students should be able to assume leadership roles in a chosen specialty area.

TRF 110 Intro Turfgrass Cult & ID 03 02 00 04
Prerequisites: None
Corequisites: None
Component: None
This course provides an in-depth study of turfgrass. Topics include principles of reproduction, growth development, species characteristics, establishment and maintenance of golf courses and sports fields, and lawn applications. Upon completion, students should be able to identify turfgrass species through characteristics and reproductive stages and develop an establishment and maintenance plan for high quality turf areas.

TRN 110 Intro to Transport Tech 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course covers workplace safety, hazardous materials, environmental regulations, hand tools, service information, basic concepts, vehicle systems, and common transportation industry terminology. Topics include familiarization with major vehicle systems, proper use of various hand and power tools, material safety data sheets, and personal protective equipment. Upon completion, students should be able to demonstrate appropriate safety procedures, identify and use basic shop tools, and describe government regulations regarding transportation repair facilities.

TRN 120 Basic Transp Electricity 04 03 00 05
Prerequisites: Take DRE 097 or ENG 080 and RED 080
Corequisites: None
Component: None
This course covers basic electrical theory, wiring diagrams, test equipment, and diagnosis, repair and replacement of batteries, starters, and alternators. Topics include Ohm’s Law, circuit construction, wiring diagrams, circuit testing, and basic troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair basic wiring, battery, starting, charging, and electrical concerns.

TRN 140 Transp Climate Control 01 02 00 02
Prerequisites: Take DRE 097 or ENG 080 and RED 080
Corequisites: None
Component: None
This course covers the theory of refrigeration and heating, electrical/electronics, pneumatic controls, and diagnosis and repair of climate control systems. Topics include diagnosis and repair of climate control components and systems, recovery/recycling of refrigerants, and safety and environmental regulations. Upon completion, students should be able to diagnose and repair vehicle climate control systems.

TRN 140A Transp Climate Cont Lab 01 02 00 02
Prerequisites: None
Corequisites: TRN 140
Component: None
This course provides experiences for enhancing student skills in the diagnosis and repair of transportation climate control systems. Emphasis is placed on reclaiming, recovery, recharging, leak detection, climate control components, diagnosis, air conditioning equipment, tools and safety. Upon completion, students should be able to describe the operation, diagnose, and safely service climate control systems using appropriate tools, equipment, and service information.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.

Refer to the FTCC website for the most current information. Go to www.faytecccc.edu/academic_services/index.aspx.
**WEB 110 Internet/Web Fundamentals** | HRS | HRS | HRS | HRS
--- | --- | --- | --- | ---
Prerequisites: | 02 | 02 | 00 | 03
Corequisites: | None | None | None | None
Component: | None | None | None | None
This course introduces World Wide Web Consortium (W3C) standard markup language and services of the Internet. Topics include creating web pages, search engines, FTP, and other related topics. Upon completion, students should be able to deploy a hand-coded website created with mark-up language, and effectively use and understand the function of search engines. This course is also available through the Virtual Learning Community (VLC).

**WEB 111 Intro to Web Graphics** | HRS | HRS | HRS | HRS
--- | --- | --- | --- | ---
Prerequisites: | 02 | 02 | 00 | 03
Corequisites: | None | None | None | None
Component: | None | None | None | None
This course is the first of two courses covering the creation of web graphics, addressing problems peculiar to WWW display using appropriate software. Topics include web graphics file types, type conversion, RGB color, the browser-safe palette, elementary special effects, image maps, and other related topics. Upon completion, students should be able to create graphics such as banners, buttons, backgrounds, and other graphics for Web pages.

**WEB 115 Web Markup and Scripting** | HRS | HRS | HRS | HRS
--- | --- | --- | --- | ---
Prerequisites: | 02 | 02 | 00 | 03
Corequisites: | None | None | None | None
Component: | None | None | None | None
This course introduces Worldwide Web Consortium (W3C) standard client-side Internet programming using industry-established practices. Topics include JavaScript, markup elements, stylesheets, validation, accessibility, standards, and browsers. Upon completion, students should be able to develop hand-coded web pages using current markup standards. This course is also available through the Virtual Learning Community (VLC).

**WEB 120 Intro Internet Multimedia** | HRS | HRS | HRS | HRS
--- | --- | --- | --- | ---
Prerequisites: | 02 | 02 | 00 | 03
Corequisites: | None | None | None | None
Component: | None | None | None | None
This is the first of two courses covering the creation of Internet Multimedia. Topics include Internet multimedia file types, file type conversion, acquisition of digital audio/video, streaming audio/video and graphics animation plug-in programs and other related topics. Upon completion, students should be able to create Internet multimedia presentations utilizing a variety of methods and applications.

**WEB 125 Mobile Web Design** | HRS | HRS | HRS | HRS
--- | --- | --- | --- | ---
Prerequisites: | WEB 110 | None | None | None
Component: | None | None | None | None
This course introduces students to web design for mobile devices. Topics include planning an effective mobile Web site, industry standard Mobile Markup Language, CSS3, multimedia, m-commerce, social media, testing and publishing. Upon completion, students should be able to plan, develop, test, and publish Web content designed for mobile devices.

**WEB 140 Web Development Tools** | HRS | HRS | HRS | HRS
--- | --- | --- | --- | ---
Prerequisites: | WEB-120 | None | None | None
Component: | None | None | None | None
This course provides an introduction to web development software suites. Topics include the creation of web sites and applets using web development software. Upon completion, students should be able to create entire web sites and supporting applets.

**WEB 151 Mobile Application Dev I** | HRS | HRS | HRS | HRS
--- | --- | --- | --- | ---
Prerequisites: | CIS 115 | None | None | None
Component: | None | None | None | None
This course introduces students to programming technologies, design and development related to mobile applications. Topics include accessing device capabilities, industry standards, operating systems, and programming for mobile applications using an OS Software Development Kit (SDK). Upon completion, students should be able to create basic applications for mobile devices.

**WEB 180 Active Server Pages** | HRS | HRS | HRS | HRS
--- | --- | --- | --- | ---
Prerequisites: | CIS 115 and WEB 120 | None | None | None
Component: | None | None | None | None
This course introduces active server programming. Topics include HTML forms processing and other issues related to developing active web applications. Upon completion, students should be able to create and maintain a dynamic website.

**WEB 182 PHP Programming** | HRS | HRS | HRS | HRS
--- | --- | --- | --- | ---
Prerequisites: | CIS 115 and WEB 120 | None | None | None
Component: | None | None | None | None
This course introduces students to the server-side, HTML-embedded scripting language PHP. Emphasis is placed on programming techniques required to create dynamic web pages using PHP scripting language features. Upon completion, students should be able to design, code, test, debug, and create a dynamic web site using the PHP scripting language.

**WEB 183 Perl Programming** | HRS | HRS | HRS | HRS
--- | --- | --- | --- | ---
Prerequisites: | CIS 115 | None | None | None
Component: | None | None | None | None
This course introduces students to the Perl Programming language. Topics include programming techniques using CGI script, input/output operations, sequence, iteration, selection, arithmetic operations, subroutines, modules, integrating database, pattern matching and other related topics. Upon completion, students should be able to design, code, test, and debug Perl language programs.

**WEB 191S Selected Topics in Web Tech.** | HRS | HRS | HRS | HRS
--- | --- | --- | --- | ---
Prerequisites: | None | None | None | None
Component: | None | None | None | None
This course provides an opportunity to explore areas of current interest in specific program or discipline areas. Emphasis is placed on subject matter appropriate to the program or discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
WEB 210 Web Design
Prerequisites: WEB-110
Component: None
This course introduces intermediate to advanced web design techniques. Topics include customer expectations, advanced markup language, multimedia technologies, usability and accessibility practices, and techniques for the evaluation of web design. Upon completion, students should be able to employ advanced design techniques to create high impact and highly functional web sites. This course is also available through the Virtual Learning Community (VLC).

WEB 214 Social Media
Prerequisites: None
Component: None
This course introduces students to social media for organizations. Topics include social media, marketing strategy, brand presence, blogging, social media analytics and technical writing. Upon completion, students should be able to utilize popular social media platforms as part of a marketing strategy, and work with social media analytics tools.

WEB 220 Advanced Multimedia
Prerequisites: WEB 120 and WEB 140
Component: None
This is the second of two courses covering Internet multimedia. Topics include use of advanced Internet multimedia applications. Upon completion, students should be able to create interactive Internet multimedia presentations.

WEB 223 Implementing Web Serv
Prerequisites: NET 110 or NET 125
Component: None
This course covers website and web server architecture. Topics include installation, configuration, administration, and security of web servers, services and sites. Upon completion, students should be able to effectively manage the web services deployment lifecycle according to industry standards.

WEB 240 Internet Security
Prerequisites: WEB 110 and SEC 110 and CIS 110 or CIS 111
Component: None
This course covers security issues related to Internet services. Topics include the operating system and the Internet service security mechanisms. Upon completion, students should be able to implement security procedures for operating system level and server level alerts.

WEB 250 Database Driven Websites
Prerequisites: DBA 110
Component: None
This course introduces dynamic (database-driven) website development. Topics include the use of basic database CRUD statements (create, read, update and delete) incorporated into web applications, as well as in software architecture principles. Upon completion, students should be able to design and develop database driven web applications according to industry standards.

WEB 251 Mobile Application Dev II
Prerequisites: WEB 151
Component: None
This course covers advanced applications and custom programming to develop applications for mobile devices. Topics include device capabilities, OS specific Software Development Kits (SDK), scripting for functionality and designing interactivity. Upon completion, students should be able to demonstrate effective programming techniques to develop advanced mobile applications.

WEB 285 Emerging Web Technologies
Prerequisites: WEB 125
Component: None
This course will explore, discuss, and research emerging technologies in the web arena. Emphasis is placed on exposure to up-and-coming technologies relating to the web, providing hands-on experience, and discussion of practical implications of these emerging fields. Upon completion, students should be able to articulate issues relating to these technologies.
WLD 131 GTAW (TIG) Plate  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the gas tungsten arc (TIG) welding process. Topics include correct selection of tungsten, polarity, gas, and proper filler rod with emphasis placed on safety, equipment setup, and welding techniques. Upon completion, students should be able to perform GTAW fillet and groove welds with various electrodes and filler materials.

WLD 132 GTAW (TIG) Plate/Pipe  
Prerequisites: WLD 131  
Corequisites: None  
Component: None  
This course is designed to enhance skills with the gas tungsten arc (TIG) welding process. Topics include setup, joint preparation, and electrode selection with emphasis on manipulative skills in all welding positions on plate and pipe. Upon completion, students should be able to perform GTAW welds with prescribed electrodes and filler materials on various joint geometry.

WLD 141 Symbols & Specifications  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the basic symbols and specifications used in welding. Emphasis is placed on interpretation of lines, notes, welding symbols, and specifications. Upon completion, students should be able to read and interpret symbols and specifications commonly used in welding.

WLD 143 Welding Metallurgy  
Prerequisites: None  
Corequisites: WLD 115  
Component: None  
This course introduces the concepts of welding metallurgy. Emphasis is placed on basic metallurgy, effects of welding on various metals, and metal classification and identification. Upon completion, students should be able to understand basic metallurgy, materials designation, and classification systems used in welding.

WLD 151 Fabrication I  
Prerequisites: WLD 115, WLD 121, & WLD 131  
Corequisites: None  
Component: None  
This course introduces the basic principles of fabrication. Emphasis is placed on safety, measurement, layout techniques, cutting, joining techniques, and the use of fabrication tools and equipment. Upon completion, students should be able to perform layout activities and operate various fabrication and material handling equipment.

WLD 261 Certification Practices  
Prerequisites: All courses required: WLD 115, WLD 121 and WLD 131  
Corequisites: None  
Component: None  
This course covers certification requirements for industrial welding processes. Topics include techniques and certification requirements for prequalified joint geometry. Upon completion, students should be able to perform welds on carbon steel plate and/or pipe according to applicable codes.

WLD 262 Inspection & Testing  
Prerequisites: All courses required: WLD 115, WLD 121 and WLD 131  
Corequisites: WLD 261  
Component: None  
This course introduces destructive and non-destructive testing methods. Emphasis is placed on safety, types and methods of testing, and the use of testing equipment and materials. Upon completion, students should be able to understand and/or perform a variety of destructive and non-destructive testing processes.
